Legislative Policy Review

SB 1346/HB 1317 Local Regulation of Nonconforming or Unsafe Structures

- This legislation, which was ultimately kept from passing this year, would have made it easier to demolish historic structures by preventing local governments from restricting or prohibiting demolish in certain circumstances

SB 1170/HB 111 Flooding and Sea Level Rise Vulnerability Studies

- This legislation will allow DEP to provide grants to counties or municipalities for feasibility studies and the cost of permitting for measures that reduce the impact of flooding and sea level rise and focus on nature-based solutions.

SB 154/HB 799 Flood Insurance Requirements

- Lawmakers were able to tweak the flood insurance requirement put into place during the recent special session to alleviate unintended consequences for those who live in condominiums
- This legislation also included funding for a state wind mitigation study

2023
