Dear Board of Architects,

I am writing on behalf of maintaining the Garden of Our Lord in its current location. It is my understanding there is a proposal to trade a City owned parking lot on Almeria and the corner of Galiano for the Garden.

This is a practical solution that supports maintaining this valuable green space in the North Gables especially given its 75 year history.

I ask the Board to reject the proposed plans by Century as they are currently being presented. This proposal to trade land needs to be given appropriate consideration. As a property owner in this neighborhood, Century's plan fails to take into account context, density and compatibility.

Sincerely,

Joseph Fadel
