Agenda Item F-11 [Start: 12:55 a.m.]

A Resolution of the City Commission supporting the Matheson Hammock Market and supporting their efforts to employ individuals on the autism spectrum and those within the special needs community. (Sponsored by Commissioner Castro)

City Attorney Suarez: F-11 is a resolution of the City Commission supporting the Matheson Hammock Market and supporting their efforts to employ individuals on the autism spectrum and those within the special needs community.

Mayor Lago: Thank you.

[Note: Technical audio difficulties]

Commissioner Castro: Oh, there we go. Perfect. Okay. So, this resolution is about Matheson Hammocks. They have a farmer's market. I invited a vendor, William, Michael, and Armando. They can come up to the podium just to say a little more about this organization. Before I go ahead and, and tell you guys a little bit more myself.

*City Commission Meeting*

Michael Oria: Hi, it is our privilege to speak to you guys today. We run a farmer's market on Saturday and Sundays with the expressed intent of hiring from the neurodivergent community and providing employment opportunities, as well as acting as a small business incubator and a family friendly event for the weekends. We, you know, we have really worked hard to get to this point and we are really looking for the community support because this is something that we want to grow. We want the community to be involved with and the neurodivergent community deserves it. They're deserving of employment opportunities. They're deserving of opportunities. And, you know, as of April...

[Note: Technical audio difficulties]

Mayor Lago: Yes, sir. Go ahead.

Michael Oria: Thank you. So, we're really seeking community support. We understand the park is an unincorporated Miami-Dade, but the community we serve is the municipality of Coral Gables. So, we would like to be able to partner and to reflect some of the community values at the market and just create an atmosphere in which these individuals can have gainful employment. And the way that we do that is bringing in more people and advertising such. And I'd like to introduce Armando. He's been with us for a couple of months and he can kind of talk a little bit about his experience.

Armando: Well, I, my name is Armando. I belong to the Domoya Foundation, where they hired from. And hopefully we can get your support for the farmer's market.

Mayor Lago: Thank you. Welcome to the Gables.

Armando: Thank you.

Commissioner Castro: Armando, do you want to say a little more about what you do in the market?

Armando: Well, I help to unload the, I help to unload the truck and load up the truck. And I also work with Mike. I also learned management skills.

Michael Oria: Armando has been with us for about three months, and he has grown so much. He's learned a number of different skills. More recently, he's taken on more of a management role where he has a few individuals working under him and, you know, we can't be more proud. Armando, do you want to tell a little more about your story and how you came around to, you know, take away your QRE malformations?

Armando: I also have CRE malformation and I'm also on the spectrum.

*City Commission Meeting*

Michael Oria: Yeah, again, Armando, when we first started, he was, he was very shy. And here we are today talking in front of the council. And this is amazing. We would never have imagined how far we could have come together. And again, we're, again, we're just so proud of the impact we're making the community. And we just want to expand that. And, and really you guys are, are very crucial to making that happen.

Mayor Lago: So how can we help you?

Michael Oria: Well, again, we want to reflect the city's, the city's values. So, if maybe you guys can, you know, advertise in some of the city calendars, put us on the city calendars, maybe some of your printed materials because, you know, we are serving this municipality, despite it having, you know, border of unincorporated. So, you know, and I've reached out to a few of your offices. I'm happy to meet with each and every one of you and kind of see how we can expand on some of the things that are most important to you. You know, again, we, we want to reflect the values of the city.

Mayor Lago: So, if I may, so why don't you do me a favor and do the Commission a favor?

Michael Oria: Sure.

Mayor Lago: So why don't you put together a proposal of, we don't have the money to be investing in advertisement, plus the Commissioners can't do that on their own. And we have very limited budgets and they have to be spent for the offices. Why don't you put together a proposal of how you would like for us to be included in the calendar, what you would like to be involved in, how we can work synergies together and provide it to the Manager and the manager can assess it to see if that's feasible.

Commissioner Castro: Through the Mayor.

Mayor Lago: Let me just get an answer from the gentleman.

Michael Oria: Sure. So, you know, I think that, you know, we're not asking technically for funds or anything like that, but you know, programs that you're already running, whether it's printed materials in the city, just maybe add something that would include us.

