I. SUMMARY

FG Construction, LLC acknowledges the problem of substance and alcohol abuse is a serious threat to its employees, customers and the general public. To address these concerns, FG Construction, LLC maintains a drug-free workplace through adoption of its Drug-Free Workplace Program. This Program complies with Florida law as set forth in Florida Statute Sections 440.101 and 440.102. and in Chapter 59A-24 of the Florida Administrative Code.

It is a condition of employment with FG Construction, LLC for an employee to refrain from reporting to work or working with the presence of drugs or alcohol in his body. Violation of the terms of this Program will result in discipline up to and including termination of employment. An employee injured in the course and scope of employment that refuses to submit to a test for drugs or alcohol, and/or is tested and has a positive confirmation of drug or alcohol use, also forfeits his or her eligibility for medical and indemnity benefits under the Workers' Compensation Act.

Drug and alcohol addiction is a complex, yet treatable condition. For this reason, this Program is designed to not only eradicate substance abuse in the workplace, but also to encourage substance users to seek treatment and rehabilitative treatment.

II. PROHIBITED CONDUCT

A. Drug Use:

Employees are absolutely prohibited from using, possessing, distributing, manufacturing, selling, attempting to sell or being under the influence of drugs while on or off the job. As used in this Program, improper drug use is the use of any drug which:

- a. Is not legally obtainable;
- b. Is legally obtainable but has not been legally obtained (for example, using another person's prescription drugs);
- c. Is being used in a manner or for a purpose other than prescribed (for example, use of depressants and stimulants not prescribed for current annual treatment by an accredited physician)

A positive confirmed test result pursuant to the testing described in this Program is presumed to be a violation of this section. Some examples of illegal drugs include

marijuana, amphetamines, cannabinoids, cocaine, hallucinogens (“PCP”, “LSD”, “DMT”, Mescaline, Psilocybin, etc.) methaqualone, opiates, barbiturates, benzodiazepines, synthetic narcotics or designed drugs.

B. Alcohol Use:

Employees are absolutely prohibited from using, possessing, distributing, manufacturing, selling, attempting to sell or being under the influence of drugs while on duty, while on FG Construction, LLC property or on any work site. The term “alcohol” includes any beverage, mixture or preparation containing ethyl alcohol, including, but not limited to, distilled spirits, beer or malt beverages, wine and intoxicating liquors. A positive confirmed test result, pursuant to the testing described in this Program, is presumed to be a violation of this section.

C. Refusal to submit to Testing:

Any employee who refuses to submit to drug or alcohol testing pursuant to this Program, will be subject to discipline, up to and including termination. A job applicant who refuses to submit to testing, or whose test results are confirmed positive, will be denied employment but may initiate another employment inquiry with FG Construction, LLC after one (1) year with approval of Senior Management.

D. Criminal Drug or Alcohol Offenses:

Employees must not engage in conduct which results in a conviction, a finding of “adjudication withheld” or a plea of no contest (also known as “nolo contendere” plea) for a criminal drug or alcohol offense.

Employees must report a conviction to Senior Management within five (5) calendar days of such conviction. The conviction must be reported regardless of whether a conviction was entered after a trial, guilt plea or a plea of no contest. A plea of no contest, by itself (regardless of whether an actual conviction occurs), or a finding of “adjudication withheld”, must be reported in the same manner as a conviction.

In deciding what disciplinary action to take when this section is violated, FG Construction, LLC may consider the nature of the charges, the employee’s present job assignment, the employee’s record with FG Construction, LLC, factors relative to the impact of the employee’s conviction or no contest plea on the conduct of FG Construction, LLC business, or any other factors FG Construction, LLC deems relevant to consider.

III. TYPES OF TESTING

Current Employees and persons who have been offered employment with FG Construction, LLC are subject to the types of drug and alcohol testing listed below:

A. Post-Offer Job Applicant Testing

A job applicant who has applied for a position with FG Construction, LLC and has been offered employment conditional upon successfully passing a drug test will undergo screening for the presence of drugs or alcohol. An applicant who refuses to take the test or whose test results are confirmed positive will be denied employment at that time, but may initiate another employment inquiry with FG Construction, LLC after one (1) year with approval of Senior Management. Positive test results may be challenged by the applicant as set forth in Section V below.

