SUMMARY OF PROPOSED CHANGES

APPENDIX C - MEDITERRANEAN VILLAGE FORM-BASED PLANNED AREA DEVELOPMENT

2. Massing
Building mass shall be based on basic form and shape that Classical Proportions. The building shall be designed to include meaningful change facade depth, materials, and to express important stories such as a Primary Pediment story, or a Terrace.

3. Vertical Hierarchy
All buildings shall have a clearly defined, top story. The top of the building shall be designed with a simple form that expresses the function. The top shall express the special of the building across the day, and at the scale of the City. The roof of each vertical layer shall be marked, balanced or stepped.

1. Classical Proportion
All buildings shall be designed according to the rules of Classical Proportion. The golden section, square, circle, inscribed area, and time-scaled ratio shall be used to determine overall building form, massing, roof lines, and the location and scale of architectural features such as Towers, Cornice lines, water tables, and entrance features. Architectural elements such as Arches, Columns, and Windows shall also be designed in accordance with the rules of Classical Proportion.

4. Emphasis
Top buildings can be an application of special mass. These elements shall emphasize the principles of Massing and Hierarchy of a Building. Located on their emphasis on this page illustrate architectural elements are lines of axis in the building.

5. Fenestration
The rhythm and spacing of openings in the building facade, and the Proportion of opening to wall shall refer to the overall Proportion, Massing, style, formality, and function of the building itself. Fenestration includes Windows, Doors, and Garage Openings. Fenestration shall express each floor of the building. The verticality of opening bays may differ depending on the main hierarchy. To create an emphasis on a Building Mass, such as a principal entrance or tower, an odd number of opening bays is recommended. To de-emphasize a Building Mass, such as in a secondary mass or linking multiple primary masses, an even number of opening bays is recommended. Similar to the alignment of openings, the visual weight of the building shall align from roof to base.

SUMMARY OF PROPOSED CHANGES

INTENT, CRITERIA, AND PRECEDENTS:

- Strengthen **intent/purpose and review process** of Mediterranean Bonus
- Remove criteria that are **already required with underlying zoning** district requirements and **move/relocate certain criteria** to more appropriate sections of the Zoning Code [noted in brackets]
- Require a **Conceptual Review** by the Board of Architects
- Require **12 prerequisites (contextual analysis, proportions, building scale, etc)** that must be met before requesting Level 1 or 2 bonuses
- Incorporate provisions from the **Mediterranean Village PAD Architectural Standards** in Zoning Code Appendix C
- Expand list of **precedents** to include taller Mediterranean buildings