Mayor Lago: Yeah, I agree. I'm just saying, let's run it. We run it through the Manager and his team, Martha Pantin. And we asked them to see if maybe we can figure out a way to add you to, we have a calendar online. We have other things that we do that deal with autism, with children on the spectrum, there's a lot of different organizations that are involved here.

Michael Oria: Right. And given that this is Autism Acceptance Month, I think is very important for all of us to kind of support this community. This goes beyond anything that we do. You

*City Commission Meeting*

know, and, I'm happy to meet with the, you know, again, with everybody in the city, but if there is something you guys are already doing that wouldn't cost you anything, I think that would give us a lot of support. Just, you know, add it, adding on an extra, you know, maybe an image or a blurb about what we're doing or the ability, even, you Mayor Lago, if you could, you know, Instagram post would go very far away for us.

Mayor Lago: Come by and see me in my office.

Michael Oria: Yes, I've reached out to your office and we'd be happy to do that

Commissioner Castro: Through the Mayor.

Mayor Lago: If you'd like you reach out on Fridays, I have open office hours, starting at two o'clock, you come by and I'd be more than willing to meet with you and we can put something together. Okay. Commissioner.

Commissioner Castro: Yes. So, I've already partnered with this organization. I will be in the farmers-- I was in the farmer's market last weekend to go ahead and see how this was. And I was astonished and really amazed with the quality of work that they are doing with inclusive community. Now I'm already going to be there once a month. And my office is already working on, like flyers PR marketing, because this is like where I'm co-hosting. So, all this material is already being done. My office is advertising it. I'm doing it through my newsletters as well. So, all we would really have to do is get the permission of this Commission to go ahead and piggyback on that material through the city calendar and through the city newsletter. There's no cost burden at all. I mean, if, if my colleagues would like to take the extra step to go ahead and advertise this or market it in their own newsletters or social media, wow, that, that would be amazing. Amazing. The foot traffic, the foot traffic to get into Matheson hammocks is not a road that you drive by and you see this market happening. So, they really do need a little more help with entering the park and actually going down. It is a beautiful farmer's market with a backdrop of the water basically. And I mean, you can go get a blanket, buy some food, mingle with the people in the market, have a picnic, family picnic. It's a great, great, great cause. Last Commission meeting, we supported a resolution of inclusivity. So, I think this is the perfect timing now in April to go ahead and support this. This is just very simple. It's a six month effect. We're not overlapping with the prior farmer's market. Let's have them just get started and support our residents to support this farmer's market. There's no cost burden, no financial burden as well.

Mayor Lago: Sir, are you a non, are you a not-for-profit?

Michael Oria: No.

Mayor Lago: You're for profit. First and foremost, I can't vote on anything today that benefits an organization. I need -- if you told me you were like Crystal Academy or you were involved in not-for-profit and what we also have our own farmer's market here for three months.

Michael Oria: I mentioned that the majority of the residents that do come by, they're so surprised that the city isn't already advertising it because they say that this is one of the most needed things in a park, which is, you know, historic 1930s is the oldest park that is in Coral Gables. You know, many of the residents dock their boats there and they find it to be a pleasant surprise when they actually come across the market.

[Note: Audio issues]

Commissioner Castro: No, it's okay. If you're going to go ahead and vote no on this, everything's already been established. All the PR is already there. The flyers are already there. There's nothing that they need to put together to present to you. Everything's already ready to go. It's very simple just to vote yes on this resolution. It is only to direct the City Manager to advertise on their platform, not advertise, but to just notice it on their newsletter and put it on the calendar. There's nothing hard about this. This is happening every Saturday and Sunday from 10 a.m. to 4 p.m. And we're not going to overlap with our farmer's market. This is only for a period of six months.

Mayor Lago: Okay. And excuse me one second.

Michael Oria: Sure.

Mayor Lago: First and foremost, I've asked for more information. It's a common courtesy you give to your colleagues on the Commission. I want to make sure that again, you're on, you're a for-profit organization. You want us to advertise, which will draw more people to your organization. I understand and I appreciate what you're doing with our neurodiverse community, but I need to see more information before I allow the city to start advertising. I want to see your insurances. I want to see, I want to speak to Miami-Dade County. I want to make sure that we're on the same page. I want to understand. It's a simple thing. I don't just shoot from the hip. So, I've asked you the third time I asked you just to have a little common courtesy and come back and we can send the information, put together a memo. I do memos on a weekly basis, and I send them to my colleagues to educate them on things that I'm bringing before the Commission. It's just common courtesy. It takes a lot of work, a lot of work. Send me a memo with all your information, what you're doing, what your plans are, where the money's going to go, what you're doing, what are the benefits? How can we advertise together? How can we collaborate? So, I'm all for it, but I just want information, and I don't like to vote on things without having information.

