Hi Commissioner

Anything that can be done to repair the northbound lane of Pisano;
this is the road located southwest of Doctor’s Hospital, just south of Campo Sano.
It is full of huge potholes and totally in shambles.
When they “improve” this road with, in my view, unnecessary wide sidewalks they never
got the driving surface “right”

Also, the Cartagena Circle, by Cocoplum Road, Sunset Rd. and Le Jeune is dark in the
evenings.
There is a flagpole there which was meant to display the American flag, but since is dark the
flag is never displayed.

Thanks for your attention and help in this matter
Best

Tony Gonzalez
