Dear Andrew and Team,

We were working at a client's house (740 TIBIDABO AVE) and there was a branch presenting an imminent threat given the decaying nature. The branch was slightly larger than 10" which required a permit that was obtained after the fact (see attached for the permit as well as the arborist report).

We understand that we just missed the deadline to request abatement (confusion between us and the client seeking this) and are requesting your consideration with regard to waiving the fine that was issued.

Copying Iggy and Victor who have been assisting us through the process.

Please let us know if there are any questions and we appreciate your consideration.

Best.
