**DEPARTMENT HEAD RECOMMENDATION:**

Approval with conditions.

**PLANNING AND ZONING BOARD RECOMMENDATION:**

The Planning and Zoning Board at their July 12, 2023 meeting recommended approval with conditions (vote: 5-0) of the separation of a building site.

**BRIEF HISTORY:**

No changes were made since First Reading.

An Application was submitted by Mr. Andre Vazquez, Esq. on behalf of Adrian Construction Group, LLLP for conditional use for a separation of a building site. The subject property consists of 2 individually platted lots, Lot 21 and Lot 22, at 631 Zamora Ave, that total approximately 11,300 square feet (0.26 acres).

As the previous house on the property was built in 1940 occupied both lots, the property has always been considered to be a single building site. Furthermore, Lot 22 contained the accessory structures (a BBQ pit and fences) of the property. Lastly, the submitted Warranty Deed includes both lots together as a single folio. All of these findings determined that the property is a single building site in 2021, per the criteria listed in Section 14-202.6, and may therefore apply for conditional use with a proposed site plan, to be reviewed by staff, considered by the Planning & Zoning Board, and approved or denied by the City Commission.

The Applicant seeks to build two single-family homes – one home on Lot 21 and the other home on Lot 22.

**Planning & Zoning Board**

At the July 12, 2023 meeting, the Planning and Zoning Board members discussed the details of the 2019 building site determination and whether the lots should already be considered two. After a resident raised concerns about constructing 2 two-story homes in a predominantly one-story neighborhood and preservation of an existing mango tree, the Board recommended approval with Staff's recommended conditions.

The Applicant's submittal package is provided as Exhibit A. The Draft Ordinance is provided as Exhibit B.
