Clifford,

Per our conversation on Tuesday, please cite by today as a reminder and to include the section below in reference to screening all windows.

I would like to go over what your citing before you input today. Read the section below.

Thank you,

- **Sec. 105-283. - Screening required.**

Every window, door, and other opening to outdoor space in the exterior of every structure used for human habitation shall be effectively protected against the entrance of insects. Such doors and other openings to outdoor space shall be supplied with either a self-closing device or a self-closing screen door. Every window and other opening to outdoor space shall be equipped with approved screening. A residential entrance with an ornamental solid door shall not be required to be screened.
