Re: Application for a Carport / Breezeway addition

To whom it may concern:

This proposed Carport / Breezeway addition to an existing historical two-story residence is beautifully located in the picturesque City of Coral Gables "Country Club Section". Ana Perna from Historical has met with me on site and has no objection with this breezeway addition in the same style architecture of the existing residence.

Additionally, the Board of Architects had no comments regarding the design.

We appreciate your time and consideration in this matter.  
Thank you very much.

Sincerely,
