PROFILE

I am a mother of two young children living in Coral Gables and I feel extremely passionate about getting involved and serving our community on the School and Community Relations Committee. I am invested in our public school system and am committed to ensuring all of our children receive a world-class education. I grew up in Vancouver, Canada and attended university there as well as in New York; I feel that an outsider's perspective can be an asset for new and creative ideas in our education system. My career in interior design has also allowed me to meet many people in the community and allows for flexibility with my schedule. I am ready and eager to dedicate myself to be an active serving member of our community.