Michael Oria: That's fair. And you know, I'll say that we ran through the Parks Pro's department, so all appropriate insurances and all the processes that have been, you know, we have

*City Commission Meeting*

accommodated and done all those things. And to speak to the non-profit, those typically take a couple months and we're working on it. But in the interim, we are offering free, you know, spaces to different organizations like the Rise and Start, the Des Moines Foundation, Wild Centers. We do not charge non-for-profits. In fact, we have another organization that creates bags from battered women and we have another tent for foster youth. So again, the profits are minimal and the profits do go to hiring more, you know, members from the neurodivergent community. At this point, you know, with the amount of traffic we have, we're limited on how many in that community we could hire. So that is why, you know, we're hoping that you guys will allow us to grow with you, represent your community. And really, this is more about them than anything else. At the end of the day, I run a number of successful businesses and this is more about doing something positive in the community and, you know, purpose.

Mayor Lago: I agree with you. Great. So, I look forward to your memo, and you can send me the information and we look forward to engaging in one form or another, but I need background information.

Commissioner Castro: Through the mayor.

Mayor Lago: Thank you. Yes.

Commissioner Castro: Yes. So, there is a video that I want to go ahead and put, but before the video goes on, I want to go ahead and move this item.

Commissioner Fernandez: I'll second.

Mayor Lago: Go ahead. Mr. Clerk, do you have a motion and a second?

Commissioner Castro: I want the video before. Yes, I want the video so that my colleagues can actually see what's behind this beautiful cause.

Vice Mayor Anderson: So through the mayor before we vote, I'd like to ask a few questions. Okay. So for the folks that don't know where to go into Matheson, can you describe which parking lot, how far down is it near the Redfin Grill? If I was going to bike in there, how would you find, you know, where it is?

Michael Oria: Absolutely. And thank you for that question. We're located on the rim of the atoll. You would go to the very end of the park by Noah Beach. I know it was Redfin Grill for a while. They changed the name and it's a beautiful restaurant. And they actually gave us a waiver to allow us to sell food because they also understand what we're doing is, you know, about purpose and moving the community forward and helping a community that's typically underserved. So, if you

*City Commission Meeting*

actually go out to the end parking lot and you come in, you know, the opposite side of where the restaurant is, you'll see us lined up along the sidewalk. So, it's ADA compliant and we allow for, you know, people with disabilities to access the market as well. It's a beautiful location. I really hope that each and every one of you get the chance to come out and bring your family and see what we're providing to the community.

Vice Mayor Anderson: So, for the City Attorney, I have some questions about, you know, what are our requirements? If we are going to vote in favor of this resolution insurance-wise, what is the normal protocol?

City Attorney Suarez: So, we don't have a protocol for just the resolution. What it does is spreads the word about Matheson Hammock on city platforms and communications. So, we don't have any established protocol for something like this.

Vice Mayor Anderson: Okay. And City Manager, if this goes through your office, what are you going to be looking for?

City Manager Iglesias: Well, it's a for-profit corporation, so we would handle it through that means. We would look at what they're proposing, what our costs are, and what advertising this organization is looking for. My only concern is it's not a 401c3. It's a for-profit, so we would have to handle it as a regular corporation.

