Re: Cartegraph Sole Source Justification for Cyclomedia Data Collection

This letter confirms that Cartegraph Systems, LLC. partners with Cyclomedia as its preferred vendor for digital 360-degree image capture, asset extraction, and asset data load into the Cartegraph Operations Management System (OMS).

Cyclomedia delivers best-in-class HD GeoCycloramas utilizing data collection methodologies and products that result in a successful Cartegraph OMS implementation. Cyclomedia allows organizations to use highly accurate and complete asset inventories within Cartegraph by offering a seamless data load into Cartegraph OMS with an optional imagery viewer integration.

Data Collection from other vendors will require additional service level engagement.
