Subject: 2700 Ponce

Gus,

I spoke to Suramy about 2700 Ponce.

As you know, the project is red-tagged.

Suramy will leave the red-tag in place until the owners provide us with a structural engineer's report regarding the stability of the building and assessing the need for bracing.

As far as tomorrow's CEB, the City wants to give them 6 months to finalize the construction, then \$250/day for each day afterwards.

Suramy intends to be there for this case tomorrow.

Please let us know if you have any questions.

Thank you sir.
