

City of Coral Gables Planning Division Staff Recommendation

Applicant:	Califon Company N.V.
Application:	Conditional Use Review for a Building Site Determination, Tentative Plat Review and Zoning Code Amendment
Property:	6801 Granada Boulevard, Coral Gables, Florida
City Public Hearing Dates/Times:	Planning and Zoning Board December 11, 2013, 6:00 – 9:00 p.m. City Commission Chambers, City Hall, 405 Biltmore Way, Coral Gables, Florida, 33134

Application Request.

Request for conditional use review for a building site determination, tentative plat review and Zoning Code text amendment for the historically designated property located at 6801 Granada Boulevard, as follows:

- 1. An Ordinance of the City Commission of Coral Gables, Florida requesting Conditional Use Review for a Building Site Determination pursuant to Zoning Code Article 3, "Development Review", Section 3-206, "Building Site Determination" to create two (2) separate single-family building sites on property assigned Single-Family Residential (SFR) zoning and Local Historic Landmark; one building site consisting of Lot 1 and the other of Lot 2, submitted concurrently with a proposed re-plat for the property legally described as Tract 2, Cartee Homestead Section (6801 Granada Boulevard), Coral Gables, Florida; including required conditions; providing for severability, repealer, codification, and an effective date.*
- 2. Resolution of the City Commission of Coral Gables approving the Final Plat entitled "Revised Plat of Cartee Homestead" pursuant to Zoning Code Article 3, Division 9, "Platting/Subdivision", being a re-plat of an approximately 3.0 acre single tract into two (2) platted lots for residential, single-family use on property assigned Single-Family Residential (SFR) zoning and Local Historic Landmark, legally described as Tract 2, Cartee Homestead Section (6801 Granada Boulevard), Coral Gables, Florida; providing for an effective date.*
- 3. An Ordinance of the City Commission of Coral Gables, Florida providing for a text amendment to the City of Coral Gables Official Zoning Code Appendix A, "Site Specific Regulations", by adding Section A-17.1. "Revised Plat of Cartee Homestead", to indicate Lots 1 and 2 are separate building sites; providing for severability, repealer, codification, and an effective date.*

Summary of Application.

“Califon Company N.V.” (hereinafter referred to as “Applicant”), has submitted an application for “Conditional Use Review for a Building Site Determination”, “Tentative Plat Review” and a “Zoning Code Text Amendment” (hereinafter referred to as the “Applications”) for City of Coral Gables review and public hearing consideration. The application package submitted by the Applicant is provided as Attachment A.

On 07.27.05, the former Building and Zoning Department issued a Building Site Determination Letter that states the property’s entire 3.0 acre tract is one building site for one single-family residence. The current request is to re-plat the single tract of land into two (2) platted lots and separate the property into two building sites, with a single-family residence permitted on each of the platted lots. The proposed Zoning Code text amendment would fulfill the technical requirement to record the building site determination in the appendix of the Zoning Code.

The existing single-family residence and entire property has been designated as a local historic landmark. The historic residence would be retained, but must be modified by the removal of existing encroachments in order to allow the proposed re-plat and building site separation to occur. The historic residence would be located on proposed platted Lot 1 (82,906 sq. ft. or 1.90 acres) on the west side of the property, and a new single-family residence would be constructed on proposed platted Lot 2 (46,208 sq. ft. or 1.06 acres) on the east side of the property. An application to separate and re-plat the subject property into two (2) building sites was submitted in 2007 and denied by the City Commission. While this is a similar request, variances were required for the previous re-plat, and are not required with the current proposal.

The conditional use review for a building site determination requires review via the conditional use process and requires City Commission review at two (2) public hearings (Ordinance format). The Zoning Code text amendment recording the building site separation also requires City Commission review at two (2) public hearings (Ordinance format). The proposed tentative plat requires public hearing review by the Planning and Zoning Board, prior to the preparation of the Final Plat which requires City Commission review at one (1) public hearing (Resolution format).

The property is located on Granada Boulevard approximately two blocks north of Sunset Road. The property backs onto the Coral Gables Waterway and the north side of the property is bounded by the Mahi Waterway, and is legally described as Tract 2, Cartee Homestead Section (6801 Granada Boulevard), Coral Gables, Florida, as shown in the following location map:

Block, Lot and Section Location Map

Site Data and Background.

Site Data and Surrounding Uses

The following tables provide the subject property's designations and surrounding land uses:

Existing Property Designations

Comprehensive Plan Map designation	"Residential Single-family Low Density"
Zoning Map designation	Single-Family Residential (SFR) and Local Historic Landmark

Surrounding Land Uses

Location	Existing Land Uses	CP Designations	Zoning Designations
North	1-2 story single-family residences	"Residential Single-family Low Density"	Single-Family Residential (SFR)
South	1-2 story single-family residences	"Residential Single-family Low Density"	Single-Family Residential (SFR)
East	1-2 story single-family residences	"Residential Single-family Low Density"	Single-Family Residential (SFR)
West	1-2 story single-family residences	"Residential Single-family Low Density"	Single-Family Residential (SFR)

The surrounding properties have the same single-family residential land use and zoning designations as the subject property, illustrated as follows:

Existing Future Land Use Map

Existing Zoning Map

Aerial

Background

This property is located on Granada Boulevard approximately two blocks north of Sunset Road, half-way between Hardee Road and Cartagena Plaza. The property backs onto the Coral Gables Waterway and the north side of the property is bounded by the Mahi Waterway. The property consists of a single tract and is approximately 128,077 square feet in size (2.94 acres) with approximately 433 feet of frontage along Granada Boulevard. According to the Miami-Dade County property information files, the existing residence was constructed in 1951 and is a two-story residence containing 9,448 adjusted square feet (8 bedrooms/7 bathrooms). Existing asphalt driveways, pool/pool house, tennis court and a coral rock wall are located on the property in addition to the existing residence.

City Legislative History

1. Resolution No. HPR165-LHD2011-02 (adopted 06.21.07) - Designated residence and entire property as a Local Historic Landmark.

2. On 07.18.07, the Planning and Zoning Board recommended denial (vote: 5-0) of a previous application for a re-plat and to separate the subject property into two (2) building sites, which was heard and denied by the City Commission (vote: 5-0) on 08.28.07.
3. Resolution No. 2007-192 (adopted 08.28.07) – States City Commission denied approval of the proposed building site separation (copy provided as Attachment B).
4. On 09.19.13, the Historic Preservation Board granted a Certificate of Appropriateness for the proposed modifications to the existing historical residence required to allow the re-plat of the property and separation of the building site.

While the 2007 proposal also proposed two (2) building sites, the re-plat had a slightly different platted lot configuration and variances were required. Staff's 07.18.07 report and recommendation, a copy of the previously proposed tentative plat, 01.26.07 and 06.25.07 Historical Resources letters, and the 07.18.07 Planning and Zoning Board meeting minutes are provided as Attachment C for informational purposes. The analysis of the current application is independent of the proposal submitted in 2007.

City Review Timeline

The submitted application has undergone the following City reviews:

Type of Review	Date
Development Review Committee	06.28.13
Board of Architects	07.11.13
Historic Preservation Board	09.19.13
Planning and Zoning Board	12.11.13
City Commission (1 st reading)	01.14.14
City Commission (2 nd reading)	TBD

Proposed Building Site Separation and Site Plan

Proposal – Building Site Separation and Site Plan

Proposed Building Site Separation Application

The application package includes the following (see Attachment A):

- 1) Cover letter and analysis of building site separation criteria;
- 2) Completed public hearing application, property legal description and information;
- 3) Original plat, historical map and historical lot plan;
- 4) Survey and tentative plat;
- 5) Proposed demolition plan, site plan and zoning analysis;
- 6) Contextual plan and massing plan views;
- 7) Aerial and site photos;

- 8) Future land use and zoning maps;
- 9) Historic Preservation Board Designation Report;
- 10) Board of Architects comments and recommendations;
- 11) Zoning Division comments and responses;
- 12) Historic Preservation Board letter and Certificate of Appropriateness; and,
- 13) Utility letters of consent.

Conceptual Site Plan

A conceptual site plan was submitted with the Applications showing the development of the property with the creation of the second building site that is required by the Zoning Code to assist with the evaluation of the request. This site plan is only intended to indicate that the proposed building sites can be developed according to the Single-Family Residential (SFR) Zoning Code provisions. The conceptual site plan is not tied to the request for building site separation. Future construction of this historically designated property requires architectural and historic compatibility review and approval by the Historic Preservation Board and Board of Architects prior to the issuance of a building permit.

Permitted Development

Currently, this 128,077 SF property is a single tract of land (one platted lot), and has been determined to be one building site for a single-family residence. The Zoning Code would permit a residence with a maximum 39,573 SF size to be constructed on this property. Calculation of the maximum permitted size of the residence is based on the Zoning Code provisions allowing a maximum SF equal to 48% of the first 5,000 SF of the property, 35% for the second 5,000 SF and 30% for all remaining property over 10,000 SF.

According to the Miami-Dade County property file information submitted with the application, the existing historic structure was constructed in 1951 and contains 9,448 adjusted square feet. A total of 26,022 SF to be constructed on the proposed 82,906 SF building site (Lot 1) which would allow for a potential 16,574 future addition to the existing historic structure. The proposed second building site (Lot 2) is 46,208 SF in size. This would allow a new residence with a maximum 15,012 SF to be constructed. A maximum total development of 41,034 SF would therefore be permitted on this property based on the provisions in the Code if the building site separation is approved.

The following table compares the proposed building sites with the applicable Zoning Code requirements for single-family residences. This analysis shows that the property can be developed as proposed and meet the requirements of the Zoning Code:

Site plan information:

Type	Entire property permitted/required	Lot 1 – Existing historic SF residence	Lot 2 – Conceptual new SF residence
Building site frontage	418'	288'	130'
Building site depth	300'	300'	300'
Total site area	128,077 SF	82,906 SF	46,208 SF

Type	Entire property permitted/required	Lot 1 – Existing historic SF residence	Lot 2 – Conceptual new SF residence
Building floor area (FAR)	39,573 SF	26,022 SF (9,448 SF Existing)	15,012 SF
Building height	Max. 2 stories/29'-0" above established grade	Existing 2 story historic residence to remain	Max. 2 stories/29'-0" above established grade
Setbacks:			
Front	Min. 25'-0"	Min. 25'-0"	Min. 25'-0"
Side (interior)	Min. 5'-0"	Min. 5'-0"	Min. 5'-0"
Side (waterway)	Min. 35'-0"	Min. 35'-0"	Min. 35'-0"
Rear	Min. 10'-0"	Min. 10'-0"	Min. 10'-0"
Rear (waterway)	Min. 35'-0"	Min. 35'-0"	Min. 35'-0"
Building ground area coverage (including aux. structures)	Max. 45%	Existing/max.45%	Max. 45%

Historic Preservation Board Review

On 09.19.13 the Historic Preservation Board approved a Certificate of Appropriateness for the alterations to the existing historic residence required to permit the proposed re-plat into two (2) platted lots for single-family residences. At that meeting, Historical Resources Department Staff informed the Historic Preservation Board that the building site separation request to create two (2) building sites is subject to the purview of the Planning and Zoning Board and the City Commission. The Certificate of Appropriateness was approved with the following six (6) conditions:

1. No alteration or demolitions will occur unless the proposal to subdivide the property into two (2) building sites is approved by the City Commission.
2. Retain the existing loggia (noted on the plans as "existing pool pavilion").
3. Any new construction on the parcel of land that will be created for a new residence ("Proposed Lot 2") will require a Special Certificate of Appropriateness and review by the Historic preservation Board.
4. No tree removals/relocations will occur on the lot that has the historic residence ("Proposed Lot 1") unless the proposal to subdivide the property into two (2) building sites is approved by the City Commission.
5. The removal/relocation of trees on the lot that is created for a new residence ("Proposed Lot 2") will be part of the application for that residence and will require a Certificate of Appropriateness. No tree removal or relocations will occur until the design of the new residence has been approved.
6. The demolition of the portion of the perimeter coral rock wall to accommodate the driveway for the new residence ("Proposed Lot 2") will also be part of the application for that residence and will require a Certificate of Appropriateness.

The Historical Resources Department's 09.19.13 Historical Resources Department's Special Certificate of Appropriateness Staff report is provided as Attachment D, and the 09.24.13 Historical Resources Department cover letter with a copy of the approved Certificate of Appropriateness is provided as Attachment E.

Board of Architects Review of Existing Residence

The proposed renovations to the existing historic residence were reviewed by the Board of Architects and received preliminary approval on 07.11.13.

City Staff Comments

This proposal has been reviewed by City Departments on 06.28.13 as part of the Development Review Committee process. The Public Service Division requested that they participate in the review and approval process for the new residence on Lot 2 as there are a large number of mature trees on that site. The Public Works Department provided comments as required regarding the proposed tentative plat which are referenced in the Findings of Fact section of this report.

The proposed tentative plat, existing conditions and demolition plan and the Applicant's conceptual site plans and are provided on the following pages:

TENTATIVE PLAT OF "REVISED PLAT OF CARTEE HOMESTEAD"

BEING A REPLAT OF TRACT 2 OF "CARTEE HOMESTEAD" AS RECORDED IN PLAT BOOK 43, AT PAGE 30, OF THE PUBLIC RECORDS OF MIAMI-DADE COUNTY, FLORIDA AND SITUATED IN THE SOUTHWEST 1/4 OF SECTION 28, TOWNSHIP 54 SOUTH, RANGE 41 EAST, LYING AND BEING IN CITY OF CORAL GABLES, MIAMI-DADE COUNTY, FLORIDA.

Existing Conditions and Demolition Site Plan

[illegible]

Findings of Fact.

This section of the report presents City Staff's evaluation of the Application and Findings of Facts. The City's responsibility is to review the Application for consistency with the City's Comprehensive Plan (CP) Goals, Objectives and Policies, compliance with the Zoning Code and compliance with other applicable portions of the City Code.

Findings of Fact- Separation and Establishment of Building Sites

Review of Zoning Code Criteria

On 07.27.05, the former Building and Zoning Department issued a Building Site Determination Letter that states the property's entire 3.0 acre tract is one (1) building site for one (1) single-family residence (see Attachment F). Zoning Code Section 3-206(F) provides the criteria for the separation and establishment of building sites, as follows:

"F. When reviewing and providing a recommendation on an application for conditional use for a building site determination, the Planning Department, Planning and Zoning Board and the City Commission shall consider and evaluate the request together with a proposed site plan and provide findings that the application satisfies at least four (4) of the following six (6) criteria:

Staff has reviewed the Application based upon the six (6) criteria and finds that the Application satisfies three (3) of the six (6) criteria, as follows:

"1. That exceptional or unusual circumstances exist, that are site specific such as unusual site configuration or partially platted lots, or are code specific such as properties having two (2) or more zoning and/or land use designations, multiple facings or through-block sites, which would warrant the separation or establishment of a building site(s)."

Staff Comment: While this building site is the largest property in this residential neighborhood, the site does not exhibit any of the characteristics described that would qualify as exceptional or unusual circumstances. This property does not have an unusual site configuration, does not consist of partially platted lots, does not have two or more land use or zoning designations, does not have multiple facings and is not a thru-block site. This is the same Staff conclusion for the criteria made for the previous request in 2007 to separate the property into two (2) building sites. The Planning and Zoning Board may determine that unusual circumstances do exist, based upon the additional information, testimony, and evidence submitted during the meeting.

The Application does not satisfy this criteria.

"2. That the building site(s) created would be equal to or larger than the majority of the existing building site frontages of the same zoning designation within a minimum of one thousand (1,000) foot radius of the perimeter of the subject property or extending no farther than the immediate vicinity, whichever is less.

"Immediate vicinity" shall be defined as an area in which a parcel of land is located, that is physically, functionally or geographically identifiable as a distinct realm, place or neighborhood, or an area within a radius of not more than one-half (1/2) mile from the subject property, whichever is smaller."

The applicant's building site frontage analysis is as follows (see Attachment A):

Frontage	0 to 130'	131'+	Total
No. of Sites	161	59	220
Percentage	73%	27%	100%

Staff Comment: The building site frontage of proposed Lot 2 (130' frontage) would be equal to or greater than seventy-three (73%) of the surrounding comparable building site frontages.

The Application satisfies this criteria.

- "3. That the building site(s) separated or established would not result in any existing structures becoming non-conforming as it relates to setbacks, lot area, lot width and depth, ground coverage and other applicable provisions of the Zoning Code, CP and City Code. The voluntary demolition of a building which eliminates any of the conditions identified in this criterion shall not constitute or result in compliance with this criterion."

Staff Comment: The existing historic structure would remain on Lot 1 and would meet Zoning Code requirements regarding setbacks, lot area, lot width and depth, ground coverage and other applicable provisions.

The Application satisfies this criteria.

- "4. That no restrictive covenants, encroachments, easements, or the like exist which would prevent the separation of the site. The voluntary demolition of a building which eliminates any of the conditions identified in this criterion shall not constitute or result in compliance with this criterion."

Staff Comment: The existing residence's asphalt driveway and existing walkways and planters encroaches onto proposed Lot 2. These existing encroachments would have to be demolished and removed to allow the separation of the property as proposed into two (2) building sites.

The Application does not satisfy this criteria.

- "5. That the proposed building site(s) maintains and preserves open space, promotes neighborhood compatibility, preserves historic character, maintains property values and enhances visual attractiveness of the area."

Staff Comments: The proposal for two (2) building sites on this property retains the existing historic structure and creates a building site with a frontage that is equal to or larger than the surrounding building sites.

The Application satisfies this criteria.

- "6. That the building site(s) created was purchased as a separate building(s) by the current owner prior to September 17, 1977."*

Staff Comment: The property data information sheet submitted with the application shows that the current owner purchased the property in 1980.

The Application does not satisfy this criteria.

Pursuant to Zoning Code, Article 3, Development Review, Section 3-206., Building Site Determination, Subsection F, Planning Staff finds the Application satisfies three (3) of the six (6) criteria.

Findings of Fact- Tentative Plat Review

The procedure for reviewing and recommending a tentative plat is contained in Sections 3-901 through 3-904 of the Zoning Code. The Planning and Zoning Board provides a recommendation on tentative plats to the City Commission. The final plat is prepared from the tentative plat, with a final review and approval in resolution form by the City Commission. Administrative review and approval of final plat is required by the Miami-Dade County Subdivision Department prior to the City Commission hearing. The tentative plat is provided in the submitted Application (see Attachment A).

Proposed Zoning Plan

The tentative plat entitled "Revised Plat of Cartee Homestead" proposes re-platting the single platted tract into two (2) platted lots. The property's zoning designation would not change as a result of this re-plat and both platted lots would remain Single Family Residential (SFR), and designated as an historic landmark. Both building sites (Lots 1 and 2) created would be deemed to face onto Granada Boulevard. All required setbacks for these building sites would apply and remain the same. The single-family structures on the two (2) building sites would be required to meet all provisions of the Zoning Code. No variances are requested or required from the platting standards as specified in the Zoning Code.

Other Reviews

As required by Code, comments were solicited from affected utility companies regarding the tentative plat. No objections were received from Florida Power and Light Company, Miami-Dade Water and Sewer, City Gas or BellSouth concerning this re-plat. Copies of each of the utility companies' review letters are included in the application package provided as Attachment A.

City Staff Review

This tentative plat was submitted for review to the Development Review Committee (DRC) and distributed to City Departments as required in Zoning Code Section 3-902. The Zoning Code requires review and comments be provided by the Public Works Department with Staff's report and

recommendation. In a memorandum dated 10.16.13, the report submitted by the Public Works Department had no comments in objection to the proposed tentative plat (see Attachment G).

Consistency Evaluation of the Comprehensive Plan (CP) Goals, Objectives and Policies

This section provides a detailed analysis of the CP providing a basis of consistency, and finds the following CP Goals, Objectives and Policies are applicable.

Consistent CP Goals, Objectives and Policies are as follows:

Ref. No.	CP Goal, Objective and Policy	Staff Review
1.	Goal FLU-1. Protect, strengthen, and enhance the City of Coral Gables as a vibrant community ensuring that its neighborhoods, business opportunities, shopping, employment centers, cultural activities, historic value, desirable housing, open spaces, and natural resources make the City a very desirable place to work, live and play.	Complies
2.	Policy FLU-1.3.2. All development applications in residential neighborhoods shall continue to be reviewed by applicable boards and committees to ensure the protection from intrusion by incompatible uses that would disrupt or degrade the health, safety, tranquility, aesthetics and welfare of the neighborhood by noise, light, glare, odor, vibration, dust, hazardous materials or traffic. The City will continue to enforce the adopted restrictive design standards; historic preservation policies and the applicable performance standards of the Commercial Limited designation in the Zoning Code.	Complies
3.	Objective FLU-1.4. Provide for protection of natural and historic resources from development and/or redevelopment together with continued maintenance.	Complies
4.	Policy FLU-1.4.3. Historic sites shall be identified and protected, and performance standards for development and sensitive reuse of historic resources shall be established.	Complies
5.	Objective FLU-1.11. Maintain a pattern of overall low density residential use with limited medium and high density residential uses in appropriate areas to preserve the low intensity and high quality character of the residential neighborhoods.	Complies
6.	Policy FLU-1.11.1. Maintain and enforce effective development and maintenance regulations through site plan review, code enforcement, and design review boards and committees.	Complies
7.	Objective FLU-1.13. The City shall enforce the recently adopted Zoning Code which creates, preserves and maintains scenic vistas in keeping with the classic traditions as embodied in the original city plan.	Complies
8.	Objective FLU-1.14. The City shall enforce Zoning Code provisions which continue to preserve and improve the character of neighborhoods.	Complies

Ref. No.	CP Goal, Objective and Policy	Staff Review
9.	Goal FLU-3. The City as a part of its development review process shall engage public/community participation and collaboration to provide for a transparent development review process.	Complies
10.	Objective FLU-3.1. The City shall continue its efforts to notify stakeholders, residents, property owners and neighborhood associations of pending development reviews to provide transparency within the development process.	Complies
11.	Objective DES-1.1. Preserve and promote high quality, creative design and site planning that is compatible with the City's architectural heritage, surrounding development, public spaces and open spaces.	Complies
12.	Policy DES-1.1.1. Promote and support George Merrick's vision consistent with the established historic and cultural fabric of the City.	Complies
13.	Policy DES-1.1.3. Ensure that the design of buildings and spaces in historic areas of the City complements, is compatible with, does not attempt to imitate and does not undermine the City's historic character.	Complies
14.	Policy DES-1.1.5. Promote the development of property that achieves unified civic design and proper relationship between the uses of land both within zoning districts and surrounding districts, by regulating, limiting and determining the location, height, density, bulk and massing, access to light and air, area of yards, open space, vegetation and use of buildings, signs and other structures.	Complies
15.	Policy DES-1.1.6. Maintain the character of the residential and nonresidential districts, and their peculiar suitability for particular uses.	Complies
16.	Policy DES-1.1.7. Preserve residential properties to assure that future development will be in conformity with the foregoing distinctive character, with respect to type, intensity, design and appearance.	Complies
17.	Goal HIS-1. Preserve and promote the recognition of structures, sites, manmade or natural landscape elements, works of art or integrated combinations thereof, which serve as visible reminders of the history and cultural heritage of the City.	Complies
18.	Goal HIS-3. Continue the preservation and protection of the historical and cultural resources within the City of Coral Gables.	Complies

Staff Comments: Staff's determination that this Application is "consistent" with the CP's goals, objectives and policies that are identified is based upon compliance with conditions of approval recommended with the alternative recommendation provided by Staff and site plan review requirements for future plans for the new residence that will be constructed on the second building site.

