**PLANNING AND ZONING BOARD RECOMMENDATION:**

The Planning and Zoning Board at their 09.17.25 meeting recommended approval of: 1) the Comprehensive Plan Map Amendment (vote: 5-0); 2) the Zoning Map Amendment (vote: 5-0); and 3) the Planned Area Development (PAD) (vote: 5-0); and 4) Conditional Use (vote: 5-0).

**BRIEF HISTORY:**

The Application has been submitted by Jorge L. Navarro, Esq. of Greenberg Traurig, P.A. on behalf of 760 Ponce De Leon Blvd. LLC to the City of Coral Gables for Small Scale Comprehensive Plan Map Amendments, Zoning Code Map Amendments, Planned Area Development (PAD), and Conditional Use approval for a mixed-use site plan with Mediterranean style design incentives.

The application was originally scheduled on the October 28, 2025, City Commission, but was deferred to a date certain of November 18, 2025.

The Applicant is proposing a mixed-use project, referred to as “760 Ponce,” on a site comprising approximately 2.05 acres located at 760 Ponce de Leon Boulevard, 112 and 120 Avila Court. The property occupies a full city block within the Flagler Street Section and is currently improved with a medical office building that is primarily one story with a partial two-story section, along with a commercial surface parking lot.

The properties at 112 and 120 Avila Court with the commercial surface parking lot have a Future Land Use designation of Single-Family Low Density and are zoned Single-Family Residential (SFR). Meanwhile, the property at 760 Ponce de Leon Boulevard has dual designations on the Future Land Use Map, with a portion designated as Single-Family Low Density and another portion designated as Commercial Low-Rise Intensity, and the zoning map reflects this with part zoned Single-Family Residential (SFR) and part zoned Mixed-Use 1 (MX1).

The proposed project is a 5-story mixed-use project with ground floor commercial space, upper-level medical office space, 2-story townhomes, public plaza and garage, which includes:

- Lot Area is 89,142 square feet (2.05 acre)
- Building height is 5 stories at 61’-8” to the roof level
- Total square footage 119,150 square feet
- 4 townhome units

- 18,300 square feet of ground floor commercial space
- 88,000 square feet of medical clinic / office space
- 20,745 square feet (23.2%) of total open space, including the 8,975 square-foot public plaza
- 545 total parking spaces

The first two requests relate to the residential portion of the proposed project and are intended to establish a transition along the west edge of the site between the single-family residences on Boabadilla and the mixed-use area. The western portion is proposed to be designated as Multi-Family Low Density on the Future Land Use Map and rezoned to Multi-Family 3 (MF3) to encompass the proposed townhouses of the site plan. The remainder of the project site is proposed to be designated as Commercial Low-Rise Intensity on the Future Land Use Map and correspondingly rezoned Mixed-Use 1 (MX1) for the proposed project containing ground floor commercial space, medical clinic / offices and garage.

The third request seeks Planned Area Development (PAD) approval. The PAD designation would provide the design flexibility needed to deliver a context-sensitive mixed-use development that responds to the surrounding neighborhood.

The fourth request includes two Conditional Use approvals:

1. Special location site plan review pursuant to Zoning Code Article 5, “Architecture,” Section 5-201, “Coral Gables Mediterranean style design standards,” for properties adjacent to or across public rights-of-way or waterways from an SFR or MF1 District, in order to allow Mediterranean Architectural Bonuses. This review requires preliminary design approval from the Board of Architects, a recommendation from the Planning and Zoning Board, and approval of the bonuses from the City Commission.
2. Conditional Use approval pursuant to Article 14, “Process,” Section 14-203, “Conditional Uses,” for the proposed mixed-use project

Below summarizes the proposed site plan:

### **Planning & Zoning Board**

At the September 17, 2025, Planning and Zoning Board meeting, the Board reviewed and discussed the proposed project. Board members noted that the project has been significantly improved to address long-standing comments and suggestions from surrounding neighbors. As discussed during the presentation and public comments, the project incorporates traffic improvements to the site and surrounding streets and includes compatible design elements that better integrate with the existing neighborhood context. Questions regarding specific traffic improvements at intersections and the proposed traffic-calming table were addressed by the applicant and City staff from the Public Works Department.

Following the discussion, the Board recommended approval based on the staff's recommendation for the following requests:

1. Comprehensive Plan Map Amendment (vote: 5-0);
2. Zoning Map Amendment (vote: 5-0);
3. Planned Area Development (PAD) (vote: 5-0); and
4. Conditional Use (vote: 5-0).

The Traffic Impact Study for the 760 Ponce project, prepared by CHA Consulting, Inc., was finalized after the Planning and Zoning Board meeting and has been reviewed and accepted by Public Works staff. The approval conditions were revised since the Planning & Zoning Board to incorporate the recommendations outlined in the study. The Traffic Impact Study is provided as Exhibit B.

The application package submitted by the applicant is provided as Exhibit A, and the draft ordinances for each request are provided as Exhibits C through F.