Mayor Lago: So, my concern is a simple one, and that is same situation as what we do when we give grants out to corporations, to entities. We hope that they would do the event within the city confines in the City of Coral Gables. And not only that, it's got to be something that again benefits the city. And all those are 501c3s. They're 501c3s where the money goes back into the charity. So, the request is a very simple one. We're going to vote on it. It's perfectly fine. I just don't vote on things like this. I don't have information. I don't have a video. The video doesn't give me... I haven't looked up your company. I haven't seen anything. I thought we're going to learn about what it was today that we're going to potentially do. That's why, like I said before, in the last three weeks, my colleagues, who they can't deny it, they've received four or five memos from me on issues that I'm bringing before the Commission. It's just being considerate. That's the way that you do things in a body like this. You're going to bring something. You're going to ask, I don't know you. I've never done business with you. I don't know your background. I don't know who you are. I don't know where you've been. I don't know if you've ever done this before. Have you had a bankruptcy? These are normal things. You're a business owner. So, at the end of the day, if I'm going to get into a partnership with the City of Coral Gables name that we have to respect and we have to protect, I don't know who you are. So, at the end of the day, I'm going to vote no because I, but I want to vote in favor, but I'm just asking for you to send me a memo with the information so that we can do a background check. We can look at your insurance.

*City Commission Meeting*

These are simple things that we do with everybody that wants to do an event here in the City of Coral Gables that we're going to tie our entire name to it. It's a simple thing.

Michael Oria: So, so speaking...

Mayor Lago: But if you want to, but if you want to push it, do it, ram it down through today, then it's your choice. Well, hold on one second, Mr. Commissioner.

Commissioner Lara: Well, I just wanted to say that, first of all, I think that from what I've heard so far, having just met you both today, and it sounds like a very noble cause the spectrum, the individuals on the spectrum autism in general, you know, to raise awareness for it, especially in this particular month is something that I hold very near and dear. You know, my niece is autistic. And for over a decade, I've served on the board and currently serve as the Chair of Development Services for Easter Seals, which is a not-for-profit you know providing services in the community across the country, actually both for Alzheimer's as well as autism individuals, right? Especially for the program and those that are out there that help provide opportunities for individuals who are autistic over the age of 21. It's a very difficult thing. A lot of government support for that dries up when you're no longer considered a minor, right? So, I'm supportive of that. Absolutely. But what I've been hearing from the dais, and of course I haven't heard anything from you all denying it, right? Is it just a request for a little more information, you know, and I'm sure you're not saying no to providing more information before this vote is taken. I don't know if it's appropriate perhaps to, to table it until we get it. So, I don't know, Mr. Clerk, if this is something that is appropriate now, if I, you know, is it a motion that I can raise to defer until we all have an opportunity to see the information that's being requested? I know it's in the middle of another motion that's been seconded. I don't know.

City Manager Iglesias: Through the Mayor.

City Clerk Urquia: It has been seconded.

Commissioner Lara: Right. So there's, I can't entertain a motion to defer.

City Attorney Suarez: Not a motion to defer. No.

Commissioner Lara: Very good. Okay. So, which I think would have been appropriate just to give us a little more time, you know, to follow up on what it is that we're, we're being asked to vote on a resolution to support.

Mayor Lago: Mr. Manager.

City Manager Iglesias: Thank you, Mayor and Commissioners. We are very diligent in who we support. And we have a corporation and in this case, it's for profit. And even if it was for nonprofit,

*City Commission Meeting*

that we do research and make sure that before we put our name on corporation, that on any entity that it makes sure that this entity has, and I'm sure it's a great cause, but we want to make sure it has, that entity has all values that we that we have in Coral Gables and that we cherish. And so, we would look into the corporation, look to see what it's doing, and also dig a little deeper to make sure that those values that we propose are part of that corporate structure. And at this moment, I don't know.

Mayor Lago: Okay. We have a motion and a second, Mr. Clerk.

Commissioner Castro: Through the Mayor. I asked for a video, which is going to give you guys a lot more information. And I'm sorry, some of my colleagues really didn't get a chance to read through the whole resolution because the resolution actually tells you the corporation and the information some of you are questioning. I know that sometimes the agenda can get a little full and that might be difficult for some of us, but if we can please have the video.

[Video Presentation]

*Hello, my name is Janine. I work with Liquid Gold Honey, and today I have the privilege of working with Alejandro.*

*Alejandro: Hello.*

*Janine: He's been my helper today. I'm also teaching him about honey and how things work. And can you tell everyone a little bit about what you learned? Do you remember what the darkest honey has? I know it's a big word.*

*Alejandro: Antioxidants.*

*Janine: Yes, the buckwheat is the darkest honey and it's the strongest with antioxidants. Also, the wildflower, do you remember what the wildflower has?*