Zoning Code Amendment - Site Specific Provisions

If the building site separation request is approved, Zoning Code Appendix A - Site Specific Regulations would be amended by adding Section A-17.1, "Cartee Homestead – Revised Plat", to indicate Lot 1 and Lot 2 are separate building sites, as follows (underlining denotes additions):

Section A-17.1 – Revised Plat of Cartee Homestead.

(a) Building Sites.

1. Tract 2 shall be considered two (2) building sites for single-family residences, as follows:

- a. One building site consisting of Lot 1.
- b. One building site consisting of Lot 2.

Public Notification and Comments.

The Zoning Code requires that a courtesy notification be provided to all property owners within 1,000 feet of the subject property. The notice lists the type of applications filed, proposed public hearing dates/time, and location where the application files can be reviewed. The notice also provides for an opportunity to submit comments on pending applications. Two hundred twenty-five (225) notices were mailed to surrounding property owners. A copy of the legal advertisement and courtesy notice are provided as Attachments H and I. Copies of public comments received are provided as Attachment J.

A map of the notice radius is as follows:

Courtesy Notification Radius Map

The following has been completed to solicit input and provide notice of the Application:

Public Notice

Type	Date
Courtesy notification - mailed to property owners within 1,000 feet of the property	11.26.13
Posting of property	11.26.13
Legal advertisement	11.26.13
Posted agenda on City web page/City Hall	11.26.13
Posted Staff report on City web page	12.06.13

Staff Recommendation and Conditions of Approval.

The Planning Division based upon the complete Findings of Fact contained within this Report recommends **denial** of the following:

1. *An Ordinance of the City Commission of Coral Gables, Florida requesting Conditional Use Review for a Building Site Determination pursuant to Zoning Code Article 3, "Development Review", Section 3-206, "Building Site Determination" to create two (2) separate single-family building sites on property assigned Single-Family Residential (SFR) zoning and Local Historic Landmark; one building site consisting of Lot 1 and the other of Lot 2, submitted concurrently with a proposed re-plat for the property legally described as Tract 2, Cartee Homestead Section (6801 Granada Boulevard), Coral Gables, Florida; including required conditions; providing for severability, repealer, codification, and an effective date.*
2. *Resolution of the City Commission of Coral Gables approving the Final Plat entitled "Revised Plat of Cartee Homestead" pursuant to Zoning Code Article 3, Division 9, "Platting/Subdivision", being a re-plat of an approximately 3.0 acre single tract into two (2) platted lots for residential, single-family use on property assigned Single-Family Residential (SFR) zoning and Local Historic Landmark, legally described as Tract 2, Cartee Homestead Section (6801 Granada Boulevard), Coral Gables, Florida; providing for an effective date.*
3. *An Ordinance of the City Commission of Coral Gables, Florida providing for a text amendment to the City of Coral Gables Official Zoning Code Appendix A, "Site Specific Regulations", by adding Section A-17.1. "Revised Plat of Cartee Homestead", to indicate Lots 1 and 2 are separate building sites; providing for severability, repealer, codification, and an effective date.*

Summary of the Basis for Denial

Planning Staff based upon the Findings of Fact contained herein, does not support the Application because the Application does not satisfy at least four (4) of the six (6) criteria per Zoning Code, Article 3, Development Review, Section 3-206, Building Site Determination, Subsection F. Staff has determined that the application satisfies three (3) of six (6) of the Zoning Code's criteria for review.

Alternative Recommendation - Conditions of Approval

If the Planning and Zoning Board and the City Commission determine based upon the additional information submitted by the applicant and the facts of the application, testimony, and evidence received that the application satisfies the criteria, and desires to recommend **approval** of the proposed building site separation, tentative plat and Zoning Code text amendment then, the Planning and Zoning Division Staff recommends approval of the application subject to the following conditions of approval:

1. The existing historical residence remain on Lot 1 and the new single-family residence constructed on Lot 2 shall meet all applicable requirements of the Zoning Code, and no variances shall be required or requested.
2. Retain the loggia of existing historic residence located on Lot 1 that is noted on the plans as “existing pool pavilion”.
3. Any new construction on the parcel of land that will be created for a new residence on Lot 2 will require a Special Certificate of Appropriateness and review by the Historic Preservation Board. The demolition of the portion of the perimeter coral rock wall to accommodate the driveway for the new residence on Lot 2 will also be part of the application for that residence and will require a Certificate of Appropriateness.
4. The removal/relocation of trees on Lot 2 will be part of the application for the new residence and will require a Certificate of Appropriateness from the Historical Resources Department, and shall also be subject to review and approval by the Directors of Public Service and Planning and Zoning. No tree removal or relocations will occur until the design of the new residence on Lot 2 has been approved and a detailed landscape plan including an existing tree survey indicating those trees proposed to be removed, relocated or replaced and a root preservation plan shall be prepared and provided by the Applicant and submitted with the application for the new residence.
5. Within 30 days of approval of the Conditional Use Review for a Building Site Determination, the property owner, its successors or assigns shall submit a restrictive covenant for City Attorney review and approval that includes all conditions of approval as approved by the City Commission.

Re: **6801 Granada Blvd / Application for Tentative Plat**

Dear Mr. Trias:

This firm along with RJ Heisenbottle Architects represents Califon Company, N.V., the owner of property located at 6801 Granada Blvd., relative to an application to re-plate the property to create two (2) building sites.

Since the incorporation of the City of Coral Gables, the subject property has been designated as single family residential. However, over the years it has taken on many changes. When the property was first platted, it consisted of four and one half (4 ½) single family lots. This is important because it meant that four (4) single family homes could be built on the property. Each lot had a street frontage of seventy five (75) feet. Behind the platted lots and abutting the Mahi and Coral Gables Waterways was a City of Coral Gables Park.

Then in 1943, Mr. Cartee re-platted the property as well as the property across the Mahi Waterway into two (2) tracts, Tract 1 and Tract 2 of Cartee Homestead. Tract 1 that is located across the Mahi Waterway from this property is almost a mirror image of the subject property except for one major difference. Sometime thereafter, Tract 1 was divided into three (3) separate and independent building sites. Mr. Cartee subsequently sold the subject property to Mr. Caudle.

In or about 1951, Mr. Caudle commissioned Alfred Browning Parker to design a residence to Mr. Caudle's requirements. As Mr. Caudle was a single individual, the Parker designed home only had one (1) bedroom in the main portion of the residence and another two (2) small guest bedrooms located on the other side of an open three (3) car carport. The following year, Mr. Caudle commissioned Mr. Parker to design a garage and maid's quarters. In 1967, Mr. Caudle retained the services of Joseph D. Swain to design an addition and alterations to residence. The additions and alterations consisted of enclosing the carport, two (2) one story additions, servant's patio and site alterations including the addition of gates and an additional driveway.

In 1980 the Dalmau family (Califon) purchase the property and have lived there over the years and continue to own the property today. In 1982, the Jordi Dalmau retained the services of Ferandino, Grafton, Spillis and Candela to make additional alterations to the buildings.

In 2007, the City of Coral Gables declared the property as local historic landmark due to fact that the original residence was designed by Alfred Browning Parker. Since 2007, if not before, the Dalmaus have been trying to sell the property. The historic designation has become an impediment to selling the property. The historic residence has low ceilings throughout the house. In addition, the Mr. Parker designed residence does not meet a buyer's expectations in today's market. Furthermore, where the residence is located (taking advantage of the views of both the Mahi and Coral Gables Waterways) is exactly where a potential purchaser would want to construct a new residence that meets today's needs. As such, the property has not sold.

In order to make the property more compatible with the neighborhood and salable, we are requesting that the property be re-platted into two (2) building sites. One building site would consist of eighty two thousand nine hundred and six (82,906) square feet and would encompass the existing residence, tennis court, swimming pool and cabana area. The second building site would consist of forty six thousand two hundred and eight (46,208) square feet and would be a vacant site. The property itself is approximately three (3) acres in size and is the largest parcel in the area, by far. If the building site application is approved, each of the lots would still be one of the largest lots, if not the largest in the neighborhood. In performing an analysis of the homes within one thousand (1,000) feet, the proposed building site would be larger than seventy eight (78%) percent of the frontages of other homes in the neighborhood.

In addition, the property has become an economic hardship to the owner. Since Mr. Parker situated the residence where any potential purchaser would want to locate a new home, the owner has not be able to sell the property and has had to continue to maintain it. Taxes last year alone are almost were approximately seventy five thousand (\$75,000.00) dollars and it takes a least two (2) full time maintenance staff to care for the exposed wood finishes and the landscaping.

For the reasons stated above and that we believe that we meet the building site criteria for a building site separation, we would kindly request your favorable recommendation of our application.

Very sincerely,
Guilford & Associates, P.A.

F.W. Zeke Guilford, Esq.

Building Site Criteria

1. That exceptional or unusual circumstance Exist, that are site specific such as unusual site configuration or partially platted lots, or are code specific such as properties having two (2) or more zoning and or land use designations, multiple facings or through-block sites, which would warrant the separation or establishment of a building site(s).

The property is by far the largest in the area being approximately 3 acres in size. While this is not a thru property, it could be considered as such by the fact that the depth of the property is 355 lineal feet. In the City of Coral Gables, a standard block is two hundred (200) feet in depth. This parcel would be considered a thru lot except for the fact that it abuts a canal rather than another street. So, the property goes from one means of transportation (the street) to another (the canal). Thus, the property must be considered a thru lot. Furthermore, the property is unique in that it does not only front Granada, but fronts on two canals.

Another reason that this property is unique is that it has been deemed historic by the city of Coral Gables. Of the 18,189 houses in the city of Coral Gables, only 1200 are considered to be historic. The residence was designed by Alfred Browning Parker for a single man. As such, the original residence only had one (1) master bedroom in the main portion of the residence with two (2) small guest bedrooms that were located on the other side of an open three (3) car carport. Over the years, there have been several significant additions to the original residence. The original residence is situated on the property to take advantage of the views of both canals. The owner has been attempting to sell the property for years, but any potential purchasers wants to construct a new residence where the historic residence is located and therefore, the owner has not been able to sell the property.

It has become economically unfeasible to maintain the property. The taxes alone are approximately seventy five thousand (\$75,000.00) dollars. The grounds require at a minimum, two full time staff personnel to just care for the exposed wood finishes and the landscaping. Separating the property into two (2) parcels will make the maintenance of the historic property more economically feasible.

The property is unusual in that the property was originally platted as four and one-half (4 1/2) separate single family lots, which would allow for the construction of four (4) single family homes. Located behind the lots was a public park that provided access to the canals. Then in 1943, Mr. Cartee re-platted the lots and the certain lots across the Mahi Waterway into two (2) Tracts. Tract 1 and Tract 2 of Cartee Homestead. The only difference is the City has allowed Tract 1 to be subdivided into three (3) single family lots. We are only requesting two building sites.

2. The building site(s) created would be equal to or larger than the majority of the existing building site frontages of the same zoning designation within a minimum of one thousand (1,000) foot radius of the perimeter of the subject property or extending no farther than the immediate vicinity, whichever is less. "Immediate vicinity" shall be defined as an area in which a parcel of land is located, that is physically, functionally or geographically identifiable

as a distinct realm, place or neighborhood, or an area within a radius of not more than one-half (1/2) mile from the subject property, whichever is smaller.

Within the 1,000 feet of the perimeter of the property there are 158 properties that have a frontage equal to or smaller than proposed building site. There are only forty three (43) properties have frontages greater than the proposed building site. Therefore, the proposed frontage is seventy eight (78%) larger than the lot frontages in the area.

In addition, it should be pointed out that the proposed building site itself being more than one (1) acre would be one of the largest in the area.

3. The building site(s) separated or established would not result in any existing structures becoming non-conforming as it relates to setbacks, lot area, lot width and depth, and ground coverage and other applicable provisions of the Zoning Code, CP and City Code. The voluntary demolition of a building which eliminates any of the conditions of the conditions identified in this criterion shall not constitute or result in compliance with the criterion.

The owner retained the services of RJ Heisenbottle Architects to research the property and determine that no structure would become non-conforming as it relates to setbacks, lot area, lot width and depth and ground coverage and other applicable provisions of the zoning code. In this regard, the City of Coral Gables Zoning Department reviewed the proposed building site separation and determined that the existing buildings, etc., complies with the applicable zoning regulations.

4. That no restrictive covenants, encroachments, easements, or the like exist, which would prevent the separation of the site. The voluntary demolition of a building which eliminates any of the conditions identified in this criterion shall not constitute or result in compliance with this criterion.

There are no restrictive covenants, easements that exist and no building would have to be demolished; however, a driveway would have to be relocated.

A Certificate of Appropriateness was approved on September 19, 2013 allowing the relocation of the driveway conditioned upon the building site separation being approved.

5. The proposed building site(s) maintains and preserves open space, promotes neighborhood compatibility, preserves historic character, maintains property values and enhances visual attractiveness of the area and approval of the request is in the best interest of the public.

By the building sites continuing to be the largest in the area, the property values in the neighborhood will be maintained. In addition, the separation will allow the property owner to maintain the historic structure on the property.

6. That the building site(s) created was purchased as a separate buildings(s) by the current owner prior to September 17, 1977.

The property was purchased thirty three (33) years ago by the current owner in 1980 and therefore does not comply with this requirement.

Application submittal requirements

Five(5)

1. Hard copies. ~~Three (3)~~ hard copies of the entire application shall be submitted including all the items identified in the preapplication conference. **Seven(7)**
2. Digital media copies. ~~Twelve (12)~~ compact discs (CD ROMs) of the entire application including all items identified in the Preapplication Conference. Each document shall be separated into PDF files (i.e., application; site plan, landscape plan; etc.). Please include a "Table of Contents" identifying all PDF file name(s). Each PDF file size shall not exceed 10 Mb. All discs shall be labeled with the applicant(s) name, project name and date of submittal.

Applicant/agent/property owner affirmation and consent

(I) (We) affirm and certify to all of the following:

1. Submission of the following:
 - a. Warranty deed/tax record as proof of ownership for all properties considered as a part of the application request;
or
 - b. Authorized as the applicant(s)/agent(s) identified herein to file this application and act on behalf of all current property owner(s) and modify any valid City of Coral Gables entitlements in effect during the entire review process.
2. This request, application, application supporting materials and all future supporting materials complies with all provisions and regulations of the Zoning Code, Comprehensive Land Use Plan and Code of Ordinances of the City of Coral Gables unless identified and approved as a part of this application request or other previously approved applications. Applicant understands that any violation of these provisions renders the application invalid.
3. That all the information contained in this application and all documentation submitted herewith is true to the best of (my) (our) knowledge and belief.
4. Understand that the application, all attachments and fees become a part of the official records of the City of Coral Gables and are not returnable.

5. Failure to provide the information necessary pursuant to the established time frames included but not limited to application submittal, submission of revised documents, etc. for review by City Staff and the designated reviewing entity may cause application to be deferred without further review until such time the requested information is submitted.
6. All representatives of the application have registered with and completed lobbyist forms for the City of Coral Gables City Clerk's office.
7. Understand that under Florida Law, all the information submitted as part of the application are public records.
8. Additional costs in addition to the application fees may be assessed associated with the review of applications by the City. These are costs that may be incurred by the applicant due to consultant fees paid by City to review the application. The types of reviews that could be conducted may include but are not limited to the following: property appraisals; traffic impact analyses; vegetation/environmental assessments; archeological/historic assessments; market studies; engineering studies or reports; and legal fees. Such fees will be assessed upon finalization of the City application review.

Scale in Feet

KNOW ALL MEN BY THESE PRESENTS: That Horace L. Cartee joined by his wife Frank Alma Cartee have caused to be made the attached plat of "CARTEE HOMESTEAD" a report of the following described property to-wit:-
Lots 59, 60, 61, 62, 63, Block 257, Revised plat of Coral Gables Riviera Section Part II according to plat thereof recorded in plat book 28 at page 23 of the public records of Dade County Fla., together with the land lying South of and between the aforesaid Lot 53 Block 257 and Mahi Waterway as shown by the aforesaid plat.
Also the land lying Northeastly of and between Lots 59, 60, 61, 62 and 63 Block 257 of the Revised Plat of Coral Gables Riviera Section Part II, as aforesaid, and the Yacht Basin in Coral Gables Waterway as shown on the aforesaid plat. Also that portion of the circular end of a 40 ft. street lying Northwestly from and adjacent to lot 63 as aforesaid, lying Southeastly of a line 20 ft. Southeastly from and parallel with the center line of said 40 ft. street.
AND: Lots 55, 56, 57, 58 and the Northwestly 25 feet of Lot 54, Block 257 of the Revised Plat of Coral Gables Riviera Section Part II according to plat thereof recorded in Plat book 28 at page 23 of the public records of Dade County, Fla., together with the land lying between the aforesaid lots or portions thereof and Mahi Waterway and the Yacht Basin in Coral Gables Waterway as shown by the aforesaid revised plat of Coral Gables Riviera Section Part II.
The purpose of this plat is the consolidation of the above described property into two tracts, No. 1 and No. 2, as shown hereon.
Granada Boulevard as shown on the attached plat together with all existing and future planting, trees and shrubbery located thereon are hereby dedicated to the perpetual use of the public for proper purposes, reserving to ourselves, our heirs, executors or assigns the reversion or reversions thereof whenever discontinued by law.
The lawful zoning regulations, now in effect, or as the same may be from time to time lawfully changed or amended, applicable to the area covered by this plat will be observed.
IN WITNESS WHEREOF We have hereunto set our hands and seals this 27th day of April A.D. 1943

Witnesses: Ruth Cartee Horace L. Cartee SEAL
 Frank Alma Cartee SEAL

State of Florida
County of Dade S.S.
Before me this day personally appeared Horace L. Cartee and Frank Alma Cartee, his wife, to me well known to be the persons described in and who executed the foregoing instrument, who upon being duly sworn acknowledged the execution thereof to be their free and voluntary act and deed and for the purposes therein set forth.
And the said Frank Alma Cartee, wife of the said Horace L. Cartee, upon private examination, separate and apart from her said husband, acknowledged that she executed the said instrument freely and voluntarily and without compulsion, constraint, apprehension or fear of or from her said husband.
Witness my hand and notarial seal at Miami, Fla. this 27th day of April A.D. 1943.

Notary Public State of Florida
My commission expires

Approved for record City Engineer Coral Gables Fla.
This plat was approved and accepted by resolution No. 3373 passed and adopted by the City Commission of Coral Gables, Fla. the 11th day of April, A.D. 1943.

Attest: City Clerk Signed Mayer
Approved: County Engineer Dade County, Fla.

This plat is hereby accepted and approved by the Board of County Commissioners of Dade County, Fla. by resolution adopted this 10th day of August A.D. 1943.
Attest: E. B. Leatherman, Clerk of the Circuit Court

By Deputy Clerk Signed Chairman of the Board

I hereby certify that the attached plat of "CARTEE HOMESTEAD" is a true and correct plat of such property as recently surveyed and platted under my direction. I also certify that permanent reference monuments were set the 28th day of April, A.D. 1943 in accordance with Section 7, Chapter 10275 (No. 253) Laws of the State of Florida.

Registered Civil Engineer No. 321
Land Surveyor No. 49
State of Florida.

Filed for record this 14th day of Aug. A.D. 1943 at 9:24 A.M. in Book 43 of plats at page 30 of the Public Records of Dade County, Florida.
This plat complies with the provisions of Chapter 10275 (No. 253) Laws of the State of Florida.
E. B. Leatherman
Clerk of the Circuit Court

The primary elevation of the residence faces southeast onto the property. The site is approximately 2.94 acres with an irregular shape. The south side of the property on Granada Boulevard is demarcated with a coral rock wall.

SUMMARY STATEMENT OF SIGNIFICANCE

Permitted on September 27, 1951, the residence located at 6801 Granada Boulevard was designed by internationally renowned Architect Alfred Browning Parker. Commissioned by Mr. Daniel B. Caudle, the home is a fine example of Parker's modern style and tenets of architecture that he embraced.

CRITERIA FOR SIGNIFICANCE

b. Architectural significance:

- 1. Portrays the environment in an era of history characterized by one (1) or more distinctive architectural styles*
- 2. Embodies those distinguishing characteristics of an architectural style, or period, or method of construction*
- 3. Is an outstanding work of a prominent designer or builder*
- 4. Contains elements of design, detail, materials or craftsmanship of outstanding quality or which represent a significant innovation or adaptation to the South Florida environment.*

Constructed in 1951, 6801 Granada Boulevard was designed by renowned architect Alfred Browning Parker for D. B. Caudle, a single man. With an emphasis on function and form, this residence is a fine example of the early work of Alfred Browning Parker and his application of the modern movement philosophies in his designs.

The original plan for the house consists of a largely rectilinear massing with an attached loggia and storage/cabana building that wraps around an irregularly shaped swimming pool. The original residence consists of a largely two-story house that had varying levels within it. One enters the home on the ground level and walks up a small flight of steps to the first floor which is comprised of a living room, dining room, kitchen and utility room. Walking up another flight of open steps from the living room, one lands at the music room – a transitional space between the first and second floors. Up another small flight of open stairs, one arrives at the second floor which is comprised of a study overlooking the living room, master bedroom, dressing room, closet and master bathroom. Completing the original residence is an attached open carport and two-bedroom “wing”/structure to the south of the house and a large screened patio that wraps the northwest and northeast elevations. The open carport is connected by a secondary flight of stairs to the master bedroom.

Like other Florida homes designed during this time period, the structure responds to the environment. Louvers, roof overhangs, low ceiling heights and/or flowing spaces, and natural materials such as stone and wood, are integrated to promote the functionality of the spaces. One of Alfred Browning Parker’s “trademark” features was the use of the “Persiana.” As Parker wrote in his book You and Architecture: A Practical Guide to the Best in Building, “A tropical development is the “Persiana,” which serves as a door, window, screen, venetian blind and storm shutter.” In addition, the residence exhibits the use of carefully cut and laid indigenous oolitic limestone that features prominently in many of Parker’s designs. The structures that Parker designed for the property at 6801 Granada Boulevard exhibit his “trademark” features including the “Persianas.”

