City of Coral Gables Planning & Zoning Division 427 Biltmore Way Coral Gables, FL, 33134

Re: 301-341 MADEIRA AVE 301-341 Madeira Avenue Coral Gables, Florida

AB19013562

The following are the Mediterranean Bonus required standards, Tables 1 and 2:

ARCHITECTURE
PLANNING
INTERIORS

	Table 1 – Required Standards		
Reference Number	Туре	Requirements	
1	Architectural elements on building facades	Similar exterior architectural relief elements shall be provided on all sides of all buildings. No blank walls shall be permitted unless required pursuant to applicable City, State and Federal requirements (i.e., Fire and Life Safety Code, etc).  Parking garages shall include exterior architectural treatments compatible with buildings or structures that occupy the same property and/or street.	
Requirements satisfied		All sides of the building contain similar exterior architectural relief elements.  The building does not have any blank facades and the parking garage includes exterior architectural treatment compatible with the building. See elevations on Sheet A-0.1.6.	
2	Architectural relief elements at street level	On any building facades fronting streets, where an adjoining pedestrian sidewalk is located, one (1) or more of the following design features shall be included at the street level:  a. Display windows or retail display area;  b. Landscaping; and/or  c. Architectural relief elements or ornamentation.	
Requirements satisfied		All building street level facades fronting Madeira Avenue and Salzedo Street include architectural relief elements thru the articulation and natural stone use at entrance porticos at street level

		live/work units and the landscape. See elevations
		live/work units and the landscape. See elevations on Sheet A-0.1.6.
3	Architectural	Exclusion from height. The following shall be
3	elements located on	excluded from computation of building height in
	the top of buildings.	C, A and M-Use Districts:
	the top of buildings.	a. Air-conditioning equipment room.
		b. Elevator shafts.
		c. Elevator mechanical equipment rooms.
		d. Parapets.
		Roof structures used only for ornamental and/or
		aesthetic purposes not exceeding a combined area
		of twenty-five (25%) percent of the floor area
		immediately below. Such exclusion shall be
		subject to the provisions that no such structure
		shall exceed a height of more than twenty-five
		(25) feet above the roof, except for commercial
		buildings in the Central Business District (CBD)
		where no such structure shall exceed one-third
		(1/3) of the allowable total building height.
Require	ements satisfied	Roof structures are designed as mansard roofs
		with clay barrel tiles to emphasize the
		Mediterranean style architecture seen in buildings
		like the Biltmore Hotel. These roofs are for
		aesthetic purposes and do not exceed a combined
4	Diarrala atamaga	area of 25% of the floor area immediately below.
4	Bicycle storage	To encourage the use of bicycles, bicycle storage facilities (racks) shall be provided. A minimum of
		five (5) bicycle storage spaces shall be provided
		for each two hundred and fifty (250) parking
		spaces or fraction thereof.
Require	ements satisfied	213 parking spaces required $/ 250 = 0.852$ (5
rioquir	onicités surisireu	bicycle storage spaces required). Bicycle racks are
		provided within the ground floor parking area and
		near the building entrance. Total of 40 bicycle
		spaces provided. See diagram on Sheet A-0.1.1.
5	Building facades	Facades in excess of one hundred and fifty (150)
		feet in length shall incorporate vertical breaks,
		stepbacks or variations in bulk/massing at a
		minimum of one hundred (100) foot intervals.
Require	ements satisfied	All facades incorporate vertical breaks, stepbacks,
		with variations using balconies and windows to
		reference the harmonious rhythm of the Biltmore
6	Duilding lot	facade. See diagrams on Sheet A-0.1.6.
U	Building lot coverage	No minimum or maximum building lot coverage is required.
Require	ements satisfied	Acknowledged.
7	Drive through	Drive through facilities including but not limited
	facilities.	to banking facilities, restaurants, pharmacies, dry
		cleaners, etc. are prohibited access to/from Ponce
		de Leon Boulevard from S.W. 8th Street to Bird
		Road, Miracle Mile from Douglas Avenue to
		LeJeune Road, and Alhambra Circle from Douglas
		Avenue to LeJeune Road.
Require	ements satisfied	No drive through facilities are provided.

