1.	12 07 10	Catherine W. Froelich, M.D.	X		From: robert kirsner [mailto:rkirsner@bellsouth.net] Sent: Tuesday, December 07, 2010 11:57 AM To: Riel, Eric Subject: Dec 14th Dear Mr. Riel, I am attaching photos I would like to show the Commissioners at the Dec 14th meeting. I will send in 2 emails to avoid overloading your box. This set shows a child walking to school through the front gate of Gables by the Sea. Please note: 1. There is no walkway through the gate, therefore a child must walk in the street with the cars through the gate. 2. There is no path to the walkway that crosses the right turning lane. The child would have to climb through the bushes or reenter the street. 3. Although there is a walkway through the right turn lane, it does not have a light. 4. There are pictures of two cars running a red light despite the fact that the child is plainly there trying to cross the Old Cutler/Lugo intersection. 5. There is no cross walk in front of Gulliver. The child is crossed by the police officer but has to cross 7 lanes of traffic to get to a sidewalk on the Gulliver campus. Thank you, Cathy Catherine W. Froelich, M.D. (SEE ATTACHED PHOTOS)
