# A History of Educational Excellence in Coral Gables

In 1923, Coral Gables Grammar School - later renamed Coral Gables Elementary - opened with 39 students and one teacher, Mary Feaster Jackson. The school was financed and built by Coral Gables founder George Merrick, who believed that “beautiful things inspire higher ideals in the minds of children.” For this reason, he commissioned a nationally-known architectural firm to build a school of Spanish colonial architecture.

The school, located at 105 Minorca Avenue, was named a “City of Coral Gables landmark” and is listed on the U.S. National Register of Historic Places.

Over the last century, this Miami-Dade County Public School - now known as Coral Gables Preparatory Academy - has made a lasting impression on the lives of the thousands of children who have attended. With an excellent academic reputation, Coral Gables Prep provides every student with a solid, well-rounded educational foundation, influenced and nurtured by exceptional teachers, faculty, and administrators. This year, we are proud to celebrate the school’s storied past as we pave the way for a bright future.