*Alejandro: Another anti-inflammation.*

*Janine: Yes, also, comes from the Everglades. Very important. And I really appreciate today, and I appreciate working with Michael, which is the owner of this market, because he allows people on the spectrum to, he allows, he trains them, gives them the opportunity to work. And I really appreciate that because my son is also on the spectrum and non-verbal, and it gives me hope and much gratitude that people are going to treat my son with the same respect and give him opportunity as well. So, I really appreciate being a part of this community and this market and*

City Commission Meeting

April 14, 2026

Agenda Item F-11 – Resolution supporting Matheson Hammock Market and support their efforts to Employ individuals on the autism spectrum

[Date]

9

*giving someone like Alejandro an opportunity and just loving the full experience. And we hope you come and see us here at Matheson Hammock every Saturday and Sunday. Thank you.*

*Hi, we are here in Matheson Farmers Market, and today we have the pleasure to work with Melissa. Melissa, how are you today?*

*Melissa: I made lemonade to serve people. I did peel a lemon out and then I did squeeze the lemon for ice, water, and different flavors. And including, I served the people serving on their lemonade because they are selling coconut water and fresh lemonade.*

*We think it's very important that we hire people from the Unique Abilities community because to just give them an experience to play on an equal playing field with all of us. Hey, today we're at the Matheson Hammock Farmer Market fruit stand with David. David, you had an opportunity today to work with the fruit stand. What's the takeaway? I mean the mangoes and the orange and guava. And guava, that's awesome. What kind of skills did you learn today or did you learn mostly classifications of fruit? Picking up the stickers. Okay, awesome. And you know, this is very important for us to give opportunities to those in the neurodivergent community to get gainful employment, also to learn different life skills like working with fruit, peeling fruit, and preparing them for consumption, and papaya as well. So, is this something that you would find beneficial and want to do again maybe? Yeah. Awesome. Well, thank you, David. We appreciate it.*

*I was making candles in Raisinista, the school, and we make with wax, fragrance, and all things for buying.*

*So, thank you. Nico, do you prefer making candles or going out and selling? What is your favorite? This is really, really important for the community, the ability to get our kids out. This is our classroom. We don't lock our kids up inside the classroom. This is our classroom. They get out in the community, they engage, they learn how to sell, how to engage with the community, and then they can take those skills later on in life and be very productive, accepted members our community. So, what we need is the support of our community. We need people to come, come to these fairs, buy our products, support our kids, and get very, very actively involved with the autistic and neurodiverse community.*

*I belong to an organization called the Demoya Foundation and they help people with unique abilities find jobs. That's awesome. How long have you been with the market? Three months, of course. And how do you like it? All right. Yeah, what kind of skills have you been working on here? Management, unloading. Do you greet people when you come in? Greet people as well. Yeah. And then what's your favorite part about the job, Armando? That you make me feel like family. We do, we do consider you family.*

*City Commission Meeting*

[End Video Presentation]

Mayor Lago: So, in response to Commissioner Castro's comments. I did read your resolution. It was very short and brief, but it lacked the substance of actual documents. Your license is not here. Your insurance is not here. Just because you say you have insurance doesn't prove that you have insurance. So that's what I meant when you actually lack documentation. So, if you'd like, we're going to take a vote now. Whatever happens at the other end, I still highly recommend that you provide that information one form or another.

City Attorney Suarez: Mr. Mayor.

Mayor Lago: Yes.

City Attorney Suarez: I'm sorry. I just want to clarify with Commissioner Lara's question about a motion to defer. A motion to postpone is one of the motions that can be made while there is another pending motion. So, I just want to clarify that.

Mayor Lago: We have a motion. Commissioner Lara has a motion to postpone. Do we need a second? Is that the way it works?

City Attorney Suarez: A second is required, yes.

Vice Mayor Anderson: I will second that.

Mayor Lago: All right. So, we have a motion and a second. Mr. Clerk, do we have a vote?

Commissioner Castro: No.

Commissioner Fernandez: It is really disappointing to watch that adding your event to the calendar in an area that has very few events in the city has become political. And we see events from not-for-profit corporations on the city calendar all the time. So, I would ask for a full list of every event that has been listed on the city calendar over the last three years since I've been in this Commission. This should be a no-brainer. Armando, I want to congratulate you for the work that you're doing. I want to thank you both for the work that you're doing for the neurodivergent community. It's disappointing that it's come to this. I'm not going to vote to defer. This item should have been voted on today. It's a no-brainer for me.

