Red Light Camera Survey for Fiscal Year 2024-2025

. Welcome to the Florida Department of Motor Vehicles and Highway Safety's (FLHSMV) annual survey on the use and operation of traffic infraction detectors, commonly known as Red Light Cameras, for the 2024-2025 Fiscal Year.

Per section 316.0083(4)(c), Florida Statutes, FLHSMV is directed to compile an annual comprehensive summary report on use of red light cameras throughout the state. The primary objective of the survey is to collect essential information from Florida counties, municipalities, and other jurisdictions that operate red light cameras. Be aware that your survey responses will be included in the final report, but your contact information will **not** be published.

Please **NOTE** there are several **NEW** questions on the survey this year based on legislative requirements. Questions 4 and 5 address the requirement to present your red light camera data / report to your governing body each year. Questions 15, 16, and 17 address the revenue reporting and distribution requirements, and Questions 32 and 33 address additional details regarding NOVs issued for improper right-hand turns on red signals (if relevant to your jurisdiction).

We value your input, as it will greatly contribute to the report's accuracy and completeness. The survey is expected to take approximately 15 to 20 minutes to complete, if you've collected all the necessary information prior to logging on to begin. Please be advised that the deadline for submitting your survey responses this year is **Wednesday**, **October 1**, **2025**.

Thank you for taking the time to participate in this survey and for helping us gather the required information. If you experience any issues or have questions regarding the survey, please contact Rhonda MacKinnon at (850) 617-2690 or by email at RhondaMacKinnon@flhsmv.gov.

Q1. Please enter your contact information:

Name:	Lawrence Stevens
Agency:	Coral Gables Police Department
