PROFESSIONAL OPINION TO DEMOLISH AND UNSAFE STRUCTURE

Recommendations:

1-The roofing system and tiles, the roof plywood sheathing, and a big portion of the roof wood joists, the ceiling wood joists, must be removed and replaced. Also, we strongly recommend to cover the whole house with a tent and fumigate in order to eliminate any possibility of alive termites and avoid any future deterioration of the wood elements.

2-The wood floor and subfloor and maybe a significant portion of the wood joists at ground floor need to be replaced, also we recommend to brace the exterior CMU walls to the ground floor wood joists (above the crawl space) w/ some connectors, in order to reduce the wall slenderness for lateral wind suction.

3-All the exterior windows and doors must be replaced.

Note:

It is our professional opinion, that this residence has significant damage and should not be inhabited. If possible that necessary repairs to restore the structural integrity of the home would over exceed the cost of a new construction.

If you should have any questions regarding this matter, please do not hesitate to contact us.

"As a routine matter, in order to avoid possible misunderstanding, nothing in this report should be construed directly or indirectly as a guarantee for any portion of the structure. To the best of my knowledge and ability, this report represents an accurate appraisal of the present condition of the building based upon careful evaluation of observed conditions, to the extent reasonably possible".

BOARDS ABILITY AND TEST TO APPROVE DEMOLITION

C. As a condition of granting any Certificate of Appropriateness, standard or special, for demolition of buildings or improvements designated as historic landmarks or located in an historic landmark district, the Board may require at the owner's expense, salvage and preservation of specified classes of building materials, architectural details and ornaments, fixtures, and the like for reuse in restoration of other historic properties. The Board may also require, at the owner's expense, the recording of the improvement for archival purposes prior to demolition. The recording may include, but shall not be limited to, photographs and scaled architectural drawings.