Alfred Browning Parker also believed that a building site was an integral part of the building design. The footprint of the original house and the loggia/cabana parallel the shorelines of the waterways that form the northwest and northeast boundaries of the site. A hallmark of this site is the harmonious coexistence between the structures and nature. The original house and grounds responded to each other in a way that was not overpowering. Parker sited his houses within the existing landscape, he did not wipe the landscape clear to build a new house.

ADDITIONS / ALTERATIONS

In September of 1952, one year after the initial permit was issued, another permit was issued for an addition to the property. The permit was issued for a 792 square foot structure to house a garage and maid's room, also designed by Alfred Browning Parker. This building, sited south of the main structure and at an angle due to the existing vegetation, was executed to complement the original house.

Over the years, subsequent additions and alterations have been made to the original house. In 1967, architect Joseph D. Swain was retained by Mr. Caudle to design an addition (approximately 3,725 square feet according to permit #19460) and alterations to the house. The changes, which were permitted as phased plans included: enclosing the carport, two one-story additions that would be added to the north of the original carport and south of the original two-bedroom "wing", the addition of a "servant's patio", and site alterations including the addition of gates and an additional driveway.

In 1981, the architectural firm Ferandino/Grafton/Spillis/Candela was retained by the current owners to design further alterations to the structure. Because the plans for the 1981 renovation and addition are incomplete at the City of Coral Gables Microfilm Department, it is difficult to state with accuracy if the current condition of the house is a result of the 1967 work commissioned by Mr. Caudle or the 1981 work commissioned by the current owners. It is documented that Mr. Caudle began his ambitious building program, but that it was abandoned at some point and incomplete when the property was transferred to Cenal Construction Corporation in 1974.

Regardless of when the changes were made, the original structures have been altered and expanded. When compared to the original plans, the additions to the structure include: a new wing added to the northwest of the original carport, additions to the south of the bedroom "wing", and the addition of a four car garage. Alterations include: renovation of the master bathroom and closet area, the removal of the secondary master bedroom stair, window alterations in the living room, expansion of the kitchen, the enclosure of the area outside the kitchen and the addition of a spiral staircase to what used to be an exterior balcony. It is unclear if the window system was replaced or refurbished. However, the current window system and wood "Persianas" accurately mimic Alfred Browning Parker's system. In addition, the Garage building was altered by removing the garage door and making the entire structure a living space. There were also some minor changes made to the cabana.

In 1983, a tennis court was added to the property south of the house.

ARCHITECT

Alfred Browning Parker has been recognized for his work and has been credited by his peers as being Florida's most famous architect; even receiving praise by Frank Lloyd Wright publicly in a 1954 national publication. Establishing an architectural practice in the Miami area in the 1940s, Alfred Browning Parker has gained international recognition for his work. Designing in the modern architectural style and utilizing the philosophies of the movement, he achieved a balance

of functionality and form in his buildings. His designs rely heavily on materials, structure, and response to the environment and local climate. In addition to authoring a book entitled You and Architecture: A Practical Guide to the Best in Building, he has also written extensively on the architectural field.

Examples of his work in the local South Florida area are: Carver (Junior) High in Coconut Grove (opened in 1952), the Flagler Federal Building, the Alliance Machine Co. Building-Miami Beach (demolished), the original Bayside development (now Bayside Marketplace, Downtown Miami) where his octagonal building still stands. He is probably best known for his numerous residences. In 1954, *House Beautiful* magazine selected one of his residential designs in Coconut Grove as a "Pace Setter Home." (Many of the features lauded in this home can be found in Parker's design for the Caudle residence.) In 1957, he was hand selected among a few leading architects and designers to demonstrate the integration of the principles of designing a home that reflected its environment. Around the time of the oil embargo of the 1970s, Parker and his son Robin Z. Parker founded SRT, a company that explored the development and use of hydrogen in an inexpensive and clean energy system.

An alumnus of the University of Florida, Alfred Browning Parker is now a professor at his alma mater in the College of Design, Construction and Planning. In 2001, he was recognized as an outstanding alumnus at the University of Florida with the distinguished alumni award for outstanding achievement. He has also received the National Conference of Church Architecture Award of Merit from the American Society of Church Architecture and the Architects Award from the Society of American Foresters.

Another residence designed by Parker, at 915 Bayamo Avenue, was listed on the Coral Gables Register of Historic Places in 2003.

OWNERSHIP HISTORY

The original owner of 6801 Granada Boulevard was D. B. Caudle. In 1974, the mortgage was assumed by Cenal Construction Corporation. The mortgage was subsequently taken over by City National Bank of Miami. It was sold by the Bank to the current owner, Califon Co. N. V. (Jorge Dalmau) in 1980.

STAFF RECOMMENDATION

Constructed in 1951, the property at 6801 Granada Boulevard (legally described as Tract 2 of Cartee Homestead, PB 43-30) is significant to the City of Coral Gables' history based on the following criteria found in the Coral Gables Zoning Code, Article 3, Section 3-1103:

- b. Architectural significance:
 - 1. Portrays the environment in an era of history characterized by one (1) or more distinctive architectural styles
 - 2. Embodies those distinguishing characteristics of an architectural style, or period, or method of construction
 - 3. Is an outstanding work of a prominent designer or builder

4. Contains elements of design, detail, materials or craftsmanship of outstanding quality or which represent a significant innovation or adaptation to the South Florida environment

Staff finds the following:

6801 Granada Boulevard, located at on the north side of Granada Boulevard and bounded in part by the Coral Gables Waterway and the Mahi Waterway (legally described as Tract 2 of Cartee Homestead, PB 43-30) and constructed in 1951 is significant to the City of Coral Gables history based on:

ARCHITECTURAL SIGNIFICANCE

The Historical Resources Department Staff had the opportunity to walk the property and examine the house in October, 2006. Staff does not feel that the alterations have caused the property to lose its essential character defining features or its architectural integrity.

ACCELERATED
CERTIFICATE OF APPROPRIATENESS PROPOSAL

Proposal: The application requests design approval for the division of the property to create two separate building sites.

Owner: Califon Company N.V.

Architect: Jorge L. Hernandez Architect

Legal Description: Tract 2 of Cartee Homestead, PB 43-30

SECRETARY OF THE INTERIOR'S STANDARDS FOR REHABILITATION

The following Standards have application in this matter:

1. *A property shall be used for its historic purpose or be placed in a new use that requires minimal change to the defining characteristics of the building and its site and environment.*
2. *The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.*
5. *Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a historic property shall be preserved.*
9. *New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.*
10. *New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.*

STAFF OBSERVATIONS

The property at 6801 Granada Boulevard is currently a single platted lot and a single building site. The property is approximately 2.94 acres and has, according to the submitted plans, approximately 381 feet of frontage on Granada Boulevard. The sites western and northern sides are bounded by the Mahi and Coral Gables Waterways, respectively. The eastern side of the property abuts the adjacent property.

The application, as presented, requests splitting the property into two separate building sites. The proposed "Lot A" is 77,797.7 square feet (approximately 1.79 acres) and the proposed "Lot B" is 49,594.37 square feet (approximately 1.14 acres).

LHD 2007-01 / COA (SP) 2007-11

June 21, 2007

Page 7

The proposed division of the property creates new boundary lines that create a TRAPEZOIDAL shaped lot in the south west corner of the property (Lot B). The second lot (Lot A) forms an "L" shape around Lot A.

The dimensions of the proposed lots are not shown in the submitted plans. Lot A has a proposed 120'-0" street frontage on Granada Boulevard. Lot B has a proposed 262'-10" street frontage on Granada Boulevard.

Lot B will use the existing opening in the coral rock wall along Granada Boulevard as its entrance. A residence with a "footprint" of 8,577.67 feet is shown on the proposed site plan and the existing Alfred Browning Parker-designed outbuilding is included on this parcel as an auxiliary structure.

Lot A creates a new opening in the existing coral rock wall as its entrance. A new residence shown on the proposed site plan has a "footprint" of 17,464.49 feet. The historic house is shown as an auxiliary structure to the new, much larger house. The new residence is visible from Granada Boulevard, while the historic structure is located its west.

BOARD OF ARCHITECTS

Not applicable. However, the Planning and Zoning Board will review this item at its next meeting. In its initial review of the lot separation, the Planning Department included in their conditions a requirement that the applicant designate the property and asked for a recommendation on the application before it would present the application to its Board. Once the Planning and Zoning Board reviews the application, the recommendations of both Boards will be presented, with the application, to the City Commission for consideration.

STAFF CONCLUSION

In order for this proposal to be feasible a number of things must occur. This includes, but is not limited to the following: the coral rock wall that parallels Granada Boulevard must be altered with another opening, a good portion of the extensive landscaping must be removed, the existing paving and tennis court must be removed, and a portion of the existing house must be removed so as to not encroach on the proposed new lot lines. While the economics of maintaining the existing property can not be overlooked, Staff has a number of concerns with the application that remain unresolved.

The lot separation, as shown, is contingent upon the removal of part of the existing house. While we believe that the intent is for the later additions to be removed, the manner in which they are to be removed is not made clear. There is no restoration plan or indication of the extent of work to be done to the historic structure. This aspect of the proposal is troubling because it does not clearly define the impact of the application on the historic structure.

The application also does not show the existing pool and loggia/walls that exist between the existing house and the existing cabana. These features are integral to Parker's original design and pivotal in "anchoring" the cabana feature. The proposed site plan also does not show the

June 21, 2007

Page 8

impact on the existing landscaping. The property features lush landscaping with a large number and variety of mature trees.

In addition, the new structures are not clearly defined. They are only shown in roof plan. Therefore, their potential impact on the historic structures can not be evaluated. Placement on a site plan does not indicate design parameters, nor does it speak to the relationships between the buildings and their landscape.

The application leaves the design of the new structures, their placement and sizes to the discretion of the new owners of the lots. The structures shown are only examples of what could be placed on the lots. While it is clearly understood that the design of the new structures will have to be reviewed by the Historic Preservation Board, Staff remains unconvinced that the application presented ensures the protection of the historic structures, the property and the integrity of the existing site.

The application as presented leaves too many unknowns for Staff to recommend approval. Section 3-1106(F)1 regarding Special Certificates of Appropriateness states that "the applicant shall provide adequate information to enable the Board to visualize the effect of the effect of the proposed action on the applicant's building and its adjacent buildings and streetscapes." Staff does not feel that the application is inadequate to thoroughly evaluate the final impact on the historic property. At a minimum, Staff would request that the applicant submit plans and elevations for the proposed new structures, landscape plans that maintain and evoke the existing park-like setting, and a restoration plan for the historic structures and features before it could support an application for a separation of the lot.

Therefore, Staff recommends the following:

A motion to APPROVE the Local Historic Designation of the property at 6801 Granada Boulevard (legally described as Tract 2 of Cartee Homestead, PB 43-30) based on based on its architectural significance.

AND

A motion to DENY the request for design approval for the division of the property to create two separate building sites.

Respectfully submitted,

Kara N. Kautz
Historic Preservation Officer

REVIEW GUIDE

Definition: The Review Guide lists some of the more prominent features, which contribute to the overall character of a structure and/or district. It is not intended to be all-inclusive, as photographic documentation fully illustrates the present physical character of the property.

Use: The Review Guide may be used to address the impact of new construction, additions/modifications/alterations and/or renovations which may become the subject of some future Certificate of Appropriateness consideration....and

The Review Guide by describing EXISTING physical characteristics may be used to determine whether or not elements which create the character of the structure and/or district is present and/or whether or not later additions or alterations have so changed that character so as to cause the property (ies) to become ineligible for listing.

YEAR BUILT: 1951

LOT SIZE: 2.95 AC

SITE SPECIFICS NOT SPECIFIED IN ZONING CODE APPENDIX A FOR CARTEE HOMESTEAD SUBDIVISION ADJACENT PROPERTIES ARE RIVIERA SECTION 11 AND 12 SECTION A-86 AND A-87

BOTH RIVIERA SECTION 11 AND 12 REQUIRE LOTS FACING GRANADA BOULEVARD –THIRTY FIVE FEET (35’0”) MINIMUM FRONT SETBACK

GENERAL SETBACKS APPLIED FOR SIDES AND REAR WATERWAY AS SPECIFIED UNDER ARTICLE 4 SECTION 4-101 (D) (4) (b) (d)

RESPONSE: We had a meeting with Ms. Martha Salazar-Blanco, Coral Gables Zoning Official, to review our Zoning Analysis prior to submittal. She pointed out that per the Legal Description we were not subject to the Site Specifics of Riviera Section 11 and 12. Our legal description does not state Riviera Section 11 or 12; it is Tract 2 of “Cartee Homestead”. Therefore the front setback could be 25’-0”.

ZONING COMMENTS FOR LOT A:

1. UNABLE TO VERIFY LOT COVERAGE CALCULATIONS AS PROVIDED BY ARCHITECT; UNKNOWN WHICH AREAS WERE CALCULATED;
 - a. In particular, gross floor area shall include the following:
All floor space used for dwelling purpose, such as living rooms, bedrooms, kitchens, utility rooms, mechanical equipment rooms, and any other similar space, no matter where located within a building, including the following:
 - i. Elevator shafts and stairwells at each floor.
 - ii. The floor space in penthouses, interior balconies and mezzanines.
 - iii. The floor space in auxiliary or accessory buildings.
 - iv. The floor space in screened porches located on the second floor. The floor space in screened porches located on the first floor shall be computed at one-half (1/2) of the square foot floor area contained therein; provided, a covenant is submitted stating that such screen porch will not be enclosed if it will cause the residence to exceed the maximum permitted floor area.

- v. The floor space in any garage and/or garage storage area shall be computed at three-quarters (3/4) of floor area for one (1) story detached garages located in the rear yard area with a height that does not exceed sixteen (16) feet above established grade and a floor area that does not exceed three-hundred-and-fifty (350) square feet.
- vi. In those cases where the average floor to the bottom of the structural member of roof support height exceeds thirteen (13) feet clear, without intermediate structural floor members, then that area shall be counted twice in the maximum floor area factor computation.
- vii. The floor space in roofed terraces, breezeways, and porches located on the second floor.
- viii. The floor space in interior courtyards and if a portion of the interior court yard is created in whole or in part with a two (2) story portion of the residence then the interior court yard shall count twice.

RESPONSE: The Lot "Coverage" was calculated as defined under the Coral Gables zoning. It includes the area covered by the footprint of the building in its entirety, computed from the exterior face of exterior walls and the exterior face of exterior columns of the ground floor of the building, including any cantilevered portions of the building above the ground floor and roof overhangs which are greater than five (5) feet.

The description shown in the comment above refers to the calculation of the maximum square foot floor area, not the lot coverage area.

2. PROVIDE HEIGHT OF CBS WALL SURROUNDING POOL AREA.

RESPONSE: The existing 3'-6" CBS wall surrounding the pool will be raised to 4'-0" high. See revised Proposed Site Plan.

3. SWIMMING POOL MUST BE SCREENED FROM STREET VIEW WITH A 4 FEET HIGH CBS WALL.

RESPONSE: The pool shown is not for construction, nor a proposed design. It is shown the purpose of the replat. Indicative of where a future pool would be located if the existing lot is re-platted into 2 lots. At such time the new pool will be completely enclosed by a 4'-0" high fence with gates leading into pool area with self latching and self closing or removable fence guard or safety cover as per pool code.

4. PROVIDE DISTANCE FROM POOL TO SIDE PROPERTY LINE.

RESPONSE: See dimension from pool to property line on revised Proposed Site Plan.

5. MUST PROVIDE FENCING SECURING POOL WITH ALL GATES LEADING INTO POOL AREA TO BE SELF LATCHING SELF CLOSING.

RESPONSE: The pool shown is not for construction, nor a proposed design. It is shown the purpose of the replat. Indicative of where a future pool would be located if the existing lot is re-platted into 2 lots. At such time the new pool will be completely enclosed by a 4'-0" high fence with gates leading into pool area with self latching and self closing or removable fence guard or safety cover as per pool code.

6. REVIEW ZONING CODE SECTION 5-1406 FOR TRIANGLE OF VISIBILITY; REGARDING EXISTING 4' HIGH CORAL ROCK WALL ADJACENT TO DRIVEWAYS CONSIDERING SUBJECT PROPERTY AND ADJACENT PROPERTIES;

In cases where site specific conditions prohibit compliance with triangle of visibility requirements the Building and Zoning Director may approve and require the use of convex mirrors. The Building and Zoning Director shall impose conditions as appropriate on a case-by-case basis.

RESPONSE: The existing entrance opening and historic 4'-0" high coral rock wall is not being altered; it is noted as existing to remain. See attached revised Proposed Site Plan

7. PROVIDE MAXIMUM HEIGHT FROM ESTABLISHED GRADE.

RESPONSE: Established grade using the average sidewalk elevation = 9.88 Ft.

This site contains an existing historic building and it's Finished Floor Elevation has been established at 11.27 FT.

The height of the highest point in the building is 23'-9" making the **height above established grade 25'-2"**.

8. PROVIDE 40% OF SITE AREA OPEN LANDSCAPING.

RESPONSE: Minimum required Site Area Open Landscaping has been added to the Zoning Analysis. See revised Zoning Analysis for Proposed Site Plan.

9. PROPOSED WOOD DOCK MUST CONFORM TO ZONING CODE SECTION ARTICLE 5 DIVISION 8 SECTIONS 5-801 THROUGH 5-806 AS APPLICABLE.

RESPONSE: Future dock to comply with Site Specifics Zoning Regulations Section A-67- Mahi Canal in Appendix A.

10. REVIEW TABULATIONS AS PROVIDED MAXIMUM 35% LOT COVERAGE AND 45% LOT COVERAGE (AUXILIARY/ACCESSORY STRUCTURES) TABULATIONS INCORRECT AND ARE NOTED AS SAME.

RESPONSE: Lot coverage maximum of 35% allowed for principal structure has been revised to reflect the adjusted site area. Lot coverage maximum of 35% provided is correct and calculated as described in item 1.

Lot coverage maximum of 45% allowed for principal and accessory structures is shown for reference only. Lot coverage maximum of 45% provided for principal and accessory structures does not apply and is noted as such since there are no accessory structures in this lot.

11. PROVIDE PERMIT FOR EXISTING TENNIS COURT.

RESPONSE: A variance was approved unanimously by the City, allowing the Tennis Court to be between House and the street. The Tennis Court was built by Agile Courts around 1985 or 1986. The owner does not have record of the permit considering it was built 27+ years. The City should have a record of the permit.

12. REVIEW/COMPLY WITH ZONING CODE SECTION 3-206 BUILDING SIDE DETERMINATION PROCEDURE.

RESPONSE: Be advised that we have already presented to the Development Review Committee and the plans have been revised by the Board of Architects. Comments from both have been incorporated. Because this is a designated Historic Structure, the lot separation and Certificate of Appropriateness must be granted by the Historic Preservation Board prior to proceeding to Planning & Zoning Board.

13. SITE AREA TABULATION DIFFERS FROM SURVEYOR.

RESPONSE: Site area tabulation has revised to match surveyor. See attached revised zoning analysis for Proposed Site Plan.

ZONING COMMENTS LOT B

14. UNABLE TO VERIFY LOT COVERAGE CALCULATIONS AS PROVIDED BY ARCHITECT; UNKNOWN WHICH AREAS WERE CALCULATED;

a. In particular, gross floor area shall include the following:

All floor space used for dwelling purpose, such as living rooms, bedrooms, kitchens, utility rooms, mechanical equipment rooms, and any other similar space, no matter where located within a building, including the following:

i. Elevator shafts and stairwells at each floor.

ii. The floor space in penthouses, interior balconies and mezzanines.

iii. The floor space in auxiliary or accessory buildings.

iv. The floor space in screened porches located on the second floor. The floor space in screened porches located on the first floor shall be computed at one-half (1/2) of the square foot floor area contained therein; provided, a covenant is submitted stating that such screen porch will not be enclosed if it will cause the residence to exceed the maximum permitted floor area.

v. The floor space in any garage and/or garage storage area shall be computed at three-quarters (3/4) of floor area for one (1) story detached garages located in the rear yard area with a height that does not exceed sixteen (16) feet above established grade and a floor area that does not exceed three-hundred-and-fifty (350) square feet.

vi. In those cases where the average floor to the bottom of the structural member of roof support height exceeds thirteen (13) feet clear, without intermediate structural floor members, then that area shall be counted twice in the maximum floor area factor computation.

vii. The floor space in roofed terraces, breezeways, and porches located on the second floor.

viii. The floor space in interior courtyards and if a portion of the interior court yard is created in whole or in part with a two (2) story portion of the residence then the interior court yard shall count twice.

RESPONSE: The house shown is not for construction, nor a proposed design. It is shown to illustrate zoning information only. If replanted into two lots a proposed design will be presented. Nevertheless, for replat purposes the Lot "Coverage" was calculated as defined under the Coral Gables zoning. It includes the area covered by the footprint of the building in its entirety, computed from the exterior face of exterior walls and the exterior face of exterior columns of the ground floor of the building, including any cantilevered portions of the building above the ground floor and roof overhangs which are greater than five (5) feet.

The description shown in the comment above refers to the calculation of the maximum square foot floor area, not the lot coverage area.

15. MUST PROVIDE FENCING SECURING POOL WITH ALL GATES LEADING INTO POOL AREA TO BE SELF LATCHING SELF CLOSING.

RESPONSE: The pool shown is not for construction, nor a proposed design. It is shown for the purpose of the replat. Indicative of where a future pool would be located if the existing lot is replatted into 2 lots. At such time the new pool will be completely enclosed by a 4'-0" high fence, removable fence guard with gates leading into pool area with self latching and self closing or safety cover as per pool code.

16. REVIEW ZONING CODE SECTION 5-1406 FOR TRIANGLE OF VISIBILITY; REGARDING EXISTING 4' HIGH CORAL ROCK WALL ADJACENT TO DRIVEWAYS CONSIDERING SUBJECT PROPERTY AND ADJACENT PROPERTIES;

In cases where site specific conditions prohibit compliance with triangle of visibility requirements the Building and Zoning Director may approve and require the use of convex mirrors. The Building and Zoning Director shall impose conditions as appropriate on a case-by-case basis.

RESPONSE: The new entrance opening has been widened to comply with the Triangle of Visibility as per Zoning Code Section 5-1406. See attached Revised Proposed Site Plan.

17. PROVIDE MAXIMUM HEIGHT FROM ESTABLISHED GRADE.

RESPONSE: Established grade using the average sidewalk elevation = 10.01 Ft.

The house shown is not for construction, nor a proposed design. It is shown to illustrate zoning information only. At such time that a proposed design is presented, the house will not exceed two stories and the height to the highest point will not exceed **39'-0" above established grade**, as per zoning code for properties in flood hazard areas.

