City of Coral Gables
Planning and Zoning Staff Report

Property:	**Gulliver Academy (12595 Red Road)**
Applicant:	Gulliver Schools, Inc.
Application:	Modification to Conditions of Site Plan Approval
Public Hearing:	Planning and Zoning Board
Date & Time:	**July 10, 2019; 6:00 – 9:00 p.m.**
Location:	City Commission Chambers, City Hall, 405 Biltmore Way, Coral Gables, Florida 33134

1. APPLICATION REQUEST

An application has been submitted by Gulliver Schools, Inc. seeking the ability to increase Gulliver School's maximum enrollment from 1,162 to 1,260 students at its academy campus located at 12595 Red Road, Coral Gables. This request is a major amendment to the Site Plan which was previously approved by Ordinance No. 2011-06.

As stated on Ordinance No. 2011-06, an increase in maximum student enrollment shall be considered major amendment and subject to review and consideration at public hearings. Major amendment to Development Plan is subject to review and recommendation by the Planning and Zoning Board at one (1) public hearing, and 1st and 2nd Reading before the City Commission. The Ordinance under consideration is as follows:

> *An Ordinance of the City Commission of Coral Gables, Florida, Amending Section 2 of Ordinance No. 2011-06 to increase the Maximum Student Enrollment from 1,162 to 1,260 students for Gulliver Academy located at 12595 Red Road, Coral Gables, Florida; all other conditions of approval contained in Ordinance No. 2011-06 shall remain in effect; and providing an effective date. (LEGAL DESCRIPTION ON FILE)*

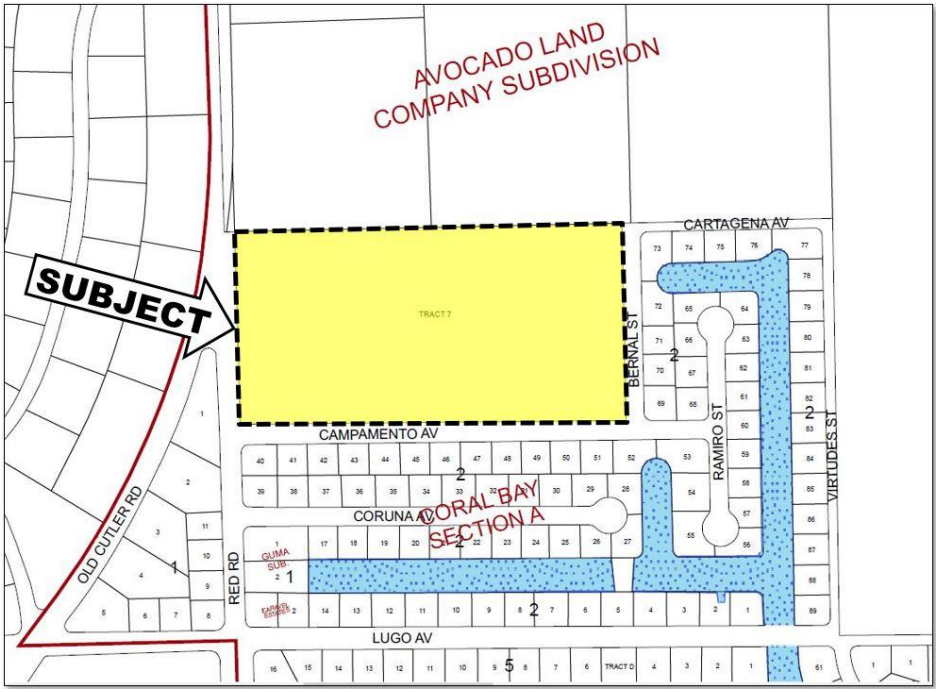
2. BACKGROUND

Gulliver Academy is located on Red Road, east of Old Cutler Road between the Montgomery Foundation property (north) and Gables-By-The-Sea residential neighborhood (south and east). Gulliver Academy is a grade school with students in pre-kindergarten through eighth grade. The school is currently operating with an existing enrollment of only 1,137 students but was previously approved for a maximum enrollment of 1,162 students, a condition originally imposed when the Campus Master Plan was approved in 1998 by Ordinance No. 3341 (see Attachment B).

Maximum enrollment allowed	1,162
Existing enrollment	1,137
Request	1,260 (an increase of 98 students from the maximum allowed)

At this time, Gulliver Schools is requesting to increase its maximum enrollment from 1,162 to 1,260 students at its campus located at 12595 Red Road, Coral Gables. Gulliver intends to close its Montgomery campus located in Pinecrest and integrate those students into its academy campus in Coral Gables. No exterior building additions or modifications are requested to existing structures.

The property is located on Tract No. 7, Avocado Land Company Subdivision (12595 Red Road), Coral Gables, Florida, and is shown on the following location map and aerial:



Property Designations and Surrounding Uses

The following tables provide the subject property's designations and surrounding land uses:

Existing Property Designations

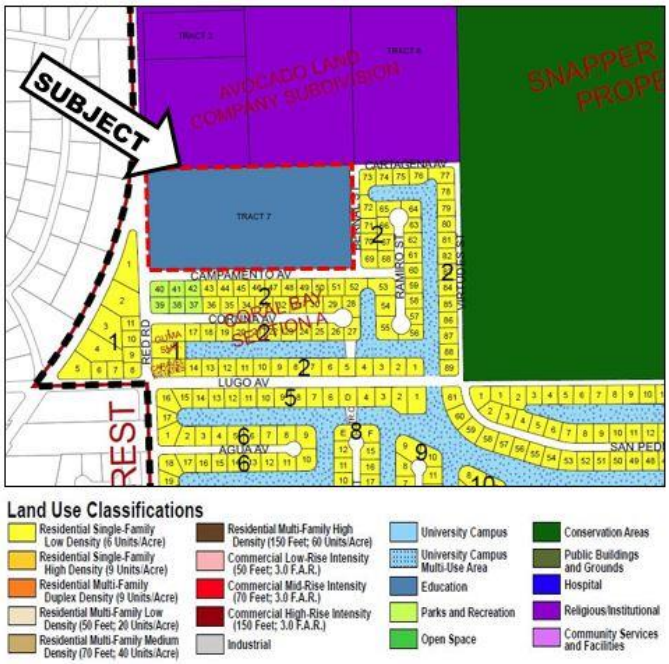
Comprehensive Plan Future Land Use Map designation	Educational Use
Zoning Map designation	Special Use District (S)

Surrounding Land Uses

Location	Existing Land Uses	CP Designations	Zoning Designations
North	Montgomery Botanical Center	Religious/Institutional	Special Use District (S)
South	Single-Family Residences and City Park	Single-Family Low Density; Parks and Recreational Use	Single Family Residential (SFR); Special Use District (S)
East	Single-Family Residences	Single-Family Low Density	Single-Family Residential (SFR)
West	Single-Family Residences and Village of Pinecrest	Single-Family Low Density	Single-Family Residential (SFR)

The subject property currently has the existing land use and zoning designations, as illustrated in the following maps:

Existing Future Land Use Map



Existing Zoning Map

City Review Timeline

The submitted application has undergone the following City reviews:

Type of Review	Date
Development Review Committee	N/A
Board of Architects	N/A
Planning and Zoning Board	07.10.19
City Commission	TBD

Chronology of Previous City Approvals

The following is a chronology of previous City legislation leading to the current application:

1. Ordinance No. 1546 (adopted 06.14.66) - Change of zoning from "R", residential to "XR", Residential to permit the construction and operation of a private grade school.
2. Resolution No. 20973 (adopted 12.16.75) – Authorizing City Attorney to enter into a stipulated agreement for an order of dismissal and dissolution of injunction in the lawsuit of Gulliver Academy, Inc. v. City of Coral Gables.
3. Ordinance No. 3016 (adopted 12.08.92) - Change of zoning from "XR", Residential to "S", Special Use to correct existing inconsistent zoning designation.
4. Ordinance No. 3263 (adopted 07.08.97) - Approval of addition to existing library, conditioned on submittal of a Campus Master Plan prior to consideration of any future applications.
5. Ordinance No. 3341 (adopted 09.23.98) - Approval of Campus Master Plan for Gulliver Academy.
6. Ordinance No. 2011-06 (adopted 03.22.11) – Approval of the Planned Area Development (PAD) assignment; Site Plan amendment which allows for new classrooms, pavilion building, gymnasium, baseball field house, natatorium and other miscellaneous improvements; and Zoning Code Text Amendment to Site Specific Zoning Regulations.
7. Administrative Review (approved 11.08.18) – minor amendment which does not substantially alter the concept of the PAD.

3. PROPOSED AMENDMENT

Section 2 of Ordinance No. 2011-06 is hereby amended to read as follows:

SECTION 2. That the City Commission does hereby authorize the City Manager to grant the application of Gulliver Academy located on Tract No. 7, Avocado Land Company subdivision 12505 Red Road, Coral Gables, Florida providing for the following:

***

4. School use and operations.

***

b. Student mix and population.

***

2.) Maximum student enrollment. Maximum student capacity shall remain at ~~1,162~~ 1,260 students.

***

4. FINDINGS OF FACT

This section of the report presents City Staff's evaluation of the Application and Findings of Facts. The City's responsibility is to review the Application for consistency with the City's Comprehensive Plan (CP) Goals, Objectives and Policies and compliance with the Zoning Code and City Code.

Amendments to the Development Plan

As specified in the Zoning Code, Section 3-507, major amendments to the Development Plan shall be subject to review and approval process set forth in Section 3-506 in which findings shall include, but not be limited to the following:

1. *In what respects the proposed plan is or is not consistent with the stated purpose and intent of the Planned Area Development regulations.*
2. *The extent to which the proposed plan departs from the zoning and subdivision regulations otherwise applicable to the subject property, including but not limited to density, size, area, bulk and use, and the reasons why such departures are or are not deemed to be in the public interest.*
3. *The extent to which the proposed plan meets the requirements and standards of the Planned Area Development regulations.*
4. *The physical design of the proposed Planned Area Development and the manner in which said design does or does not make adequate provision for public services, provide adequate control over vehicular traffic, provide for and protect designated common open areas, and further the amenities of light and air, recreation and visual enjoyment.*
5. *The compatibility of the proposed Planned Area Development with the adjacent properties and neighborhood.*
6. *The desirability of the proposed Planned Area Development to physical development of the entire community.*
7. *The conformity of the proposed Planned Area Development with the goals and objectives and Future Land Use Maps of the City of Coral Gables Comprehensive Land Use Plan.*

Staff's Findings: The Planned Area Development (PAD) designation was already approved by Ordinance No. 2011-06 and the PAD assignment was found to be consistent with the stated purpose and intent of the PAD regulations. The current request is a modification to the conditions of the PAD approval, to increase the maximum enrollment from 1,162 to 1260 students. The addition of 98 students is less than 10% increase to the what is currently allowed and does not cause major impact to the adjacent properties. There is no expansion or addition to existing buildings, therefore it is still compatible with the neighborhood and does not alter the previously approved PAD.

Enrollment at the school over the last ten years has been below the maximum allowed capacity as shown in the table below:

Grade	2010-2011	2011-2012	2012-2013	2013-2014	2014-2015	2015-2016	2016-2017	2017-2018	2018-2019
PK	43	41	40	40	40	50	39	36	37
JK	57	55	70	56	69	51	70	60	62
SK	92	67	74	98	73	78	67	75	73
1	103	98	86	91	96	84	85	77	84
2	102	95	109	89	96	99	91	86	83
3	104	107	107	117	106	104	113	108	87
4	110	104	114	114	120	108	120	117	120
5	101	112	109	117	111	129	108	118	127
6	129	125	127	116	135	136	152	134	165
7	150	140	129	131	123	142	132	151	137
8	140	155	145	138	129	131	151	139	162
TOTAL	**1131**	**1099**	**1110**	**1107**	**1098**	**1112**	**1128**	**1101**	**1137**

The following summarizes the current number of teachers and employees working at the school:

	Full time	Part time	Total
Administrative	20	0	20
Academic Support Staff	20	15	35
Faculty Primary	25	0	25
Faculty Lower School	40	0	40
Faculty Middle School	61	0	61
Learning Center	8	1	9
Operations	36	0	36
TOTAL	**210**	**16**	**226**

The application is subject to parking minimums of 1 space per full-time employee, plus 1 per 4 students 16 years old or older. The campus currently has 228 parking spaces with additional 38 spaces located at the northern boundary, encroaching into the Montgomery Foundation property in which the applicant is working on a temporary encroachment agreement with the Montgomery Foundation.

The applicant has submitted a "Trip Generation Analysis" prepared by David Plummer and Associates, dated February 8, 2019, that provides an analysis of the current traffic conditions and field observations regarding the traffic circulation for the student drop-off and pick-up operations (see Attachment C). The applicant's trip generation analysis was reviewed by the City's traffic consultant, H.W. Lochner, Inc. (see Attachment D). A Traffic Impact Analysis was also provided which concluded that the proposed increase of 98 students "does not have an adverse effect on the surrounding network arterial links and intersections, with exception to SW 120 Street at Pine Needle Lane during the AM peak period. All other levels of service remain consistent with existing conditions." The City's traffic consultant is recommending staggered start/dismissal times (spaced more than 30 minutes apart). The applicant is committed to execute the following: 1.) adding two (2) additional staff members to assist with off-loading and in-loading of students; and 2.) extend queue on site for lower grades 1st and 2nd by 330 feet.

