

Good afternoon everyone. To start the discussion on Passenger Loading Zones and where they should be located, Parking believes the follow locations are high traffic locations we should consider.

1. 396 Alhambra Circle
2. 220 Alhambra Circle
3. 255 Alhambra Circle
4. 124 Alhambra Plaza
5. 2299 Ponce de Leon
6. 300 Giralda Ave.
7. 50 Aragon Ave.
8. 2386 Galiano
9. 100 Andalusia
10. 200 Andalusia
11. Between 301 Miracle Mile and Season's 52

By code, a vehicle must be actively loading or unloading to use a passenger loading zone with a Maximum of 5 minutes. Possibly we could post a shorter time limit on the signs if needed.
