We have a DERM application in process now. It could be a year before we get to the city.... in addition the mangroves are currently in violation from already having been cut without a permit. because of this violation the trimming may be severely limited.

Do you want a copy of the DERM permit application?

G

Mr. Larson,

To comply with the violation the owners will need to get approval from DERM and maintained the canal free of vegetation (including the mangroves).

When they apply please send me anything stating that its on process.....

Thank you for your cooperation.

If you need to communicate with me please call me.

Good morning Roman,

The owners received this letter of violation.

It is a bit concerning as it references the mangroves in the rear of the property, it is illegal to cut the mangroves, and the owners already face up to \$50,000 in fines for illegally cutting the mangroves.

Can you advise us as to how we should proceed with this?

Regards

Glen