Consistency Evaluation of the Comprehensive Plan (CP) Goals, Objectives and Policies

The Planning and Zoning Division has reviewed the CP and finds the following CP Goals, Objectives and Policies are applicable. Consistent CP Goals & Objectives and Policies are as follows:

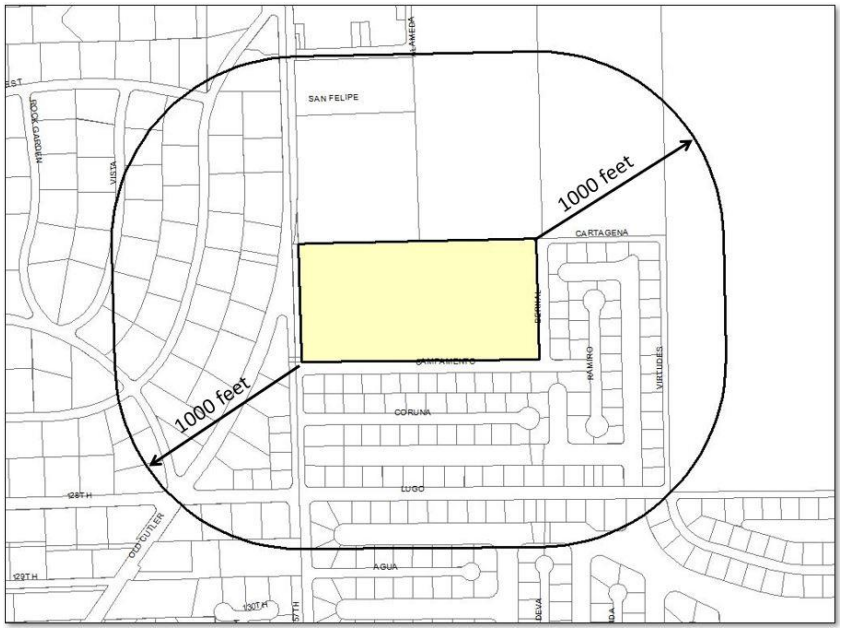
Ref. No.	CP Goal, Objective and Policy	Basis for Consistency
1.	**Goal FLU-1.** Protect, strengthen, and enhance the City of Coral Gables as a vibrant community ensuring that its neighborhoods, business opportunities, shopping, employment centers, cultural activities, historic value, desirable housing, open spaces, and natural resources make the City a very desirable place to work, live and play.	Complies
2.	**POLICY FLU-1-3.3:** Non-residential uses designated in the Comprehensive Plan which cause significant noise, light, glare, odor, vibration, dust, hazardous conditions or industrial traffic, shall provide buffering such as landscaping, walls and setbacks, when located adjacent to or across the street from incompatible uses such as residential uses.	Complies
3.	**OBJECTIVE FLU-1.9:** Encourage sound innovation in the development standards of the City's Zoning Code which provides a continuing process to respond to community needs.	Complies
4.	**POLICY FLU-1.11.1:** Maintain and enforce effective development and maintenance regulations through site plan review, code enforcement, and design review boards and committees.	Complies

Ref. No.	CP Goal, Objective and Policy	Basis for Consistency
5.	**Policy FLU-1.14.1.** The City shall enforce Zoning Code provisions which continue to address the location and extent of residential and non-residential land uses consistent with the Future Land Use Map in order to preserve the character of existing neighborhoods.	Complies
6.	**Objective FLU-1.17.** The City acknowledges the need to locate schools proximate to urban residential areas and, where possible, collocate public facilities, such as parks, libraries and community centers with schools.	Complies
7.	**Goal FLU-3.** The City as a part of its development review process shall engage public/community participation and collaboration to provide for a transparent development review process.	Complies
8.	**Objective FLU-3.1.** The City shall continue its efforts to notify stakeholders, residents, property owners and neighborhood associations of pending development reviews to provide transparency within the development process.	Complies

Staff Comments: Staff's determination that this Application is "consistent" with the CP's goals, objectives and policies that are identified is based upon compliance with conditions of approval contained in Ordinance No. 2011-06 which shall remain in effect.

4. PUBLIC NOTIFICATION

The Applicant completed the mandatory neighborhood meeting with notification to all property owners within 1,000 feet of the property boundary on April 1, 2019. The Zoning Code requires that a courtesy notification be provided to all property owners within 1,000 feet of the boundary of the property. The notice indicates: Application filed; public hearing dates/time/location; where the application files can be reviewed and provides for an opportunity to submit comments. Approximately 128 notices were mailed.



Courtesy Notification Radius Map

The following has been completed to solicit input and provide notice of the application:

Public Notice

Type	Date
Courtesy notification - 1,000 feet	06.26.19
Posting of property	06.26.19
Legal advertisement	06.27.19
Posted agenda on City web page/City Hall	07.03.19
Posted Staff report on City web page	07.03.19

5. STAFF RECOMMENDATION

The Planning and Zoning Division based upon the complete Findings of Fact contained within this Report recommends **approval of the application with condition that all other conditions of approval contained in Ordinance No. 2011-06 shall remain in effect** of the application.

6. ATTACHMENTS

A. Applicant's submittal package.
B. Ordinance No. 2011-06 & Ordinance No. 3341
C. Trip Generation Analysis by David Plummer & Associates
D. Traffic Impact Analysis by City's Traffic Consultant, H.W. Lochner, Inc.
E. Courtesy notice mailed and legal advertisement published.
F. Powerpoint Presentation

Please visit the City's webpage at www.coralgables.com to view all application materials. The complete application also is on file and available for examination during business hours at the Planning and Zoning Division, 427 Biltmore Way, Suite 201, Coral Gables, Florida, 33134.

Re: Guillver Schools – Zoning
File No.: 18L-120

Dear Mr. Trias,

My office represents Gulliver Schools in its application for amendment to a conditional approval of the Master Site Plan that was approved by City Commission in March of 2011, to increase the student enrollment cap from 1162 to 1260 at the Academy Campus.

The Academy Campus located at 12595 Red Road, Coral Gables serves primary, lower and middle school students in grades Pre-K3 through eight (8). The reason for this request is to relocate the Montgomery Campus students to the Academy Campus.The Montgomery Campus located at 7500 SW 120 Street, in Pinecrest, serves middle school students with learning differences who benefit from smaller class sizes and intense focus on organization, time management and study strategies. Upon the approval of this application and the construction of additional classroom space, Gulliver intends to close the Montgomery Campus and integrate those students into the Academy student body for the full school day.

Currently, the 102 students enrolled at the Montgomery campus come daily to the Academy campus for lunch and afternoon classes. The Montgomery students depart at dismissal time with the Academy student body. At the present time, 40% of the Montgomery students have siblings at the Academy campus.

Gulliver retained the services of David Plummer & Associates to conduct an internal traffic count and to analyze the current drop off/pick up operations to calculate the impact of the additional students.

Tim Plummer's report finds that increasing the enrollment cap from 1162 students to 1260 will not impact traffic on Red Road. Implemented conditions from the 2010 Master Plan Approval (3 police officers) have improved mobility on Red Road and on campus. Plummer's assessment proposes several recommendations to further enhance the operations which Gulliver is committed to execute. These recommendations are:

1. Adding two (2) additional staff members to assist with off loading and in loading of students.

2. Extend queue on site for lower grades 1st and 2nd by 330 feet.

The Academy campus currently has 228 parking spaces with an additional 38 spaces at the northern boundary that partially encroach into the Montgomery Foundation property. We have been in contact with the Foundation's Board of Directors and its attorney and are working on terms for a temporary encroachment agreement. This brings the parking space count to 266. In addition, the architects at Zyscovich Architects that are currently engaged to implement the Master Plan have proposed an additional 14 parking spaces beyond the emergency access lane at the southern boundary in the event the encroachment agreement is not executed.

Currently the employee count by category is as follows:

	Full time	Part time	Total
Administrative	**20**	**0**	**20**
Academic Support staff	**20**	**15**	**35**
Faculty Primary	**25**	**0**	**25**
Faculty Lower School	**40**	**0**	**40**
Faculty Middle School	**61**	**0**	**61**
Learning Center	**8**	**1**	**9**
Operations	**36**	**0**	**36**
TOTAL	**210**	**16**	**226**

The student enrollment for the Academy campus from school year 2010-2011 through this past year 2018-2019 is as follows:

Grade	2010-2011	2011-2012	2012-2013	2013-2014	2014-2015	2015-2016	2016-2017	2017-2018	2018-2019

Application submittal requirements

1. Hard copies. The number of application binders to be submitted shall be determined by Staff at the preapplication meeting. The application shall include all the items identified in the preappplication meeting.
2. Digital media copies. Two (2) compact discs (CD ROMs) of the entire application including all the items identified in the Preapplication Conference. Each document shall be separated into PDF files (i.e., application; site plan, landscape plan; etc.). Please include a "Table of Contents" identifying all PDF file name(s). Each PDF file size shall not exceed 10 Mb. All discs shall be labeled with the applicant(s) name, project name and date of submittal.

Applicant/agent/property owner affirmation and consent

(I) (We) affirm and certify to all of the following:

1. Submission of the following:
   a. Warranty deed/tax record as proof of ownership for all properties considered as a part of the application request; or
   b. Authorized as the applicant(s)/agent(s) identified herein to file this application and act on behalf of all current property owner(s) and modify any valid City of Coral Gables entitlements in effect during the entire review process.
2. This request, application, application supporting materials and all future supporting materials complies with all provisions and regulations of the Zoning Code, Comprehensive Land Use Plan and Code of Ordinances of the City of Coral Gables unless identified and approved as a part of this application request or other previously approved applications. Applicant understands that any violation of these provisions renders the application invalid.
3. That all the information contained in this application and all documentation submitted herewith is true to the best of (my) (our) knowledge and belief.
4. Understand that the application, all attachments and fees become a part of the official records of the City of Coral Gables and are not returnable.

NOTES:

1. The legal description was furnished by the client.
2. The attached Topographic Survey was prepared to show some of the improvements within the limits of the Gulliver Academy. Some information shown was obtained during earlier surveys and were not confirmend during this survey. No other use was intended or is valid.
3. Bearings are based on an assumed direction of East-West along the Centerline of Avenue Campamento.
4. Elevations refer to the "National Geodetic Vertical Datum of 1929".
5. Bench Mark I.D. No B-313, Elevation 19.78 feet, Miami-Dade County Public Works Department, Survey Section, U.S. Coast & Geodetic brass disk in concrete monument, 25 feet Northwest of the center line of Old Cutler Road and 65 feet South of the center line of SW 128th. Street, 1.5 feet South of power pole #345.
6. The Federal Flood Hazard Classification is Zone "X" Elevation N/A, (Zone "X", Areas determined to be outside 500-year flood plain) and Zone "AE" Elevation 11.00 feet, as shown on the Federal Emergency Management Agency, National Flood Insurance Rate Map 12086C0468, Suffix "L", Maps revised September 11, 2009, Community No. 120639.
7. The Dade County Flood Criteria is Elevation 6.0 feet, as shown on Amended Plat of Flood Criteria Map, according to the Plat thereof recorded in Plat Book 120, at Page , of the Public Records of Miami-Dade County, Florida.
8. The Detail portion of this map or sketch of Survey is intended to be displayed at a scale of one inch equals forty feet or smaller.
9. This Survey is not valid without the signature and original raised seal of a Florida Professional Surveyor & Mapper.

LEGAL DESCRIPTION:

Lot 7, AVOCADO LAND COMPANY SUBDIVISION, located in the Southeast 1/4 of the Northeast 1/4 of Section 18, Township 55 South, Range 41 East, according to the plat rhereof, recorded in Plat Book 2, at Page 44, of the Public Records of Miami-Dade County, Florida, less therefrom road right of way more particular described as follows:

The West 35 feet; the South 30 feet; the East 30 feet; that remaining portion lying Southwesterly of a circular curve concave Northeasterly having a radius of 25 feet, said circular curve being tangential to a line 35 feet Easterly of, and parallel to, the Westerly line of said Tract 7, and tangential to a line 30 feet Northerly of, and parallel to, the Southerly line of said Tract 7; and that remaining portion lying Southeasterly of a circular curve concave Northweaterly having a radius of 25 feet, said circular curve being tangential to a line 30 feet Westerly of, and parallel to, the Easterly line of said Tract 7, and tangential to a line 30 feet Northerly of, and parallel to,the Southerly line of said Tract 7; lying and being in Coral Gables, Miami-Dade County, Florida.

WE HEREBY CERTIFY: that the attached SKETCH OF TOPOGRAPHIC SURVEY was prepared in accordance with Chapter 5J-17, as set forth by the Florida Board of Surveyors and Mappers, pursuant to Section 472.027, Florida Statutes.

CITY OF CORAL GABLES, FLORIDA

ORDINANCE NO. 2011-06

AN ORDINANCE OF THE CITY COMMISSION OF CORAL GABLES REQUESTING THE FOLLOWING FOR GULLIVER ACADEMY, LOCATED ON TRACT NO. 7, AVOCADO LAND COMPANY SUBDIVISION (12595 RED ROAD), CORAL GABLES, FLORIDA:

1) PLANNED AREA DEVELOPMENT (PAD) ASSIGNMENT, PURSUANT TO ZONING CODE ARTICLE 3, DIVISION 5;
2) SITE PLAN REVIEW AND AN AMENDMENT TO THE PREVIOUSLY APPROVED GULLIVER ACADEMY MASTER CAMPUS SITE PLAN TO ALLOW FOR NEW CLASSROOMS, PAVILION BUILDING, GYMNASIUM, BASEBALL FIELD HOUSE, NATATORIUM AND OTHER MISCELLANEOUS IMPROVEMENTS;
3) ENCROACHMENT INTO THE CAMPAMENTO DRIVE, OLD CUTLER ROAD AND RED ROAD RIGHTS-OF-WAYS; AND,
4) ZONING CODE TEXT AMENDMENT TO THE OFFICIAL ZONING CODE, APPENDIX A, SITE SPECIFIC ZONING REGULATIONS;

PROVIDING FOR SEVERABILITY, REPEALER, CODIFICATION, AND AN EFFECTIVE DATE.