18. PROVIDE 40% OF SITE AREA OPEN LANDSCAPING.

RESPONSE: Minimum required Site Area Open Landscaping has been added to the Zoning Analysis. See revised Zoning Analysis for Proposed Site Plan

19. PROVIDE PERMIT FOR EXISTING WOOD DOCK AS ILLUSTRATED ON SURVEY AND SITE PLAN.

RESPONSE: The Dock was already built when the owner bought the house in 1980.

20. REVIEW TABULATIONS AS PROVIDED MAXIMUM 35% LOT COVERAGE AND 45% LOT COVERAGE (AUXILIARY/ACCESSORY STRUCTURES) TABULATIONS INCORRECT AND ARE NOTED AS SAME.

RESPONSE: The house shown is not for construction, nor a proposed design. It is shown to illustrate zoning information only. At this time, only a principal structure is shown, when a proposed design is presented it may include accessory structures. Lot coverage maximum of 35% allowed for the principal structure has been revised to reflect the adjusted site area. Lot coverage maximum of 35% provided is correct and calculated as described in item 1.

Lot coverage maximum of 45% allowed for principal and accessory structures is shown for reference in case an accessory building is included in the final design. Lot coverage maximum of 45% provided for principal and accessory structures does not apply at the moment and is noted as such.

21. PROPOSED DECK NOT ALLOWED WITHIN 35 FEET REQUIRED REAR WATERWAY SETBACK.

RESPONSE: There is only 5'-0" wide walkways to existing Dock. See revised Proposed Site Plan.

22. UNKNOWN PROPOSED STRUCTURE ADJACENT TO MOTOR COURT BETWEEN RESIDENCE AND STREET AND CLOSER TO STREET THAN RESIDENCE IF DETACHED IS CONSIDERED AUXILIARY/ACCESSORY STRUCTURE AND REQUIRES VARIANCES ZONING CODE SECTION 5-101 B AND C.

RESPONSE: The structure is an attached 3 car garage. The house shown is not for construction, nor a proposed design. It is shown the purpose of the replat.

23. MAXIMUM WIDTH OF WALKWAYS WITHIN REAR SETBACK AREA IS 5 FEET.

RESPONSE: All walkways at rear setback area have been revised to be 5'-0" wide. See attached revised Proposed Site plan. The pool and walkways shown is not for construction, nor a proposed design. It is shown the purpose of the replat.

24. REVIEW/COMPLY WITH ZONING CODE SECTION 3-206 BUILDING SIDE DETERMINATION PROCEDURE.

RESPONSE: Be advised that we have already presented to the Development Review Committee and the plans have been revised by the Board of Architects. Comments from both have been incorporated. Because this is a designated Historic Structure, the lot separation and Certificate of Appropriateness must be granted by the Historic Preservation Board prior to proceeding to Planning & Zoning Board.

25. SITE AREA TABULATION DIFFERS FROM SURVEYOR.

RESPONSE: Site area tabulation has revised to match surveyor. See attached revised zoning analysis for Proposed Site Plan.

Re: Certificate of Appropriateness Application for 6801 Granada Boulevard, legally described as Tract 2 of Cartee Homestead according to the Plat thereof, recorded in Plat Book 43, at Page 30, of the Public Records of Miami-Dade County, Florida.

Dear Mr. Dalmau:

On September 19, 2013, the Historic Preservation Board met to review an application for a Special Certificate of Appropriateness for the property at 6801 Granada Boulevard, a local historic landmark. The Board approved the application for alterations to the property including the demolition of the guest house and site features with the following conditions:

1. No alteration or demolitions will occur unless the proposal to subdivide the property into two building sites is approved by the City Commission.
2. Retain the existing loggia (noted on the plans as "existing pool pavilion"), pool, and cabana.
3. Any new construction on the parcel of land that will be created for a new residence ("Proposed Lot B") will require a Special Certificate of Appropriateness and review by the Historic Preservation Board.
4. No tree removals/relocations will occur on the lot that has the historic residence ("Proposed Lot A") unless the proposal to subdivide the property into two building sites is approved by the City Commission.
5. The removal/relocation of trees on the lot that is created for a new residence ("Proposed Lot B") will be part of the application for that residence and will require a Certificate of Appropriateness. No tree removal or relocations will occur until the design of the new residence has been approved.
6. The demolition of the portion of the perimeter coral rock wall to accommodate the driveway for the new residence ("Proposed Lot B") will also be part of the application for that residence and will require a Certificate of Appropriateness.

6801 Granada Boulevard
COA (SP) 2013-011
September 24, 2013
Page 2

A Special Certificate of Appropriateness with the above conditions is hereby issued. Please be advised that any changes or alterations to the approved plans will need to be submitted to this office for a revision to the Certificate of Appropriateness.

Should you have any questions please do not hesitate to contact the office.

Sincerely,

Dona M. Spain

Subject: New Tentative Plat Tract 2 Cartee Homestead
Location: 6801 Granada Blvd Coral Gables, FL

A re-subdivision of Tract 2, "Cartee Homestead", according to the plat thereof, as recorded in Plat Book 30, at Page 43, of the Public Records of Miami-Dade County, Florida.

Owner: Califon Company N.V.
C/O Garry B Schwartz PA
4000 Ponce de Leon Blvd 470
Coral Gables, FL 33146-1432

Please consider this letter as your notification that satisfactory arrangements for the relocation of electric service has been made in accordance with ordinance 68-69 and Revised 77-6.

As per our agreement with you, we would appreciate your making these satisfactory arrangements contingent upon easement requirements as follows:

_____ Easements necessary for electrical facilities are highlighted on the attached copy of the subject tentative plat and a duplicate was supplied to Accurate Construction Survey Corp. Please review the attached before final processing to insure that all easement requested are indicated on the final plat. Easement marked are for existing facilities. Easements for new facilities will be required by instrument

___x___ No easements are required at this time for electrical facilities.

_____ Easements have been assured verbally by the owner/developer and will be granted prior to completion of the building construction.

_____ Easements as shown on the subject tentative plat are sufficient to provide electrical service to this project.

Mr. Walter Carlson
Assistant Planning Director
City of Coral Gables

Subject: Tract 2 Cartec Homestead/Coral Gables, Florida

Dear Mr. Carlson:

The proposed re-plot of the property associated with this request would trigger water system improvements, based on the approved zoning. Detailed information on the required improvements will be provided at the time a request for a service agreement is sent to the Department.

The size of the required water mains will depend upon the subject property's approved zoning, being twelve (12)-in. min. in diameter required for high density residential, commercial, business, industrial, hospitals, public buildings, etc. and eight (8)-in. min. in diameter required for low and medium density residential zonings.

Should you have any questions, or require additional information, please contact me.

Sincerely,

CITY OF CORAL GABLES, FLORIDA

RESOLUTION NO. 2007-192

A RESOLUTION OF THE CITY COMMISSION OF CORAL GABLES DENYING APPROVAL OF A SEPARATION OF A BUILDING SITE PURSUANT TO ZONING CODE SECTION 3-206, TO INDICATE THAT TRACT 2, CARTEE HOMESTEAD SECTION (6801 GRANADA BOULEVARD), CORAL GABLES, FLORIDA, SHALL BE CONSIDERED TWO SEPARATE BUILDING SITES, WITH ONE BUILDING SITE CONSISTING OF LOT 1, AND THE OTHER BUILDING SITE CONSISTING OF LOT 2 AS RE-PLATTED, AS MORE PARTICULARLY SET FORTH IN APPLICATION NO. 01-07-445-P, SUBJECT TO CERTAIN CONDITIONS.

BE IT RESOLVED BY THE COMMISSION OF THE CITY OF CORAL GABLES:

SECTION 1. That the City Commission does hereby deny approval of a separation of a building site, more particularly, Cartee Homestead Section (6801 Granada Boulevard).

SECTION 2. That said resolution shall become effective immediately upon the date of its passage and adoption herein.

(PASSED AND ADOPTED THIS TWENTY-EIGHTH DAY OF AUGUST, A.D., 2007.

**City of Coral Gables
Planning Department Staff Report**

To: Honorable Planning and Zoning Board Members

From: Planning Department

Date: July 18, 2007

Subject: Application No. 01-07-445-P. Building Site Separation, Tentative Plat Review and Variances to the Subdivision requirements. The applicant is making the following requests for the property legally described as Tract 2, Cartee Homestead Section (6801 Granada Boulevard), Coral Gables, Florida:

1. Separation of building site pursuant to Zoning Code Section 3-206.
The existing single tract of land is proposed to be subdivided into two (2) separate building sites for two (2) single-family residences.
2. Review of a tentative plat entitled "Revised Plat of Cartee Homestead" to re-plat the approximately 3.0 acre property/tract into two (2) platted lots.
3. Variances to the Subdivision requirements pursuant to Zoning Code Section 3-904.

Recommendation

The Planning Department recommends denial of the building site separation and tentative plat. Staff's recommendation of denial of the building site separation is based on Staff findings of fact regarding the six review criteria included in Zoning Code Section 3-206(F). Staff has determined that the application satisfies none (0) of six (6) of the Zoning Code's criteria for review. A minimum of four (4) criteria are required to be met to be considered a candidate for building site separation.

Since the applicant's request for building site separation is being recommended for denial, the Planning Department also recommends denial of the proposed tentative plat and requested variances to the subdivision requirements (Section 3-904 of the Zoning Code), which is the technical means by which to accomplish the building site separation.

Alternative Recommendation

If the Planning and Zoning Board and the City Commission determine based upon the additional information submitted by the applicant and the facts of the application, testimony, and evidence received that the application satisfies the criteria, and desires to recommend approval of the proposed building site separation, tentative plat and variances from the subdivision requirements, Planning Department Staff recommends the application be recommended by the Board subject to all of the following conditions of approval:

1. All proposed plans for construction on the historically designated property, including modifications to the existing historically designated residence and the

- new residences shall require review and approval by the Historic Preservation Board prior to the issuance of a building permit.
2. A detailed landscape plan including an existing tree survey indicating those trees that will be removed, relocated or replaced and a root preservation plan shall be prepared and provided by the applicant, subject to review and approval of the Directors of the Public Service, Historic Resources and Planning Departments prior to consideration of the building site separation by the City Commission.
 3. Approval of required variances for the final plat is granted by the City Commission in accordance with the standards outlined in Zoning Code Section 3-904.
 4. Amend Zoning Code Appendix A - Site Specific Regulations, by adding Section A-17.1, "Cartee Homestead – Revised Plat", and indicate the property is two (2) separate building sites.

Request

The applicant is requesting consideration of a building site separation and tentative plat and variances. The building site separation is being reviewed in accordance with Zoning Code Section 3-206. The tentative plat and required variances are being reviewed in accordance with Zoning Code Sections 3-901 thru 3-904. Final plats and building site separations are adopted by Resolution by the City Commission (one public hearing). Variances for re-plats are recommended by the Planning and Zoning Board and adopted by Ordinance by the City Commission (two public hearings).

The building site separation request is to separate the subject property into two (2) building sites. This property is currently a single tract of land (one platted lot), and has been determined by the Building and Zoning Department to be one building site for a single family residence. The applicant would retain portions of the existing historic structure residence into the construction of a new residence on proposed Lot 1, and construct a new single-family residence on proposed Lot 2.

The applicant is requesting two (2) variances from Zoning Code Article 5 – Development Standards, Division 15, "Platting Standards". The variances are for requirements that: 1) all lots shall abut by their full frontage on a publicly dedicated street; and, 2) side lot lines shall be substantially at right angles to straight street lines or radial to curved street lines. Variances required for final plats are reviewed according to Zoning Code Section 3-904, and are adopted by Ordinance by the City Commission.

The applicant's application package containing the tentative plat and building site separation materials is provided as Attachment A.

Background

This application was scheduled to be heard by the Planning and Zoning Board on 02.21.07, but was continued prior to the public hearing at the request of the City Attorney in order to conduct additional research to determine if the application was appropriately before the Board. The City Attorney issued a memorandum on 03.09.07 stating that the application was appropriately before the Board. That memo includes the 07.27.05 Building Site Determination Letter issued by the Building and Zoning Department as an attachment. A copy of the City Attorney's memo and Building Site Determination Letter are provided as Attachment B. A copy of the City

"Revised Plat of Cartee Homestead" - Tentative Plat and Building Site Separation
July 18, 2007
Page 3 of 10

Attorney's 04.04.07 memorandum providing a history of building site separations is provided as Attachment C.

Property Description

This property is located on Granada Boulevard approximately two blocks north of Sunset Road, half way between Hardee Road and Cartagena Plaza. The property backs onto the Coral Gables Waterway and the north side of the property is bounded by the Mahi Waterway. The property consists of a single tract and is approximately 128,077 square feet in size (approximately 2.94 acres) with approximately 433 feet of frontage along Granada Boulevard. According to the Miami Dade County property information files, the existing residence was constructed in 1951 and is a two story residence containing 9,448 adjusted square feet (8 bedrooms/7 bathrooms). Existing asphalt driveways, pool/pool house, tennis court and a coral rock wall are located on the property in addition to the existing residence.

The Historic Resources Department reviewed the existing residence located on the property, and determined in a letter to the applicant dated 01.26.07 that the existing residence does meet the minimum eligibility criteria for designation as a local historic landmark and has historic significance. The Historic Preservation Department also provided a memorandum on 02.12.07 stating concern about the proposal to separate the property into multiple building sites, and recommends that applicant apply to designate the property as a local historic landmark and that any proposal for new construction, including any new residences, need to be submitted for site plan review and recommendation by the Historic Preservation Board. Copies of the 01.26.07 Historical Significance Letter to the applicant and the 02.12.07 memorandum are provided as Attachment D.

On 06.21.07, the Historic Preservation Board designated the property as a local historic landmark, and reviewed the proposed separation of the property into two (2) building sites. At that meeting, the Historic Resources Department and the Board recommended denial of the proposed building site separation to the Planning and Zoning Board. A copy of the Historic Designation Report, 06.21.07 Historic Preservation Board meeting minutes and 06.25.07 Historic Designation Letter are provided as Attachment E.

Discussion

The property is located in an established residential neighborhood consisting of one and two story residences. Larger homes along Granada Boulevard are typically located along the Coral Gables and Mahi Waterways. Smaller homes are located in the surrounding residential neighborhood on properties that are not located on a waterway. This property and all other surrounding properties are zoned Single Family Residential (SFR). The applicant included in the application package an analysis of building site frontages and total size of comparable residential properties in the surrounding neighborhood, which indicates that this is the largest residential property in the area. Both the building site frontage and total size analysis are provided in the application package in Attachment A.

Permitted Development

Currently, this 128,077 SF property is a single tract of land (one platted lot), and has been determined to be one building site for a single-family residence. The Zoning Code permits a residence with a maximum 39,573 SF size to be constructed on this property. This is based on the Zoning Code provisions allowing 48% for the first 5,000 SF of the property, 35% for the second 5,000 SF and 30% for all remaining property over 10,000 SF.

The proposed building site containing the existing historic structure (Lot 1) is approximately 77,798 SF in size. This would allow a residence (historic structure + new structure) with a maximum 24,489 SF to be constructed. The proposed second building site (Lot 2) is approximately 49,594 SF in size. This would allow a new residence with a maximum 16,028 SF to be constructed. A total development of 40,517 SF would therefore be permitted on this property based on the provisions in the Code.

Review of Zoning Code Criteria

Staff has reviewed the application based upon the six (6) criteria pursuant to Zoning Code Section 3-206(F) and presents the following findings:

1. *"That exceptional or unusual circumstances exist, that are site specific such as unusual site configuration or partially platted Lots, or are code specific such as properties having two or more zoning and/or land use designations, multiple facings or thru-block sites which would warrant the separation or establishment of a building site(s)."*

Staff Comment: While this building site is the largest property in this residential neighborhood, the site does not exhibit any of the characteristics described that would qualify as exceptional or unusual circumstances. This property does not have an unusual site configuration, does not consist of partially platted lots, does not have two or more land use or zoning designations, does not have multiple facings and is not a thru-block site.

The application does not satisfy this criteria.

2. *"That the building site(s) created would be equal to or larger than the majority of the existing building site frontages of the same zoning designation within a minimum of 1000-foot radius of the perimeter of the subject property or extending no farther than the immediate vicinity, whichever is less. "Immediate vicinity" shall be defined as an area in which a parcel of land is located, that is physically, functionally or geographically identifiable as a distinct realm, place or neighborhood, or an area within a radius of not more than one-half (½) mile from the subject property, whichever is smaller."*

The applicant's building site frontage analysis is as follows (see Attachment A):

<i>Proposed building sites fronting Alhambra Circle</i>				
Frontage	0 to 120'	121' to 262'	263'+	Total
No. of Sites	9	25	2	36
Percentage	25%	69%	6%	100%

Staff Comment: The building site frontage of proposed Lot 1 (120' frontage) would be less than seventy-five percent (75%) of the surrounding comparable building site frontages.

The application does not satisfy this criteria.

3. *"That the building site(s) separated or established would not result in any existing structures becoming non-conforming as it relates to setbacks, lot area, lot width and depth, ground coverage and other applicable provisions of the Zoning Code, Comprehensive Land Use Plan and City Code."*

Staff Comment: This proposal would result in the existing residence becoming a "flag lot" (building site typically configured with a portion of the site, or "flag", located behind a building site that fronts onto the public street). Variances from the Zoning Code are being requested from requirements for full building site frontage on a publicly dedicated street, and side lot lines being at right angles to straight street lines or radial to curved street lines that would otherwise not be required.

The application does not satisfy this criteria.

4. *"That no restrictive covenants, encroachments, easements, or the like exist which would prevent the separation of the site."*

Staff Comment: The existing residence's asphalt driveway and existing tennis court encroaches onto proposed Lot 2. These existing encroachments would have to be removed to allow the separation of the property as proposed into two building sites. The 07.06.06 memorandum regarding building site separations prepared by the City Attorney's Office confirms that these existing encroachments tie this property together as a single building site. A copy of the City Attorney's memo is provided as Attachment B.

The application does not satisfy this criteria.

5. *"That the proposed building site(s) maintains and preserves open space, promotes neighborhood compatibility, preserves historic character, maintains property values and enhances visual attractiveness of the area and approval of the request is in the best interest of the public."*

Staff Comments: The proposal for two (2) building sites on this property results in a site plan that requires variances from the Zoning Code's platting standards and the creation of a "flag lot". This configuration is not consistent with the surrounding neighborhood, and results in an increased amount of driveway and impermeable areas requiring the removal of additional existing trees and landscaping.

The application does not satisfy this criteria.

"Revised Plat of Cartee Homestead" - Tentative Plat and Building Site Separation
July 18, 2007
Page 7 of 10

6. *"That the building site(s) created was purchased as a separate building(s) by the current owner prior to September 17, 1977."*

Staff Comment: The property data information sheet submitted with the application shows that the current owner purchased the property in 1980.

The application does not satisfy this criteria.

Staff's evaluation of the proposal determined that this application satisfies none (0) of the six (6) criteria contained in the Zoning Code for building site separations. The Code requires that a minimum four (4) criteria be satisfied to be considered for building site separation, therefore, Staff recommends denial of the request.

Proposed Zoning Plan

The property's zoning designation would not change as a result of this re-plat and would remain Single Family Residential (SFR). Both building sites would be deemed to face onto Granada Boulevard. All required building setbacks for these building sites would apply.

Variances – Standards for review

The applicant is requesting two variances from Zoning Code platting standards that are required to allow this application to proceed forward. Specifically, variances are being requested from the following requirements contained in Section 5-1508:

- "B. Location. All lots shall abut by their full frontage on a publicly dedicated street or a street that has received the legal status as such.*
- C. Lot Lines. Side lot lines shall be substantially at right angles to straight street lines or radical to curved street lines."*

Zoning Code Section 3-904, "Variances from subdivision requirements", states that the City Commission shall provide findings of fact that such variance(s) complies with the following standards:

- "1. That special conditions and circumstances exist which are particular to the land, structure or building involved and which are not applicable to other lands, structures or buildings in the same zoning district.*
- 2. That the special conditions and circumstances do not result from the actions of the applicant.*
- 3. That granting the variance requested will not confer on the applicant any special privilege that is denied by these regulation to other lands, buildings or structures in the same zoning district.*
- 4. That literal interpretation of the provisions of these regulations would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district under the terms of these regulations and would work unnecessary and undue hardship on the applicant.*
- 5. That the variance granted is the minimum variance that will make possible the reasonable use of the land, building or structure.*
- 6. That the granting of the variance will be in harmony with the general intent and purpose of these regulations, and that such variance will not be injurious to the area involved or otherwise be detrimental to the public welfare."*

"Revised Plat of Cartee Homestead" - Tentative Plat and Building Site Separation
July 18, 2007
Page 8 of 10

Zoning Code Amendment

If the application is approved, amend Zoning Code Appendix A - Site Specific Regulations, by adding Section A-17.1, "Cartee Homestead – Revised Plat", to indicate Lot 1 and Lot 2 are separate building sites, as follows: (underlining denotes additions)

Section A-17.1 – Cartee Homestead – Revised Plat.

(a) Building Sites.

- 1. Tract 2 shall be considered two (2) building sites as follows:***
 - a. One building site consisting of Lot 1.***
 - b. One building site consisting of Lot 2.***

City Staff Comments

This proposal was distributed to City Departments including Historical Resources, Public Works and Public Service with a request for review and comments, and the following comments were received:

1. Historical Resources Department. Historic Resources Staff has determined in a letter dated 01.26.07 that the existing residence located on the property does meet the minimum eligibility requirements for designation as a local historic landmark and has historic significance. A memo was also provided on 02.12.07 stating concern about the proposal to separate the property into three building sites, and recommends that applicant apply to designate the property as a local historic landmark and submit any proposal for new construction, including any new residences, for site plan review and recommendation by the Historic Preservation Board. Copies of the 01.26.07 Historic Significance Letter and 02.12.07 memo are provided as Attachment D.

On 06.21.07, the Historic Preservation Board designated the property as a local historic landmark, and reviewed the proposed site plan for the separation of the property into two (2) building sites. At that meeting, the Historic Resources Department and the Board recommended denial of the proposed building site separation to the Planning and Zoning Board. A copy of the Historic Designation Report, 06.21.07 Historic Preservation Board meeting minutes and 06.25.07 Historic Designation Letter are provided as Attachment E.

Staff has included with the alternative recommendation a condition that the applicant shall submit all proposed construction on the property, including proposed new residences and modifications to the historic structure, for review and approval by the Historic Preservation Board prior to issuing a building permit.

2. Public Service Department. The Public Service Director stated that no comments could be provided at this time as the plans are too preliminary, but that significant impact on existing trees is likely if the property is separated. The Director stated that it cannot be assumed that medium or large trees can be relocated and that it is misleading to depict a tree on a survey as a point rather than showing the larger root system footprint, concluding that the required tree root preservation area may therefore reduce the footprint of any homes that could be built.

