Subject: Extension

Dear Mr Correa

I have received your message

My architect and me have tried to get in touch with you

We have the actualized house plans

The architect told me that the City has requested that the plans include an area for my car such as an external garage and she is working on it and will present the new plans to the city soon

I kindly need an extension of the time given to me to comply with the request and obtain permits to build.

I thank you sincerely for your support

Aldo F Berti, MD
