

# MEET MOTIONAL

Proprietary & Confidential

# MEET MOTIONAL.

We're making driverless vehicles a safe, reliable and accessible reality.

We're new in name only. We've been revolutionizing the field for decades, from the founding of our technology at MIT and Carnegie Mellon, to the creation of Motional - born out of investment from Hyundai Motor Group and Aptiv.

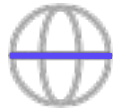

We're creating, shaping, and advancing technology capable of saving lives, time, and money.

We're Motional, and we're changing how the world moves.

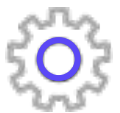

You move the world  
We move you

Operating in Boston, Pittsburgh, Las Vegas and Singapore, with offices in Santa Monica, SF Bay Area and Seoul

R&D and Commercial Deployment

Building Technology to Scale Mobility-on-Demand

**100k+** Paid AV Rides

**9/10** Would Ride Again

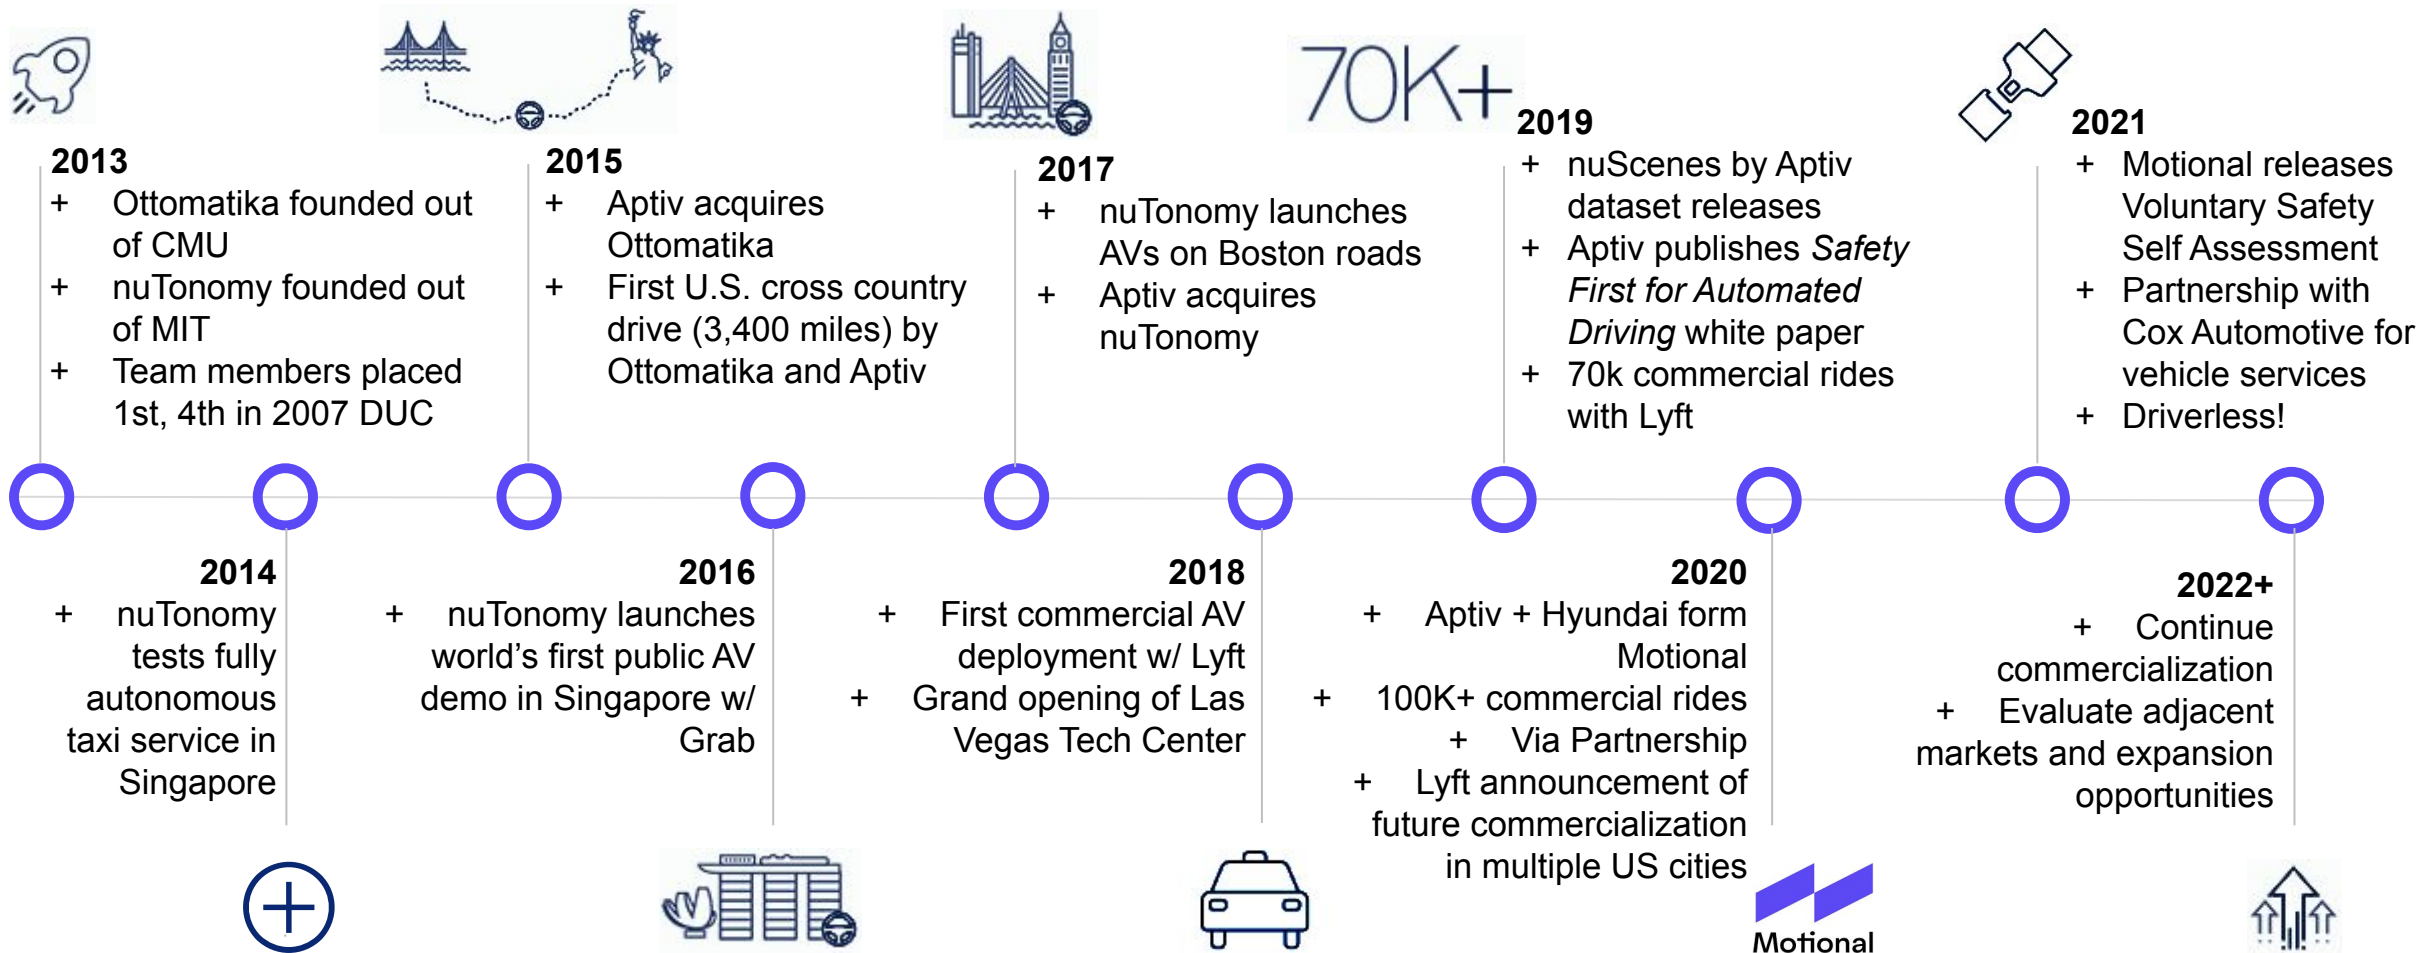

**98%**  Star User Rating

# Our Heritage

# Motional Technical Heritage

# Hyundai-Aptiv Joint Venture

## Strategic Rationale

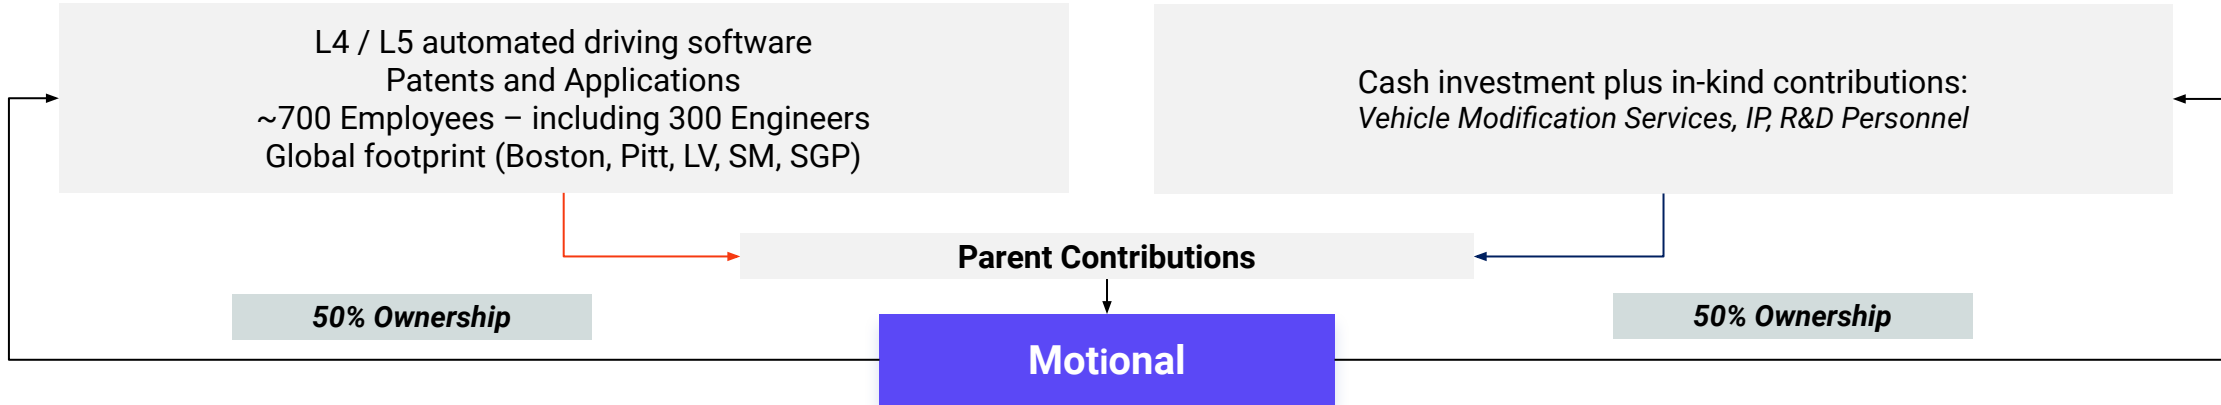

- \$4B Joint Venture formed on March 26th 2020 provides Motional the ability to work collaboratively with a highly capable and committed vehicle development partner as part of the next phase of robotaxi technology development
- Significant resource contribution to help fund, facilitate, and accelerate the development of a commercially viable platform
- Expansion of footprint in addressable markets, with a clear focus on becoming robotaxi technology leader in multiple regions (US, Asia, EU)

## Transaction Review