WHEREAS, Application No. 09-09-092-P was submitted requesting PAD assignment pursuant to Zoning Code Article 3, Division 5, site plan review and an amendment to the previously approved Gulliver Academy Master Campus Site Plan on the property located on Tract No. 7, Avocado land Company Subdivision (12595 Red Road), Coral Gables, Florida; and

WHEREAS, this request is being submitted to allow for the construction of new classrooms, pavilion building, gymnasium, baseball field house, natatorium and other miscellaneous improvements within the confines of the existing property; and

WHEREAS, after notice of public hearing duly published and notifications of all property owners of record within one thousand five hundred (1500) feet, public hearings were held before the Planning and Zoning Board of the City of Coral Gables on 07.14.10, 07.21.10 and 09.15.10 at which hearings all interested persons were afforded the opportunity to be heard; and

WHEREAS, the Planning and Zoning Board heard and continued this item at public hearings held on 07.14.2010 and 07.21.2010.; and

WHEREAS, at the Planning and Zoning Board 09.15.10 meeting, a Settlement Agreement between the applicant and Gables by the Sea Homeowner's Association was presented and the Board recommended approval (vote: 6-0) with conditions; and

WHEREAS, City Staff advised the Planning and Zoning Board's that pursuant to the Settlement Agreement, the Staff recommendation and conditions of approval would be modified to reflect the details of the Settlement Agreement between Gulliver Academy and the Gables by the Sea Homeowner's Association, subject to final City Department review and approval; and

WHEREAS, after the 09.15.2010 meeting, the applicant modified the application providing revised site plans, landscape plans, elevations, etc., and submitted a request to encroach into the adjacent right-of-ways and submitted a text amendment to the Zoning Code to allow for reduced setbacks for the gymnasium and natatorium; and

WHEREAS, City Staff forwarded an additional courtesy notice to all property owners of record within one thousand five hundred (1500) feet advising of the 11.09.10 public hearing before the City Commission, at which all interested persons were afforded the opportunity to be heard; and

WHEREAS, the City Commission held a public hearing on 11.09.10 at which hearing all interested persons were afforded an opportunity to be heard and the application was approved on First Reading (vote: 3-1) subject to the conditions referenced herein; and

WHEREAS, on 12.14.2010, the City Commission recommended deferral (vote: 4-0) of 2nd Reading to the 01.25.2011 meeting and at the 01.25.2011 and 02.08.2011 meetings the item was again deferred. The deferral allowed Gulliver Academy to further discuss possible solutions of student access to the school for families residing within Gables-by-the-Sea neighborhood; and

WHEREAS, on 03.08.11, the City Commission made a motion for 2nd Reading approval and the resulting vote was 2-2, which is considered a "denial." The applicant requested reconsideration of the motion to allow additional time to pursue other student access alternatives and the Commission rescheduled consideration for the 03.22.11 meeting; and

WHEREAS, the City Commission held a public hearing on 03.22.11 at which hearing all interested persons were afforded an opportunity to be heard and the application was passed and adopted on Second Reading (vote: Majority: 4-0);

NOW, THEREFORE, BE IT RESOLVED BY THE COMMISSION OF THE CITY OF CORAL GABLES:

SECTION 1. The foregoing "WHEREAS" clauses are hereby ratified and confirmed as being true and correct and hereby made a specific part of this Ordinance upon adoption hereof.

SECTION 2. That the City Commission does hereby authorize the City Manager to grant the application of Gulliver Academy located on Tract No. 7, Avocado Land Company subdivision 12595 Red Road, Coral Gables, Florida providing for the following:

1. Planned Area Development (PAD) assignment, pursuant to Zoning Code Article 3, Division 5.
2. Site Plan and/or amendment to the previously approved Gulliver Academy Master Campus Site Plan to allow for new classrooms, pavilion building, gymnasium, baseball field house and other miscellaneous improvements subject to conditions of approval referenced and provided herein.
3. Encroachments for the following:
   a. Campamento Drive. Up to a maximum of eight (8) feet into the right-of-way for paving to accommodate the proposed private drive as referenced on the site plan.
   b. Old Cutler Road and Red Road rights-of-ways. Miscellaneous curbing, paving, landscaping,

etc as referenced on the site plan

Subject to submission of all necessary documentation to provide for applicable easements subject to City Attorney review and approval. All costs associated with the encroachments shall be borne by the applicant.

4. Zoning Code text amendment to Appendix A – Site Specific Zoning Regulations, Section A-6, Avocado Land Company Subdivision – Tract 7 as follows:
   a. Minimum 75'-0" side setback along the south property line (Campamento Drive) for the proposed natatorium. All other proposed future structures along the south property line shall adhere to the required 80"-0" setback.
   b. Minimum 40'-0" setback along the north property line for the proposed gymnasium and baseball field house. All other proposed future structures along the north property line shall adhere to the required 100"-0" setback.

Is hereby approved subject to all of the following conditions of approval:

1. Application/supporting documentation. Construction of the shall be in conformance with the following:
   a. Application package on file in the Planning Department and submitted to the City Commission -"Date stamped 12.07.2010- Planning Department".
   b. All representations proffered and accepted by the applicant's representatives provided during public hearing reviews.
2. Implementation of all conditions of approval. All conditions of approval indicated by shaded text shall be in effect or implemented at the commencement of the Gulliver Academy 2011-2012 school year.
3. General.
   a. Restrictive covenant. Within 30 days of City Commission approval, the property owner, its successors or assigns shall submit a Restrictive Covenant for City Attorney review and approval outlining all conditions of approval required by the City Commission. Failure to submit the draft Restrictive Covenant within the specified time frame shall render the approval void unless said time frame for submittal of the draft Restrictive Covenant is extended by the City Attorney after good cause as to why the time frame should be extended.
   b. Revisions to approved PAD site plan. Administrative approval of minor amendments to the approved PAD site plan as permitted in Zoning Code Section 3-508(A) shall only apply to changes less than twenty percent (20%) for lot coverage and change in location of individual buildings. All other changes, including changes in floor area, maximum height, minimum setbacks, total campus square footage, required on-site parking and maximum student enrollment shall be considered major amendments and subject to review and consideration at public hearings in accordance with Section 3-508(B) of the Code.
   c. 04.28.1995 Gables-by-the-Sea Road Closing Agreement. The applicant shall complete the necessary changes and secure all applicable agency approvals to modify the existing 04.28.1995 Gables-by-the-Sea Road Closing Agreement pursuant to the conditions of approval referenced and contained herein.
4. School use and operations.
   a. General.
      1) Future Board of Architects review. Plans for each individual building and/or additions shall be submitted to the Board of Architects for architectural and design review prior to issuance of any building permit.
      2) Shared use. Shared use of all on-campus facilities shall only be permitted with students and scholastic activities from other Gulliver affiliated campuses. The use of any school facilities by outside vendors or for commercial purposes such as renting, leasing, or

allowing third parties unaffiliated with the operations of the school is prohibited.

3) School public information liaison/point of contact. A specific point of contact person of Gulliver Academy shall be selected to serve as the single point of contact for the neighborhood, surrounding properties and public inquiries. The purpose of the contact is to provide a vehicle for exchange of information between all parties. The Gulliver Academy point of contact name(s), email(s), mailing address(es) phone, and hours of availability shall be provided to all City of Coral Gables property owners, City of Coral Gables neighborhood association(s) and Village of Pinecrest neighborhood association(s) point of contact(s) within 1,000' of the property. This notice shall be provided prior to the date the City issues the final certificate of completion for the improvements provided for herein and thereafter on an annual basis prior to the start of each school year. Verification of the notification shall be provided to the Planning Department within the time frame required herein and on an annual basis.

4) Construction programming. No construction access or vehicles shall be permitted at any time along any portion of Campamento Avenue or Bernal Street rights-of-ways. There shall be no construction staging or storage of construction materials within 100' of Campamento Avenue or 475' feet of Bernal Street right-of-ways. All construction shall observe City Code allowable hours of construction per City Code Sec. 105-26, as amended (M – F, 7:30 a.m. to 6:00 p.m.) with no construction permitted on Saturdays. Per City procedures, a plan for specific construction and materials staging procedures shall be submitted to the Building Department for review and approval.

b. Student mix and population.

1) Student mix. Gulliver Academy shall be operated as a Pre-kindergarten through eighth grade school.

2) Maximum student enrollment. Maximum student capacity shall remain at 1,162 students.

3) Annual report on student enrollment. Gulliver Academy shall submit to the City an executed affidavit each year within 30 days after the first day of the school year, identifying and attesting to the number of students enrolled for the academic school year in total and by grade.

c. Use of facilities.

1) Athletic fields. There shall be no activities, events or any other use of the athletic fields between sunset and sunrise.

2) Tennis courts. There shall be no use of the tennis courts between sunset and sunrise.

3) Athletic equipment. Only athletic equipment associated with the specific athletic event shall be permitted on the athletic fields. The storage of equipment, machinery or other non-athletic related items on the athletic fields in open view shall not be permitted.

4) After school hours activities. The use of the athletic facilities between the hours of 6:00 p.m. and 8:00 a.m. for uses other than for school sponsored events shall be prohibited.

d. Special events and athletic events.

1) Event permit(s) required. All school events where 216 or more vehicles are anticipated shall secure a special events permit from the City's Special Events Committee. A tentative schedule of school events shall be submitted to the City 30 days prior to each school year to determine which events necessitate future application and review by the Special Events Committee.

2) Event parking. All parking for events shall be entirely accommodated on campus and shall not be permitted off-site. The "F" lot (south parking lot along Campamento Avenue) shall not be utilized by patrons attending events. This parking area shall only be utilized for parking by school administrators, employees, athletic support staff. The area shall not be utilized as a staging or storage area for any events. The intent use of this parking area shall remain as vehicle storage/parking.

3) Event traffic management plan. Gulliver Academy shall be required to implement the recommended traffic management requirements for each event type identified in the "Gulliver Academy Special Events Traffic Management Plan", prepared by David Plummer and Associates, and dated 05.18.10.

4) Event signage. Temporary directional signage may only be posted the day of the special event, and must be taken down within twenty-four (24) hours after the end of the event. d.

5. Traffic and traffic circulation.
   a. Student drop-off and pick-up. The existing student drop-off and pick-up operations shall incorporate the following changes as recommended in the "Gulliver Academy Traffic Study" prepared by David Plummer and Associates, dated May 2010:
      1) Supervisors assisting with drop-off and pickup shall wear a safety vest.
      2) Off-campus parking and walk-ups along Old Cutler Road shall be prohibited. Traffic modifications. As recommended in the "Gulliver Academy Traffic Study" prepared by David Plummer and Associates, dated May 2010, Gulliver Academy shall initiate and work with Miami-Dade County to study and implement signal timing adjustments required at the intersection of Old Cutler Road / SW 120 Street to alleviate eastbound left turn morning delay.
   b. Supplemental traffic and pedestrian management. The applicant shall provide one (1) additional police officer for traffic management during the morning (approximately 7:30 - 8:30 a.m.) and afternoon hours (approximately 3:00 – 4:00 p.m.) at the intersection of Old Cutler and S.W. 128th Avenue intersection.
6. Parking.
   a. Faculty and staff. Only school faculty and staff shall be permitted to park in the "F" (South) Parking Lot. Parking shall be prohibited to all visitors, parents and attendees of special events or athletic events.
   b. Visitors. All visitors, parents and attendees of special events or athletic events shall be required to park in the parking lots located on the north side of the campus.
   c. Vehicle access. Vehicular curb cuts, access or other means of vehicular access from Campamento Avenue and Bernal Street right-of-ways shall be prohibited.
   d. Campamento Avenue and Bernal Street right-of ways. No Gulliver Academy vehicle parking, storage or standing (temporary or permanent) shall be permitted along any portion of the Campamento Avenue or Bernal Street right-of-ways. Where not currently posted, the appropriate City "No parking" signage shall be installed as required and determined by the Parking Director. Gulliver Academy shall be responsible for all costs associated with the installation of all signage.
7. On and off-site improvements. Gulliver Academy shall be responsible for the installation and all costs and permitting from all applicable agencies (i.e., City, Miami-Dade County) associated with the installation of the following improvements.
   a. Old Cutler Road right-of-way-northern triangle. In addition to the improvements as shown on the site plan, Gulliver Academy shall complete the following improvements within the existing large triangle of Old Cutler Road:
      1) Remove the landscaping and irrigation currently installed within this area.
      2) Install non-mountable curbing around the entire perimeter of the triangle.
      3) Sod the entire area.
      4) Install no parking signs within the sodded area. Location and number of signs shall be subject the Parking Director approval.
8. Landscaping and landscape maintenance. All landscaping as referenced on landscape plan shall be installed within 30 days of issuance of the Certificate of Use for the proposed private access drive. The applicant shall be responsible in perpetuity for all maintenance and upkeep of all landscaping and grassed areas on the Red Road (adjacent to the front entrance), north side of Campamento

Avenue, and west side of Bernal Avenue right-of-ways in perpetuity. This shall include removal of trash and debris. The existing and proposed hedges along the Campamento Avenue right-of-ways from Red Road to the existing western edge of the existing playfields shall be maintained and permitted to mature to a minimum height of twelve (12) feet.

