Donald Sackman, AIA

Donald Sackman has been in the private practice of architecture for over 35 years. As managing principal for Baldwin Sackman + Associates, he spearheaded the firms growth in South Florida, celebrating 20 years in this industry. He also served as principal-in-charge and director of design for Sackman² Architects + Planners for over 10 years. As an award-winning architect, he has received over 35 awards for excellence in design, recognition of his firm and in recognition of his lifetime body of work.

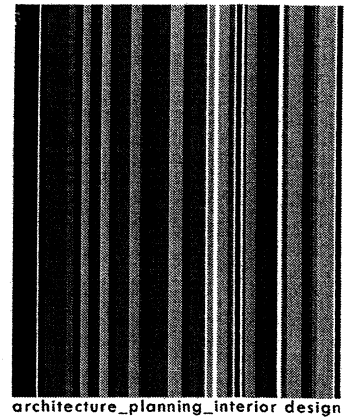

Mr. Sackman's architectural practice has been responsible for the design and implementation of commercial office building projects, master planning, commercial interiors & space planning, industrial, mixed-use business parks, large and small scale multi-family residential projects, commercial shopping centers, parking structures and a myriad of specialty design projects. In those years Mr. Sackman has had both large and small offices and is well accustomed to the intricacies and attention to detail those responsibilities require.

In 2002, Mr. Sackman scaled back his private practice, Sackman² Architects + Planners and has since served as personal representative for a large capital fund and private development group in Coral Gables. As the owner's representative he served in the following capacity: corporate architect and interior designer; land planner and zoning consultant; personal representative; director of property management, sales and leasing; contract negotiator; construction director.

Mr. Sackman has also served as a member of the City of Coral Gables Board of Adjustment and currently serves on the Board of Architects (Architectural Review Board of the City of Coral Gables). Mr. Sackman is licensed to practice architecture and interior design in the State of Florida; and also holds his NCARB license.
