BRIEF HISTORY:

Every year pursuant to Florida Statutes, all municipalities and county governments must update their CIE and adopt the required amendments into the Comprehensive Plan. The amendments are transmitted to DCA and SFRPC as a CIE annual report. The City of Coral Gables updated the CIE and submitted a CIE annual report last year in November with the Comprehensive Plan rewrite. The CIE annual update includes the City's current five-year Capital Improvement Program and revisions to the supporting data and analysis submitted with the previous year's update. The Planning Department worked closely with the Finance Department in the preparation of the CIE amendments to ensure the annual report matches the information contained in the City's approved Capital Improvement Program (FY 2009-2010 Budget).

Detailed background and the requirements for the CIE annual update are provided in the attached Staff report (see Exhibit B). The LPA/Planning and Zoning Board meeting minutes are provided as Exhibit C.