B. Reasonable Suspicion Testing

An employee will be requested to submit to drug or alcohol testing if there is reasonable suspicion of drug or alcohol use in violation of this Program. Reasonable suspicion includes, but is not limited to, any of the following:

- Observable phenomena while at work, such as direct observation of drug use or the physical symptoms of being under the influence of drugs, such as drowsiness or sleepiness, slurred or incoherent speech, unusually aggressive behavior, severe mood swings, lack of coordination and the like.
- Abnormal conduct, erratic behavior or a significant deterioration in work performance.
- A report of drug use provided by a reliable and credible source.
- Evidence that an individual has tampered with a drug or alcohol test during his or her employment with FG Construction, LLC.
- Evidence that an employee has caused, contributed to or has been involved in an accident while at work.
- Evidence that an employee has used, possessed, sold, solicited, distributed or transferred drugs while working on an FG Construction worksite, while on FG Construction property or while operating FG Construction vehicles, equipment or any other machinery.

C. Routine Fitness-for-Duty Exams

Employees who undergo a routinely scheduled fitness-for-duty medical examination will be required to submit to drug and alcohol testing as part of such examination.

D. Follow-up Testing

Employees who enter a drug or alcohol rehabilitation program or an employee assistance program for drug or alcohol related problems, will be required to submit to follow-up drug and alcohol testing after completing the program. Such testing will be conducted at least once every six (6) months for a period of two (2) years after completion of the program. Advance notice of the follow-up testing dates will not be given to the employee to be tested.

IV. LIST OF DRUGS TESTED

Employees who submit to testing pursuant to this Program will be tested for the following drugs:

- Barbiturates

- Methaqualone
- Opiates
- Synthetic Narcotics (Methadone and Propoxyphene)

V. TEST RESULTS

A. Positive Results

Upon receipt of a positive confirmed test result, FG Construction, LLC will thereafter notify the employee or job applicant in writing of the following:

- The existence of the positive confirmed test result
- The consequences of the positive confirmed test result
- The options available to the employee or job applicant
- Upon request, a copy of the test results will be provided

B. Challenges to Results

An employee or job applicant who receives written notification of a positive confirmed test result may contest or explain the result to FG Construction, LLC's Medical Review Officer ("MRO"), to explain why such result does not violate the terms of the Program. Such contest or explanation must be provided in writing by the employee or job applicant within five (5) working days after receipt of written notification of the positive confirmed test result. In considering the employee or job applicant's challenge or explanation, the "MRO" may request authorization from the employee or job applicant to obtain medical documentation from the employee or job applicant's physician.

If the challenge or explanation provided by the employee or job applicant is unsatisfactory to the "MRO", the "MRO" will report the positive confirmed test result back to FG Construction as verified. The employee or job applicant may thereafter contest the positive confirmed test result to the extent allowable under the law and rules adopted by the Agency for Health Care Administration. The employee or job applicant must notify the testing laboratory if he or she brings any administrative or civil action pursuant to Florida Statute Section 440.102. To the extent permitted by law, an employee or job applicant may bring an appropriate appeal in an applicable court.

C. Reporting of Medication Use

Before or after any testing pursuant to this Program, an employee or job applicant may confidentially report the use of any prescription or nonprescription medication to the "MRO" retained by FG Construction, LLC. If an employee or job applicant is using a medication which could alter a drug test result (see Subsection C below), the employee or job applicant **must** promptly report this fact to the "MRO".

An employee must notify his or her supervisor if he or she is using a medication that may limit his or her ability to perform their job. To verify the extent of such limitations, FG Construction, LLC may require the employee to provide documentation of the medication (including, but not limited to, a copy of a physician's statement showing the medication required and extent of prescribed use). FG Construction, LLC may require authorization to obtain the same information directly from the employee's physician. Failure to report the use of medication or failure to cooperate in verification under this section may result in disciplinary action, up to and including termination.