9. Campamento Avenue right-of-way and Lot "F" (South) parking area.
   a. Access. Prior to the commencement of the Gulliver Academy 2011-2012 school year the following shall be completed:
      1) The existing vehicular access point on Campamento Avenue shall be closed.
      2) The gate shall be removed.
      3) All driveway pavement from the existing Campamento Avenue roadway paving edge to the Gulliver Academy property shall be removed.
      4) The construction of an private access drive from Red Road to the south side of the property shall be completed, operational and approved by the City to allow for the emergency access, delivery of goods and services, teacher and administration parking to the south side of the property. In association with the submittal of the Restrictive Covenant required herein, the applicant shall submit the necessary easements or other documentation to the City Attorney for review and approval providing for the access drive.
      5) The Red Road gate shall include a "knox box" mechanism or other mechanism to allow for emergency access. The type of mechanism, location, etc. is subject to Fire Department review and approval.
      6) Installation of a six (6) foot gate (with lock) east of the proposed natatorium and west of Bernal Avenue right-of-way (adjacent to the baseball fields) that provides access to/from the Campamento Avenue right-of-way for maintenance equipment to maintain the adjoining right-of-ways. This gate shall remain closed and locked at all times except during maintenance.
   b. Student drop-off and pick-up. Student drop-off and pick-up shall be prohibited from Campamento Avenue and Bernal Street right-of-ways onto any portion of the property.
   c. Staging of delivery and service vehicles. No queuing, waiting of delivery/service vehicles or delivery of goods and services for Gulliver Academy shall occur at any time on or along the Campamento Avenue and Bernal Avenue right-of-ways
   d. Trash facilities. All trash facilities (i.e. dumpsters) shall be contained within perimeter opaque fencing and gate a minimum around the entire dumpster. The fencing and gate shall be a minimum of one foot above the height of the dumpster facility. The dumpster facility gate shall be closed at all times except during pickup.
   e. Outdoor storage.
      1) Storage of material, kitchen support material, etc are permitted within the storage area however shall be maintained in a neat and orderly manner.
      2) No storage or material or other items shall be permitted within the parking lot. The use of the lot shall be for the purposes of storing vehicles.
10. Drainage. Prior to the issuance of a Certificate of Occupancy for either the gymnasium or natatorium, Gulliver Academy shall prepare and implement a storm water management/drainage plan for the entire property pursuant to SFWMD requirements to ensure all storm water is retained on-site, and there is no drainage off-site. The plan shall be subject to Public Works Department review and final approval subject to all applicable city, local, state, etc. requirements.
11. Other requirements.
    a. Lighting.
       1) Lighting of the athletic fields, open areas, parking areas shall be prohibited.
       2) Off-site lighting saturation and/or dispersion shall be prohibited from any portion of the facility property onto neighboring properties. Lighting standards for parking lots and within the core of the campus shall require review and approval by the Board of

Architects. Required low level safety and/or emergency lighting shall be exempt from these provisions.

b. Amplified speakers. No fixed outside amplified speaker/announcer equipment shall be permitted within 100 feet of Campamento Avenue or 275 feet of Bernal Street.

SECTION 3. All rights, actions, proceedings and Contracts of the City, including the City Commissioners, the City Manager, or any of its departments, boards or officers undertaken pursuant to the existing code provisions, shall be enforced, continued, or completed, in all respects, as though begun or executed hereunder.

SECTION 4. All ordinance or parts of ordinances that are inconsistent or in conflict with the provisions of this Ordinance are repealed.

SECTION 5. If any section, part of session, paragraph, clause, phrase or word of this Ordinance is declared invalid, the remaining provisions of this Ordinance shall not be affected.

SECTION 6. It is the intention of the City Commission that the provisions of this Ordinance shall become and be made a part of the Code of the City of Coral Gables, Florida, as amended, which provisions may be renumbered or relettered and that the word ordinance be changed to "section", "article", or other appropriate word to accomplish such intention.

SECTION 7. That this ordinance shall become effective within ten (10) days following the date of its passage and adoption herein.

PASSED AND ADOPTED THIS TWENTY-SECOND DAY OF MARCH, A.D., 2011.

Ordinances

Kerdyk, seconded by Commissioner Brake, to grant the request for a change of zoning on subject property as recommended by the Planning Board. The motion failed by the following roll call: "Yeas" - Commissioner Brake. "Nays" - Commissioners Chapman, Jacobson and Kerdyk; Mayor Knight.

Consideration was then given to the Planning Board proceedings of December 2, 1975, pertaining to driveways across sidewalks and parking garages on the first floor of buildings on certain portions of Miracle Mile and Ponce de Leon Boulevard. After discussion, the following ordinance was presented and read:

ORDINANCE NO.

AN ORDINANCE AMENDING ORDINANCE NO. 1525, AS AMENDED, AND KNOWN AS THE "ZONING CODE", BY AMENDING SECTION 4.03 THEREOF, ENTITLED: "PROHIBITED USES, CERTAIN STREETS". THIS AMENDMENT DEALING WITH THE CONSTRUCTION OF DRIVEWAYS ACROSS SIDEWALKS AND THE LOCATION OF OFFSTREET PARKING ON THE GRADE LEVEL OF BUILDINGS CONSTRUCTED ON PROPERTIES ABUTTING MIRACLE MILE FROM DOUGLAS ROAD TO LE JEUNE ROAD AND/OR ON PROPERTIES ABUTTING PONCE DE LEON BOULEVARD FROM ALHAMBRA CIRCLE TO UNIVERSITY DRIVE; AND REPEALING ALL ORDINANCES INCONSISTENT HEREWITH.

upon first reading. Motion for its adoption was made by Commissioner Brake, seconded by Commissioner Chapman. Ordinance was adopted on first reading by the following roll call: "Yeas" - Commissioners Brake, Chapman, Jacobson and Kerdyk; Mayor Knight. "Nays" - None.

Present at the meeting at this time was Attorney J. Kirk McDonald representing the Gulliver Academy, Inc. on the cases versus the City of Coral Gables. Also present was Mr. Berman, President of the Coral Gables Property Owners Association, to state that that association is an intervenor in the litigation. City Attorney, Charles H. Spooner, reported that a hearing was held on December 5, 1975 concerning settlement of the case at which time the judge indicated that a compromise be reached by all parties. After lengthy discussion, the following resolution was presented and read:

RESOLUTION NO. 20973

A RESOLUTION AUTHORIZING THE CITY ATTORNEY TO COMPROMISE, SUBJECT TO APPROVAL OF THE COURT, THE LAWSUIT OF GULLIVER AGADEMY, INC. v. CITY OF CORAL GABLES IN CIRCUIT COURT, CASE NO. 74-9764; AND SETTING FORTH THE PROPOSED STIPULATION.

WHEREAS, Gulliver Academy, Inc., as the Plaintiff, has obtained an injunction in the Circuit Court in Case No. 74-9764 against the City, preventing further administrative proceedings to determine the meaning of its Ordinance No. 1946, which gave permission for the Plaintiff to operate a Grade School, only, on property zoned residential; and

WHEREAS, the City seeks to compromise this suit and has therefore authorized the City Attorney to enter into a stipulation for an order of dismissal and dissolution of injunction, subject to the interested parties agreeing to same and to Court approval;

NOW, THEREFORE, BE IT RESOLVED BY THE COMMISSION OF THE CITY OF CORAL GABLES:

That the City Attorney be and he hereby is authorized to enter into a stipulation, as hereinafter set forth, for an order of dismissal and dissolution of injunction in the lawsuit of Gulliver Academy, Inc. v. City of Coral Gables, in the Circuit Court, Case No. 74-9764, subject to the interested parties agreeing to same and to Court approval:.

GULLIVER ACADEMY, INC., a Florida corporation, et al.,	IN THE CIRCUIT COURT OF THE ELEVENTH JUDICIAL CIRCUIT IN AND FOR DADE COUNTY, FLORIDA
Plaintiffs,	GENERAL JURISDICTION DIVISION
v.	CASE NO. 74-9764
CITY OF CORAL GABLES, a municipal corporation of Florida, et al.,	JUDGE FRANCES X. KRUCK
Defendants.	

EEB024

STIPULATION FOR ORDER OF DISMISSAL AND DISSOLUTION OF INJUNCTION

It is stipulated by and between the parties to this cause through their respective counsel as follows:

1. The Plaintiff, Gulliver Academy, Inc., will provide the Defendant, City of Coral Gables, the names of all of its students presently attending Grades 9 through 12 during the school year of 1975-1976.

2. That the Plaintiff will limit its enrollment in Grades 10 through 12 for the school year 1976-1977 to a maximum of 140 students.

3. The Plaintiff will limit its enrollment in Grades 10 through 12 for the school year 1977-1978 to a maximum of 140 students.

4. The Plaintiff will, commencing in the school year of 1978-1979, operate said school so that there are no students enrolled in the 10th, 11th, and 12th Grades, or at any time thereafter.

5. The Plaintiff will, through the school year 1978-1979, have a maximum total enrollment in the school, in all grades, not to exceed 975 students.

6. The Defendant, City of Coral Gables shall take such administrative proceedings as it desires to modify its ordinance relative to the Plaintiff, Gulliver School, Inc., to incorporate the foregoing stipulatedmatters.

7. The parties of this cause shall pay the respective costs incurred by them in this lawsuit.

8. This stipulation shall be incorporated in the court's final order for dismissal and the order dissolving the injunction in this cause.

9. This court shall retain jurisdiction of this cause for the entry of such orders as may be necessary to carry out the terms of this stipulation and court order.

Motion for its adoption was made by Commissioner Brake, seconded by Commissioner Kerdyk. Resolution was adopted by the following roll call: "Yeas" - Commissioners Brake, Chapman and Kerdyk; Mayor Knight. "Nays" - Commissioner Jacobson.

The following resolution was presented and read:

RESOLUTION NO. 20974

A RESOLUTION GRANTING AN EXCEPTION TO USE A PRIVATELY-OWNED GOLF CAR ON THE BILTMORE GOLF COURSE FOR A CERTAIN PERIOD OF TIME.

WHEREAS, Resolution No. 20632, passed and adopted May 27, 1975, fixes an annual fee of $150 for privately owned resident only electric car provided resident has an annual greens fee card and a fee of $4.50 for such car for 18 holes; and

WHEREAS, John Sullivan, 3935 Segovia Street, Coral Gables, Florida is instructed by his doctors to take up golf as physical therapy for a paralysis stroke and because of current disability is hard pressed to meet the requirement of the $4.50 per day rate;

NOW, THEREFORE, BE IT RESOLVED BY THE COMMISSION OF THE CITY OF CORAL GABLES:

That an exception to the provisions of Resolution No. 20632 fixing fees and charges for the Biltmore and Granada Golf Course, to permit Mr. John Sullivan, 3935 Segovia Street, Coral Gables, Florida, to use his privately-owned golf car on the Biltmore Golf Course during his period of recuperation, for an annual fee of $150 in lieu of the $4.50 per day rate, be and the same hereby is granted and approved.

Motion for its adoption was made by Commissioner Jacobson, seconded by Commissioner Kerdyk. Resolution was adopted by the following roll call: "Yeas" - Commissioners Brake, Chapman, Jacobson and Kerdyk. "Nays" - None. "Abstention" - Mayor Knight.

Mayor Knight stated that the reason for his abstention from voting on Resolution No. 20974 is because of his many years of friendship with Mr. Sullivan.

ORDINANCE NO. 1548

AN ORDINANCE AMENDING ORDINANCE NO. 1525, AS AMENDED, AND KNOWN AS THE "ZONING CODE", BY PERMITTING THE USE OF "TRACT SEVEN OF AVOCADO LAND COMPANY'S SUBDIVISION", ACCORDING TO THE PLAT RECORDED IN PLAT BOOK TWO AT PAGE FORTY-FOUR OF THE PUBLIC RECORDS OF DADE COUNTY FOR PRIVATE GRADE SCHOOL PURPOSES, UNDER CERTAIN TERMS AND CONDITIONS; SETTING THE EFFECTIVE DATE OF SAID ORDINANCE; AND REPEALING ALL ORDINANCES INCONSISTENT HEREWITH.

WHEREAS, an application has been made to the Commission of the City of Coral Gables for a special exception or a change in the present zoning classification from Single Family Residential Use to an "X" use to permit construction and operation of a private grade school only; located on "Tract 7, Avocado Land Company Subdivision", being that twenty (20) acre area bounded on the West by Red Road, on the South by Avenue Campamento and on the East by Bernal Street, Coral Gables, Florida; and

WHEREAS, after Notice of Public Hearing duly published and notification having been given to all property owners of record within three hundred feet (300'), a public hearing was held before the Planning and Zoning Board of the City of Coral Gables, Florida on Friday, May 20, 1966, at which hearing all persons interested were afforded the opportunity to be heard; and

WHEREAS, the Planning and Zoning Board at such meeting recommended a change of zoning on subject property from Single Family Residential Use to X-R Single Family Residential Use to permit construction and operation of a private grade school only;

NOW, THEREFORE, BE IT ORDAINED BY THE COMMISSION OF THE CITY OF CORAL GABLES:

SECTION 1. That Ordinance No. 1525, as amended, and known as the "Zoning Code", and, in particular, that certain Building Content and Area District Map, Plate No. 16, attached to and by reference made a part hereof, be and the same hereby is amended to show "Tract 7, Avocado Land Company Subdivision", Coral Gables, Florida, according to the plat recorded in Plat Book Two, Page forty-four of the Public Records of Dade County, henceforth to be designated as having a change of zoning from Single Family Residential Use to X-R Single Family Residential Use to permit the construction and operation of a private grade school only.

SECTION 2. That such use and change of zoning shall be subject to the following terms and conditions, to-wit:

(a) This ordinance shall not become effective until and unless good marketable title in and to the property hereafter described shall have been dedicated to the City of Coral Gables as and for public road purposes, to wit and referring to said Tract 7, the following:

1. The East 30 feet
2. The South 30 feet
3. The West 35 feet

Said dedication, once made, to be irrevocable and to stand according to the dedication whether advantage be taken of the change of zoning, or the permissive zoning, or not.

(b) No building or buildings may be erected on the premises closer than one hundred sixty-five feet (165') to Red Road, two hundred twenty feet (220') from Avenue Campamento, one thousand feet (1000') to Bernal Street and one hundred feet (100') to the North property line.

SECTION 3. That all ordinances or parts of ordinances inconsistent or in conflict herewith hereby are repealed insofar as there is conflict or inconsistency.

PASSED AND ADOPTED THIS FOURTEENTH DAY OF JUNE, A.D. 1966.

ORDINANCE NO. 3016

AN ORDINANCE AMENDING ORDINANCE NO. 1525, AS AMENDED AND KNOWN AS "ZONING CODE", BY AMENDING CITY'S USE AND AREA MAPS TO INDICATE APPROPRIATE "S" SPECIAL USE ZONING DESIGNATION ON ALL PUBLIC AND PRIVATE SCHOOLS, RELIGIOUS AND INSTITUTIONAL PROPERTIES, AND PUBLIC BUILDINGS AND GROUNDS AS DESIGNATED ON CITY'S FUTURE LAND USE MAP; AND REPEALING ALL ORDINANCES INCONSISTENT HEREWITH.

