

City of Coral Gables
CITY COMMISSION MEETING
FEBRUARY 14, 2017

ITEM TITLE:

RESOLUTION APPROVING AN AGREEMENT BETWEEN THE CITY OF CORAL GABLES AND IN-TELLIGENT, LLC FOR THE PROVISION OF ITS INTELLIGENT APPLICATION PLATFORM, SUBJECT TO THE PROCUREMENT CODE, FOR THE PURPOSE OF TRANSMITTING EMERGENCY ALERTS TO THE COMMUNITY AT NO COST TO THE CITY; AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH IN-TELLIGENT, LLC IN FURTHERANCE HEREOF; PROVIDING FOR IMPLEMENTATION; AND PROVIDING FOR AN EFFECTIVE DATE.

DEPARTMENT HEAD RECOMMENDATION:

Approval.

BRIEF HISTORY:

In-telligent, LLC, provides a mobile app platform for Android and Apple iOS smart devices that allows the City to create and administer public safety community networks. Subscribers of these community networks receive important public safety information bulletins delivered in real-time to their smart devices by means of a proprietary push notification and alert system. Users may become subscribers manually by searching and requesting permanent access to our managed communities or by transient, automatic memberships as their devices enter and exit our city boundaries. The app service is offered to the City at no-cost and is free to the public.

This tool enhances the City's capabilities to deliver critical public safety emergency notifications to a complex, broad, Coral Gables user base. The City's public safety infrastructure maintains control over the identity and content posted to our managed communities.

The Information Technology Department and Coral Gables Police Department seek authorization to implement advanced public safety notification services for its residents and visitors within the In-telligent mobile app platform.

APPROVED BY:

Department Director	City Attorney	Asst. City Manager	City Manager
