
MATHEUS STANCATI

BIO

Matheus Stancati is a Brazilian designer based in Miami. He earned his Master's in Architecture in 2021 and, soon after, leveraged his growing TikTok community to co-found Sunken Blimp, a design lab that blends physical, digital, and 'phygital' spatial elements in its projects. Matheus is also an established international public speaker, having given talks in Australia, Honduras, Brazil, and at various U.S. universities. His studio, Sunken Blimp creates multi-reality activations that synergize architectural design with immersive technologies.

NOTABLE PUBLIC WORKS

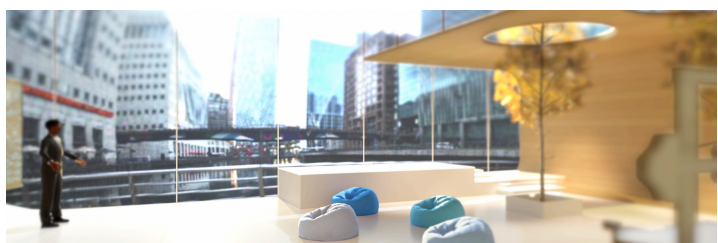

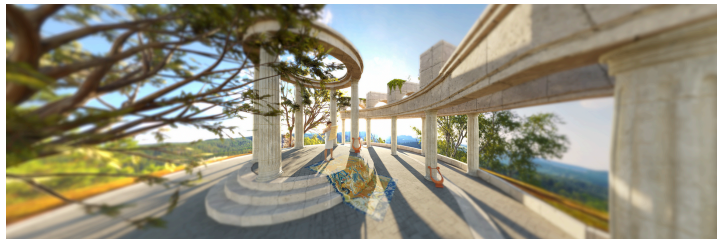

VEEFRIENDS WORLD – 2023

We were asked to bring the imaginative world of artist, Gary Vee, to life through AR so thousands of fans could experience it during the live event VeeCon 2023, hosted in the city of Indianapolis in May, 2023.

TIME TRAVEL WITH IE - 2022

To celebrate IE University's 50th anniversary, we created an AR portal where students could time travel through classrooms of the past and future.

Portal into Portals – 2023

In January, 2023 we were approached by Atlantic Records with the challenge of creating an augmented reality portal for one of their artists, Melanie Martínez, to transport audiences into her debut song, Death.