0	Landasana anan	Each anonomic shall anaride the fallowing
8	Landscape open	Each property shall provide the following minimum landscape open area (percentage based
	space area.	upon total lot area):
		a. Five (5%) percent for nonresidential properties;
		b. Ten (10%) percent for mixed use properties;
		and
		c. Twenty-five (25%) percent for residential
		properties.
		The total area shall be based upon the total lot
		area. This landscape area can be provided at street
		level, within the public right-of-way, elevated
		areas, planter boxes, planters, etc.
Requireme	ents satisfied	Required 25% ground-level landscape open area is
Requirements satisfied		satisfied.
		Required: 25% of Net lot Area (62,474 SQ.FT.) =
		15,618.5 SQ.FT.
		Provided: 25.5% = 15,942 SQ.FT.
9	Lighting street	Street lighting shall be provided and located on all
		streets/rights-of-way. The type of fixture shall be
		the approved City of Coral Gables light fixture and
		location/spacing, etc. shall be the subject to review
		and approval by the Department of Public Works.
Requireme	ents satisfied	Lighting will be provided as required by the City
		of Coral Gables.
10	Parking garages.	Ground floor parking as a part of a multi-use
		building shall not front on a primary street. ADA
		parking is permitted on the ground floor. Ground
		floor parking is permitted on secondary/side
		streets and shall be fully enclosed within the
		structure and/or shall be surrounded by retail uses
		and/or residential units. Ground floor parking is
		permitted on alley frontages.
		Parking facilities shall strive to accommodate
		pedestrian access to all adjacent street(s) and alleys.
Doguirom	ents satisfied	Ground Floor parking does not front a primary
_	ents satisfied   70% of parking)	street. The garage entrance is located on secondary
(Concealed	1 70 76 of parking)	street. The garage entrance is located on secondary street (Madeira Avenue) and is fully concealed
		within the structure. Units and amenities surround
		the parking at the ground level facing the primary
		frontage (Salzedo Street).
11	Porte-cocheres.	Porte-cocheres are prohibited access to/from
		Ponce de Leon Boulevard from S.W. 8th Street to
		Bird Road, Miracle Mile from Douglas Avenue to
		LeJeune Road, and Alhambra Circle from Douglas
		Avenue to LeJeune Road.
Requirements satisfied		There are no porte-cocheres.
12	Sidewalks/pedestrian	All buildings, except accessory buildings, shall
	access.	have their main pedestrian entrances oriented
		towards adjoining streets.
		Pedestrian pathways and/or sidewalks shall be
		provided from all pedestrian access points and
		shall connect to one another to form a continuous
		pedestrian network from buildings, parking
		facilities, parking garages entrances, etc.

		Wherever possible pathways shall be separated
		1 1
		from vehicular traffic.
Requirements satisfied		The building has its main pedestrian entrances
_		oriented towards the corner of Madeira Avenue
		and Salzedo Street with a continuous pedestrian
		network connecting both building frontages.
13	Soil, structural.	Structural soil shall be utilized within all rights-of-
		way for all street level planting areas with root
		barriers approved by the Public Service
		Department.
Requirements satisfied		The project will comply with this requirement.
14	Windows on	Mediterranean buildings shall provide a minimum
	Mediterranean	window casing depth of four (4) inches as
	buildings.	measured from the face of the building.
Requirements satisfied		Window casing is being provided on all four
		building façades, with a minimum window casing
		depth of 4 inches or more measured from the face
		of the building.