Staff has included with the alternative recommendation a condition that a detailed landscape plan including an existing tree survey indicating those trees that will be removed, relocated or replaced and a root preservation plan shall be prepared and provided by the applicant,

"Revised Plat of Cartee Homestead" - Tentative Plat and Building Site Separation
July 18, 2007
Page 9 of 10

subject to review and approval of the Directors of the Public Service and Planning Departments prior to consideration of the building site separation by the City Commission.

Findings of Fact

Staff recommends denial of the application for tentative plat and building site separation based upon the following findings of fact:

1. This application satisfies none (0) of the six (6) criteria for building site separation. A minimum of four (4) criteria must be satisfied for a recommendation of approval.
2. This application would result in creation of a "flag lot" and development pattern that is not consistent with the surrounding neighborhood, and requires two variances from the Zoning Code's platting standards.
3. There is significant existing tree canopy on the property, and the Public Service Director has stated that the separation of this property would likely have a significant impact on the preservation of the trees.
4. Historic Preservation Board has designated the entire property as a local historic landmark, The Historic Resources Department and the Board recommended to the Planning and Zoning Board denial of the proposed separation of the property into two (2) building sites.

Public Notification/Comments

The following has been completed to solicit input and provide notice of the application:

Type	Explanation
Neighborhood meeting completed	N/A

Re: 6801 Granada Boulevard, legally described Tract 2, Cartee Homestead

Dear Mr. Guilford:

Section 3-1107(g) of the Coral Gables Zoning Code states that "No permit for demolition of a non-designated building shall be issued to the owner thereof without prior notification by the Building Official to the Historical Resources Department. All demolition permits for non-designated buildings must be approved and signed by the Director of the Department of Historical Resources. Such signature is valid for six (6) months and shall thereafter expire and the approval deemed void unless the demolition permit has been issued by the Building and Zoning Department. The Historical Resources Department may require review by the Historic Preservation Board if the building to be demolished is considered eligible for designation as a local historic landmark or as a contributing building or property within an existing local historic landmark district. The public hearing shall be held at the next regularly scheduled meeting if the provided statutory notice is complied with at which time the provisions of this Division shall apply. The determination of historic significance and eligibility for designation as a local historic landmark by the Historic Preservation Board is a non-final and non-appealable decision."

Therefore, please be advised that after careful research and study of our records and the information you presented the following information has been determined:

6801 Granada Boulevard, legally described Tract 2, Cartee Homestead, does meet the minimum eligibility criteria for designation as a local historic landmark. The home was built in 1951 and designed by Alfred Browning Parker. Staff is aware that the house has been altered and expanded, yet we do not feel that it has lost its essential character or architectural integrity. Therefore, the Historical Resources staff will require review by the Historic Preservation Board if an application is made for a demolition permit.

Please note that, pursuant to Section 2-705(b)(15) of the Coral Gables Zoning Code, this determination does not constitute a development order and is valid for a period of six (6) months. Upon expiration of the six-month period, you will be required to file a new application. Any change from the foregoing may be made upon a demonstration of a change in the material facts upon which this determination was made. If you have any further questions concerning this matter, please do not hesitate to contact this office.

Sincerely,

A handwritten signature in black ink, appearing to read "Kara Kautz", is written over a horizontal line.

Kara Kautz, Historic Preservation Officer

Re: Local Historic Designation
6801 Granada Boulevard-Tract 2, Cartee
Homestead

Dear Mr. Guilford:

This letter is to confirm the results of the Historic Preservation Board meeting of Thursday, June 21, 2007. The Board met to review a request for Local Historic Designation of the property located at 6801 Granada Boulevard with an application for the issuance of an Accelerated Special Certificate of Appropriateness.

We are pleased to inform you that the Historic Preservation Board found that the property is significant to Coral Gables history and thus deemed it a historic landmark, listing it on the Coral Gables Register of Historic Places. As a result, any plans for modifications to your property should first be submitted to the Historical Resources Department for review. A copy of the Board's resolution will be forwarded as soon as it is available.

The Historic Preservation Board also reviewed the application for the issuance of an Accelerated Special Certificate of Appropriateness [COA (SP) 2007-11]. After deliberation, the Board passed a motion to recommend denial to the Planning and Zoning Board for the division of the property. Therefore the Accelerated Special Certificate of Appropriateness request to create the two separate building sites was not approved.

Please note that there is a fourteen day appeal period. Any aggrieved party may appeal any decision of the Historic Preservation Board to the City Commission by filing a written Notice of Appeal and an appeal fee of two hundred dollars (\$200.00) with the City Clerk not less than five (5) days and within fourteen (14) days from the date of the decision. The notice shall concisely set forth the decision appealed and the grounds for the appeal. If any person decides to appeal any decision made with respect to any matter considered at this public meeting or hearing, the aggrieved party will need a record of the proceedings. For such purpose the aggrieved party may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is based. Should you have any questions, please feel free to contact the office.

Sincerely,

A handwritten signature in black ink, appearing to read "Kara Kautz".

1 variances to subdivision requirements for
2 the property located at 6801 Granada
3 Boulevard.

4 MR. RIEL: Board Members, while we're
5 waiting for the other applicant to set up,
6 if you do not want these books, if you
7 could give them to the applicant, because
8 we will need them for the Commission.

9 MR. COE: Do you want to pick them up
10 for the Commission?

11 CHAIRMAN KORGE: Yes.

12 MS. MORENO: Beautiful.

13 MR. RIEL: You can have this one back.
14 Actually, I'll need it for the record.
15 Thank you.

16 (Inaudible comments off the record)

17 MR. CARLSON: Mr. Chairman, I can
18 begin when you would like me to.

19 CHAIRMAN KORGE: I think we're ready.

20 MR. CARLSON: Okay, very good.

21 The third -- actually, the second item
22 before you tonight is the Cartee Homestead
23 Replat, which is commonly referred to as
24 the --

25 MR. RIEL: We can't hear you. You've

1 got to hold it up to you.

2 MR. CARLSON: Can you hear me now?

3 MR. RIEL: Yes.

4 MR. CARLSON: The second item before
5 you this evening is the Cartee Homestead
6 replat, which is commonly referred to as
7 the 6801 Granada Boulevard lot separation.
8 It is for a building site separation and
9 tentative plat review.

10 The applicant is requesting the
11 separation of the property's single tract
12 of land into two building sites for
13 single-family residences. The applicant is
14 also requesting a replat of the property
15 into two platted lots, and that would be
the technical means by which to accomplish
the building site separation. And the
18 final request from the applicant is a
19 recommendation on two required variances
20 for the replat.

21 The property is one tract of land and
22 it is approximately three acres in size.

23 The entire property was designated as a
24 local historic landmark in June of this
25 year, last month.

1 The existing residence was constructed
2 in 1951, and contains approximately 9,500
3 square feet.

4 An existing driveway, a tennis court
5 and a coral rock wall tie the entire
6 property together as a single building
7 site.

8 Here is the property, and I'll outline
9 the entire property for you. That is the
10 property, and this is the site plan which
11 is proposed, proposed to divide the
12 property into two building sites, the
13 existing residence, which is located right
14 here, and a new residence which would join
15 that would be Proposed Lot Number 1.

16 As you can see, portions, the shaded
17 portions of the existing lot, would have to
18 be removed to allow Proposed Lot 2, which
19 would have a new residence constructed on
20 it.

21 As you look at Lot 1, this is -- this
22 takes the configuration of what we call a
23 flag lot, the reason being is, you have the
24 narrow portion of the site going back to a
25 larger portion of the site, and the

1 frontage of this portion of the site would
2 face onto the back of the Proposed Lot 2,
3 and you can see that the side -- the side
4 property line for Lot 1 and Lot 2 would
5 meander back through the property.

6 The Public Service -- These plans have
7 been reviewed by City departments, and the
8 Public Service Department had expressed
9 concern about the impact of the proposed
10 new construction on the preservation of the
11 property's existing mature trees and
12 landscaping.

13 The Historic Resources Department has
14 expressed concern of the impact of the new
15 residence on the historical structure and
16 its setting on the property.

17 MS. MORENO: I'm sorry, will there be
18 two new residences on Lot 1?

19 MR. CARLSON: What would occur is,
20 there would be -- Let me go back. What
21 would occur is -- this is Lot 1, again --

22 MS. MORENO: Right.

23 MR. CARLSON: -- this configuration.
24 This is the existing residence, here. That
25 existing residence was designated as

1 historic. These portions of the historic,
2 which you can barely see on here, but it's
3 clearer, I believe --

4 MS. MORENO: Yeah.

5 MR. CARLSON: -- on your handout --
6 these portions of the historic residence
7 would be demolished, and then this historic
8 portion of the building would be left on
9 the site, and a new -- I hate to say an
10 addition, because it's actually a new
11 residence -- would be constructed there,
12 and the remaining portion of the historic
13 residence would remain. So --

14 MS. MORENO: What is that building to
15 the -- that long, narrow building
16 existing -- no, the other one.

17 MR. CARLSON: This one?

18 MS. MORENO: What is it?

19 MR. CARLSON: That's the historic
20 residence.

21 MS. MORENO: That's the house?

22 MR. CARLSON: That's the house that
23 exists there now.

24 MS. MORENO: And what's on Lot 2?

25 MR. CARLSON: Lot 2? This would be a

1 brand-new single-family residence.

2 MS. MORENO: So we're going to put
3 three houses?

4 MR. CARLSON: What it would be is,
5 there would be -- This is the historic
6 portion, this is the new portion -- the new
7 construction on Lot 1. This would be one
8 building site. This is a new residence,
9 would be located on Lot 2.

10 MS. MORENO: Why are they not tied
11 together?

12 MR. CARLSON: That is the proposal
13 which came before the City.

14 MS. MORENO: But the two buildings are
15 not tied at all. I mean --

16 MR. CARLSON: That's correct.

17 MS. MORENO: -- is that a single-family
18 residence?

19 MR. CARLSON: They would have to go for
20 a variance for that, I believe, and because
21 it's a historically designated property,
22 that variance request would go to the
23 Historic Resources -- the Historic Board.

24 CHAIRMAN KORGE: Would the demolition
25 of the existing -- a portion of the

1 existing structure have to go through
2 those, as well?

3 MR. CARLSON: Yes, yes, and anything on
4 the historic structure would have to be
5 approved by them, and as you can see --
6 it's hard to see here -- a portion of that
7 existing historic structure encroaches onto
8 Building Site Number 2.

9 CHAIRMAN KORGE: Just out of curiosity,
10 why wouldn't you go before that Board
11 first, since that's probably the --

12 MR. CARLSON: A little bit farther in
13 my presentation -- that has gone to them --

14 CHAIRMAN KORGE: Okay.

15 MR. CARLSON: -- and I'll give you the
16 results of --

17 MS. MORENO: Okay, but wait. You're
18 telling me that that one existing building
19 is the one that has 9,448 square feet?

20 MR. CARLSON: If you take the entire
21 building as it sits now. They're proposing
22 to remove or demolish portions of it.

23 MS. MORENO: Two portions, right.

24 MR. CARLSON: That's correct. The
25 existing, one as it sits now, has

1 approximately 9,500 square feet.

2 (Simultaneous inaudible comments)

3 MS. MORENO: How big are these going to
4 be?

5 MR. CARLSON: All right, again, in
6 June, last month, the Historic Preservation
7 Board designated the entire property as a
8 historic landmark, as I said previously,
9 and at that meeting, both the Historic
10 Resources Department and the Board, the
11 Historic Preservation Board, recommended
12 denial of the proposed building site
13 separation request.

14 The Planning and Zoning Board
15 recommends to the City Commission on
16 proposed variances required on final plats.
17 The replat requires two variances from the
18 Code. First, all lots are required to abut
19 by their full frontage on a public street,
20 and as I showed you in the graphic, the
21 proposed site plan, Lot Number 1 has a
22 portion which is located behind the
23 proposed lot which does not face onto a
24 public street, and it also requires that
25 side lot lines be at right angles to the

1 street line, and again, that side lot
2 line -- side lot line meanders through the
3 site.

4 The property -- the current property
5 has been determined to be one building
6 site, and a residence of 39,500 square feet
7 could be built on the property now, as of
8 right.

9 The proposal would permit a total of
10 40,500 square feet to be built on the site,
11 with approximately 24,500 square feet on
12 Lot Number 1 and 16,000 square feet on Lot
13 Number 2.

14 MS. MORENO: That's what would be
15 permitted, but that's not what they're
16 proposing, or that's what they're
17 proposing?

18 MR. CARLSON: That is what -- that is
19 what would be permitted.

20 The applicant is required to meet a
21 minimum of four of the Zoning Code's six
22 review criteria to be considered a good
23 candidate for a building site separation.
24 Staff has reviewed this proposal against
25 those criteria and has determined the

1 following.

2 The first criteria, that exceptional or
3 unusual circumstances exist. This proposal
4 does not satisfy this criteria. This site
5 does not exhibit any of the characteristics
6 described in the Zoning Code that would
7 qualify as exceptional or unusual
8 circumstances, such as being an unusual
9 site configuration, having partially
10 platted lots, two or more land uses or
11 zoning designations, or having multiple
12 facings.

13 That the building sites created would
14 be equal to or larger than the majority of
15 surrounding building site frontages. This
16 proposal does not satisfy this criteria.
17 The building site frontage of Proposed Lot
18 1 would be less than 75 percent of the
19 comparable surrounding building sites.

20 That the building site separation would
21 not result in any existing structure
22 becoming nonconforming. This proposal does
23 not satisfy this criteria. The proposed
24 site plan would require the demolition of a
25 portion of the existing historic residence,

1 result in the creation of a flag lot, and
2 require two variances from the Zoning Code.

3 That no restrictive covenants,
4 encroachments, easements or the like exist.
5 This proposal does not satisfy this
6 criteria. The existing residence's tennis
7 court and driveway encroach onto Lot Number
8 2, and as I mentioned before, a portion of
9 the historic residence itself encroaches
10 onto the lot.

11 Maintains and preserves open space,
12 historic character and visual
13 attractiveness and promotes neighborhood
14 compatibility. This proposal does not
15 satisfy this criteria. The proposed site
16 plan is not consistent with the development
17 pattern of the surrounding neighborhood,
18 creates a building site that does not fully
19 front onto a public street, and requires
20 the removal of existing mature trees and
21 landscaping.

22 The final criteria, was the property
23 purchased by the current owner prior to
24 September 1977? It was not. The current
25 owner purchased the property in 1980.

1 Staff is recommending denial of this
2 building site separation because it meets
3 none of the six criteria which are
4 required, and as I mentioned before, a
5 minimum of four are required to be
6 considered a good candidate.

7 Staff, therefore, also recommends
8 denial of the tentative plat and the
9 required variances, which is the technical
10 means of accomplishing the building site
11 separation.

12 If the Board should recommend approval
13 of the request, Staff recommends the
14 following conditions of approval be
15 included and required: First, all proposed
16 site plans shall be reviewed and approved
17 by the Historic Preservation Board.

18 Second, a tree preservation plan shall
19 be prepared and submitted for City review
20 and approval.

21 Third, the City Commission approve the
22 required variances for the final plat.

23 And finally, that the Zoning Code be
24 amended to indicate the property is two
25 separate building sites.

1 And that concludes Staff's
2 presentation. If you have any questions,
3 I'd be glad to answer them.

4 CHAIRMAN KORGE: Does any Board member
5 have questions at this time?

6 MS. MORENO: I do have a question.

7 Mr. Guilford, in his cover letter, says
8 that the proposed lots would remain larger
9 than the other existing building sites in
10 the area.

11 CHAIRMAN KORGE: Right.

12 MS. MORENO: And you said that was not
13 true.

14 MR. CARLSON: We evaluate the
15 frontages. There's two frontages. One of
16 the building sites would have a frontage of
17 120 feet, and the other would have a
18 frontage of 262 feet, and the 120-foot
19 frontage would be less than 75 percent of
20 the surrounding comparable building sites.
21 We don't do it by land size.

22 MS. MORENO: But if you do it by land
23 size, what's the answer?

24 MR. CARLSON: We didn't do that
25 evaluation, so -- I believe he's prepared

1 that, but --

2 CHAIRMAN KORGE: The requirement says
3 that it would -- the building site created
4 would be equal to or larger than the
5 majority of the existing building site
6 frontages of the same zoning designation.

7 MR. COE: Frontages.

8 MS. MORENO: I understand that, but I
9 still want the answer on total size.

10 CHAIRMAN KORGE: That's probably not
11 the issue, the square footage, I'm
12 guessing, but I don't know.

13 Any other questions?

14 MR. CARLSON: The applicant is here
15 to --

16 (Inaudible comments off the record)

17 MR. GUILFORD: Good evening,
18 Mr. Chairman, Members the Board. For the
19 record, my name is Zeke Guilford, with
20 offices at 400 University Drive,
21 representing Califon Company, the owner of
22 property at 6801 Granada Boulevard. With
23 me is Mr. Gary Schwartz, who is the general
24 counsel for Califon.

25 What I'd like to do is basically kind

1 of give you a history of this property a
2 little bit. This -- actually, what you
3 have before you, which is not very good, is
4 actually Mr. Merrick's first plat of the
5 property, and actually the property in
6 question is actually right here. What's
7 actually kind of neat about this, this is
8 Cocoplum Circle, and just to kind of give
9 you a history, he actually created parks
10 here and here, down at the end, but what's
11 really neat is, around the property in
12 question he created another park, and
13 actually what you have is, you have a road
14 coming in here, you have roads coming in on
15 this side, as well, and this was actually a
16 yacht basin. Needless to say, it was not
17 fully dredged, and the property actually,
18 in 1940s, actually got replatted.

19 It was replatted by a man named
20 Mr. Cartee, and he actually -- what's
21 unique is, he actually owned two pieces of
22 property, this piece of property, which is
23 the one that's before you, but also the one
24 across the waterway, the Mahi Canal
25 waterway, and what you'll tell -- what is

1 interesting here is, this is what we
2 originally came before the Board, and this
3 was our original submittal, was actually
4 three lots on the property, and the reason
5 we actually separated it into three lots is
6 because if you look at Cartee Number 1, it
7 has already been subdivided into three
8 lots. The lines do not go perpendicular.
9 None of these meets the requirements of
10 Code, but yet it actually has been approved
11 and it already has another house on it, and
12 this is actually under a separate
13 ownership, so a third house can be built on
14 this property. And this piece, Cartee 1,
15 is approximately a quarter acre smaller
16 than what we have here.

17 Then, in 1950, a gentleman by the name
18 of Mr. Caudle actually purchased the
19 property, and Mr. Caudle was a single man
20 and basically did not build a large house.
21 The 9,000 square feet that you see was not
22 the original house. It was actually
23 probably about 2,500 square feet. It was a
24 one-bedroom house, and later it
25 subsequently was added on and added on and

1 added on, until it got up to 9,000 square
2 feet.

3 I believe I'm going to probably repeat
4 some things that Staff had said. The
5 property is approximately three acres in
6 size, 2.94 acres. Staff has stated that we
7 can build a house approximately 39,500
8 square feet. It was originally platted in
9 approximately four lots by the original
10 Merrick plat.

11 This property subsequently, in the
12 '70s, went into foreclosure. In 1980, our
13 clients bought it. The original house,
14 which we keep talking about as the historic
15 structure, was actually designed by Alfred
16 Browning Parker, and it's only the small
17 portion that I mentioned before, the 2,500
18 square feet, approximately, give or take.
19 And that's the reason we're actually -- our
20 proposal, and I'll go into it a little bit
21 further, actually talks about removing not
22 the Alfred Browning Parker portion, but
23 portions that were added by other
24 architects as appendages, later on.

25 It's my understanding and I believe,

1 and Kara can correct me if I'm wrong -- I
2 think there's only two Alfred Browning
3 Parker houses in the Gables. I know
4 there's one -- oh, there's more? There's
5 definitely, I know, two, one on Bayamo and
6 then this one, and this one was just
7 designated in June.

8 This application has been being
9 processed for approximately two years.
10 We've been working with the Building &
11 Zoning Department. Laura Russo actually
12 was handling this case prior to myself. We
13 also worked with Historic Preservation,
14 prior to Kara, with Dona Lubin.

15 Recently, we went to the Historic
16 Preservation Board, and we actually started
17 with the three lots that I showed you
18 earlier. We then, based upon a meeting
19 with Staff, reduced that down to two.

20 When we got the Staff recommendation,
21 to be quite candid with you, we were a
22 little bit disappointed, because with two
23 lots, we thought it was adequate size for
24 two residences, but if you read Staff's
25 recommendation, they're not recommending

1 denial of the lot separation or because
2 they don't believe in the lot separation.
3 Their basis of their denial is that we are
4 not providing adequate information for them
5 to make a decision. And I'm going to tell
6 you why we can't provide that and why we
7 told the Board we can't provide that.

8 Califon is not a developer. So,
9 basically, you could end up with a house
10 that looks like this, and this will
11 ultimately be either a guest house or
12 people have envisioned this either -- Jorge
13 Hernandez envisions this as a gallery,
14 something to complement the original
15 residence. So you will not have two
16 residences on this piece of property. But
17 a house could look like this --

18 MR. COE: Hold on, let me interrupt
19 you.

20 MR. GUILFORD: Sure.

21 MR. COE: You just lost me with what
22 you just said.

23 MR. GUILFORD: What did I say?

24 MR. COE: You're proposing a lot split
25 for two residences.

1 MR. GUILFORD: Right. Correct.

2 MR. COE: Now you just told me you're
3 not going to have two residences.

4 MR. GUILFORD: No, we'll have one here,
5 but I think the question was, is there two
6 residences on one lot.

7 MR. COE: Oh, okay.

8 MR. GUILFORD: And we are not having two
9 residences on a single lot.

10 MR. COE: If you were to get your lot
11 split, on each lot there would be a
12 residence.

13 MR. GUILFORD: One residence,
14 absolutely.

15 MR. COE: Okay.

16 MR. GUILFORD: Absolutely.

17 A residence can be built this way --

18 MS. MORENO: In other words, what
19 you're giving us is not a real proposal,
20 it's just a possibility.

21 MR. GUILFORD: Absolutely. Absolutely,
22 because we can't at this time.

23 Or a third scenario -- and the
24 reason -- the reason we really could not
25 provide the Historic Preservation Board

1 this information is because we don't know
2 what's going to be built. We could spend
3 the money and give them the elevations that
4 they wanted, but it really would mean
5 nothing because whoever bought the property
6 would want it their own way and come back,
7 and what we tried to explain to the Board,
8 and it's actually kind of funny, because
9 the Staff's alternative recommendation is,
10 now that the property has been designated
11 historic, whatever happens on that property
12 has the overview of the Historic
13 Preservation Board. So any demolition on
14 the property must go before the Board. Any
15 addition to the property must go before the
16 Board. Anything that happens on that
17 property, because you just don't designate
18 the Alfred Browning Parker portion; you
19 designate the whole property.

