

DISCUSSION ITEMS:

The Board Members objected to the Special Master mitigating the Code Enforcement Board fines. They requested to have the mitigations return to the Code Enforcement Board meetings. Mr. Murai directed Lourdes Alfonsin to have the matter of how mitigations are being handled be brought before the City Manager. All Board Members agreed. They requested to have a report in the February meeting. Lourdes advised that the current ordinance (Special Master) would have to be removed or amended. Mr. Murai reiterated to have this matter before the City Manager.
