(d) The board may not direct payment of the participant's net credit over a period described in subsection (c)(2) of this section unless the board will commence payment to the designated beneficiary no later than the December 31 following the close of the calendar year in which the participant's death occurred or, if later, and the designated beneficiary is the participant's surviving spouse, December 31 of the calendar year in which the participant would have attained age 70½ (age 72 for participants who would have attained age 70½ on or after January 1, 2020). The board, only upon the written request of the participant or of the participant's surviving spouse, will recalculate the life expectancy of the participant's surviving spouse not more frequently than annually, but may not recalculate the life expectancy of a nonspouse designated beneficiary after the board commences payment to the designated beneficiary. Upon the beneficiary's written request, the board must accelerate payment of all, or any portion of, the participant's unpaid net credit, as soon as administratively practicable following the effective date of that request.
