Ms. Chichester expressed the difficulty she experienced on the App when trying to request the accessible freebie and was asked if it would be a lot easier going forward. Director Kinney advised there is an ongoing conversation regarding this. Board had a brief discussion regarding assuring that during contract negotiations with Freebie, discussions of making it easier for a user to request an accessible ride, having it all on just one app, and perhaps having more than one accessible vehicle be included. The Board expressed concern regarding having to share the accessible van with adjacent communities and Director Kinney advised the city to work on that.

Elevator in oldest garage (across the street from Chocolate Fashion) – The Board was advised project to address this was liked by everyone, except for how it looked on the outside, and it is being reviewed to see how it can be best addressed. Ms. DeZayas advised she would have to review the plans to see if there was any lighting incorporated and that she would address it with the capital improvement assistant director working on the project. Ms. Palacio-Pike asked regarding the speed limit in the area and how difficult it is to cross the area. Ms. DeZayas advised one of the things being looked at is reducing speed in the area, however, this is something that is ultimately Miami-Dade County's decision. Dr. Jennifer Durocher, Director of UM-NSU Card asked if there will be flashing crosswalks. Ms. Blaire asked if there would be audible crossing signals. Ms.

DeZayas advised this is not currently part of the project.
