**Subject:** RE: 13050 Mar

Yes, a permit for a fountain is required and has to be approved by Zoning, Building, Electrical, Plumbing and Structural (if required).

Sincerely,

Dayron Garcia

Good afternoon Ampy

I believe the installation of the fountain requires a permit as a water feature. I have included Dayron in this email for confirmation.

In general, they will need to provide a survey, site plan, photos of the site, installation details and specifications. Other documents might be needed depending on the fountain (for example what is the power source, etc).

I hope this helps.

-Simone

Thank you so much Rudy.

Simone, Erick and Steven,

Is this something that would require a permit within the City?

Thank you so much.

Good afternoon Amparo;

If the Fountain Feature is a self contained unit that recycles water from the bottom basin , through the plumbing department it does not require a permit for installation. You may want to speak with Simone Chin in B.O.A. and zoning for further guidance,

**Subject:** 13050 Mar

Good morning Rudy,

I received a complaint that 13050 Mar St put up a fountain without a permit. A neighbor advised me that the decorative fountain does not have any plumbing and it uses the same water it grabs from the bottom. Is this something you would consider needs a permit?

Thank you.