20 As a matter of fact, Lot 2, the house
21 on Lot 2, would have to come before the
22 Historic Preservation Board, because it is
23 sitting on a historically designated piece
24 of property.

25 Now, what I'd like to do is just

1 backtrack, because I don't think it was in
2 your packet, is, in 2005 -- in 2005, Dennis
3 Smith wrote a letter to Laura Russo,
4 stating that this piece of property did not
5 have to go through the building site
6 separation procedures.

7 Subsequently, which is in your package,
8 is a letter from the City Attorney,
9 stating, a year and a half later, that we
10 do. What I'd like to point out is that
11 cc'd on this letter is Planning Staff. At
12 no time within that year and a half between
13 the issuance of this letter and the City
14 Attorney's letter did anybody object to
15 this, did anybody appeal this decision, and
16 therefore, we have actually relied on this
17 decision that's before you.

18 However, based upon the City Attorney's
19 decision, we have no other alternative but
20 to move forward, basically, under protest
21 of this matter, and move forward with this
22 application. Otherwise, we would not be
23 able to move forward with the application.

24 So what are we really requesting?
25 We're requesting two building sites,

1 Building Site 1, which is approximately a
2 little bit over -- close to 78,000 square
3 feet, almost two acres, and Lot 2, which is
4 49,000 square feet, which is over an acre.

5 Now, Staff has said in their -- and
6 what I'd like to do is just take a moment
7 to go through Staff's six criteria. Staff
8 has said that it's not unique or
9 exceptional in any circumstance. Frankly,
10 I believe a three-acre tract in this
11 neighborhood, which is by far the largest
12 single parcel -- it is fronted on two sides
13 by water and is designated historic. In
14 and of itself, it makes it a very unique
15 piece of property.

16 Now, the second thing is that Staff --
17 the second issue is, are you equal to or
18 larger than the 50 percent or a majority of
19 the properties in the area? The reason you
20 cannot do frontages in this case is, this
21 is the area that Staff has picked as their
22 subject property to analyze. What you'll
23 see along the waterway is that it
24 constantly meanders, so that no two lots
25 are particularly exactly alike.

1 Yes, sir?

2 MR. COE: I don't want to interrupt
3 your presentation, but doesn't the Code
4 require that frontage be the criteria?

5 MR. GUILFORD: Yes, it does, but it
6 doesn't -- it cannot work in this case,
7 because you don't have standardized lots,
8 like you do in others. This lot has a
9 bigger frontage, but it's got the hoop
10 taken out of it.

11 MR. COE: Hold on.

12 MR. GUILFORD: Yes, sir.

13 MR. COE: So you want us to ignore --
14 in this particular case, you want this
15 Board, and presumably the Commission, to
16 ignore the specific language of the Code?
17 You want us --

18 MR. GUILFORD: Because it --

19 MR. COE: -- to pretend it doesn't say
20 that.

21 MR. GUILFORD: Because it cannot apply
22 in this case, because you don't have a
23 uniformity area to analyze with frontages.
24 As a matter of fact, you have a house
25 here -- where is it, right here -- that's

1 half of a vacated street and half of a lot.
2 Under the Code, it's not even actually
3 considered a building site. You have
4 situations where you have part of a vacated
5 street up here.

6 This is not a normal lot and block
7 scenario. I mean, the meandering
8 creates -- I have 150 feet here, but I have
9 the narrowest lot in the whole area. It
10 just -- it doesn't work the way the Code
11 has set up, and when you actually apply the
12 criteria that really works in this
13 scenario, what you're going to find is that
14 the first lot, Lot A, or Lot 1, is 77,000
15 square feet. It's larger than about 96
16 percent.

17 In fact, I got into a discussion at the
18 Historic Preservation Board whether it was
19 or it wasn't. There's one, actually, right
20 here, which is a relatively large -- that's
21 the old -- or it's the Wirt Maxey estate.
22 I looked that up in the tax records; that's
23 68,000. But there's actually -- this is
24 actually even drawn wrong. There's an
25 appendage coming out of that property. So

1 it's equal to -- it's pretty close, but
2 clearly, from the Dade County tax roll, Lot
3 1 is clearly the largest of the whole
4 sample size. Lot 2 is 49,590--

5 MR. COE: But based on the square
6 footage.

7 MR. GUILFORD: Based upon the square
8 footage, absolutely, because again, you
9 know, this is not a normal lot and block
10 situation.

11 MR. COE: I understand what you're
12 saying. I just want it --

13 MR. GUILFORD: Sure. Absolutely.

14 MR. COE: I want it clear.

15 MR. GUILFORD: This one, at 49,000,
16 we're greater than 93 -- 83 percent of the
17 properties.

18 So, basically, when you actually apply
19 the criteria that can actually work in this
20 particular case, because you don't have a
21 standardized lot and block to go by, these
22 lots are larger than the majority of the
23 lots. In fact, the actual average lot size
24 is 31,000 square feet. So we're
25 approximately 17,000 square feet larger

1 than all the lots, the average of all the
2 lots.

3 CHAIRMAN KORGE: Mr. Guilford, can I
4 ask you a quick question?

5 MR. GUILFORD: Sure.

6 CHAIRMAN KORGE: What do you think the
7 purpose for referencing lot frontage was in
8 the Code?

9 MR. GUILFORD: Because I don't believe
10 they actually anticipated a situation like
11 this. What they anticipated were blocks
12 like this.

13 CHAIRMAN KORGE: Well, why not just say
14 square footage for blocks like that, too?

15 MR. GUILFORD: It's how they developed
16 the Code, but clearly, when you look at
17 something like this, this looks nothing
18 like that.

19 CHAIRMAN KORGE: I understand that. I
20 live in the neighborhood, so I really do
21 understand, but I guess what I'm asking is,
22 why would -- if they said frontage for
23 only -- if they were only contemplating,
24 you know, regular sized lots, not irregular
25 lots which go around the waterway, why

1 didn't they say square footage for that,
2 too?

3 MR. GUILFORD: I have no idea. But
4 clearly, clearly, you know, again, there is
5 no uniformity along the waterway, so it
6 makes it extremely difficult to say --
7 again, one lot can be very narrow and very
8 long.

9 Yes, sir?

10 MR. COE: Mr. Guilford, so I'm a little
11 puzzled by this argument that you're
12 making. We just spent several years doing
13 an extensive City Code rewrite

14 MS. MORENO: This was not addressed by
15 that.

16 MR. COE: I understand. It was not
17 addressed at all.

18 If, in fact, this is unique to this
19 particular area of the City of Coral
20 Gables, weren't you remiss in not raising
21 that point, sitting on your application, as
22 you've told us, for the last two years,
23 sir.

24 MR. GUILFORD: Well, actually, it was
25 part of Mrs. Russo before myself, so --

1 excuse me --

2 MR. COE: I understand.

3 MR. GUILFORD: But anyways, I'm

4 not -- I'm not --

5 MR. COE: Hold on. This process has
6 been going on for two years, in the middle
7 of the Code rewrite, yet it was never
8 raised. The Code is the Code as we have
9 now.

10 MR. GUILFORD: I understand, Judge, but
11 you know what? Not everything is written
12 perfectly, and --

13 MS. MORENO: Can I just butt in for a
14 minute?

15 MR. GUILFORD: Sure.

16 MS. MORENO: Because I think I was on
17 the Board when the two things happened. We
18 had a very acrimonious lot split case, and
19 certain revisions were made to the lot
20 split ordinance at that time, including
21 adopting some of these criteria, in
22 response to a case that arose in the North
23 Gables area.

24 I am not sure that anyone considered,
25 at the time that was done, any of the

1 irregular lots that are in the waterway
2 areas, and I know that when the Zoning Code
3 rewrite was considered, it was determined
4 that in order to avoid a lengthy discussion
5 on lot splits, the lot split section would
6 not be considered as part of the zoning
7 rewrite.

8 CHAIRMAN KORGE: That was after
9 proposals were made to change it.

10 MR. COE: Right.

11 MS. MORENO: It was after proposals,
12 and we had disagreement among the Board
13 members as to what to do and what not to
14 do. Some of us thought that allowing lot
15 splits would eliminate the McMansion
16 problem. Some of us did not want lot
17 splits. There was significant
18 disagreement, and the decision was made to
19 table that for future consideration. It's
20 not that it was considered and rejected.
21 That's the only point of what I'm trying to
22 say.

23 MR. GUILFORD: Thank you.

24 MR. RIEL: Mr. Chair, but I would note
25 that prior to the Zoning Code, the lot

1 splitting ordinance was further
2 strengthened, so it was out -- it was in
3 front of -- we started the Zoning Code
4 rewrite in like 2005, 2006, but about a
5 year prior or 18 months prior --

6 MS. MORENO: Yeah.

7 MR. RIEL: -- there were changes made
8 to that. That's one of the reasons why it
9 was not looked at, although Staff had
10 wanted to make changes to it, to further
11 strengthen it, but it was looked at about
12 four or five years ago.

13 MR. GUILFORD: And to be honest with
14 you, I believe that provision, the one
15 we're talking about, has been the same all
16 the way through, so -- so I don't believe
17 that people looked at particular
18 situations, and what Mr. Riel is talking to
19 was actually prior to this application
20 being filed, but anyways, be that as it
21 may, the third issue is the building site,
22 separated, would not result in any existing
23 structures becoming nonconforming.

24 Now, Staff has stated that what we're
25 doing is creating a flag lot. Well, the

1 answer is, that's true. However, we end up
2 with a dilemma, is, number one, we could
3 actually move this over, okay?

4 Judge, you know where I'm going.

5 MR. COE: Yep.

6 MR. GUILFORD: And we could probably
7 meet the frontage requirement. We could
8 divide it right down the middle, and I
9 would have Ms. Kautz here climbing all over
10 me, because we would then be destroying the
11 historic structure.

12 So the only reason we made this
13 configuration was the preservation of the
14 historic structure.

15 MS. MORENO: Why would you be
16 destroying it?

17 MR. GUILFORD: Because basically the
18 pool -- they have determined -- Staff has
19 determined, and correct me if I'm wrong --
20 is that the cabana and the pool is an
21 integral part of the building. So for me
22 to move this over and just cut it in the
23 middle would not be acceptable to Historic
24 Preservation. Then this frontage gets
25 bigger, basically, but what happens is --

1 so I'm between the rock and the hard place,
2 between Historic Preservation and a flag
3 lot.

4 MS. MORENO: Well, but you could do --
5 I mean, you could give yourself equal
6 frontage and then meander that way.

7 MR. GUILFORD: Again, I'd still need
8 the variance. Again, I would still need
9 the variance. So, anyway, it really
10 becomes a weighting of Historic
11 Preservation versus a flag lot, and that's
12 the issue we're faced with this
13 requirement.

14 MR. COE: Could I ask one more
15 question --

16 MR. GUILFORD: Yes, sir.

17 MR. COE: -- for clarification, Mr.
18 Guilford, so I fully understand what's
19 before this Board this evening.

20 Your applicant has no intention of
21 actually constructing anything on these
22 sites; is that correct?

23 MR. GUILFORD: That is correct.

24 MR. COE: So, if there's any new
25 construction, that's going to be by a

1 subsequent owner.

2 MR. GUILFORD: That is correct, and
3 that construction must go before the
4 Historic Preservation Board, and it could
5 be conditioned to come before this Board,
6 as well.

7 MR. COE: Right, so essentially, all
8 we're going to vote on is a lot split,
9 without any understanding of, if that lot
10 split is granted by the Board and by the
11 City Commission, of what ultimately will be
12 put on these split lots.

13 MR. GUILFORD: That is correct.

14 The next criteria, that there's no
15 restrictive covenants, encroachments, et
16 cetera. Well, if there were no
17 encroachments, we wouldn't be here.
18 Clearly, we violate that by the removal of
19 the noncontributing structures and the
20 tennis court. We do not comply with that.

21 Criteria Number 5, maintains and
22 preserves open space, neighborhood
23 compatibility, preserves historic character
24 and maintains property values. I'm going
25 to argue that if I have two of the biggest

1 lots still remaining in the neighborhood,
2 I'm maintaining property values. I'm
3 consistent with that neighborhood. By
4 maintaining the historic structure, I'm
5 maintaining the historic character.

6 And preserves open space and green
7 area. By maintaining the two largest lots,
8 I then again maintain more green space and
9 open than the surrounding neighborhood. So
10 I don't know how I don't comply with that
11 one.

12 And the last one, which I do not comply
13 with, as well, is that we purchased -- the
14 property was purchased in 1980. We do not
15 comply with that requirement.

16 Mr. Chairman, Members of the Board,
17 what we have here is a unique circumstance.
18 We have Historic Preservation playing a
19 part. We have different -- we have unique
20 pieces of property, as it fronts the
21 waterway. We would ask that you recommend
22 approval of this tentative plat -- or
23 approve this tentative plat with the
24 subdivision variances.

25 Yes, sir?

1 MR. COE: I have another quick
2 question, so I understand the difference
3 between your position and Staff's position.

4 Staff found that you met none of the
5 six criteria. Are you telling us you meet
6 one, Number 5?

7 MR. GUILFORD: No, sir. What I'm
8 actually telling you, I believe I meet
9 four.

10 MR. COE: No. You're throwing out the
11 frontage.

12 MR. GUILFORD: I'm --

13 CHAIRMAN KORGE: Just list the four
14 again.

15 MR. GUILFORD: Okay. I believe we have
16 a unique piece of property.

17 MR. COE: Okay.

18 MR. GUILFORD: I believe -- I'm arguing
19 that frontages doesn't apply, so --

20 MR. COE: So frontage doesn't count, so
21 we throw that one out.

22 MR. GUILFORD: Well, then I can't meet
23 four.

24 MR. COE: I understand.

25 MR. GUILFORD: So now I'm down to four

1 out of five.

2 MR. COE: Okay, so you just want to --
3 you say we meet the frontage in your
4 definition of frontage, the square footage
5 of the lot.

6 MR. GUILFORD: I meet -- what I believe
7 is, the whole idea of that provision, or I
8 believe the intent, which I don't think
9 anyone will argue with me, is that
10 basically what you don't want to have are
11 lots that are not comparable to each other.

12 MR. COE: Are you prepared right now to
13 present the legislative history of this
14 portion of the Code?

15 MR. GUILFORD: Not right now. I'll be
16 more than happy to start doing it for you.

17 MR. COE: I'm not sure, Mr. Guilford,
18 that when this was generated, a long time
19 ago, that --

20 MR. GUILFORD: You don't believe it was
21 lot compatibility.

22 MR. COE: Yes. I don't think that was
23 really thought of. I think what was
24 thought of was frontage, for a very obvious
25 reason, why frontage would be thought of.

1 That's what impacts, visually, when you
2 drive down a street or walk down a street.
3 It's not necessarily the square footage;
4 it's the frontage.

5 MS. MORENO: I have a question for the
6 City Attorney.

7 If we find that this does not meet four
8 of the criteria, can we approve this? If
9 we say -- you know, I think that arguably
10 it cannot meet four of the criteria. Are
11 we bound to disapprove it?

12 MS. ALFONSIN RUIZ: The section of the
13 Code actually says "shall meet four of the
14 criteria."

15 MS. MORENO: So, then, we must find
16 that he meets four of the criteria?

17 MS. ALFONSIN RUIZ: Correct.

18 MS. MORENO: And it is undisputed that
19 he doesn't meet the last one.

20 MR. GUILFORD: Or Number 4.

21 MS. MORENO: Or Number 4, and although
22 I sympathize with the idea of lot splits
23 and I have supported them in the past, I
24 don't think you meet the frontage
25 requirements.

1 MR. GUILFORD: That's --

2 MS. MORENO: And, you know, I --

3 MR. GUILFORD: Ms. Moreno, that's, you
4 know, clearly your prerogative.

5 MS. MORENO: So I'm willing to give you
6 that you arguably meet the uniqueness
7 requirement, and I'm willing to give you
8 that you're trying to draw it so that it
9 complies with Historic Preservation's
10 concern, but, you know, if I give you those
11 two and I cannot give you Number 4, because
12 you admit you can't meet Number 4 --

13 MR. GUILFORD: Right.

14 MS. MORENO: -- I still don't get to
15 four, so I'm not sure that we're -- I think
16 discussing it further is wasting our time.

17 CHAIRMAN KORGE: Wait a minute. One,
18 two -- you think you meet Number 3?

19 MS. MORENO: No, I think he arguably --

20 CHAIRMAN KORGE: I'm asking -- I'm
21 asking -- no, I'm asking Mr. Guilford.

22 MR. GUILFORD: Well --

23 CHAIRMAN KORGE: You thought --

24 MR. GUILFORD: Yes.

25 CHAIRMAN KORGE: You said you thought

1 you met one and two, and you --

2 MR. GUILFORD: One, two --

3 CHAIRMAN KORGE: Three --

4 MR. GUILFORD: -- three and five.

5 CHAIRMAN KORGE: And five.

6 MR. RIEL: Mr. Chair --

7 CHAIRMAN KORGE: Those are the ones he
8 thinks he meets.

9 MR. RIEL: Mr. Chair, if I can
10 interject, there's two things that the
11 applicant stated, that there's inadequate
12 information to provide a Staff
13 recommendation, and I believe the applicant
14 is incorrect. We evaluated the six
15 criteria based upon the application.

16 So I don't agree with your finding that
17 there's inadequate information for the
18 Staff.

19 MR. GUILFORD: I don't believe I
20 said -- if I said it, I did not --

21 MR. COE: Yes, you did.

22 MR. GUILFORD: Okay.

23 MR. COE: Yes, you did say that.

24 MR. RIEL: And the second thing is,
25 just so everybody knows, the alternative

1 recommendation is always provided by the
2 Department if the Board makes findings of
3 fact that they feel that they should
4 recommend approval. So I didn't want
5 anybody to assume that since we provided
6 alternative recommendations, that --

7 MR. GUILFORD: No, I didn't argue that
8 point, or if I did -- and I apologize, I
9 did not say Staff did not have adequate
10 information to make -- We disagree with --
11 Basically, what I was trying to say is, we
12 disagree with Staff's determination.

13 MS. MORENO: Okay, but the bottom line
14 is, the City Attorney has told me that I
15 must find four of the six, and --

16 MR. GUILFORD: Yes, ma'am, and if
17 you --

18 MS. MORENO: And you've admitted that
19 you don't comply with two.

20 MR. GUILFORD: Correct.

21 MS. MORENO: So I have to find that you
22 comply with the other four --

23 MR. GUILFORD: Right, and --

24 MS. MORENO: -- and I can't find that
25 you comply with the frontage.

1 MR. GUILFORD: I understand your
2 position, Ms. Moreno.

3 If you have any more questions, I'll be
4 more than happy to answer them at this
5 time.

6 CHAIRMAN KORGE: Any more questions of
7 the applicant?

8 MS. KEON: I have one question with
9 regard to the Historic Preservation
10 Department.

11 MS. MORENO: Do you want to come up?

12 MS. KAUTZ: Hi. For the record, Kara
13 Kautz, Historic Preservation Officer for
14 the City of Coral Gables.

15 MS. KEON: Mr. Guilford stated that --
16 it seems that it's only a small portion of
17 this house that was actually designed
18 by --

19 MS. KAUTZ: Yes, I'll show you. I
20 didn't see the graphic that he presented,
21 but I'm assuming it's here.

22 The home was originally built in 1951
23 by Mr. Parker.

24 MS. KEON: Right.

25 MS. KAUTZ: And the auxiliary structure

1 was built one year later, also designed by
2 Mr. Parker. This -- this generally --

3 MR. COE: It's not City Hall.

4 MS. KAUTZ: Yeah, I'm sorry. I'm on
5 stage.

6 This generally is the outline of the
7 existing historic 1951 structure. This is
8 also the 1952 structure. This was built
9 one year later. What this --

10 MS. KEON: But designed by?

11 MS. KAUTZ: Mr. Parker.

12 MS. KEON: By Mr. Parker, okay.

13 MS. KAUTZ: This compound of this --

14 MS. KEON: Yeah.

15 MS. KAUTZ: -- which is the pool and an
16 out-cabana and this was also designed by
17 Mr. Parker. What this is generally showing
18 is the outline of what the original house
19 was.

20 MS. KEON: I see. I see.

21 MS. KAUTZ: It's been altered slightly,
22 so I don't know if they can put it back
23 exactly as it was, currently, if this
24 outline is exactly the way it was, but it's
25 the closest -- This is the 1951 portion.

1 MS. KEON: And what was done
2 subsequently, is it in the style of?

3 MS. KAUTZ: It's not a great addition,
4 I'm going to be honest with you. It's not.
5 If someone were to come and restore the
6 house back to its original pristine
7 condition, that would be removed. I mean,
8 it would generally be considered to be a
9 nonsympathetic addition.

10 MS. KEON: So, when you approve things
11 for -- as historically significant, the
12 fact -- it looks like almost half the
13 house, half the square footage of that
14 house, is not historically significant.

15 MS. KAUTZ: Generally, yes. The entire
16 property is significant because it was
17 originally an Alfred Browning Parker
18 residence.

19 MS. KEON: Right.

20 MS. KAUTZ: The later addition -- it
21 was Staff's recommendation that the later
22 addition did not significantly detract from
23 the historic character of the original
24 structure.

25 MS. KEON: Oh, okay.

1 MS. KAUTZ: The original structure is
2 still pretty much intact. If you look at
3 it, you can see what was original and what
4 was added on at a later date. The historic
5 portion of the house is intact.

6 MR. RIEL: And Kara, just so they --
7 The entire property has been deemed
8 historic?

9 MS. KAUTZ: Yes.

10 MR. RIEL: The entire property.

11 MS. KAUTZ: The entire property, not just
12 the house.

13 MR. RIEL: Not just the structure.

14 MS. MORENO: Why is that, that it's the
15 entire property?

16 MS. KAUTZ: That's the way it always
17 is. Every designated building, it's the
18 property, as well.

19 MR. COE: It's the site.

20 MS. KAUTZ: It's the entire site.

21 MS. MORENO: Does that mean that it
22 can't be separated?

23 MS. KAUTZ: No, it does not mean that.
24 We allow people to do additions,
25 demolitions. They've never actually had a

1 separation come before our Board before,
2 but it certainly would be allowable in
3 certain circumstances.

