Pruning at this location is improper would have to submit to after the fact permit with Arborist report stating a crown restoration prescription

They often don't realize making those types of cuts are going to cause five or 10 times the amount of issues they were trying to avoid

Violation of ISA and ANSI A300 Pt 1 as referenced in ordinances

**Subject:** Improper pruning 23 Majorca Ave

Good Afternoon

Attached are pictures of improper pruning occurring between 23 Majorca and 1 Alhambra. A complaint was made from owner of 1 Alhambra of which trees on his property were cut by the landscaping crew hired by 23 Majorca. I need your assistance in analyzing how much damage was done.

Thank you,  
Aaron