WHEREAS, after notice duly published, a public hearing was held before the Planning and Zoning Board on October 14, 1992, at which hearing all interested persons were afforded an opportunity to be heard, and at which time the Board recommended that the amendment to the City's Use and Area Maps be approved; and

WHEREAS, the City Commission after due consideration at its regular meeting of November 10, 1992 approved the proposed amendment on first reading;

NOW, THEREFORE, BE IT ORDAINED BY THE COMMISSION OF THE CITY OF CORAL GABLES:

SECTION 1. That from and after the effective date of this ordinance, Ordinance No. 1525, as amended and known as the "Zoning Code", shall be and is hereby amended, by amending the City's Use and Area Maps to indicate the appropriate "S" Special Use zoning designation on all public and private schools, religious and institutional properties and public buildings and grounds as designated on the City's Future Land Use Map.

SECTION 2. That all ordinances or parts of ordinances inconsistent or in conflict herewith shall be and they are hereby repealed insofar as there is conflict or inconsistency.

ORDINANCE NO. 3341

AN ORDINANCE APPROVING CAMPUS MASTER SITE PLAN FOR GULLIVER ACADEMY, "S" SPECIAL USE PROPERTY LOCATED AT 12595 RED ROAD ON TRACT 7, AVOCADO LAND COMPANY SUB-DIVISION; SUBJECT TO CERTAIN CONDITIONS; AND REPEAL-ING ALL ORDINANCES INCONSISTENT HEREWITH.

WHERAS, Application No. 697-P was submitted, requesting approval of the Campus Master Site Plan for Gulliver Academy, which represents the final build-out scenario for the proposed expansion so the school will not require review and approval of each individual phase; and

WHEREAS, after notice of hearing duly published and notification of all property owners of record within five hundred (500) feet, a public hearing was held before the Planning and Zoning Board on January 14, 1998 at which hearing all interested persons were afforded the opportunity to be heard, and the Board recommended that the plans be approved; and

WHEREAS, the City Commission after due consideration at its regular meeting of February 17, 1998 approved the plans on first reading;

NOW, THEREFORE, BE IT ORDAINED BY THE COMMISSION OF THE CITY OF CORAL GABLES:

SECTION 1. That from and after the effective date of this ordinance, and pursuant to Ordinance No. 1525, as amended and known as the "Zoning Code", and in particular Section 3-11(a) which requires that all proposed plans for redevelopment of property zoned "S" Special Use receive Commission approval, the Campus Master Site Plan which represents the final build-out scenario for the proposed four-phase expansion of Gulliver Academy, Inc., located at 12595 Red Road, on property legally described as Tract 7, Avocado Land Company Subdivision, Coral Gables, Dade County, Florida shall be and it is hereby approved with the following conditions:

1. That traffic mitigation measures recommended and presented in the traffic study are implemented.

2. That a comprehensive parking study shall be prepared by the School and approved by the Planning Department.

3. That a restrictive covenant shall be submitted to the City limiting the enrollment at Gulliver Academy to a maximum of 1,162 students.

SECTION 2. That the plans herein approved for the redevelopment of the Gulliver Academy shall be according to those plans drawn by Brown and Brown Architectural firm, dated October 27, 1997.

SECTION 3. That all ordinances or parts of ordinances inconsistent or in conflict herewith shall be and they are hereby repealed insofar as there is conflict or inconsistency.

PASSED AND ADOPTED THIS TWENTY-THIRD DAY OF SEPTEMBER, A.D., 1998.

ORDINANCE NO. 3263

AN ORDINANCE APPROVING PLANS ON "S" SPECIAL USE PROPERTY, FOR CONSTRUCTION OF ADDITION TO EXISTING GULLIVER ACADEMY LIBRARY, ON TRACT 7, AVOCADO LAND COMPANY SUBDIVISION, LOCATED AT 12595 RED ROAD, SUBJECT TO CERTAIN CONDITIONS; WAIVING SECOND READING AND THIRTY-DAY WAITING PERIOD, WITH EFFECTIVE DATE JULY 8, 1997; AND REPEALING ALL ORDINANCES INCONSISTENT HEREWITH.

WHEREAS, Application No. 685-P, submitted by the Gulliver Academy, Inc., requested approval of an addition to the existing library, and after notice duly published, a public hearing was held before the Planning and Zoning Board on June 11, 1997, at which hearing all interested persons were afforded an opportunity to be heard and the Board recommended in favor the Application, with conditions; and

WHEREAS, the City Commission after due consideration at its regular meeting of July 8, 1997, approved the Application on first reading;

NOW, THEREFORE, BE IT ORDAINED BY THE COMMISSION OF THE CITY OF CORAL GABLES:

SECTION 1. That from and after the effective date of this ordinance, and pursuant to Ordinance No. 1525, as amended and known as the "Zoning Code", and in particular Section 3-11(a) which requires that all proposed plans for redevelopment of property zoned "S" Special Use receive Planning and Zoning Board approval, the redevelopment plans submitted by Gulliver Academy Inc., located at 12595 Red Road, on property legally described as Tract 7, Avocado Land Company Subdivision, Coral Gables, Dade County, Florida, shall be and they are hereby approved with the following conditions:

1. That prior to any future applications for building additions, modifications or new construction proposed on the Gulliver Academy campus, the following items shall be submitted to the City for review and approval:

   (a) A Campus Master Plan, including all existing and proposed buildings and facilities, a traffic and parking plan and a landscape plan. The traffic study should identify existing conditions, projected impact due to the school's expansion and suggested mitigation to address the school's traffic impact. Traffic mitigations will be implemented prior to issuance of a final Certificate of Occupancy to the school.

   (b) A summary of existing and projected student enrollment, including enrollment by grade and the projected number of teachers and staff.

   (c) Written description of educational program, including school operations, any proposed shifts and extra-circular activities, and student drop-off and pick-up plans.

SECTION 2. That the plans herein approved for the redevelopment of the Gulliver Academy Library shall be according to those plans drawn by Brown and Brown Architectural firm, dated May 13, 1997.

SECTION 3. That this ordinance is hereby declared to be an emergency measure, thereby waiving second reading and thirty-day waiting period, making the ordinance effective on the eighth day of July, 1997.

SECTION 4. That all ordinances or parts of ordinances inconsistent or in conflict herewith are hereby repealed insofar as there is conflict or inconsistency.

RE: Trip Generation Gulliver Academy - #18215

Dear Dalila,

David Plummer & Associates has been retained by Gulliver Schools to perform a trip generation analysis for the proposed increase of students at Gulliver Academy campus. Contact information for the developer is as follows:

Mr. Charlie Rue
Chief Operating Officer
Gulliver Schools
(786) 709-4001

Gulliver Academy is an existing PK3 through 8th Grade school located at 12595 Red Road in Coral Gables, Florida and is currently approved for a maximum of 1,162 student, The school is proposing to expand the Academy's campus and increase the number of students to 1,260. An increase of 98 students. A copy of the proposed site plan is provided in Attachment A.

Trip generation calculations for the existing and proposed development were performed using *Institute of Transportation Engineers' (ITE) Trip Generation Manual,* 10th Edition. ITE Land Use Codes (LUC) 534 (Private K-8) was utilized for the existing and proposed trip generations. A trip generation summary is provided in Table 1. Detailed trip generation calculations are provided in Attachment A.

Table 1: Trip Generation Summary				
Development Plan	Total Weekday	AM Peak Hour	PM Peak Hour	PM Peak of Generator
Existing	4,776	1058	302	721
Proposed	5,178	1147	328	781
△Trips	+402	+89	+26	+60

As shown in Table 1, the results of the trip generation analysis indicate that the proposed increase in students from the maximum allowed represents an increase of 402 daily trips, 89 am peak hour trips, 26 pm peak hour trips and 60 trips during the peak hour of the generator.

We stand ready to provide any support needed for this project. Should you have any questions or comments, please call me at (305) 447-0900.

Sincerely,

Juan Espinosa, PE

RE: Gulliver Academy Traffic Operations Plan and Accumulation Assessment - *#18215*

Dear Charlie,

Gulliver Academy (Academy) is an existing PK3 through 8th Grade school located at 12595 Red Road in Coral Gables, Florida. The Academy campus school currently has an enrollment of 1,137 students. In addition, the Montgomery Drive campus has an enrollment of 102 students in grades 5th through 8th. These 102 students are currently dropped-off at the Montgomery Drive campus during the morning arrival, bussed over to the Academy during lunch and picked-up at the campus during the afternoon dismissal. The students currently attending the Montgomery campus will be relocated to the Academy campus. The school is proposing to expand the Academy campus and increase the number of students to 1,260, including the 102 students.

Field observations of the arrival and dismissal operations at Gulliver Academy were conducted. Ingress to the site, internal circulation, egress from the site, and the drop-off / pick-up operations were evaluated. Recommendations were provided to improve the existing operations and reduce impacts of school related traffic on the adjacent roadway network. Furthermore, in order to ensure that the Academy's arrival and dismissal will continue to operate within Miami-Dade County Standards, with the proposed increase of students, an accumulation assessment was conducted.

The accumulation assessment was conducted consistent with the Miami-Dade County Department of Transportation and Public Works (DTPW) guidelines to assess the impacts of the proposed increase in students. Data for this assignment was collected during arrival and dismissal at the existing school on Tuesday, December 18, 2018. The accumulation of staged loading / unloading vehicles at the school was recorded every minute from 20 minutes prior and 10 minutes after **arrival (7:40–8:30 AM)** and 15 minutes prior and 30 minutes after **dismissal (2:15–3:45 PM)**. Vehicles were categorized as passenger, student or bus. The data was analyzed to establish adequacy of loading / unloading conditions for the proposed school expansion. A School Traffic Operations Plan (TOP) Form was also prepared in conjunction with the TOP Plan View, to address the school's arrival and dismissal schedule, vehicular pick-up / drop-off queuing route, operations, and pedestrian/bicycle facilities (see Attachment A).

Existing Conditions

The school currently has three morning arrivals and four afternoon dismissal periods. The primary school (PreK, JK, SK) schedule is 8:20 am – 2:30 pm, the lower school (Grades 1st - 4th) schedule is 8:10 am – 2:45 pm, and the middle school (Grades 5th – 8th) schedule is 8:00 am – 3:15 pm. The school operates on this schedule every weekday except Wednesday, where the primary school (PreK, JK, SK) dismissal is at 1:45 pm, the lower school (Grades 1st - 4th) dismissal is at 2:15 pm, and the middle school (Grades 5th – 8th) dismissal is at 2:30 pm.

The school has four gated driveways. The south most driveway (DW-1) accessing SW 57th Avenue is a two-way driveway (F-Gate) and provides access to teachers parking areas. The second driveway (DW-2) also accessing SW 57th Avenue, is an inbound only driveway that provides access to the drop-off / pick-up areas and parent parking areas. The middle driveway (DW-3) accessing SW 57th Avenue is a two-way driveway. The north most driveway (DW-4) accesses Old Cutler Road is outbound only. The school has two separate drop-off / pick-up locations, A- Circle and G-Circle. Exhibit 1 provides a summary of morning arrival and afternoon dismissal.

Faculty parking areas are currently located on the south side, east side, and northeast side of the property and are all accessed through the F-Gate (DW-1) off of SW 57th Avenue. The visitors parking is provide along A-Circle and G-Circle and are accessed through (DW-2 and DW-3) on SW 57th Avenue.

Exhibit 1
Arrival and Dismissal Schedule

Morning Arrival				
Grades / Students			**Schedule (M – F)**	**Drop-off Location**
Middle	Grade 5th - 8th	593	8:00 AM	G - Circle
Lower	Grade 1st - 4th	375	8:10 AM	A - Circle
Primary	PK, JK, SK	169	8:20 AM	A - Circle

Afternoon Dismissal						
Grades / Students			**Color Code**	**Schedule**		**Pick-up Location**
				M, T , Th, F	**Wednesday**	
Primary	PK, JK, SK	169	Yellow	2:30 PM	1:45 PM	A - Circle
Lower	Grade 1st - 2nd	167	Pink	2:45 PM	2:00 PM	A - Circle
	Grade 3rd - 4th	208	Blue	2:50 PM	2:15 PM	G - Circle
Middle	Grade 5th - 8th	593/ 102	White	3:15 PM	2:30 PM	G - Circle

Existing Morning Arrival Operations

The current drop-off operation functions as follows: middle school drop-off vehicles enter the site via the two-way driveway on SW 57th Avenue (DW-3). Entering vehicles make an immediate left turn to loop around the existing playground and arrive at the G-Circle drop-off / pick-up area. They queue on the right most lane, while the middle and left most lanes are designated pass-by lanes. The drop-off area is located on the north side of the existing building (LZ-2). Staff controls traffic flow along the drop-off area by directing vehicles to continuously stack up, minimizing gaps and maximizing queue length and assisting students' off-loading vehicles (S-13 – S-17). Vehicles will then exit the drop-off, loop around the parent's parking lot, and continue straight towards the driveway accessing Old Cutler Road (DW-4). Some parents park within the center parking area and along the swale area north end in G-Circle, and students walk up to school entrance using the pedestrian crosswalks. There are staff (S-12 and S-18) positioned at each of the two crosswalks within G-Circle controlling traffic while students cross.

The lower and primary school drop-off vehicles, enter the site via the second driveway on SW 57th Avenue (DW-2). Staff (S-1) controls traffic at this entrance driveway. Entering vehicles immediately loop around and arrive at the A-Circle drop-off area. The A-Circle drop-off area has three lanes and is located on the west side of the existing building (LZ-1). During drop-off vehicles queue on the right most lane, while the middle and left most lanes are designated pass-by lanes. Staff controls traffic flow along the drop-off area by directing vehicles to continuously stack up, minimizing gaps and maximizing queue length and assisting students' off-loading vehicles. (S-2 – S-9). Vehicles will then exit the drop-off and continue towards the middle driveway accessing SW 57th Avenue (DW-3). Parent parking for drop-off within A-Circle is not allowed. Parking spaces provided are designated for visitors during arrival period.

It should be noted that there is staff (S-10) positioned at the middle driveway (DW-3) controlling the outbound movement from A-Circle and the inbound movement into G-Circle. This staff member coordinates with the police officer position on Old Cutler Road directly west of the middle driveway controlling inbound / outbound traffic.