4 MR. COE: If you meet the four out of
5 six criteria.

6 MS. MORENO: I'm sorry?

7 MR. COE: If you meet the four out of
8 six criteria.

9 CHAIRMAN KORGE: Okay, we'll open it --
10 if there are no more questions --

11 MR. RIEL: Three people.

12 CHAIRMAN KORGE: Pardon me?

13 MR. RIEL: We've got three.

14 CHAIRMAN KORGE: Three minutes?

15 MR. RIEL: No, we've got three people
16 that signed up.

17 CHAIRMAN KORGE: Three people that
18 signed up, so let's call the individuals
19 who wish to speak on this.

20 MS. MENENDEZ-DURAN: Gil Haddad.

21 CHAIRMAN KORGE: Please state your name
22 and address for the record.

23 MR. HADDAD: Yes.

24 CHAIRMAN KORGE: And I believe --

25 Do we need to swear in this witness?

1 Do we need to swear him in?

2 MS. ALFONSIN RUIZ: No -- yes.

3 CHAIRMAN KORGE: Yes?

4 MR. COE: This is testimony.

5 (Thereupon, Gil Haddad was duly sworn
6 by the court reporter.)

7 MR. HADDAD: I do.

8 CHAIRMAN KORGE: Again, state your name
9 and address for the record.

10 MR. HADDAD: I'm Gil Haddad. My wife
11 and I live at 6800 Granada Boulevard, Coral
12 Gables, Florida.

13 I'd like to thank this Board for giving
14 us the opportunity to speak. I'd also like
15 to bring to the Board's attention the fact
16 that the City Attorney's Office, the
17 Planning & Zoning Staff, the Planning &
18 Zoning Board and your Staff have exhibited
19 extraordinary attention to this very
20 important issue for our neighborhood.

21 The record here contains an original
22 petition that was filed for your February
23 21 hearing that was aborted because that
24 July 1 letter was presented -- of 2005, was
25 given to the City Attorney one hour before

1 your four (sic) o'clock meeting. The
2 minutes of that meeting reference Judge Coe
3 and Chairman Korge commenting about the
4 number of people present and the fact that
5 we had to make a little bit of noise to
6 leave. So we had so many people present at
7 that meeting, we were a little bit
8 disconcerted that that July 1 letter was
9 given to the City Attorney one hour before
10 the scheduled meeting.

11 The City Attorney then had to do
12 research, and came out with her memo, which
13 is in your file, of -- which says that the
14 July 1 letter clearly is erroneous and has
15 no application, and that the process for
16 lot splitting must be completely complied
17 with, which Mr. Guilford obviously
18 acknowledges now, because he's doing this.

19 I would also like to thank not only the
20 original 36 petitioners, but another six
21 residents in the area wrote lengthy
22 letters, all of which are in your record,
23 all of which are in opposition to any lot
24 split.

25 I'd like to thank the Riviera

1 Neighborhood Association for its support,
2 and four executives of that association,
3 which are with us here tonight, and I'd
4 like to thank our other neighbors that are
5 with us here tonight.

6 I think that your Staff, as well as the
7 Staff of Historic Resources, understands
8 why there should be no lot split here far
9 better than I do as a layman in this
10 particular area. You folks sit here and
11 listen to these problems, day in and day
12 out, and I think you understand why -- and
13 I don't mean to be so dogmatic about it,
14 but why I really believe that as a matter
15 of law, you cannot recommend to this City
16 Council, because the City Council, the City
17 Commission, must make six specific findings
18 of fact. One is that the literal
19 interpretation of the Code, which every
20 resident of this City has a right to rely
21 on, must be varied to accommodate the
22 interests of this offshore corporation,
23 which has this property on the market for
24 sale at this time.

25 Mr. Guilford, of course, is my friend.

1 He is an excellent and honorable attorney,
2 and he's doing an excellent job for his
3 client, but on a common sensical basis,
4 this two-year effort is nothing more than a
5 marketing tool to advance the sale of this
6 property.

7 You have in your record a printout of
8 the web site for the sale of this property,
9 which, by its very terms, extols its
10 virtues as one single plat -- platted lot.
11 In your record, you have a copy of this web
12 site. So this authorized agent of the
13 owner is saying that this is a three-acre
14 waterfront estate, boasting 757 feet of
15 waterfront. It's architecturally unique.
16 It has a 10,000-square-foot home on it,
17 built by the renowned architect, Alfred
18 Browning Parker, who, incidentally, in an
19 international magazine, just had his local
20 home, Wind Song, designated as one of the
21 10 most beautiful homes in the world. It
22 sits on lush private grounds, surrounded by
23 mature oaks, surrounded by a coral rock
24 wall, and incidentally, our Code makes
25 reference to coral rock walls and that they

1 should not be breached or removed.

2 It has a tennis court. Our Code
3 verbatim and specifically speaks against
4 the removal of existing tennis courts. It
5 has a swimming pool. Our Code
6 specifically -- this is the Code that we
7 all follow the rules by. It has a swimming
8 pool that will not be disturbed, according
9 to our Code, once it exists. It has
10 outbuildings, staff quarters and such
11 things as that, which because they exist,
12 under our Code, should not be removed.

13 The mature oaks are of tremendous
14 concern to our Public Service Department,
15 because they requested, for over a year
16 now, that this applicant submit a root
17 plan, and the applicant hasn't even
18 submitted a root plan for the trees.

19 Now, it goes on to say that this is a
20 private compound. Now, there's no one
21 connected to this application who ever
22 lived on that property, but our former
23 neighbors did live on that property and
24 enjoyed it for 20 years as just that, a
25 very exclusive compound.

1 This web site has a purchase price and
2 asking price of \$13,500,000, for a piece of
3 property which I don't know the price in
4 1980, but I would guess a million, two
5 million, in 1980.

6 The New York Times -- it's not in your
7 record, but if you take the Times, you'll
8 see that there's a 28-acre estate,
9 overlooking the Hudson River, that has a
10 20-horse barn -- stall on it, three
11 caretaker houses, it's a 7,500 foot,
12 impeccable manor, for sale for 13 million
13 dollars. So, if this owner has a problem
14 in selling and marketing this property, it
15 might be the price. It's not because
16 anybody in this neighborhood did anything
17 to deter them.

18 I call your attention again, only
19 because Mr. Guilford dramatically handed
20 you the July 1, '05 letter, signed by
21 Dennis. The City Attorney, on March 9 of
22 2007, analyzed that situation and said that
23 letter was, quote, unquote, a clearly
24 erroneous interpretation, and your counsel,
25 the City Attorney, can provide you with a

1 copy of this, but it's already in your
2 record. It's already with your Staff.

3 The law involved here, the zoning
4 scheme, began in 1973. It was amended in
5 '77. It was amended in '81. It was
6 amended again in '86. And every one of
7 those amendments was for the purpose of
8 controlling density in the residential
9 neighborhoods of our City, every one of
10 them. That is the ethos of our entire
11 Building Code, the ethos of the new
12 amendments to the Code, and all of those
13 amendments going back to 1973.

14 Our concern in this neighborhood is
15 exactly what's in the Code. The criteria
16 in the Code are that property values shall
17 be considered and maintained. At 800
18 Alhambra, with all due respect to the owner
19 and building of that very, very large house
20 that extends from one street -- from
21 Altamira to the next street, it is so huge,
22 and it's not nearly the size of what's
23 depicted here, but you've pointed out very
24 cogently that what's depicted here is
25 irrelevant, because this owner will never

1 build anything, this offshore Antilles
2 corporation. Their counsel has represented
3 to you, they'll never build anything.

4 But our concern is that we have an
5 extraordinarily beautiful piece of property
6 that everybody in the City can enjoy. We
7 have relied on that piece of property in
8 our purchases. There's a young family
9 named Fernandez that are friends and new
10 neighbors, who bought at 6750 Granada,
11 catty-corner from this location, a
12 two-story house overlooking this location.
13 They paid about two million dollars for
14 that property and they've put another six
15 or seven hundred thousand dollars in
16 renovation. They relied on the platting,
17 and had a right to rely on the platting.

18 My wife and I have been there for many,
19 many decades, since she was a child, 15 or
20 16 years ago. We've paid all our taxes.
21 We've played by the rules. We go to the
22 City if we want to clean our roof or paint
23 something. Everybody in our neighborhood
24 has great respect for the standards and
25 criteria of the City, and we really feel

1 that we have a right to expect and rely
2 that when there are six criteria that your
3 Staff, having considered this now for
4 years, as Mr. Guilford pointed out -- and
5 incidentally, in '05, there was a
6 determination made, a determination, a
7 written determination, that this was a
8 single parcel, suitable only for a
9 single-family home, which exists there now,
10 over a 9,000-square-foot home, and
11 incidentally, Mr. Alfred Browning Parker
12 was personally involved in the original
13 design, the second design, a year later,
14 and then in the third addition to the
15 house, a local architectural firm worked
16 with Mr. Parker, consulted with him, and
17 added that third piece. So Mr. Alfred
18 Browning Parker's skill and genius flows
19 throughout that entire structure, and your
20 file contains a letter from him, in which
21 he explains the design of his apertures,
22 his portals, his windows, to encompass
23 these mature oaks and the entire property.

24 If you, respectfully, refer to Page 9,
25 Paragraph 4 of your Staff Report, you will

1 see the operative word here, and it's the
2 word that Mr. Riel mentioned to you a
3 moment ago. It's the word entire. When
4 Historic Resources unanimously and without
5 objection and without an appeal -- and
6 there was no appeal in 2005, from the
7 determination that it was a single parcel,
8 with a single house. There's no appeal
9 from that. And there was no appeal from
10 the June 2007 determination by your sister
11 agency that this was a historic property
12 and they recommended no lot split. At
13 Paragraph 4, Page 9, you will see that your
14 Staff recognizes the practice and policy of
15 Historic Preservation that it's the entire
16 property.

17 Now, isn't it incongruous that you
18 would take an entire property that is
19 historic, that has been now registered in
20 the Registry of Historic Places, and start
21 chopping it up? Now, what's this new owner
22 going to say? This new owner is going to
23 come by and say, "Wait a minute. I bought
24 a piece of property next door to a historic
25 place. Why should I go back to Historic to

1 get my lot, this front lot that they've
2 carved out in there?"

3 So you're looking at potential
4 litigation, and you shouldn't, and ma'am, I
5 think the law -- the case that you might be
6 referring to is Velez, where the Third
7 District Court of Appeal denied the City's
8 effort to do any kind of lot split when
9 there were two side-by-side 100-foot lots.
10 One was sold off to a new buyer, and that
11 new buyer wanted to build, and the
12 neighbors came in and said, "Sorry, under
13 our Code, if there is an existing
14 single-family house on a parcel, not on a
15 lot, on a parcel, that's the way it is and
16 that's the way it stays."

17 Now, if there's anything that I've said
18 that draws any question in your mind about
19 the legal standards that apply, your City
20 Attorney, Mrs. Hernandez, and Ms. Ruiz,
21 wrote you a memo on April 4, 2007 -- it's
22 in your file -- setting out all these
23 things, about the swimming pools, about the
24 tennis courts, about the standards that are
25 to be applied, the things that shall be

1 determined, not may be but shall be.

2 That's in your record.

3 And speaking on behalf of myself alone,
4 but in recognition of the nearly 40 people
5 in this neighborhood who have taken part in
6 this process, I respectfully request that
7 this Board recommend to the City Commission
8 that it deny any lot split and deny any
9 variance, and I'll close by saying this.
10 This largest property rationale, not only
11 is it irrelevant under the Code, as has
12 been pointed out by your Staff, and by
13 Judge Coe, not only is it irrelevant under
14 the Code, it's illogical, because if this
15 lot is split, somewhere else in the Gables
16 there will be the, quote, largest lot
17 around, largest property around, and then
18 that owner will come in and say, "Well,
19 look at the precedent. You split that
20 one." And then it will be split, and then
21 what today is the third largest lot will
22 come in and say, "Well, my gosh, you gave
23 it to those two guys. Why not me?"

24 So the whole argument about largest
25 size and the meandering canal and the

1 irregularity of the shape of some of those
2 lots was there before the Code was written.
3 So the authors of the Code knew those
4 physical facts on the ground when they
5 stressed that frontage was the essential
6 criteria.

7 CHAIRMAN KORGE: Thank you very much,
8 Mr. Haddad. Appreciate it.

9 MR. HADDAD: I know it's late, but as
10 far as Cartee is concerned, we've heard
11 this argument before. Your Staff rejected
12 it, Historic Resources rejected it, for
13 these reasons. There are some lines on
14 Cartee 1, which is just north of this
15 property, across the Mahi Canal, but Staff,
16 nor attorneys in this field, not myself,
17 because I'm not in this field, can't find
18 any empirical evidence. There's really not
19 a file. There's not evidence of neighbors
20 being given notice. There's no indication
21 of a hearing, as to how those lines got
22 there, and if you'll look at those lines,
23 there's an hourglass-shaped main lot. It
24 looks exactly like an hourglass, which
25 would never be approved under today's

1 standards, because it in fact is a flag
2 lot, and the minute Mr. Guilford admits
3 that he's trying to put across a flag lot,
4 he's out of court, because flag lots are
5 proscribed by the Police, they're
6 proscribed by Fire, they're proscribed by
7 our regulations, for good, sound, logical,
8 practical reasons. You can't cross
9 somebody else's property or meander through
10 various properties for those public
11 services.

12 Cartee Number 1 is not historic. This
13 has been declared historic, and there's no
14 appeal been taken.

15 So I want to thank you again for your
16 attention and assure you that this is an
17 immensely important matter to your
18 neighbors. Thank you very much.

19 CHAIRMAN KORGE: Thank you, sir.

20 Next witness, please.

21 MS. MENENDEZ-DURAN: Mark Brown.

22 MR. BROWN: My name is Dr. Mark Brown,
23 and my wife Josie and I live at 702 South
24 Alhambra Circle.

25 CHAIRMAN KORGE: Do you want to swear

1 the witness, please?

2 (Thereupon, Dr. Mark Brown was duly
3 sworn by the court reporter.)

4 MR. BROWN: I do.

5 And we live one house separated from
6 the property, right across the street. We
7 walk past that property every day, almost,
8 and we enjoy the beauty of the property.
9 And I've seen pileated woodpeckers, red
10 wing hawks, and ospreys come off that
11 property. I don't know whether that means
12 anything to you all, but I'm not an Audubon
13 expert, but it's a gorgeous piece of
14 property. It really makes the Riviera
15 section of Coral Gables a great place to
16 live, and a great quality of life.

17 Now, I'm not as articulate nor as
18 verbose as my good neighbor, Gil Haddad.
19 He said it all. But from an emotional
20 standpoint, I think the subdivision of that
21 property, and to build two additional gross
22 mega-mansions on it would be a terrible
23 thing to the quality of life of our
24 neighborhood, and it would definitely
25 decrease the value of our properties.

1 That's all I have to say. Thank you.

2 CHAIRMAN KORGE: Thank you, sir.

3 MS. MENENDEZ-DURAN: Amado Acosta.

4 MR. COE: He's the last one?

5 MS. MORENO: He's the last one?

6 CHAIRMAN KORGE: Yes, he's the last
7 witness.

8 Would you swear the witness, please?

9 (Thereupon, Amado Acosta was duly sworn
10 by the court reporter.)

11 MR. ACOSTA: I do.

12 Mr. Chairman and Members of the
13 Commission, my name is Amado, also known as
14 "Al," Acosta. I reside at 1225 South
15 Alhambra Circle, together with my wife,
16 Nilda. I am the vice-president of the
17 Riviera Neighborhood Association, which, as
18 you know, has actively participated with
19 this Board and with the Commission on
20 matters affecting our area.

21 Tonight I also have two other members
22 of the board here. I have Attorney Robert
23 Barnett, and I have Dr. Paul Van Wallegghem.

24 Our association has consistently been
25 on the lookout, because our area has been

1 defined as a very fragile area. There have
2 been presentations to this Board, there
3 have been presentations to the
4 Commissioners, and as a matter of fact, at
5 the May 10th meeting, the Commissioners, by
6 unanimous vote, recommended to the Planning
7 Department a special study of our area,
8 because of the fragility of the conditions
9 that we have.

10 Consistently, during the zoning
11 rewrite, we addressed the matter of lot
12 splitting, among other things, and our
13 concern in there is the domino effect, and
14 what can happen in one property of this
15 size, there are plenty of other properties
16 in there, along Riviera and Granada, that,
17 like Mr. Haddad said so eloquently, later
18 on would also try to get the lot split and
19 what have you.

20 So we're very concerned. I cannot add
21 too much to what Mr. Haddad so eloquently
22 presented, except to say that we have over
23 720 people in our area that are represented
24 one way or the other through the
25 association, over 400 members, dues-paying

1 members, and this board is coming to you
2 today to also agree with the City Staff's
3 so highly professional study, that you also
4 deny this proposal. Thank you.

5 CHAIRMAN KORGE: Thank you.

6 I think that closes the -- there's no
7 more witnesses. That closes the public
8 portion of this hearing. I'll open it for
9 discussion.

10 MR. COE: Mr. Chairman, at this time, I
11 would move that we adopt Staff's
12 recommendation and deny the applicant's
13 application.

14 CHAIRMAN KORGE: There's a motion on
15 the floor. Is there a second to that?

16 MR. SALMAN: I'll second.

17 CHAIRMAN KORGE: A second. Let's open
18 it for discussion. Is there any discussion
19 on this motion?

20 MS. MORENO: I think, as I said before,
21 that the City Attorney has advised us that
22 we must find that in order to approve this,
23 this meets four of the six criteria. The
24 applicant has admitted that it does not
25 meet two, and we find, without having to

1 decide on the other three, it's clear that
2 the language is frontage and that it does
3 not meet the frontage requirements. I
4 think some of the others, there's arguments
5 that it also does not meet those
6 requirements, specifically, that it would
7 not result in the buildings becoming
8 nonconforming. One of the requests is to
9 demolish buildings. There's requests --
10 but anyway, I don't think we need to get to
11 that, because we don't meet the frontage.
12 We don't meet the other two. That makes
13 three out of the six that are not met, so
14 our hands are tied. We can't approve it.

15 CHAIRMAN KORGE: Okay. Is there any
16 more discussion? Pat?

17 MS. KEON: No.

18 CHAIRMAN KORGE: Call the roll, then.

19 MS. MENENDEZ-DURAN: Cristina Moreno?

20 MS. MORENO: Yes.

21 MR. COE: Yes for no.

22 MS. MENENDEZ-DURAN: Javier Salman?

23 MR. SALMAN: Yes to deny.

24 MS. MENENDEZ-DURAN: Jack Coe?

25 MR. COE: Yes.

1 MS. MENENDEZ-DURAN: Pat Keon?

2 MS. KEON: Yes.

3 MS. MENENDEZ-DURAN: Tom Korge.

4 CHAIRMAN KORGE: Yes.

5 Do we have anything else on the agenda?

6 Nothing?

7 MR. RIEL: No. This application will
8 proceed to the Commission on August 28th.

9 CHAIRMAN KORGE: Right.

10 MR. RIEL: No, we have nothing else.

11 CHAIRMAN KORGE: When's the next meeting?

12 MR. CARLSON: Can we please have your
13 books --

14 MR. RIEL: August 8th.

15 MR. CARLSON: -- on the Old Spanish
16 Village?

17 MS. KEON: They took them.

18 MR. COE: They've already been
19 confiscated by the applicant.

20 MR. CARLSON: Oh, they already have.

21 MR. RIEL: August 8th, in this room.
22 This room.

23 CHAIRMAN KORGE: The next meeting is
24 August 8th, in this room.

25 MR. SALMAN: Here.

SEPTEMBER 19, 2013**

STAFF REPORT

**SPECIAL CERTIFICATE OF APPROPRIATENESS
ALTERATIONS TO
THE PROPERTY AT
6801 GRANADA BOULEVARD
A LOCAL HISTORIC LANDMARK**

- Proposal:** The applicant is requesting design approval for alterations to the property including the demolition of auxiliary structures and site features and the removal and/or relocation of trees. This application is in association with a proposal to subdivide the property into two building sites which is subject to and under the purview of the Planning and Zoning Board and the City Commission.
- Architect:** R. J. Heisenbottle Architects
- Owner:** Califon Company, N.V.
- Folio Number:** 03-4129-031-0020
- Legal Description:** Tract 2 of Cartee Homestead according to the Plat thereof, recorded in Plat Book 43, at Page 30, of the Public Records of Miami-Dade County, Florida.
- Site Characteristics:** The property is located on Granada Boulevard. The property backs onto the Coral Gables Waterway and the northwest side of the property is bounded by the Mahi Waterway. The primary elevation of the residence faces southeast onto the property. The site is approximately 2.94 acres with an irregular shape. The south side of the property on Granada Boulevard is demarcated with a coral rock wall.

BACKGROUND/EXISTING CONDITIONS

Permitted on September 27, 1951, the residence located at 6801 Granada Boulevard was designed by international renowned architect Alfred Browning Parker. Commissioned by Mr. Daniel B. Caudle, the home is a fine example of Parker's modern style and tenets of architecture. The tree canopy of mature oaks and lush landscaping are important features of this property.

The residence was designated as a Local Historic Landmark on June 21, 2007. The following is a description in the staff report.

The original plan for the house consists of a largely rectilinear massing with an attached loggia and storage/cabana building that wraps around an irregularly shaped swimming pool. The original residence consists of a largely two-story house that had varying levels within it. One enters the home on the ground level and walks up a small flight of steps to the first floor which is comprised of a living room, dining room, kitchen and utility room. Walking up another flight of open steps from the living room, one lands at the music room – a transitional space between the first and second floors. Up another small flight of open stairs, one arrives at the second floor which is comprised of a study overlooking the living room, master bedroom, dressing room, closet and master bathroom. Completing the original residence is an attached open carport and two-bedroom “wing”/structure to the south of the house and a large screened patio that wraps the northwest and northeast elevations. The open carport is connected by a secondary flight of stairs to the master bedroom.

In September of 1952, one year after the initial permit was issued another permit was issued for a 792 square foot building separate from the house that was also designed by Alfred Browning Parker. This building originally housed a maid's room and garage and is described as a guest house on this proposal. Additions to the main structure include: a new wing added to the northwest of the original carport, additions to the south of the bedroom “wing”, and the addition of a four car garage. Alterations include: renovation of the master bathroom and closet area, the removal of the secondary master bedroom stair, window alterations in the living room, expansion of the kitchen, the enclosure of the area outside the kitchen and the addition of a spiral staircase to what used to be an exterior balcony. It is unclear if the window system was replaced or refurbished. However, the current window system and wood “Persianas” accurately mimic Alfred Browning Parker's system. In addition, the Garage building was altered by removing the garage door and making the entire structure a living space. There were also some minor changes made to the cabana. A design by Spillis Candela and Partners in 1982 substantially altered the cabana by an addition. In 1983, a tennis court was added to the property south of the house.

The property was designated as a Local Historic Landmark on June 21, 2007. At the same time a Certificate of Appropriateness application was filed for design approval for the division of the property into two separate building sites. That application requested approval for the demolition of a portion of the main residence, tennis court, pool, and loggia. The lot separation was contingent on the removal of part of the existing main house and no detailed site plan was

provided. Staff recommended denial and noted that there were too many unknowns for staff to recommend approval. The Certificate of Appropriateness was denied by the Historic Preservation Board.

