Mr. Sando stated due to experiences from the past, how fast time passes and how long things take it would perhaps be best to concentrate on one rather than on five or six different things. Mr. Sando utilized Adventure Day for All as example of process.

Ms. Liebl stated her goal in past and continues to be regarding employment for people with disabilities.

Ms. Palacio-Pike stated she would like Board to also keep in mind issues of sidewalks and accessible walkways in areas such as Miracle Mile.

Ms. Milne expressed she also believes it would be a great opportunity for local people with disabilities to present themselves and share their success stories.

Ms. Blaire stated perhaps Board could utilize City resources and create short videos focusing on success stories of residents with disabilities which then can be made available. Ms. Blaire suggested perhaps to have employers come in and speak about their experiences, changes they have conducted in the work environment regarding employees with disabilities. Ms. Elejabarrieta stated these types of videos are

already in existence via organizations such as De Moya Foundation and Best Buddies. Ms. Milne stated she believes in-person presentations reflecting employment successes of individuals with disabilities are much better.

Dr. Jennifer Durocher stated there are two main things which need to be addressed. Dr. Durocher stated the first layer would be changing mind set, whereas persons with disabilities can be seen as an asset to the workplace as well as successful and the second the practicality of it, which will require more hands-on guides, support, and information. Dr. Durocher stated once the first part is launched it is extremely important to act quickly and build momentum before interest and desire fizzles. There was further discussion regarding functions and availability of life coaches. Ms. Palacio asked if UM-Card had anyone who would be great to have as a participant at upcoming Chamber event. Ms. Liebl stated she has been advised by Chamber to keep it as small as possible, to speak more so regarding strengths and not the barriers. Ms. Liebl stated perhaps at next meeting there could be further presentation. Ms. Liebl spoke regarding Mayor stating there were three interns in his office during the summer and how great it would be for one of those interns to be a person with intellectual disabilities. Ms. Liebl went on to speak regarding further information of upcoming chambers Impact Seminar hosted by Coral Gables Chamber of Commerce and possible participation along with Ms. Moss. Dr. Durocher advised there is currently a board member on UM-Card program who is a person with disabilities and maybe available to participate in the Chambers event as well.
