Cleaning Highlights

Accomplishments

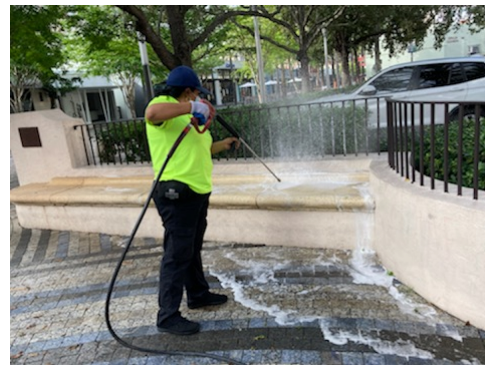

This month Ambassadors put in a lot of time and effort into keeping all benches and ballards clean and free of mildew, as heavy rains have caused several benches to look green due to algae growth. The pressure washer was used twice (2x) a week in order to keep up with the work load.

Field Observations

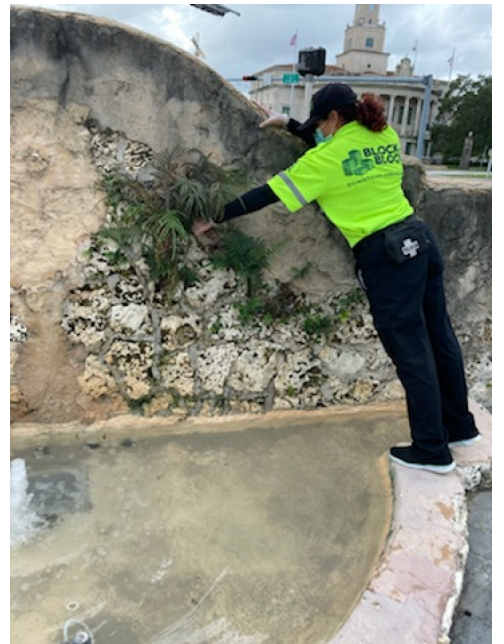

Heavy rains have caused pavers to sink and sand to rise above the pavers. Tree roots are starting to become an issue causing pavers to lift making them a tripping hazard for pedestrians on the Mile. Ambassadors worked on fixing sunken pavers as they become an issue.

Field Observations

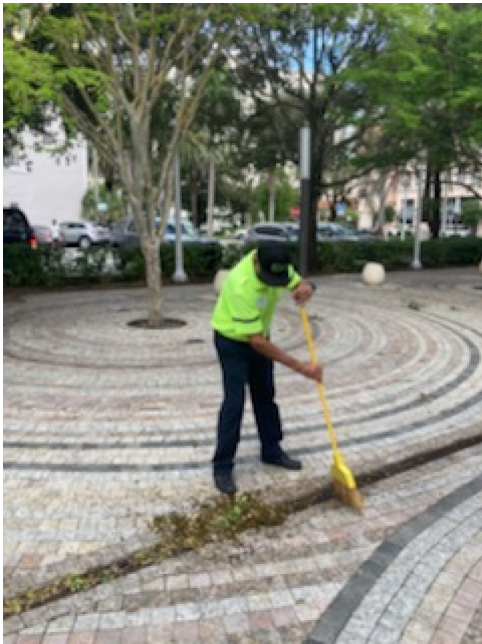

Ambassadors have been doing an extraordinary job at maintaining the Mile clean, even with the inclement weather we have experienced lately. They have had to remove fallen tree branches, excess leaves and debris from drains, they also struggle on a daily basis with dog feces and human feces from the homeless that they encounter on the mile several times throughout the day.

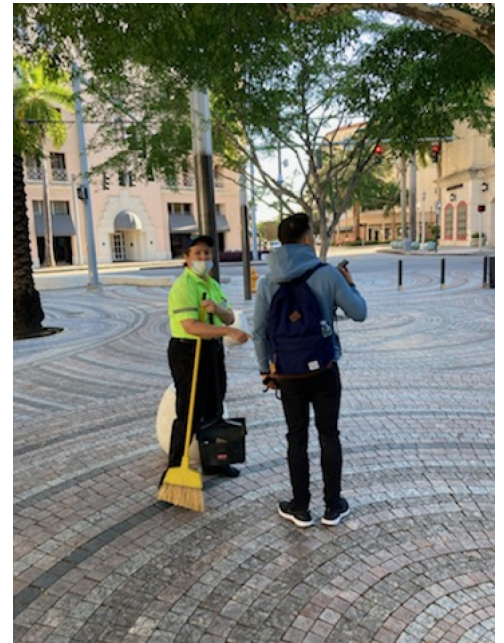

Hospitality Highlights

Accomplishments

Ambassadors are continuing to offer exceptional customer services to visitors in the area, while still complying with social distancing rules and maintaining proper safety protocol.

Safety Highlights

Field Observations

We have noticed an increase in the amount of homeless people that visit our area, making this an issue as they have been found sleeping in closed businesses doorways and have also left feces behind, which our Ambassadors clean on a daily basis.