Existing Afternoon Dismissal Operations

Gulliver Academy has implemented color coded dismissal, in which parents display on the vehicle dashboard their designated color by student grade level. Dismissal color designations allow staff, security and police to direct vehicles to the correct pickup location (see Exhibit 1). The current pick -up operation functions as follows:

The primary school pick-up vehicles (yellow) enter the site via the second driveway on SW 57th Avenue (DW-2). Entering vehicles immediately loop around and arrive at the A-Circle pick-up area. The A-Circle drop-off area has three lanes and is located on the west side of the existing building (LZ-1). During pick-up, vehicles queue on the right most lane and the middle lane, while the left most lane is designated as a pass-by lane. Staff (S-2 – S-9) controls traffic flow along the pick-up area by directing vehicles to continuously stack up, minimizing gaps and maximizing queue length and assisting students' loading onto vehicles. Vehicles will then exit the pick-up area and continue towards the middle driveway accessing SW 57th Avenue (DW-3).

The lower school grades 1st and 2nd pick-up vehicles (Pink) begin to arrive during the primary dismissal. These vehicles, displaying the pink color code, are held outside of A-circle on the two far left lanes, leaving one lane to allow access for vehicles displaying yellow to enter the site via the second driveway on SW 57th Avenue (DW-2). Once all the vehicles at the primary pick-up clear from A-Circle, the pink group is allowed into A-circle by the staff (S-1) positioned at (DW-2). The two lanes of vehicles immediately loop around and arrive at the A-Circle pick-up. As with the primary pick-up, vehicles queue on the right most lane and the middle lane, while the left most lane is designated as a pass-by lane. Staff (S-2 – S-9) controls traffic flow along the pick-up area by directing vehicles to continuously stack up, minimizing gaps and maximizing queue length and assisting students' loading onto vehicles. Vehicles will then exit the pick-up area and continue towards the middle driveway accessing SW 57th Avenue (DW-3). It should be noted that once the primary finish dismissal and lower (grades 1st and 2nd) are allowed into A-Circle, the middle driveway gate is closed and all vehicle are directed to enter the school via the second driveway (DW-2).

The lower school grades 3rd and 4th pick-up vehicles (Blue) and middle school pick-up vehicles (White), enter the site via the two-way driveway on SW 57th Avenue (DW-3) or the second driveway (DW-2). Entering vehicles make an immediate left turn to loop around the existing playground and arrive at the G-Circle pick-up area. The drop-off area has three lanes and is located on the north side of the existing building (LZ-2).During pick-up, vehicles queue on the right most lane and left most lanes, while the middle lane is designated as pass-by. Staff (S-13 – S-17) controls traffic flow along the pick-up area by directing vehicles to continuously stack up, minimizing gaps and maximizing queue length and assisting students' loading into vehicles. Vehicles will then exit the drop-off, loop around the parent's parking lot, and continue straight towards the driveway accessing Old Cutler Road (DW-4). Some parents park within the center parking area and along the swale area at the north end in G-Circle, and students walk from the school to their vehicle using the pedestrian crosswalks. There are staff (S-12 and S-18) positioned at each of the two crosswalks within G-Circle controlling traffic while students cross.

There is staff (S-10) positioned at the middle driveway (DW-3) controlling the outbound movement from A-Circle and the inbound movement into G-Circle. This staff member coordinates

with the police officer position on Old Cutler Road directly west of the middle driveway controlling inbound / outbound traffic.

Police Officer Assistance

Gulliver Academy has done a commendable job minimizing school related traffic impacts on Old Cutler Road. The Academy provides three police officers along Old Cutler Road, which are present during both arrival and dismissal periods. The following are the three police officers' locations and assignments:

- **Old Cutler Road / SW 120th Street**: a police officer takes control of the first signalized intersection north of the Academy by manually adjusting the green time for all approaches during the drop-off and pick-up periods. The adjustments of the green times at the signalized intersection is at the officer's discretion. This officer directs traffic, giving each movement enough time, creating balance between the eastbound, northbound and southbound movements and the school related movements at this intersection.
- **Old Cutler Road / North Driveway**: a police officer controls exiting school traffic at this location. Two lanes of outbound vehicles queue inside the school at the north most driveway (DW-4). Vehicles traveling northbound / southbound on Old Cutler Road are periodically stopped to allow drivers exiting both lanes to making a right-turn onto northbound Old Cutler Road. This officer coordinates with the police officer at the middle driveway in order to minimize disruption to northbound / southbound traffic flow on Old Cutler Road.
- **Old Cutler Road / Middle Driveway**: a police officer directly west of the middle driveway (DW-3) controls inbound / outbound school traffic. This officer gauges the queue of southbound left-turn lane into the school. When needed, the officer signals the opposing northbound vehicles to stop, creating a gap and allowing inbound vehicles into the school. Again the officer gauges when to stop the southbound inbound movement to ensure minimal disruptions to northbound traffic flow on Old Cutler Road.

These police officers have been stationed at Gulliver Academy for numerous years and have acquired a thorough understanding of the Academy's traffic patterns and the needs of the local traffic on Old Cutler Road.

Bus / Van Operations

Gulliver Academy is served by a private transportation company. Private vans enter the site via the second driveway (DW-2) and/or the middle driveway (DW-3); they drop-off along the A-Circle and pick-up at the designated van/bus loading area. This designated van/bus loading area is separated by a raised median that is located west of the existing playground and connected to the sidewalk along the school by a pedestrian crosswalk. There is staff (S-11) positioned at the crosswalk controlling traffic while students cross. Once the private vans have loaded / off-loaded students, they exit the loading area and make an immediate left using the access on the west side of the parking lot. This access is closed by a temporary gate which is only opened for exiting vans. Gulliver Academy also provides a school bus for approximately 60 students transporting them to/from Key Biscayne. This bus drops students off at the G-Circle and picks up at the parking lot behind G-Circle.

Pedestrian and Bicycle Access

Pedestrians will have access to the school's entrance via the second driveway (E-1). The school provides a continuous sidewalk along A-Circle that loops around the existing playground and continues to G-Circle. There are three school pedestrian entrances along A-Circle (E-2 – E-4) and one along G-Circle (E-4). Old Cutler Road provides a dedicated multi-use (bike/walk) pathway on the west side of the road. When pedestrians are crossing from the west side of Old Cutler Road, vehicular traffic on Old Cutler Road is controlled by two police officers.

Field Observations and Recommendations

Field observations of the arrival and dismissal operations at Gulliver Academy were conducted on various occasions. Ingress to site, internal circulation, egress from the site, and the drop-off / pick-up operations were evaluated. General operations during arrival and dismissal were observed and describe in sections above as the existing conditions. Gulliver Academy has created an environment where both staff and parents are well informed of the pick-up / drop-off schedules and designated locations. Safety is clearly a priority for the various staff and security positioned along both A-Circle and G-Circle pick-up / drop-off areas, crosswalks, and access driveways.

As described in the section above, the lower school grades 1st and 2nd pick-up vehicles (Pink) begin to arrive during the primary dismissal (yellow). These vehicles, displaying the pink color code, are held outside of A-circle on the two far left lanes. Once all the vehicles at the primary pick-up clear from A-Circle, the pink group is allowed into A-Circle. The queue created by the pink group was observed reaching the storage capacity of SW 57th Avenue. The two police officers positioned at each entrance/exit control Old Cutler Road traffic and enforce gaps to allow northbound and southbound traffic to continue to flow. In order to mitigate this, it is recommended that the pink group is queued internal to the site. Proposed operations and location details are provided in the future conditions section.

The following are additional recommendations to improve access and circulation.

- Provide two additional staff members assisting with off-loading/ loading of students along both the A-Circle and G-Circle drop-off / pick-up areas.
- Parents were observed getting out of their vehicle to assist their child getting in/ out of the vehicle. At times parents began conversations with staff positioned along the A-Circle. Parents should be instructed to allow staff to assist with loading /off-loading. Staff should be instructed to minimize conversations with parents during pick-up at A-Circle.
- Staff should create a sense of urgency for vehicles to move in and out of the queue. Once the child is safely in/out the vehicle, that vehicle should exit the pick-up /drop-off areas.

- During morning arrival buses were observed dropping-off along the A-Circle. Buses should be using the designated bus loading area instead of A-Circle during the morning arrival.
- Even though there are existing signs posted prohibiting parking, two vehicles were observed during afternoon dismissal parking on the swale areas along Old Cutler Road. Gulliver should continue effort to instruct parents and/or visitor to not parking along Old Cutler Road.

Future Conditions

As previously mentioned, Gulliver is proposing to expand the Academy campus. However, all queuing lanes and pick-up / drop-off areas will remain the same. The east staff parking area will be removed and the parking area to the north and south of campus will be reduced. However, one of the proposed building will include a parking garage level with an additional 75 parking spaces.

Proposed Morning Arrival and Afternoon Dismissal

Morning arrival and afternoon dismissal operations will remain as existing with the exception of the lower school grades (1st and 2nd) / pink group. Instead of queuing on SW 57th Avenue, the pink group will first enter via the south most driveway (DW-1) continue straight for approximately 330 feet to turn around at the service area. This queue will be held internally at the F-gate. Once the A-Circle has been cleared of the primary pick-up vehicles, the pink group will then be allowed into A-circle. At this time the staff position at (DW-2) will stop entering vehicle from SW 57th Avenue and allow all queued vehicles in the pink group to enter the A-Circle. All other operations will then continue as existing.

A School Traffic Operations Plan (TOP) Form was prepared in conjunction with the TOP Plan View, to address the school's arrival and dismissal schedule, vehicular pick-up / drop-off queuing route and operations, and pedestrian/bicycle facilities (see Attachment A).

Accumulation Assessment Results

The accumulation data for the morning arrival was recorded from 7:40 AM to 8:30 AM. Collected accumulation data has been included as Attachment B. Although the school currently has three

arrival periods, because they are closely spaced (8:00, 8:10, and 8:20 am) the overall peak accumulation was used. Based on the data collected the peak accumulation for the school's morning arrival occurs at 7:49 AM, with a total of 334 vehicles counted. The projected accumulation for the AM based on the proposed increase in students arriving in the morning was calculated to be 370 vehicles. This was determined by multiplying the existing peak accumulation by a 1.11 growth factor. This factor was calculated by dividing 1,260 (proposed students during arrival) by 1,137 (existing students during arrival).

The accumulation data for the afternoon dismissal was recorded from 2:15 PM to 3:45 PM. Based on the data collected the peak accumulation for the school's afternoon dismissal occurs at 3:19 PM, with a total of 427 vehicles counted. The projected accumulation for the afternoon dismissal based on the proposed increase in students in the afternoon was calculated to be 434 vehicles. This was determined by multiplying the existing peak accumulation by a 1.02 growth factor. The growth factor was calculated by dividing 1,260 (proposed students at dismissal) by 1,239 (existing student at dismissal). The accumulation assessment analysis worksheets are also included in Attachment B.

The results of the accumulation assessment show that with the existing drop-off and pick-up schedules, proposed TOP and increase in student enrollment, the projected vehicle accumulation will not exceed the proposed school storage capacity of 532 vehicles. The recommendations provided should be implemented at Gulliver Academy in order to improve access and circulation.

We stand ready to provide any support needed for this project. Should you have any questions or comments, please call me at (305) 447-0900.

Sincerely,

Sarah Fiol

Sarah Fiol, PE
Senior Transportation Engineer

School Traffic Operations
Plan (TOP) Form

Since 1978

School Traffic Operation Plan (TOP) Form

This form has been created by Miami-Dade County Department of Transportation and Public Works (DTPW) to document a school's traffic operations and commitments. All form worksheets and illustrations have been completed for the operation at Gulliver Academy

Contents

1.0 Definitions

For the purpose of this document, the following definitions for terms used herein shall apply to all sections unless the context clearly indicates otherwise:

(1) *Educational program:* A planned curriculum with specific instructional beginning, progression and ending for the enrolled students.

(2) *Schedule Shift:* A period of time when students are anticipated to be at the school facility to engage in programed activities

(2.1) *Instructional Shift*: A period of time when students enrolled in a particular educational program must be in attendance. The beginning of this shift is often referred to as the "first bell" and the ending of this shift is often referred to as a "last bell."

(2.2) *Early Arrival Shift*: A period of time when students are allowed into the facility prior to the start of an instructional shift. This period may include other types of programs (e.g. breakfast, before care, etc.).

(2.3) *After School Shift*: A period of time when students are allowed to remain at the facility after the end of all instructional shifts. This period may include other types of programs (e.g. after care, extra-curricular, sports, etc.)

(2.4) *Study Hall:* A scheduled period of time, which begins with the school's first instructional shift (arrival time) and ends at the school's last instructional shift (dismissal time), where car-pooling students that arrive prior to their instructional shift and/or are dismissed earlier than their pick-up time (due to co-passenger students) are provided free of charge care.

(2.5) *Arrival Period*: A time or period of time when students come to school to participate in an educational program. The time or period of time is set by the beginning of one or more instructional shifts.

(2.6) *Dismissal Period:* A time or period of time when students leave school due to the end of an educational program. The time or period of time is set by the end of one or more instructional shifts.

(3) *Vehicle Route*: A maneuverable continuous vehicle path that provides access to the stacking and staging spaces.

(4) *Vehicle Stacking Space:* A space in which pickup and delivery of children can take place.

(5) *Vehicle Queuing Space***:** A space where a vehicle can idle while waiting to enter into a stacking space.

(6) *Vehicle Staging Space*: A space where a service vehicle may remain idle while providing their service.

(7) *Parked Stacking Space*: A parking space designated for student drop-off and pick-up use during the arrival and dismissal operations.

(8) *By-Pass Lane:* A minimum 10 foot wide vehicle travel lane adjacent to stacking and queuing spaces whose direction of travel is in the same direction as the stacking and queuing vehicles.

(9) *Open Parking Space*: A parking space that has no assigned use during the arrival and dismissal operations.

(10) *Staff Parking Space*: A parking space designated for staff use during the school's hours of operation.

(12) *Student Parking*: A parking space designated for student use during the school's hours of operation.

(13) *Pedestrian Route***:** A continuous exclusive walking path that provides access from the public right-of-way to a school building entrance.

