

City of Coral Gables
CITY COMMISSION MEETING
July 9, 2024

ITEM TITLE:

Resolution.

A Resolution of the City Commission directing the City Manager to identify funding for installation of temporary speed tables at all locations pending traffic calming improvements. (Sponsored by Mayor Lago)

BRIEF HISTORY:

The City of Coral Gables is dedicated to improving the accessibility and quality of life of our neighborhoods through safer streets. Pursuant to an Intergovernmental Agency Agreement between Miami-Dade County and the City of Coral Gables, the City assumed the installation and maintenance responsibilities of certain traffic calming devices on certain local municipal streets.

The City's Public Works Department has been implementing the City's traffic calming initiative by determining whether certain local municipal streets qualify for traffic calming, designing the installation of certain traffic calming devices, ascertaining whether there is concurrency of residents in the affected neighborhoods, and upon design and determination of concurrency, constructing the approved traffic calming devices. There are currently eight (8) locations that are slated for construction of traffic calming devices after determination of concurrency and an additional fifty-two (52) locations in the City where traffic calming devices have been requested and meet the criteria for installation of traffic calming devices, but the design phase and concurrency determination have not yet been completed.

The proposed resolution, given the timeline for design, balloting, and construction of traffic calming improvements, directs the City Manager to identify funding for the installation of temporary speed tables at all pending locations.
