**DEPARTMENT HEAD RECOMMENDATION:**

Approval with conditions.

**PLANNING AND ZONING BOARD RECOMMENDATION:**

The Planning and Zoning Board at their February 9, 2022, meeting recommended approval with Staff's conditions of the proposed Planned Area Development (PAD) and Conditional Use Review (vote: 4-0). The Board also included a recommendation for the Commission to consider establishing a maximum length of buildings for future Residential Infill Regulations (RIR) buildings (vote: 4-0).

**BRIEF HISTORY:**

The proposed project referred to as "301-341 Madeira" is a multi-family project with ground floor live/work units and is located in the North Ponce area on Madeira, between Salzedo and Le Jeune Road. The property is currently occupied by four 1920's apartment buildings, two mid-century apartment buildings, and vacant land. It consists of twenty-one platted lots, totaling approximately 64,474 square feet (1.43 acres). The proposed building consists of 9 live-work units on the ground level, 135 residential units on upper levels, 227 parking spaces onsite, with a 5,270 sq. ft. public park area located to the side of the building. The proposed building height is 9-stories at 100 feet.

The Applicant is proposing a PAD designation to allow flexibility in the following requirements of the underlying zoning district of Multi-family 2 (MF2):

- **Front Setback:** Reduce the front setback from the required 10 feet at certain locations to allow the encroachment of 4 covered stoops that are wider than the permitted 5 feet; and
- **Stepbacks:** Reduce front upper floor stepback (above 45 feet) of 10 feet minimum to 3'-2" on Madeira.

The Applicant is also requesting Conditional Use review to utilize the Residential Infill Regulations (RIR) provisions which allows an increase of the building height and increase of the maximum density from 50 units/acre to 100 units/acre.

## **Planning & Zoning Board Meeting**

At the February 9, 2022, Planning & Zoning Board meeting, many members of the public and of the Board expressed concerns for the length of the proposed building, which is measures roughly 500 feet long. There were also concerns regarding the maximum assemblage of property, density, and visitor parking. Therefore, the Board recommended for the City Commission to consider these issues in the Zoning Code (vote: 4-0). Staff has provided a text amendment as Exhibit D that limits the length of RIR buildings to 300 feet, which is consistent with past RIR building lengths approved by the Commission.

The Applicant has since revised their proposed submittal as follows:

- Reduction of the length of the building tower and pedestal
- Increase of the total size of the public park from 4,080 sq. ft. to 5,270 sq. ft.
- Reduction of 8 units, from 143 to 135
- Increase of total parking spaces, from 212 to 227
- Designation of visitor parking spaces

The draft Ordinance of the Planned Area Development (PAD) is provided as Exhibit A. The draft Resolution for the Conditional Use is provided for informational purposes as Exhibit C. The draft of the maximum building length is provided for discussion and direction as Exhibit D.
