

**PETITION AGAINST HISTORIC DESIGNATION
OF PROPERTY LOCATED AT 110 PHOENETIA AVE**

We the undersigned hereby express our opposition to the request for historic landmark designation of the property located at 110 Phoenetia Avenue, Coral Gables, Florida. Historic landmark designation should be reserved for buildings and sites which are the best examples of a particular architectural style or period in history or properties that are associated with important events or persons in our community. The landscaping and wall of the property located at 110 Phoenetia Avenue had some religious value but do not possess sufficient historical, cultural, architectural, or aesthetic significance to merit landmark status. Accordingly, this property should not be designated as a historic landmark. Designating this property as a historic landmark would set a bad precedent for our community and will negatively impact the incredibly important role of historic preservation.

The landscaping and wall of the property located at 110 Phoenetia Avenue had some religious value but do not possess sufficient historical, cultural, architectural, or aesthetic significance to merit landmark status. Accordingly, this property should not be designated as a historic landmark. Designating this property as a historic landmark would set a bad precedent for our community and will negatively impact the incredibly important role of historic preservation.

**PETITION AGAINST HISTORIC DESIGNATION
OF PROPERTY LOCATED AT 110 PHOENETIA AVE**

We the undersigned hereby express our opposition to the request for historic landmark designation of the property located at 110 Phoenetia Avenue, Coral Gables, Florida. Historic landmark designation should be reserved for buildings and sites which are the best examples of a particular architectural style or period in history or properties that are associated with important events or persons in our community. The landscaping and wall of the property located at 110 Phoenetia Avenue had some religious value but do not possess sufficient historical, cultural, architectural, or aesthetic significance to merit landmark status. Accordingly, this property should not be designated as a historic landmark. Designating this property as a historic landmark would set a bad precedent for our community and will negatively impact the incredibly important role of historic preservation.

We the undersigned hereby express our opposition to the request for historic landmark designation of the property located at 110 Phoenetia Avenue, Coral Gables, Florida. Historic landmark designation should be reserved for buildings and sites which are the best examples of a particular architectural style or period in history or properties that are associated with important events or persons in our community. The landscaping and wall of the property located at 110 Phoenetia Avenue had some religious value but do not possess sufficient historical, cultural, architectural, or aesthetic significance to merit landmark status. Accordingly, this property should not be designated as a historic landmark. Designating this property as a historic landmark would set a bad precedent for our community and will negatively impact the incredibly important role of historic preservation.

**PETITION AGAINST HISTORIC DESIGNATION
OF PROPERTY LOCATED AT 110 PHOENETIA AVE**

We the undersigned hereby express our opposition to the request for historic landmark designation of the property located at 110 Phoenetia Avenue, Coral Gables, Florida. Historic landmark designation should be reserved for buildings and sites which are the best examples of a particular architectural style or period in history or properties that are associated with important events or persons in our community. The landscaping and wall of the property located at 110 Phoenetia Avenue had some religious value but do not possess sufficient historical, cultural, architectural, or aesthetic significance to merit landmark status. Accordingly, this property should not be designated as a historic landmark. Designating this property as a historic landmark would set a bad precedent for our community and will negatively impact the incredibly important role of historic preservation.