Commissioner Lara: Yes.

Vice Mayor Anderson: The profit items that do get advertised in our city do go through the rigorous process. Deferral doesn't mean no. Okay. You're being here today and describing where your

*City Commission Meeting*

market is itself is advertising, but we do have to follow a normal procedure when you're dealing with a for-profit company. In the meantime, I was looking up organizations that you have under the Florida Corporations, Sunbiz area. I see a number of them. I don't know if they're all you, or there's a mixture between where you use your middle initial and you don't use your middle initial. I know that our city can do a beautiful job of clearing all that, so the residents know that we're doing things the same way for your organization that we do for everybody else. I'll enjoy going down there and seeing all the fine work that you're doing helping the autistic community and disabled community enjoy a productive life. Thank you. Yes, on the deferral for now.

Mayor Lago: Before I say yes on the deferral, this is simple. Send me all the information through the Manager's office, copy all the Commission, put together a comprehensive package explaining what you're asking for. You're a for-profit organization. You're going to benefit financially from the city, which has the best brand in South Florida, attaching themselves to you. I understand why you're doing it, and I also understand why you're helping the neurodivergent community. By the way, before the record, and you know this, everybody follows the City of Coral Gables in regard to the neurodivergent community. I've been here 13 years. We started with the CARD Center. We have Crystal Academy. We have the University of Miami. So, we've been doing this for a long time, a long time. In this building alone and in City Hall, we have Project Victory. We have a litany of different organizations that are engaged with the city. You're not in the City of Coral Gables. You're a for-profit organization, and I have to protect the brand of the City of Coral Gables. Two points really quickly in regard to Commissioner Fernandez. I second his comments 110 percent. Not three. Give him the last five years. In the last five years, I'd like to know all the for-profits, and I also want to make sure that, again, remember, we had a cowboy here at one point for a year. His name was Amos Rojas, and we did insane things as saying that this building was going to fall and rush people out, which I never moved out of City Hall. We embarrassed ourselves over and over and over again as a city when we allowed an elected, you know, a non-elected official to walk in the middle of a Commission meeting and be the Manager at a \$365,000 a year salary. I asked for a vet. Let's vet and let's find the best Manager. What I hope that you do and you would have done is when I asked you for something as simple as, hey, just get me some background information before I tie the city's hitch to you, and we give you free publicity, and we start pushing people towards your way, let me at least know what I'm getting involved in, what I'm engaging in. It's a simple ask. It's a simple ask. I didn't say no. I'm in favor of it 110 percent, but I'm just asking you. You don't have to come here and try to ram it down my throat. That's what they did for two years on everything, on every single thing. I couldn't even get up to go to the bathroom here. What I'm asking here is to protect the City of Coral Gables and make sure that our brand is not tarnished. I'm not saying you're going to tarnish our brand, but you do understand that, right? If I give you free publicity and something happens at your market that is not up to our standard, they're going to come back, and they're going to blame it on us, and we're going to be in a position where, hey, well, you recommended me to go there. So, I just want to be careful. That's all I'm asking. Put it

*City Commission Meeting*

together in the next week, and we'll have it on the next Commission agenda, and I look forward to presenting it. Commissioner Castro can present it, and I look forward to voting in favor of it as long as the Manager and the team and our procurement department and our staff and our legal department vets, and it seems that it's appropriate. It's a simple request. We do it in the private sector. We should do it in the public sector at the end of the day. Thank you, sir.

Commissioner Castro: Through the Mayor. Armando did such an amazing job. Thank you so much, Armando. Mayor, I'm going to ask if maybe we could take lunch sometime soon, because I did buy Armando some lunch. I said that he would have the privilege of having lunch with me in my office. That's why I asked for lunch sometime soon at 12, so we can rush lunch.

Mayor Lago: We sure have, and I just take two other items, and I'm going out. Armando, it's a blessing to have you here, and you have the greatest privilege to have lunch with Commissioner Castro. So I hope that you have a wonderful lunch, and you enjoy it, and I look forward to you coming back in two weeks, presenting here before the Commission again, and getting it approved once all the documentation is provided, because I really enjoyed your presentation, and I love your shirt, by the way. Thank you, sir.
