I hope this message finds you well.

Attached to this email are letters I've written—with care, sincerity, and deep respect—on behalf of myself and others in the community who are gravely concerned about the proposed development of the land known as the Garden of Our Lord.

This space holds immense historic, cultural, and spiritual value for our city. Its preservation aligns with the stated mission of Coral Gables to protect green space, uphold architectural and civic heritage, and maintain a harmonious balance between growth and preservation.

The removal or development of this sacred garden would be a heartbreaking and irreversible loss—not only to those of us who treasure it personally, but to the identity of the city itself.

Please do not approve any project that would destroy the Garden of Our Lord.

Thank you for taking the time to consider these letters and for your continued service to our city. We trust you will weigh this issue with the gravity it deserves and stand with the community in protecting this beloved place.
