Agenda Item G-9 [3:00:45 p.m.]

A discussion regarding information security  
(Sponsored by Commissioner Mena)

Mayor Valdes-Fauli: OK. A discussion regarding information security. We are really in a hurry, so let's make this.

Commissioner Mena: Yes. Its going to be very straightforward. This is just in response to, you've been seeing a lot of cities throughout the country and most recently here in Key Biscayne that have been hacked, and so I had asked staff to give me an update and briefing on what we are doing, and I just asked them to give a very brief sort of update today.

City Manager Iglesias: It will be a general update because I don't think we can talk about specifics, just a general update.

City Commission Meeting  
July 9, 2019

Chief Information Officer Rodolfo: Thank you Commissioner. So, we follow standards and best practices, we work with auditors and industrial experts. Basically, we analyze the risks and the threats that are happening outside and all those cases, and it's a continuous implement process. And we remain alert and vigilant of what's happening and also, we keep protecting our assets.

Commissioner Mena: And I don't know if you all had a chance to be briefed by Raimundo.

Vice Mayor Lago: I want to say thank you for putting this on the agenda.

Commissioner Mena: It gave me a lot of comfort to know all the processes and things that you have in place to try to protect our data. Please keep doing a great job, I know you will, and I really appreciate your briefing us on that.

City Manager Iglesias: Unfortunately, Commissioner we can't bring this up now, but they are doing a very good job, IT is doing an excellent job in protecting.

[End: 3:02:07 p.m.]
