Mr. Dayron,  
This is my second email attempt and I have tried calling you several times. Just left one voicemail weeks ago. Please I need help with this matter as the client is getting a bit frustrated since the inspector really wants this issue to be closed out.

Regards,

Hello Dayron,

I am attempting to pull a permit for the building at **350 South Dixie Hwy Miami, FL 33133 [ folio number : 03-4120-025-0050 ]** . However, my company never had to pull a permit specifically for glass replacement , we pull permits for new windows and doors not only glass. With that being said I would like some guidance on how I can pull a permit for this type of service. What is that I need ? are we in need of elevations? do these glasses need NOA's? There are no NOA's on glass alone.

Please advise.

**Thank you,**

**Nour AlJamal**