D. Technical Information

Employees or job applicants may consult with the "MRO" for technical information regarding prescription or nonprescription medication.

VI. CONFIDENTIALITY

FG Construction, LLC recognizes that information regarding this Program (including reports, test results and other information communicated in the course of this Program's operation) should be kept confidential to the extent reasonably possible. FG Construction, LLC, its "MRO" and its testing laboratory will keep all such information confidential to the extent required by law. Voluntary written consent of the employee or job applicant tested will be obtained when such consent is legally required.

VIII. DISCIPLINE

FG Construction LLC considers compliance with its Drug-Free Workplace Program to be a significant job requirement for all employees. Any violation of any section of this Program is taken seriously and is considered misconduct connected with work. An employee who violates this Program demonstrates a willful and wanton disregard for FG Construction LLC's interests, and such a violation will be considered a deliberate violation and disregard of the standards of behavior which FG Construction LLC has a right to expect of its employees. Violations of this program are also considered to constitute carelessness and negligence to a degree that manifests culpability, wrongful intent, and an intentional and substantial disregard of FG Construction LLC's interests and of the employee's duties and obligations. Violations of this Program may result in discipline up to and including termination of employment.

ADDENDUM

This certification is incorporated as part of the contract for Citywide Drainage Improvements.

The Contractor acknowledges and certifies that in accordance with the mandatory requirement that this provision be set forth in all FEMA related contracts, that it shall comply with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5).

Under 40 U.S.C. s. 3702, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week.

The requirements of 40 U.S.C. s. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchase of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

More particularly, as set forth in 29 CFR §.5.5(b) which provides the required contract clauses:

(1) *Overtime requirements.* No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) *Violation; liability for unpaid wages; liquidated damages.* In the event of any violation of the clause set forth in paragraph (b)(1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages and interest from the date of the underpayment. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchpersons and guards, employed in violation of the clause set forth in paragraph (b)(1) of this section, in the sum of \$32 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (b)(1).

(3) *Withholding for unpaid wages and liquidated damages.*

- i. Withholding Process. The City may, upon its own action, or must, upon written request of an authorized representative of the Department of Labor, withhold or cause to be withheld from the contractor so much of the accrued payments or advances as may be considered necessary to satisfy the liabilities of the prime contractor or any subcontractor for any unpaid wages; monetary relief, including interest; and liquidated damages required by the clauses set forth in this paragraph (b) on this contract, any other federal contract with the same prime contractor, or any other federally assisted contract subject to the Contract Work Hours and Safety Standards Act that is held by the same prime contractor (as defined in § 5.2). The necessary funds may be withheld from the contractor under this contract, any other federal contract with the same prime contractor, or any other federally assisted contract that is subject to the Contract Work Hours and Safety Standards Act and is held by the same prime contractor, regardless of whether the other contract was awarded or assisted by the same agency, and such funds may be used to satisfy the contractor liability for which the funds were withheld.
- ii. Priority to withheld funds. The Department has priority to funds withheld or to be withheld in accordance with paragraph (a)(2)(i) or (b)(3)(i) of this section, or both, over claims to those funds by:

(A) A contractor's surety(ies), including without limitation performance bond sureties and

- payment bond sureties;
- (B) A contracting agency for its reprocurement costs;
- (C) A trustee(s) (either a court-appointed trustee or a U.S. trustee, or both) in bankruptcy of a contractor, or a contractor's bankruptcy estate;
- (D) A contractor's assignee(s);
- (E) A contractor's successor(s); or
- (F) A claim asserted under the Prompt Payment Act, 31 U.S.C. 3901-3907.

(4) *Subcontracts.* The contractor or subcontractor must insert in any subcontracts the clauses set forth in paragraphs (b)(1) through (5) of this section and a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor is responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (b)(1) through (5). In the event of any violations of these clauses, the prime contractor, and any subcontractor(s) responsible will be liable for any unpaid wages and monetary relief, including interest from the date of the underpayment or loss, due to any workers of lower-tier subcontractors, and associated liquidated damages and may be subject to debarment, as appropriate.

