Petition of Support for 130 Almeria Project and Public Park

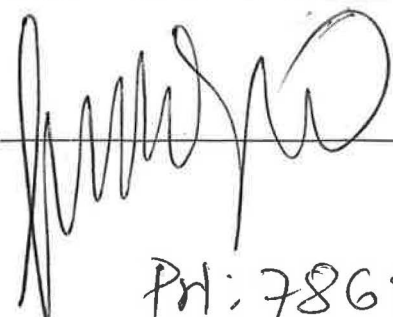

Dear Honorable Mayor, Vice Mayor, and Commissioners:

We, the undersigned City of Coral Gables residents, property and business owners, have reviewed the proposed plans for the proposed mixed-use development (with ground floor live/work and upper level residential units) located at the 130, 152, and 160 Almeria Avenue (the "Project"). We understand that the Project and corresponding zoning application also includes the preservation of the three-story bank/office building located at 2701 Ponce de Leon Boulevard and the creation of an approximately 12,500 square foot public park located at 103 Sevilla Avenue.

Based on the information provided, we support the Project as it represents a great addition to our neighborhood and is enhanced from what can be developed today under the current zoning with the provision of a large park and green space amenity for the residents of our neighborhood to enjoy.

We, the undersigned City of Coral Gables residents, property and business owners, have reviewed the proposed plans for the proposed mixed-use development (with ground floor live/work and upper level residential units) located at the 130, 152, and 160 Almeria Avenue (the "Project"). We understand that the Project and corresponding zoning application also includes the preservation of the three-story bank/office building located at 2701 Ponce de Leon Boulevard and the creation of an approximately 12,500 square foot public park located at 103 Sevilla Avenue.

Based on the information provided, we support the Project as it represents a great addition to our neighborhood and is enhanced from what can be developed today under the current zoning with the provision of a large park and green space amenity for the residents of our neighborhood to enjoy.

Petition of Support for 130 Almeria Project and Public Park

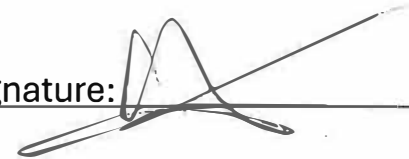

Dear Honorable Mayor, Vice Mayor, and Commissioners:

We, the undersigned City of Coral Gables residents, property and business owners, have reviewed the proposed plans for the proposed mixed-use development (with ground floor live/work and upper level residential units) located at the 130, 152, and 160 Almeria Avenue (the "Project"). We understand that the Project and corresponding zoning application also includes the preservation of the three-story bank/office building located at 2701 Ponce de Leon Boulevard and the creation of an approximately 12,500 square foot public park located at 103 Sevilla Avenue.

Based on the information provided, we support the Project as it represents a great addition to our neighborhood and is enhanced from what can be developed today under the current zoning with the provision of a large park and green space amenity for the residents of our neighborhood to enjoy.

Planning & Zoning 130 Almeria Ave - Please say No

Jennifer Davis <jenniferdavis37@icloud.com>

Tue 2/20/2024 9:50 AM

To:Planning <planning@coralgables.com>

CAUTION: External Sender. Please do not click on links or open attachments from senders you do not trust.

Good evening,

I am a local resident of over 10 years in the Craft area of Coral Gables. I oppose the project at 130 Almeria Ave.

This developer is requesting approval for a massive building at 141 feet high that is just too high. It resembles a flat towering concrete structure almost like a waffle, that lacks any architectural interest or Mediterranean character.

Our Craft area is a combination of single family with now higher density buildings. In order to achieve harmony, a community needs proper balance. This building is out of scale and does not belong in this neighborhood.

Our area does not have the necessary green space to support the large high density buildings being proposed. Their park is not a solution. Ponce Circle Park was supposed to be redeveloped and improved with the Plaza development. Millions of dollars were supposed to be invested, and that never occurred. We have become very skeptical with developer ploys of parks.

