The Honorable Donald Slesnick and Commissioners:

As I have made known before, Glenn and I are opposed to the gate being open on Campamento. We are unable to attend the meeting Jan. 25 as we will be out of town.

I do not mean to disparage the parents of the children who wish for the gate to be open but, I have honestly never seen 17 children walking to Gulliver. I have seen many cars picking up children there. And, frankly, I rarely see children walking to any of the many schools in the neighborhood and that includes my own grandchildren!

Sincerely,  
Glenn and Jane Morrison

Dear Helen,

Last night, Gulliver put forth a proposal that would allow only GBTS/PBTS residents to drop off their children by entering a smaller version of the existing Campamento gate. Children would also be able to walk or ride through the gate. The gate is already in the agreement to be used for lawn maintenance equipment.

The proposal eliminates any cuing up on the roadway.

Also, because the children will be entering Gulliver property, the cars will be checked for appropriate stickers and eliminate any misuse by non-GBTS/PBTS families.

Any safety concerns about dropping off in the roadway are also addressed as the children are dropped off on Gulliver property.

The proposal keeps the unique access to Gulliver that many families depend upon and maintains the positive financial value of the gate for those

renting or selling their homes.

The President of the HOA was present and did not look favorably the proposal however another member was in favor.

I assume that it will be presented to the full board.

I hope that as a member of the Board of the HOA you will support this proposal as it is the only solution which solves the problems of all neighbors, continues to provide safe access for the children, while maintaining the positive value of our unique access.

Sincerely Yours,

Catherine W. Froelich, M.D.