	Table 2 – Required Standards		
Reference Number	Туре	Requirements	
1	Arcades and/or loggias.	Arcades, loggias or covered areas constructed adjacent, parallel, or perpendicular to building to provide cover and protection from the elements for pedestrian passageways, sidewalks, and other walkways thereby promoting pedestrian passage/use. Limitations of encroachments on corners of buildings may be required to control view corridors and ground stories building bulk and massing. Awnings or other similar items do not satisfy these provisions.	
N/A			
2	Building rooflines.	Incorporation of horizontal and vertical changes in the building roofline.	
Requirements satisfied		The building roof line has vertical and horizontal changes by incorporating changes in height, cornices and changes in roof types from parapets to mansards with clay barrel tiles.	
3	Building stepbacks.	Stepbacks on building facades of the building base, middle and/or top facade to further reduce the potential impacts of the building bulk and mass.	
Requirements satisfied		The building incorporates multiple stepbacks along the entire facade providing relief for the building massing. West facade stepback is 106'-10", East facade stepbacks is 3', North facade stepback is 23'-3", and South facade stepback is 10' at the tower above the base to further reduce the potential impacts of the building mass.	
4	Building towers.	The use of towers or similar masses to reduce the mass and bulk of buildings.	
Requirements satisfied		The building uses towers on the corners, and has also stepped back portions of the facade towards	

		the center of the building in order to reduce the
5 N/A	Driveways.	mass of the building.  Consolidation of vehicular entrances for drivethrough facilities, garage entrances, service bays and loading/unloading facilities into one (1) curb cut per street to reduce the amount of vehicular penetration into pedestrian sidewalks and adjoining rights-of-way.
6	Lighting of	Unlighting of landscaping within and adjacent to
0	Lighting of landscaping.	Uplighting of landscaping within and adjacent to pedestrian areas (e.g., sidewalks, plazas, open spaces, and other public spaces).
Requireme	ents satisfied	Uplighting within and adjacent to pedestrian areas will be provided as necessary.
7	Materials on exterior building facades.	The use of natural materials shall be incorporated into the base of the building on exterior surfaces of building. This includes the following: marble, granite, keystone, and other types of natural stone.
Requirements satisfied		Natural stone is incorporated at the base of the exterior surface of the building and at the portico elements throughout. See elevations on Sheet A-0.1.8.
8	Overhead doors.	If overhead doors are utilized, the doors are not directed towards residentially zoned properties.
Requirements satisfied		There are no overhead doors directed towards residentially zoned properties.
9	Paver treatments.	Inclusion of paver treatments in all of the following locations:  a. Driveway entrances minimum of ten (10%) percent of total paving surface.  b. Sidewalks. Minimum of twenty-five (25%) percent of total ground level paving surface.  The type of paver shall be subject to Public Works Department review and approval. Poured concrete color shall be Coral Gables Beige.
Requirements satisfied		Paving treatment will be located along the entire South (Madeira Avenue) and East (Salzedo Street) perimeter of the building and. See site plan on Sheet A-0.1.8.
10	Pedestrian amenities.	Pedestrian amenities on both private property and/or public open spaces including a minimum of four (4) of the following:  a. Benches.  b. Expanded sidewalk widths beyond the property line.  c. Freestanding information kiosk (no advertising shall be permitted).  d. Planter boxes.  e. Refuse containers.  f. Public art.

		g. Water features, fountains and other similar water features. Ground and/or wall mounted.  Above amenities shall be consistent in design and form with the City of Coral Gables Master Streetscape Plan.
Requirements satisfied		Pedestrian amenities to be included: benches, expanded sidewalks at Madeira Avenue, refuse containers, and planter boxes. All of the above amenities will be consistent with the City of Coral Gables masterstreetscape plan.
11	Pedestrian pass- throughs/ paseos on properties contiguous to alleys and/or streets.	Pedestrian pass-throughs provided for each two hundred and fifty (250) linear feet or fraction thereof of building frontage provided on properties contiguous to alleys and/or streets or other publicly owned properties. Buildings less than two hundred and fifty (250) feet in size shall provide a minimum of one (1) pass through. The pass-throughs shall be subject to the following:  a. Minimum of ten (10) feet in width.  b. Include pedestrian amenities as defined herein.
N/A		Northern side of the site is Miami Dade County and abuts another property. A pedestrian pass-through is not appropriate for this site.
12	Underground parking.	The use of underground (below grade level) parking, equal in floor area of a minimum of seventy-five (75%) percent of the total surface lot area. Underground parking shall be located entirely below the established grade as measured from the top of the supporting structure and includes all areas utilized for the storage of vehicles and associated a circulation features.