(5) *Anti-retaliation.* It is unlawful for any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, or to cause any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, any worker or job applicant for:

- i. Notifying any contractor of any conduct which the worker reasonably believes constitutes a violation of the Contract Work Hours and Safety Standards Act (CWHSSA) or its implementing regulations in this part;
- ii. Filing any complaint, initiating, or causing to be initiated any proceeding, or otherwise asserting or seeking to assert on behalf of themselves or others any right or protection under CWHSSA or this part;
- iii. Cooperating in any investigation or other compliance action, or testifying in any proceeding under CWHSSA or this part; or
- iv. Informing any other person about their rights under CWHSSA or this part.

Further Compliance with the Contract Work Hours and Safety Standards Act

- (1) The contractor or subcontractor must maintain regular payrolls and other basic records during the course of the work and must preserve them for a period of three years after all the work on the prime contract is completed for all laborers and mechanics, including guards and watchpersons, working on the contract. Such records must contain the name; last known address, telephone number, and email address; and social security number of each such worker; each worker's correct classification(s) of work performed; hourly rates of wages paid; daily and weekly number of hours actually worked; deductions made; and actual wages paid.
- (2) Records to be maintained under this provision must be made available by the contractor or subcontractor for inspection, copying, or transcription by authorized representatives of the Department of Homeland Security, the Federal Emergency Management Agency, and the Department of Labor, and the contractor or subcontractor will permit such representatives to interview workers during working hours on the job.

Bao Dang _____, hereby certifies that it shall adhere to the Work Hours and Safety Standards regulations throughout the duration of this Contract as set forth above.

Contractors and their subcontractors who apply or bid for an award for an infrastructure project subject to the domestic preference requirement in the Build America, Buy America Act shall file the required certification to the City with each bid or offer for an infrastructure project, unless a domestic preference requirement is waived by FEMA. Contractors and subcontractors certify that no federal financial assistance funding for infrastructure projects will be provided unless all the iron, steel, manufactured projects, and construction materials used in the project are produced in the United States. BABAA, Pub. L. No. 117-58, §§ 70901-52. Contractors and subcontractors shall also disclose any use of federal financial assistance for infrastructure projects that does not ensure compliance with BABAA domestic preference requirements. Such disclosures shall be forwarded to the recipient who, in turn, will forward the disclosures to FEMA, the federal agency; subrecipients will forward disclosures to the pass-through entity, who will, in turn, forward the disclosures to FEMA.

For FEMA financial assistance programs subject to BABAA, contractors and subcontractors must sign and submit the following certification to the next tier (e.g., subcontractors submit to the contractor; contractors submit to the recipient or subrecipient) each bid or offer for an infrastructure project that has not been waived by a BABAA waiver:

"The undersigned certifies, to the best of their knowledge and belief, that:

The Build America, Buy America Act (BABAA) requires that no federal financial assistance for "infrastructure" projects is provided "unless all of the iron, steel, manufactured products, and construction materials used in the project are produced in the United States." Section 70914 of Public Law No. 117-58, §§ 70901-52.

The undersigned certifies that for the IFB 2025-026 – Citywide Drainage Improvements that the iron, steel, manufactured products, and construction materials used in this contract are in full compliance with the BABAA requirements including:

1. All iron and steel used in the project are produced in the United States. This means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.
2. All manufactured products purchased with FEMA financial assistance must be produced in the United States. For a manufactured product to be considered produced in the United States, the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55% of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation.
3. All construction materials are manufactured in the United States. This means that all manufacturing processes for the construction material occurred in the United States.
4. The FG Construction, LLC (*insert name of contractor or subcontractor*), certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the FG Construction, LLC (*insert name of contractor or subcontractor*) understands and agrees that the provisions of 31U.S.C. Chap. 38, Administrative Remedies for False Claims and Statements, apply to this certification and disclosure, if any.
