*****COURTESY 2-YEAR NOTICE*****

Notice of Required Inspection for Recertification of 30 Years or Older Building

Dear Property Owner:

Per the Miami-Dade County Property Appraiser's office the above referenced property address is thirty (30) years old, or older, having been built in 1965. In accordance with the Miami-Dade County Code, Chapter 8, Section 8-11(f), a qualified individual must inspect said building and a **completed** Recertification Report ("Report") must be submitted by you to this Department **in 2025**. A completed Report includes 1) Cover letters stating the structure meets (or does not meet) the electrical and structural requirements for recertification, 2) Building Structural Report, 3) Building Electrical Report, 4) Parking Lot Illumination Standards Form 5) Parking Lot Guardrails Requirements Form, and 6) (For threshold buildings only) Self-qualification letters from the inspecting engineers with accompanying DBPR proof of specialization. Submittal of the Report does not constitute recertification; it must be **approved** and the Letter of Recertification must be issued by this Department.

Threshold buildings (i.e. buildings greater than 3 stories or greater than 50 ft tall, or with an Assembly Occupancy>5000 s.f. & Occupant load > 500 people) shall be recertified by Structural and Electrical Professional Engineers only. Self-qualification letters will be required with proof of DBPR structural and electrical specialization.

Any buildings that are not threshold buildings may be recertified by any Florida Registered Architect or Professional Engineer and self-qualification letters will not be required.

If no deficiencies are identified, the structure will only be recertified once the reports and forms have been submitted and approved.

If deficiencies are identified, they shall be reported to the Building Official within 10 days, or within 24 hours if there is an immediate danger identified. A completed report shall be submitted to this Department. In addition, a structural and/or electrical affidavit from the inspector will be required, with additional affidavits every 180 days, as needed so that the building can continue to be occupied while repairs are carried out. The Building Official is able to grant an extension of one hundred fifty (150) calendar days from the due date or the date the deficiencies were identified (whichever is sooner) to allow time to obtain the necessary permits and perform the repairs. The structure

will only be recertified once a *revised* report and all required information is submitted and approved, and all required permits are closed.

Proprietary or modified recertification forms from the inspectors will not be accepted. Only current municipal recertification forms will be accepted. The Architect or Engineer shall obtain the required Forms from the following link:

<https://www.miamidade.gov/global/economy/building/recertification.page>.
