Good morning commissioner,

This is the situation of the roundabout a los Pinos court. Each time they repair it the trucks run over and brake the curb. Can we put a plan to have slanted curbs in Coral Gables and stop repairing and breaking all the time. I have asked in the past but nobody does anything about it. If you can put it in the Capital improvement plan it would really make a difference.

Best regards

Juan Carlos Pinilla

151 los Pinos court