(14) *Bicycle Route:* A continuous biking path that provides access from the public right-of-way to the school's bicycle storage.

(15) *Bicycle Storage*: A designated area where bicycles may be secured and remain in place for the school day.

(16) *School Traffic Personnel:* A school employee who reinforces the onsite traffic operations by guiding vehicles and pedestrians along designated routes within the school property.

(17) *Traffic Control Officer:* An individual who has been authorized by a police department to direct traffic or operate a traffic control device as per section 316.640 of Florida Statute.

(18) *School Special Event:* An organized event at a school facility that generates a peak vehicle trip count or a vehicle accumulation demand greater than the traffic parameters established by the school traffic operation plan.

(19) *School Crossing:* An official school student crossing on an adopted school route plan of a school safety program. Any crossing not so officially designated is termed a "pedestrian crossing."

2.0 School Location

Specify the school's name, site address, folio and hours of operation within the **Table 2.0-1**.

3.0 Educational Program and Enrollment

A school provides instructions to students through its *educational programs* (Elementary, Middle, High, ect*)*. Specify the school's educational programs and maximum enrollment by completing **Table 3.0-1**. Indicate the school's programs by entering the student enrollment associated with each program and/or enter "None" for student enrollment if a particular program does not operate at the school.

School may offer educational programs that vary substantially from programs typically offered in schools. Provide a description of the school's educational programs in **Table 3.0-2.**

4.0 School Schedule

A school schedule is composed of *schedule shifts*. A schedule shift may be classified as either a non-instructional shift (Breakfast Program, After School Care, or Extra Curricular Activity) or an *instructional shift*. The educational programs are scheduled by *instructional shifts*. Therefore, every schedule will include at least one instructional shift. A school's *arrival period*, as well as *dismissal period*, should not exceed 1.5 hours because of its effect on school speed zone hours. The different educational programs may be scheduled independently or concurrently, but an educational program may not be divided by multiple instructional shifts. Instructional shifts must be scheduled a minimum of 20 minutes apart to have their vehicle accumulation events be considered as independent events. The schedule may also include an *early arrival shift* and an *after school shift*. A school that proposes to operate with multiple instructional shifts must enact the multiple shifts from inauguration, regardless of student enrollment. For example, a K-8 school, which has two educational programs (K-5 and 6-8), may operate with one or two instructional shifts, but may not operate with three instructional shifts.

A school's schedule may often be influenced by the site's vehicle accumulation capacity and other off-site traffic operational factors. A site's vehicle accumulation capacity and other factors are typically defined within a traffic study conducted by the school.

Schools that operate with multiple instructional shifts are required to operate a "*study hall*" period. The study hall period begins with the school's first arrival time and ends at the school's last dismissal time. This period must be provided free of charge for car-pooling students that arrive prior to their instructional shift and/or are dismissed earlier than their pick-up time due to co-passenger students.

4.1 School Schedule Commitment

The school schedule will maintain the maximum number of students allowed per instructional shift and operate with the number of instructional shifts stated in **Table 4.1-1,** with a minimum 20 minute separation between any two instructional shifts. Parental vehicular access to onsite passenger loading facilities shall be open a minimum of 30 minutes prior to all arrival and dismissal time(s).

The school will operate a "study hall" period when its schedule has more than one instructional shift.

4.2 School Schedule Example

The school is required to maintain the schedule commitment at all times. This commitment will define the school staggered shift schedule format, but actual start and end times may differ. Provide an example of the school schedule at full capacity in **Table 4.2-1**.

School may offer educational programs that vary substantially from programs typically offered in schools. Provide a description of the school's schedule shifts in **Table 4.22.**

5.0 Vehicle Operations

A school has various vehicle types that access the site regularly. These vehicle types may include automobiles, school buses, and service vehicles such as food delivery trucks and trash collecting trucks. The various vehicles require clear traffic patterns to maintain the site's safety and maneuverability when accessing the site. These patterns are termed *vehicle routes*. Once vehicles are on site, they accumulate as parking, *stacking*, *queuing*, or *staging*. The following section will formally define these vehicle routes and spaces within the TOP.

5.1 Vehicle Routes

Vehicle routes consist of an entry, a pathway, and an exit. All routes must provide the appropriate geometry (e.g. lane width, effective radii) to accommodate the intended vehicles. The route should minimize the number of conflict throughout its pathway. Each portion of the route must be identified using the following formats stated below.

Vehicle Route Naming Format: Each route must be assigned a name that indicates its intended "purpose" and "service". Use the abbreviations contained in **Table 5.1-1** to appropriately name the routes. For example, a curbside automobile passenger loading zone that is to be used by parents dropping-off elementary school students would be named "A(K-5)".

Table 5.1-1 Route Name Key

"Purpose"		"Service"	
A	**Automobile Loading Zone**	**K-12**	**Student Passengers –specify grade range**
B	**Bus Loading Zone**	**Food**	**Food Delivery**
P	**Parking**	**Trash**	**Garbage Pick-up**
S	**Service Vehicle**	**Delivery**	**General Delivery**
PED	**Pedestrian Pathway**		
BIK	**Bicycle Pathway**		

Route Entry and Exit Label Format: Each route's entry and exit location must be assigned a label. Each location label will be composed of an abbreviated location type and a number. Use **Table 5.1-2** to provide the correct abbreviated location type and number. **Route names, entries, and exits must be illustrated in a plan view and attached to this document**.

Table 5.1-2 Route Entry and Exit Location - Labeling Key

Location Type		Number
DW	Driveway accessing the site	Number all the locations sequentially for each "location type" set. Start with the number 1. Begin numbering from the NE corner of the plan and increase the numbers sequentially in a clock-wise direction until all locations are labeled.
P	Point located within a plan	
E	Pedestrian and Bicycle Entrance and/or Exit	

Example: The entry and exit locations for a site that has two driveways (DW-1, DW-2) connecting to the public right-of-way, an internal drive aisle (P-1) connecting to the adjacent property, and a sidewalk connecting the main entrance (E-1) to the public right-of-way (E-2); will have three vehicle locations labeled as DW-1, DW-2, and P-1 and two pedestrian locations labeled E1 and E2.

Entry and exit points along the vehicle route may have operational restrictions. The restrictions may be in place permanently or only during the times when the TOP is in effect. Use **Table 5.1-3** to better understand the restriction notes to be used throughout this form.

Table 5.1-3 Route Restrictions Note Key

Restriction Note	Description
Right In Only	Vehicles may only enter into this location via a right turn movement.
One Way Only	All traffic is moving solely in one direction at this location.
Right Out Only	Vehicles may only exit out of this location via a right turn movement.

5.2 Vehicle Stacking and Staging Spaces

All stacking and staging spaces must be accessed through a vehicle route. The stacking, queuing, and staging spaces along a vehicle route may not impede the operations of any other concurrently operating vehicle route or space operation. For example, a stacked or queued vehicle may not be located within the maneuvering "back-out" area of a parking space designated as a *parked stacking space*.

Vehicle stacking spaces within passenger loading zones must have a passenger landing area for entering and exiting the vehicle. A 10 foot minimum *by-pass lane* must be provided for passenger loading zones whose combined stacking and queuing spaces are longer than 3 consecutive vehicle spaces. Parking spaces may be designated as stacking spaces. Access to the vehicle stacking spaces must be opened 30 minutes before the first scheduled time of use.

5.3 Automobile Curbside Passenger Loading Zone Operations

An automobile passenger loading zone is a designated area for stacking automobiles and vans to load and unload passengers to and from a prescribed landing area. The pedestrian landing area for automobile loading zones must be located on the right side of the vehicle and should have a minimum size of 5 feet by 5 feet. Typically these landing areas are considered curbside passenger loading areas because the vehicles stack adjacent to a curbed sidewalk. Automobile passenger loading zones that have a by-pass lane should taper the head of the zone (the front space of the stacking line) towards the by-pass lane to merge the exiting stacked vehicles into the by-pass lane.

Specify if the school operates one or more automobile passenger loading zones by providing information of the vehicle route that provides access to the zone within the **Table 5.3-1**, or indicate no zone by entering "None" for the route name. **The vehicle route must be illustrated in a plan view and attached to this document**.

The use of automobile passenger loading zones are limited to automobiles and vans only. Each vehicle space is measured at 22 feet long and 8 feet wide. If the school operates with an automobile passenger loading zone, indicate its capacity in **Table 5.3-2.** Enter zero (0) for the total capacity if the school does not have an automobile passenger loading zone.

5.4 School Bus Passenger Loading Zone Operations

A school bus passenger loading zone is a designated zone for stacking school buses to load and unload passengers to and from a prescribed landing area. The pedestrian landing area for school bus passenger loading zones must be located on the right side of the vehicle and should have a minimum size of 8 feet by 8 feet.

Specify if the school operates one or more school bus passenger loading zones by providing information of the vehicle route that provides access to the zone within the **Table 5.4-1**, or indicate no zone by entering "None" for the route name. **The vehicle route must be illustrated in a plan view and attached to this document**.

The use of school bus passenger loading zones are limited to only school buses during arrival and dismissal operations. Each bus vehicle space measures 50 feet long and 10 feet wide unless otherwise stated in **Table 5.4a-2**. If the school operates with a school bus passenger loading zone, indicate its capacity in **Table 5.4-2.** Enter zero (0) for the total capacity if the school does not have a school bus passenger loading zone.

The school's bus operations may be voluntary, recommended in a traffic study, and/or mandated by zoning resolution. Complete the section 5.4a to specify the minimum number of school buses required to operate at the school.

5.4a School Bus Commitment

Specify the school's busing commitment by completing **Table 5.4a-1** and **Table 5.4a-2**. Report zero (0) number of buses if the school has no busing commitment. Standard bus types have been provided in **Table 5.4a-2** for convenience.

The school is required to provide a school bus program that maintains the required minimum bus ridership participation reported in **Table 5.4a-1** and **Table 5.4a-2**; and manage the program to ensure that bus accumulations are contained within the designated bus stacking and queuing spaces.

5.5 Parking Stall Operations

All parking spaces used during the school's operation must be identified. The parking spaces must meet all governing parking stall codes.

Parked stacking spaces must have an unobstructed vehicle route to access these spaces during arrival and dismissal shifts. Parking spaces that have no assigned use during arrival and dismissal operations due to vehicle route obstructions will be termed *open parking spaces*. A cross parking agreement is required for all off-site privately managed parking spaces.

Specify the school's parking space usage and quantities by completing **Table 5.5-1**. **The parking spaces must be illustrated in a plan view and attached to this document.**

If the school has parked stacking spaces or *student parking spaces*, specify the route information that provides access to those spaces within the **Table 5.5-2**, or indicate no routes by entering "None" for the route name. **The vehicle route must be illustrated in a plan view and attached to this document.**

5.6 Service Vehicle Operations

Schools often require service vehicles to enter and maneuver within the site to provide facility services. Specify the school's service vehicle routes by providing the vehicle route information within the **Table 5.6-1**, or indicate no routes by entering "None" for the route name. **The vehicle route must be illustrated in a plan view and attached to this document.**

6.0 Pedestrian and Bicycle Facilities

A *pedestrian route* originating from the public right-of-way must be provided to all school building entrances. The route should be a minimum of 5 feet wide and have all the required elements when crossing a motorized vehicle travel lane (crosswalk, pedestrian ramp, etc.). All student entrances to the school site and buildings must be labeled by using **Table 5.1-2**. Only the main entrance is required to be labeled when multiple buildings are interconnected with pedestrian pathways.

Bicycle routes that are combined with pedestrian traffic must have an eight (8) foot minimum width.

For sites that have a bicycle storage area and that only provide standard pedestrian path widths are required to instate the following policy: "*All bicyclists must dismount their bicycles and walk their bicycles to the designated bicycle storage when entering or exiting to the school site.*"

Specify the pedestrian routes by providing the route information within the **Table 6.0-1**. **The pedestrian route must be illustrated in a plan view and attached to this document.**

Specify the bicycle routes by providing the route information within the **Table 6.0-2**, or indicate no routes by entering "None" for the route name. **The bicycle route must be illustrated in a plan view and attached to this document.**

Identify the *bicycle storage* locations throughout the site by labeling each location according to the following instructions: Each location must be label with the letters BS followed by a number (e.g. BS1). Begin with number 1. Do not repeat any location labels. List the storage locations and its capacity in **Table 6.0-3**. Enter "none" for the location to indicate no bicycle storage. **The bicycle storage location must be illustrated in a plan view and attached to this document.**

7.0 Onsite Traffic Personnel & Devices

A functioning school TOP requires adherence to the prescribed routes and operations. Often *school traffic personnel* is required to guide pedestrians within passenger loading zones, assist with traffic flow at route conflict points, and encourage adherence to prescribed routes in areas not defined by the infrastructure's geometry. The school shall supply staff to direct any vehicles which may stage or stack in through travel lanes or non-designated parking areas within the public rights-of-way onto the school site.

School traffic personnel should be stationed and assigned the following duties at the corresponding locations: assist students entering and exiting vehicles at loading zones (loading); guide traffic at points where active route pathways intersect (conflict); and encourage adherence at pathway decision points along the route (diverting). School traffic personnel school be on duty at least 30 minutes prior to scheduled shifts.

Identify the school traffic personnel stations throughout the site by labeling each station according to the following instructions: Each station must be label with the letter S followed by a number (e.g. S1). Begin with number 1. Do not repeat any station labels. List the station locations and personnel duties in **Table 7.0-1**. Enter "none" for the location to indicate no school traffic personnel stations. **The school traffic personnel stations must be illustrated in a plan view and attached to this document.**

Temporary traffic control devices (e.g. parking cones) may be useful at points within the routes that are not defined by the infrastructure's geometry and where school traffic personnel are not stationed. These temporary traffic devices may not be used in the public right-of-way unless managed by a traffic control officer.