Just judging the merit of the building, it is too high, too dense and would only add to traffic. We want walkable neighborhoods, but also a community in balance with human scale, with beautiful architecture and parks. The community needs to be involved in order to achieve the best outcome. And this building as it currently stands does not match or fit within the Craft Ponce Circle park area.

We please ask you to deny their application.

Thank you,

Jennifer Davis
133 San Sebastian Ave.

Re: Support for Almeria Avenue Development.

Dear Mr. Mayor and City Commissioners,

My name is Leonela Rohaidy. I am a resident of 30 Sevilla Avenue in Coral Gables. I write this letter to you all today in support of the proposed development on the second block of Almeria Avenue, where Flagstar Bank sits today.

While there have been concerns regarding the architectural style of this forthcoming development, the reality is that in today's rendition of the City Beautiful, the Mediterranean style once championed and fiercely defended by City officials and the residents no longer exists. In essence, our City's true character has been obliterated by developers, who are in turn, protected by many of our elected officials.

Even though I have strenuously objected to many of the past developments pushed through around our neighborhood, I am cautiously supporting this project because I have found the developers to be—for once—transparent and accommodating to many of the residents and their concerns. Additionally, I am excited about the park that would be installed on the corner of Galiano Street and Sevilla Avenue. It is my further hope that this park will be inclusive for kids with special needs, like my oldest granddaughter.

It is my hope that if this development is approved, it will bring a sense of joy to the residents in the area, and visitors alike.

Best,

Leonela Rohaidy
30 Sevilla Avenue
Coral Gables, Florida 33134

Hello. Please please say No tomorrow to 130 Almeria - please see my reasons

Maricris Longo <maricrislongo@gmail.com>

Mon 2/19/2024 2:09 PM

To:Planning <planning@coralgables.com>

CAUTION: External Sender. Please do not click on links or open attachments from senders you do not trust.

Dear Planning and Zoning Members

I appreciate your participation and dedication in the Planning and Zoning board. Please reject the project proposal for 130 Almeria Avenue on Tuesday, February 20.

My reasons below. thank you

I own a single-family house at 240 San Sebastian Avenue and I live at a single-family house at 16 Phoenetia Avenue. Both of these properties are located in the heart of the city.

For several years now, I have invested in residential neighborhoods walking distance to the center in our city, because I love the city of Coral Gables and I enjoy immensely the sense of community of an urban lifestyle. However, in the last 8 years I have had to fight unreasonable and unappealing developments to protect my investments and my quality of life.

We are fortunate to have single family residential neighborhoods walking distance to the center because people who live in these areas, like myself, help the center thrive by using the services it offers, and by getting involved in order to maintain its character and value.

I oppose the project at 130 Almeria for the following reasons:

The developer for 130 Almeria Avenue is requesting a change of zoning from 70 ft. high to 141 ft. high in a parcel that is 43,267 sq ft. big. And, even though the developer is proposing a park on Sevilla Street and he is also proposing to keep the small charming Amtrust Mediterranean building on the corner of Ponce, the footprint and height of the project remains too large. Additionally, the sizeable impact of a project of this magnitude has many negative implications on traffic, the infrastructure's capacity and our **unique branding**.

The developer will tell you that his team can build "as-of-right" 70 ft. tall in all the parcels that they presently own without providing for a park or saving the small Mediterranean Building on Ponce. **However, because his parcel is larger than 20,000 sq ft. in size, and due to its potential impact, the law protects the residents, and the developer must go through the conditional use process for approval. Therefore, even at 70 ft high his proposed project is not "as-of-right"**.

I understand that the developer needs to maximize the use of the land to make his project viable, and I also get why developers feel entitled to request such dramatic changes in height. However, the proposed project's design is not attractive, it lacks human-scale and it is not pedestrian-friendly. There are ways to design beautiful urban buildings that are built to human

scale with attractive proportions and massing that incentivize the pedestrian to walk by, or even slow down to admire or photograph the buildings.

This building as designed is not a building I would want to walk or ride bicycle by, visit or even photograph. 130 Almeria Avenue, if approved, will “**knock off**” the value of City Beautiful and its branding. I urge you to please say NO on Tuesday, February 20.
