We, the undersigned residents of the City of Coral Gables, hereby express our support of the pending application for a conditional use approval for a lot separation, which will result in two new single family homes at 728 Navarre Avenue. The application proposes Mediterranean style homes, which we believe will be an aesthetic enhancement to the area and in keeping with the existing scale of the neighborhood. We believe the two new single family homes are appropriate for the area and will make a welcomed addition to our neighborhood.