Identify the temporary traffic control devices located throughout the site by labeling each location according to the following instructions: Each location must be label with the letter C followed by a number (e.g. C1). Begin with number 1. Do not repeat any station labels. List the device location and description in **Table 7.0-2.** Enter "none" for the location to indicate that no devices will be used. **The device locations must be illustrated in a plan view and attached to this document.**

7.1 School Personnel Commitment

The school is required to provide the school traffic personnel and temporary traffic control devices stated in **Table 7.0-1** and **Table 7.0-2**. School traffic personnel must direct the school's traffic into onsite by-pass lanes or any available vehicle staging spaces during peak traffic generation periods to create additional onsite accumulation capacity when school related vehicle are queuing within non-designated areas of the right-of-way and/or through travel lanes.

8.0 School Zone and Crossings

School zones may be provided for schools to alert drivers that they will be traveling near a school. A school zone is composed of signs and pavement markings. The school zone may also include a speed zone component that requires driver to reduce their travel speed. The speed zone is often enacted to provide control at designated *school crossings* serving elementary and middle schools. The school speed zone component may be composed of signs, pavement markings, and flashing beacons (as per the governing standard). The speed zone is required to be installed for school crossings when applicable.

Indicate the existing and/or proposed school crossing(s) serving the school site within **Table 8.0-1**. Enter "none" for the road name to indicate that no school crossing exists or is proposed for this school. **The school crossing locations must be illustrated in a plan view and attached to this document.**

Indicate the existing and/or proposed school zones associated with the school site within **Table 8.0-2**. Enter "none" for the road name to indicate that no school zone exists or is proposed for this school. Indicate if a speed zone is a component of the school zone by marking the appropriate check box.

A school speed zone should not have a continuous duration longer than two hours. If this school is served by a school speed zone, then specify the zone's posted hours in **Table 8.0-3**. Enter "none" for the period to indicate no posted hours. Use DTPW School Speed Zone Policy to determine appropriate time periods. Note that if the school is located in close proximity to an existing school speed zone (less than 300 feet), the zone and time period may be modified to cover both schools. Indicate below if the times are paired. If paired, provide areal illustrating adjacent school(s).

9.0 Offsite Traffic Control Officers

Enforcement of the TOP routes and operations within the public right-of-way may only be performed by *traffic control officers* as per section 316.640 of the Florida Statute. Traffic control officers should be present during the start of each semester (first two weeks) to reinforce the traffic patterns established by the TOP. Specify the number, location, and duration of traffic control officers required to adequately enforce the TOP within **Table 9.0-1**.

The school's endorsement of the traffic control officer enforcement plan must be stated within **Table 9.0-2**.

A traffic control officer may be stationed at an intersection to improve vehicle delays and operations during a peak traffic demand period. Schools may be required to provide the officer, or may do so voluntarily. Specify the commitment, location, and duration of the traffic control officer stations required for LOS management within **Table 9.0-3**. Enter "none" for the intersection to indicate that no officer management is voluntarily offered or required.

9.1 State Crossing Guards

A school may implement a crossing guard program to assist young (K-8) students traversing school crossings when walking to and from school. A crossing guard is not traffic control officer, unless the guard is trained as a traffic control officer and employed subject to the conditions described in section 316.640, F.S. Specify the crossing guard stations and duration within **Table 9.1-1**. Enter "none" for the station to indicate that no crossing guards are stationed to serve the school.

10.0 School Special Events

Planned school events, such as sporting events, school assemblies, and ceremonies may often generate larger peak traffic volumes and vehicle accumulations than a typical school day. The school will be required to manage the traffic impacts produced by a *school special event* within its neighborhood. Specify the special event types and provisions selected to mitigate its traffic impacts within **Table 10.0-1.** Enter "none" for event type to indicate that no school special events will planned at the school site.

11.0 Parent Traffic Handbook

The Parent Traffic Handbook specifies a parent's child safety responsibilities and commitment to achieve an efficient traffic flow during the arrival and dismissal times. Parents of new students should be issued a Parent Traffic Handbook containing this TOP and are required to sign a contract with the school, which includes adherence to pick-up and drop-off procedures. Additionally, parents should be reissued the Parent Traffic Handbook and contract each new school year. The handbook and contract should be reviewed and signed during Parent Orientation prior to the start of school. **A sample of the Parent Traffic Handbook and contact must be attached to this document.**

12.0 Table Worksheets

Complete this worksheet as per the instructions provided in sections 1.0 through 11.0 of this document.

Educational Program Worksheet

Table 2.0-1 School Location

Name	Gulliver Academy
Address	12595 Red Road, Coral Gable, FL 33156

13.0 Attachments

The following documents are required to be attached to the TOP.

1. A plan sheet showing all required illustrations stated within this TOP form. (It is suggested that TOP operations that vary by instructional shifts be shown in independent plan sheets.)
2. A Parent Traffic Handbook and contract sample.
3. A Cross-parking agreement (if utilized).

14.0 Endorsement

By signing below, the school owner agrees to operate the school as prescribed within this document and will uphold all commitments specified herein.

ACCUMULATION ASSESSMENT

(This form is used to assess the impact of the accumulation of loading vehicles staged at dismissal time)

New School Name	**Gulliver Academy**	
Surrogate School Name[1]	**Gulliver Academy**	
Date / Day / Time of Data Collection	**12/18/2018 - Tuesday** **Drop Off (7:40 AM - 8:30 AM)**	(collect maximum accumulation of staged loading vehicles at or around dismissal time on Tuesday, Wednesday or Thursday for elementary, middle, and/or high schools)
Surrogate Enrollment	**1137**	students, E (verified by school staff on same date as data collection)
Capacity of New School	**1260**	student stations,C: (max # students for each separate dismissal period @ 30 minute intervals, imposed p/u 'window' and 30% to aftercare.)
Multiplier[2]	**1.11**	[C / E]
Surrogate Accumulations[3]	**334**	passenger vehicles (including commercial vans)
	3	large school buses
	0	student vehicles (for high schools only)
Projected Accumulations	**370**	passenger vehicles
	3	large school buses
		student vehicles
Provided Spaces[4]	**532**	passenger vehicles (legal staging areas on and contiguous to site)
	0	large school buses
	0	student vehicles (legal parking on and contiguous to site)
Percent Accommodated[5]	**144%**	passenger vehicles
	0%	large school buses
		student vehicles

[1] The facility to be used as a surrogate school will be determined by MDPWD staff. The surrogate school data is used to form a basis for the projected accumulations.

[2] This figure is used to determine projected accumulations at the new school by applying it to existing surrogate school accumulations. It is calculated by dividing the new school student station capacity by the surrogate school student enrollment at the time of accumulation data collection.

[3] These are all school related loading vehicles which are, legally or illegally, staged or parked, on or neighboring the school site.

[4] Information must be obtained from a field survey or proposed site plan indicating the total spaces to be provided for each vehicle type at 22 linear feet per passenger vehicle and/or commercial van, and 50 linear feet per large school bus. Credit may be taken for legal parking in paved swale areas along school property frontage. A sketch or site plan (maximum 40 scale) showing the location of these spaces, the type of spaces in each area, and linear footage provided for each area including the width of bus bays is **required**. Onstreet bus loading bays are required to have a minimum 14 foot width, onstreet passenger vehicle loading bays are required to have a minimum 10 foot width, and onstreet passenger vehicle parking areas are required to have a minimum 8 foot width, unless otherwise allowed.

[5] This is calculated as, [(Provided Spaces / Projected Accumulations) x 100], for each vehicle type. MDPWD requires all of the large school bus and student vehicle (if applicable) accumulations to be accommodated. The Department also expects l00 % of the passenger vehicle accumulation to be accommodated depending on adjacent roadway design and classification, and limitations of the school site.

Provided Spaces[4]	**532**	passenger vehicles (legal staging areas on and contiguous to site)
	0	large school buses
	0	student vehicles (legal parking on and contiguous to site)
Percent Accommodated[5]	**123%**	passenger vehicles
		large school buses
		student vehicles

[1] The facility to be used as a surrogate school will be determined by MDPWD staff. The surrogate school data is used to form a basis for the projected accumulations.

[2] This figure is used to determine projected accumulations at the new school by applying it to existing surrogate school accumulations. It is calculated by dividing the new school student station capacity by the surrogate school student enrollment at the time of accumulation data collection.

[3] These are all school related loading vehicles which are, legally or illegally, staged or parked, on or neighboring the school site.

[4] Information must be obtained from a field survey or proposed site plan indicating the total spaces to be provided for each vehicle type at 22 linear feet per passenger vehicle and/or commercial van, and 50 linear feet per large school bus. Credit may be taken for legal parking in paved swale areas along school property frontage. A sketch or site plan (maximum 40 scale) showing the location of these spaces, the type of spaces in each area, and linear footage provided for each area including the width of bus bays is **required**. Onstreet bus loading bays are required to have a minimum 14 foot width, onstreet passenger vehicle loading bays are required to have a minimum 10 foot width, and onstreet passenger vehicle parking areas are required to have a minimum 8 foot width, unless otherwise allowed.

[5] This is calculated as, [(Provided Spaces / Projected Accumulations) x 100], for each vehicle type. MDPWD requires all of the large school bus and student vehicle (if applicable) accumulations to be accommodated. The Department also expects l00 % of the passenger vehicle accumulation to be accommodated depending on adjacent roadway design and classification, and limitations of the school site.

Intersection Summary		
HCM 6th Ctrl Delay		14.0
HCM 6th LOS		B

Notes

User approved pedestrian interval to be less than phase max green.

Unsignalized Delay for [WBR] is excluded from calculations of the approach delay and intersection delay.

Appendix I – Trip Generation Analysis Data

Land Use: 534
Private School (K-8)

Description

A private school (K-8) primarily serves students attending kindergarten through the eighth grade but may also include students beginning with pre–K classes. These schools may also offer extended care and day care. Students may travel a long distance to get to private schools. Elementary school (Land Use 520), middle school/junior high school (Land Use 522), high school (Land Use 530), private school (K-12) (Land Use 536), and charter elementary school (Land Use 537) are related uses.

Additional Data

The sites were surveyed in the 1990s, the 2000s, and the 2010s in Arizona, Florida, Maryland, Oregon, Pennsylvania, and Texas.

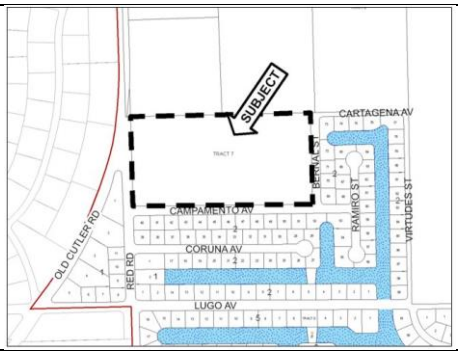
City of Coral Gables Courtesy Public Hearing Notice

June 26, 2019



Applicant:	**Gulliver Schools, Inc.**
Application:	**Modification to Conditions of Site Plan Approval**
Property:	**12595 Red Road, Coral Gables**
Public Hearing - Date/Time/ Location:	**Planning & Zoning Board** **July 10,2019 6:00 p.m.- 9:00 p.m.** **City Commission Chambers, City Hall,** **405 Biltmore Way, Coral Gables, Florida, 33134**

PUBLIC NOTICE is hereby given that the City of Coral Gables, Florida, Planning & Zoning Board will conduct a Public Hearing on **Wednesday, July 10, 2019** on the following application at the Coral Gables City Commission Chambers, City Hall, 405 Biltmore Way, Coral Gables, Florida.

An application has been submitted by Gulliver Schools, Inc. seeking the ability to increase Gulliver Academy's maximum enrollment from 1,162 to 1,260 students at its campus located at 12595 Red Road, Coral Gables. Gulliver intends to close its Montgomery campus located in Pinecrest and integrate those students into its academy campus in Coral Gables. No exterior building additions or modifications are requested to existing structures.

The Ordinance under consideration is as follows:

> *An Ordinance of the City Commission of Coral Gables, Florida, Amending Section 2 of Ordinance No. 2011-06 to Increase the Maximum Student Enrollment from 1,162 to 1,260 students for Gulliver Academy located at 12595 Red Road, Coral Gables, Florida; all other conditions of approval contained in Ordinance No. 2011-06 shall remain in effect; and providing an effective date. (LEGAL DESCRIPTION ON FILE)*

All interested parties are invited to attend and participate. Please visit the City webpage at www.coralgables.com to view information concerning the application. The complete application is on file and available for examination during business hours at the Planning Division, 427 Biltmore Way, Suite 201, Coral Gables, Florida, 33134. Questions and written comments regarding the application can be directed to the Planning and Zoning Division at planning@coralgables.com, Fax: 305.460.5327 or Phone: 305.460.5211. Please forward to other interested parties.

Sincerely,

City of Coral Gables, Florida

City Of Coral Gables
Notice Of Public hearing

All interested parties are invited to attend and participate. Upon recommendation by the Board, the applications will be scheduled for City Commission consideration. Please visit the City webpage at www.coralgables.com to view information concerning the applications. The complete applications are on file and available for examination during business hours at the Planning and Zoning Division, 427 Biltmore Way, Suite 201, Coral Gables, Florida, 33134. Questions and written comments can be directed to the Planning and Zoning Division at planning@coralgables.com (FAX: 305.460.5327) or 305.460.5211.

Ramon Trias
Director of Planning and Zoning
Planning & Zoning Division
City of Coral Gables, Florida

Any person, who acts as a lobbyist pursuant to the City of Coral Gables Ordinance No. 2006-11, as amended, must register with the City Clerk prior to engaging in lobbying activities before City Staff, Boards, Committees or City Commission. A copy of the Ordinance is available in the Office of the City Clerk, City Hall. If a person decides to appeal any decision made by a Board, Committee or City Commission with respect to any matter considered at a meeting or hearing, that person will need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based (F.S. 286.0105). Any meeting may be opened and continued and, under certain circumstances, additional legal notice will not be provided. Any person requiring special accommodations in order to attend or participate in the meeting should contact the City's ADA Coordinator, Raquel Elejabarrieta (Email: relejabarrieta@coralgables.com), Telephone: 305-722-8686, TTY/TDD: 305-442-1600, at least three (3) working days prior to the meeting. All meetings are telecast live on Coral Gables TV Channel 77.
