TRIONDA MATCH BALL

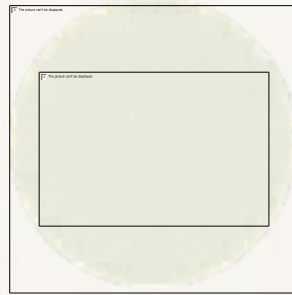

The “Trionda” giant Match Ball is inspired by the iconic “la ola” wave and represents the unity and excitement of the tournament’s three host nations.

FIFA and adidas gifted a giant “Trionda” Match Ball to the Miami Host Committee for placement in the community. Coral Gables was offered the ball for a temporary installation on Giralda Plaza.

The installation would serve as a temporary place-making activation and photo opportunity to build on the excitement generated by the World Cup games.