PROPOSAL

This applicant is requesting design approval for alterations to the property including the demolition of the guest house, pool, pool deck, pool pavilion, cabana, planter, walkways, the relocation of the driveway, and the removal and/or relocation of trees.

This application is in association with a proposal to subdivide the property into two building sites which is subject to and under the purview of the Planning and Zoning Board and the City Commission. The criteria for the review of lot separations are contained in Article 3 Section 3-206 entitled "Building Site Determination" of the Coral Gables Zoning Code. This staff report does not address those issues. The "Proposed Lot A" is 80,664 square feet (approximate 1.85 acres) and the "Proposed Lot B" is 48,450 square feet (approximately 1.11 acres).

The property is currently for sale and vacant. As expressed by the applicant in the Letter of Intent accompanying the COA Application, the intent of the proposal is to make the property more consistent with others in the neighborhood, more salable and less costly to maintain.

SECRETARY OF THE INTERIOR'S STANDARDS FOR REHABILITATION

The following Standards have application in this matter:

2. *The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.*
5. *Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a historic property shall be preserved.*
9. *New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.*
10. *New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.*

STAFF OBSERVATIONS

The proposal includes the following building demolitions:

- **Demolition of the guest house building**
Although designed by Alfred Browning Parker and built in 1952, one year after the main residence was constructed, the guest house was not part of the original design by the architect and is a stand-alone building. Originally built as a garage and maid quarters, the building has been altered by the removal of the garage doors making the entire structure a living space. It now functions as a guest house. If this separate building is demolished the main house will retain its historic integrity. In addition, putting the new driveway in the the location of the existing guest house instead of routing it around the structure will save trees.
- **Demolition of the loggia (noted on the application as “existing pool pavilion”)**
This was part of the original design by Alfred Browning Parker and has not been altered. The structure does block the view of the water which has apparently been a problem for potential buyers. If a future owner of the property wants to demolish this structure, it should be through a Special Certificate of Appropriateness application for consideration at that time.
- **Demolition of the pool cabana**
The original pool cabana designed by Alfred Browning Parker was a much smaller structure. The original structure consisted of a storage room, a small bathroom and a room for the pump. A design by Spillis Candela and Partners in 1982 substantially altered the structure with an addition, the reconfiguring of the interiors, and changes to the exterior of the structure.
- **Demolition of the pool and deck**
The pool and deck were designed by Alfred Browning Parker and relate to the shape of the pool cabana. It is an at grade improvement, and if it is demolished the main house will retain its historic integrity.

The proposal also includes the following site work:

- **Demolition and relocation of the existing driveway.**
Staff visited the property with Troy Springmyer, the Acting Public Service Director. The relocation of the driveway to accommodate the lot separation will not require the removal of any specimen trees. This should be a condition of the lot separation.
- **Demolition of Existing walkways.**
The 1967 site plan shows that walkways throughout the site have been altered. The demolition of the existing walkways will not affect the historic integrity of the site.

- Demolition of an existing planter.
The 1967 site plan does not show this planter. Therefore, the planter was installed after 1967 and was not part of the original design of the property. The demolition of the planter will not affect the historic integrity of the site.
- Raising of an existing CBS wall to 4'0" high
The 1967 site plan also does not show this wall. Therefore, this wall was installed after 1967 and was not part of the original design of the property. It may be altered or demolished without affecting the historic integrity of the site.
- Demolition of an existing concrete landscape trim located on "Proposed Lot B"
This was not shown on the original, guest house addition, or 1967 site plans. The original and guest house site plans note this portion of the property as a "rocky area". The demolition of the existing concrete landscape trim will not affect the historic integrity of the site.
- Removal or relocation of existing trees
It should not be necessary to remove or relocate existing specimen trees on the "Proposed Lot A" (the lot with the historic residence). The residence shown on "Proposed Lot B" is marked "Shown for general zoning information only" is not intended to represent an actual residence and is not appropriate for the new lot. Alfred Browning Parker took great care in siting his houses within the existing landscape. He did not wipe the landscape clear to build a new house. If the lot separation is approved, the same care should be taken for the design of the new house on Lot B. The removal or relocation of trees on Lot B will require a Special Certificate of Appropriateness. A tree survey with the types and sizes of existing trees should be required at that time.
- Removal of a portion of the coral rock perimeter wall on Granada Blvd. to accommodate a driveway for the proposed new residence on Lot B.
This has been done on other properties within the city. It should be by a Special Certificate of Appropriateness in association with the design of the new residence.

Please note that the property as it exists now is 129,114 square feet. The square foot floor area of a residence on the property that is allowed by the Coral Gables Zoning Code is 39,734 square feet. Since the existing house is 13,161 square feet, a 26,573 square foot addition would be allowed by zoning.¹

VARIANCES

No variances have been requested with this application.

¹Calculations provided by applicant

BOARD OF ARCHITECTS

This application was reviewed and approved with the following comments by the Board of Architects on July 11, 2013: "Pull the driveway from property line and consider an alternative material for the driveway." The plans were changed accordingly. The Board of Architects did not approve the site plan for the residence on the proposed new lot. The site plan for the new residence is marked "Shown for general zoning information only".

STAFF CONCLUSION

The applicant is requesting design approval for alterations to the property including the demolition of auxiliary structures and site features and the removal and/or relocation of trees. This application is in association with a proposal to subdivide the property into two building sites which is subject to and under the purview of the Planning and Zoning Board and the City Commission.

The application clearly shows the disposition of the lot with the historic structure ("Proposed Lot A"). There is a detailed site plan. The existing tennis court and circular brick paver court will remain. The existing guest house will be demolished and a new driveway will be installed. The application is also requesting demolition of the loggia ("existing pool pavilion"), pool cabana and pool. Staff is recommending that the loggia (noted on the plans as "existing pool pavilion") be retained. However, if in the future a buyer wishes to demolish the loggia, the board could consider it through a separate Certificate of Appropriateness application at that time.

The proposal for "Proposed Lot B" is not defined. The house that is drawn is to illustrate zoning information only and should not be considered to be the design of the residence for this lot. If the lot separation is approved, the lot will retain its historic designation and the new residence will require review and approval by the Historic Preservation Board. The removal or relocation of trees on Lot B will require a Special Certificate of Appropriateness. A tree survey with the types and sizes of existing trees should be required at that time.

Therefore, Historical Resources Department Staff recommends the following:

A motion to APPROVE the design for alterations to the property including the demolition of the guest house, pool and pool cabana and site features with the following conditions:

1. Retain the existing loggia (noted on the plans as "existing pool pavilion")
2. Any new construction on the parcel of land that will be created for a new residence ("Proposed Lot B") will require a Special Certificate of

Appropriateness and review by the Historic Preservation Board. Staff is not recommending approval of any construction on Lot B at this time.

3. No alteration or demolitions will occur unless the proposal to subdivide the property into two building sites is approved by the City Commission.
4. No tree removals/relocations will occur on the lot that has the historic residence ("Proposed Lot A") unless the proposal to subdivide the property into two building sites is approved by the City Commission.
5. The removal/relocation of trees on the lot that is created for a new residence ("Proposed Lot B") will be part of the application for that residence and will require a Certificate of Appropriateness. No tree removal or relocations will occur until the design of the new residence has been approved. Staff is not recommending approval of the removal/relocation of trees on Lot B at this time.
6. The demolition of the portion of the perimeter coral rock wall to accommodate the driveway for the new residence ("Proposed Lot B") will also be part of the application for that residence and will require a Certificate of Appropriateness.

AND

A motion to APPROVE a Certificate of Appropriateness for the alterations to the property with the above conditions.

Respectfully submitted,

Dona M. Spain
Historic Preservation Officer

Re: Certificate of Appropriateness Application for 6801 Granada Boulevard, legally described as Tract 2 of Cartee Homestead according to the Plat thereof, recorded in Plat Book 43, at Page 30, of the Public Records of Miami-Dade County, Florida.

Dear Mr. Dalmau:

On September 19, 2013, the Historic Preservation Board met to review an application for a Special Certificate of Appropriateness for the property at 6801 Granada Boulevard, a local historic landmark. The Board approved the application for alterations to the property including the demolition of the guest house and site features with the following conditions:

1. No alteration or demolitions will occur unless the proposal to subdivide the property into two building sites is approved by the City Commission.
2. Retain the existing loggia (noted on the plans as "existing pool pavilion"), pool, and cabana.
3. Any new construction on the parcel of land that will be created for a new residence ("Proposed Lot B") will require a Special Certificate of Appropriateness and review by the Historic Preservation Board.
4. No tree removals/relocations will occur on the lot that has the historic residence ("Proposed Lot A") unless the proposal to subdivide the property into two building sites is approved by the City Commission.
5. The removal/relocation of trees on the lot that is created for a new residence ("Proposed Lot B") will be part of the application for that residence and will require a Certificate of Appropriateness. No tree removal or relocations will occur until the design of the new residence has been approved.
6. The demolition of the portion of the perimeter coral rock wall to accommodate the driveway for the new residence ("Proposed Lot B") will also be part of the application for that residence and will require a Certificate of Appropriateness.

Re: TRACT No. 2, CARTEE HOMESTEADS PB 43-30,
(6801 GRANADA BLVD)

Dear Ms. Russo:

Please be advised that after careful research and study of our records and the information presented, the Building and Zoning Department made the following determination, Tract No. 2, Cartee Homestead, Pb/Pg 43/30, shall constitute a building site for a single family residence.

This administrative determination was made and announced on July 18th, 2005 at 9:00am in the first Floor Conference Room, City Hall, 405 Biltmore Way, Coral Gables, Florida.

Please find enclosed the notice of the building site determination that was sent to all property owners within one thousand (1,000) feet radius of the property.

If I may be of further assistance please do not hesitate to contact me.

Sincerely,

DATE: OCTOBER 16, 2013

FROM: ERNESTO R. PINO, R.A., LEED AP
INTERIM PUBLIC WORKS DIRECTOR

SUBJECT:
REVISED PLAT OF CARTEE
HOMESTEAD -- COMMENTS

As per Zoning Code Article 3, "Development Review", Division 9, "Platting/Subdivision", requires review and comment by the Public Works Department on all proposed tentative plats as part of the review process. Public Works has reviewed the tentative plat entitled "Revised Plat of Cartee Homestead" with the re-plat requirements specified in Zone Code Article 5, "Development Standards", Division 15 "Platting Standards and have the following comments:

1. No variances from the platting standards are required for the proposed single-family residential building sites.
2. Letters have been submitted for utility companies as required stating that the utility companies have no objection to the proposed tentative plat
3. The proposed platted lot designations should refer to "Lot 1 and 2" instead of "Lot A and B".
4. The proposed tentative plat shall be required to be submitted and reviewed by the Public Works Department and Miami-Dade County prior to consideration as final plat by the City Commission.

If you need further information, please contact me. Thank you.

CITY OF CORAL GABLES, FLORIDA NOTICE OF PUBLIC HEARING

City Public Hearing Dates/Times	Local Planning Agency (LPA)/ Planning and Zoning Board Wednesday, December 11, 2013, 6:00 - 9:00 p.m.
Location	City Commission Chambers, City Hall, 405 Biltmore Way, Coral Gables, Florida, 33134

PUBLIC NOTICE is hereby given that the City of Coral Gables, Florida,
Local Planning Agency (LPA)/ Planning and Zoning Board (PZB) will
conduct Public Hearings on the following:

1. An Ordinance of the City Commission of Coral Gables, Florida
requesting Conditional Use Review for a Building Site Determina-
tion pursuant to Zoning Code Article 3, "Development Review",
Section 3-206, "Building Site Determination" to create two (2)
separate single-family building sites on property assigned
Single-Family Residential (SFR) zoning and Local Historic
Landmark; one building site consisting of Lot 1 and the other of
Lot 2, submitted concurrently with a proposed re-plat for the
property legally described as Tract 2, Cartee Homestead Section
(6801 Granada Boulevard), Coral Gables, Florida; including
required conditions; providing for severability, repealer, codifica-
tion, and an effective date.
2. Resolution of the City Commission of Coral Gables approving the
Final Plat entitled "Revised Plat of Cartee Homestead" pursuant
to Zoning Code Article 3, Division 9, "Platting/Subdivision", being
a re-plat of an approximately 3.0 acre single tract into two (2)
platted lots for residential, single-family use on property assigned
Single-Family Residential (SFR) zoning and Local Historic
Landmark, legally described as Tract 2, Cartee Homestead
Section (6801 Granada Boulevard), Coral Gables, Florida;
providing for an effective date.
3. An Ordinance of the City Commission of Coral Gables, Florida
providing for a text amendment to the City of Coral Gables Official
Zoning Code Appendix A, "Site Specific Regulations", by adding
Section A-17.1. "Revised Plat of Cartee Homestead", to indicate
Lots 1 and 2 are separate building sites; providing for severability,
repealer, codification, and an effective date.

Correspondence received regarding "6801 Granada Boulevard"

City of Coral Gables – Planning and Zoning

	Date Received	Name and Address	Object	No Objection	Comments (Verbatim)
					Riviera Neighborhood Association Post Office Box 43-0825 South Miami, Florida 33243-082 December 4, 2013 Director and Members of Planning and Zoning Department City of Coral Gables 405 Biltmore Way, Second Floor Coral Gables, FL 33134 Dear Director and Planning and Zoning Board: The Riviera Neighborhood Association (RNA) was founded in 1996. Since, it has attempted to advance the interests of the hundreds of homeowners on and west of Riviera Drive to SW 57th Avenue and US 1; south to Sunset Drive and north to Hardee Road. This area covers approximately 800 households, many of whom are long time RNA members and supporters. The Board of Directors of RNA respectfully expresses its <u>unanimous</u> opposition to the attempt to re-plat; sub-divide or lot split, the City Beautiful heritage lot located at 6801 Granada Blvd. The natural hammock south of the main house; the beautiful oak laden driveway and the proximity of the flora and wildlife are all essential elements of this historic property. These epitomize the Alfred Browning Parker vision. His genius is a heritage that is treasured by the Riviera district residents and indeed, an asset to all Coral Gables residents and their prodigy. We citizens rely on the City's unanimous determination made in 2007 to preserve this community treasure. There has been no change as to the property as a whole, nor, <u>especially so</u>, as to that portion of the property south of the main house. In the absence of change to the property itself, there is no just reason to change the correct 2007 determination the City made in good faith for the citizens of Coral Gables. Most respectfully submitted, Sandra Levinson President Riviera Neighborhood Association

Re: 6801

GRANAD

PLANNING + ZONING DEPT.
CITY OF CORAL GABLES.

THANK YOU FOR YOUR COURTESY RE
THIS MATTER! PLEASE EXCUSE MY HAND - AS
I DO NOT TYPE. - SORRY.

AS AN AFFECTED RESIDENT I HAVE
STUDIED THE 2007 ISSUES THAT WERE PRESENTED
AND, AS WELL, THE OCT. 9, 2013 SUBMISSION.

OF COURSE, AS TO THE PARKER HOUSE AND
ITS STRUCTURAL ELEMENTS (WALL, DRIVEWAY,
POOL, POOL COMPLEX, GUESTHOUSE, ETC.), THERE HAVE
BEEN NO CHANGES SINCE 2007.

MORE IMPORTANTLY RE 2013, THERE HAVE
BEEN NO CHANGES AS TO THE SOUTH ACRE -
THAT IS THE AREA FROM THE START OF THE DRIVEWAY
TO THE NEXT PROPERTY LINE. IT SEEMS THAT "NO
CHANGE" IN THE PROPERTY ~~SHOULD~~ = NO
CHANGE IN THE RESULT - PARTICULARLY AS TO THE
1/3 FROM THE HOUSE TO 6835.

AS TO BUILDING SITE CRITERIA:

1. NOTHING HAS CHANGED AS TO THE PROPERTY, OR THIS #1 CRITERIA, SINCE 2007. THIS #1, SEEMS TO ME, TO APPLY TO THE ENTIRE PROPERTY PHYSICALLY (AND AS DETERMINE - WITHOUT APPEAL) SINCE '05 TO BE SINGLE FAMILY.

OWNER MADE THE EXACT "SIZE" ARGUMENT IN 2007 AND WAS CORRECTLY REJECTED. CUT THIS PROPERTY AND THERE WILL BE A "NEXT" "LARGER", THEN, ON AND ON.

THE PROPERTY WAS DETERMINED HISTORIC AT THE URGING OF OWNER, ATTY., + ARCHITECT! THE ATTY. SAID "IF NO LOT SPLIT, THEN APPEAL!" NO APPEAL OCCURRED AS TO THE HISTORIC DESIGNATION, NOR ANYTHING. AGAIN, THE SOUTH $\frac{1}{3}$ IS THE SAME AS IN 2007!

IN 2007 THE ATTY. WROTE THAT THE TAX WAS \$100,000. NOW \$75,000. (CHANGE DUE TO HISTORIC DESIGNATION OWNER ASKED FOR?)

ECONOMIC HARDSHIP? (A) RELEVANT?
(B) PROVEN? (C) HOW COULD WE POSSIBLY KNOW OF THE ASSETS, THE NET WORTH, OF A NETHERLANDS ANTILLES CO? EQUAL PROTECTION - YES! YES! BUT, ASSERTION WITHOUT PROOF?

2. "... OR EXTENDING NO FARTHER THAN THE IMMEDIATE VICINITY, WHICHEVER IS LESS."
- "IMMEDIATE VICINITY SHALL BE DEFINED AS AN AREA IN WHICH A PARCEL OF LAND IS LOCATED, THAT IS PHYSICALLY, OR GEOGRAPHICALLY IDENTIFIABLE AS A DISTINCT REIM, PLACE OR NEIGHBORHOOD, ... , WHICHEVER IS SMALLER."

Clearly THE INTENT IS TO MEASURE Apples v. Apples! THE ATTY. ARGUES UNDER #1 ABOUT SIZE, WATERFRONT, ETC. THE OWNER ADVERTISES (SEE 2007 RECORD) AS AN EXCLUSIVE ESTATE, ETC.

NOW A PROPOSED LOT 120' ON GRANADA, 100±' ON CANAL. THE #2 INTENT IS "WHICHEVER IS LESS" #2 MEANS LIKE PROPERTIES [CANAL FRONTAGE, ESTATE CHARACTERISTICS] IS IT NOT TRUE THAT EVERY PROPERTY ON GRANADA, ON RIVIERA DR., THAT IS ON THE CANAL [VALUES X TIMES SMALL HOUSES IN AREA] EXCEEDS 120'??

5. "... MAINTAINS AND PRESERVES OPEN SPACE ... PRESERVES HISTORIC CHARACTER, MAINTAINS PROPERTY VALUES AND ENHANCES VISUAL ATTRACTIVENESS OF THE AREA AND APPEAL ... IS IN THE BEST INTEREST OF THE PUBLIC.

- OPEN SPACE: THE SPACE (THE ACRES SOUGHT TO BE DENuded OF TREES AND WILDLIFE ELIMINATED) IS NOW OPEN SPACE. TO BUILD MAXIMUM CONSTRUCTION COVER WOULD END ALL OPEN SPACE.
- HISTORIC CHARACTER: THE ENTIRE PROMPT IS DETERMINED HISTORIC (AT URGING OF OWNER). NO CHANGE IS THAT. NO CHANGE IN PROPERTY SINCE '07. NO CHANGE IS SOUTH 1/3 OF PROPERTY SINCE '07. NO CHANGE = NO REASON TO CHANGE. IN '07 H/P UNANIMOUSLY ~~RECOMMENDED~~ RECOMMENDED AGAINST CREATION OF A SOUTH 'LOT B' (OR LOT '2'). THAT AREA + THAT REC. ~~HAS~~ HAS NOT CHANGED! IN DEED, AT THE 2013 H/P HEARING THE Q. OF A LOT SPLIT REC. WAS RAISED AND ~~QUASHED~~ QUASHED BY OWNER'S ATTY. "I OBJECT" HE SAID! HENCE, REC. BY H/P OF NO LOT SPLIT STANDS TODAY!

IN 2007 H/P ~~interviewed~~ interviewed
PROFF. PARKER, did an exhaustive study
OF THE 6801 elements (TREES, LISTS,
driveway, ET AL) + documented his
purposes FOR THE ENTIRE PROPERTY. NO
CHANGE IN THOSE FINDINGS.

- MAINTAINING PROPERTY VALUES: A decision based -
AT BEST, ON SPECULATION. WOULD A PROSPECTIVE
BUYER OF 6835, OR 6800, OR ON RIVIERA DR,
ADD OR SUBTRACT BECAUSE A MAGNIFICENT
NATURAL HAMMOCK IS FOREVER GONE - REPLACED
BY YET ANOTHER MC MANSION.

I would pay LESS. So would "THE MARKET" -
I BELIEVE. WOULD THE "AVERAGE BUYER" OF
NEARBY PROPERTY desire to live next OR NEAR
3 ACRES OF NATURE. MY GUESS IS - YES.

- ENHANCES VISUAL ATTRACTIVENESS TO WHOM?
MR. D. TRUMP FAVORS CONCRETE. MOST FOLK
(I THINK) LIKE TREES, BIRDS, "OPEN SPACE" [THE
CODE'S WORDS - NOT MINE]. HENCE, PROPERTY VALUE.

— BEST INTEREST OF THE PUBLIC. THE PUBLIC INTEREST IS "OPEN SPACE", "VISUAL ATTRACTIVENESS", ET AL. PLUS, ELIMINATION OF BLIGHT, ETC. IN 2007 50+ RESIDENTS PETITIONED, WHOSE LETTERS + ATTENDED HEARINGS. THAT IS IN THE RECORD.

THANK YOU!

SORRY FOR THE HAND — I DON'T TYPE.
SORRY AGAIN.

Gil Hadlund
6800 GRANADA

33146

305-665-7077.

P.S. IN 2007

ALL 6 CRITERIA REJECTED.

SAME RESULT HERE!

City of Coral Gables:
Planning Department:
Historic Preservation Board:

To Whom It May Concern:

My name is Robert D. Brennan. I live in Coconut Grove at 3074 Kirk St. 33133. By day I am the arborist at Fairchild Tropical Botanic Garden, after work I am an arboricultural consultant at Brennan Consulting Inc. and member of the American Society of Consulting Arborist. I am the president of the Tropical Arborist Guild, and the vice chairman of the Agricultural Extension support team. I am very familiar with the flora and fauna of the costal region of Miami-Dade County as I have studied and lived here for 58 years within a mile or so of the coast. Specifically, the property at 6801 Granada Blvd. in Coral Gables, FL I have observed since being in Sea Scouts and meeting across the Coral Gables waterway in the early 1960's.

I have looked at and was embarrassed by, what is supposed to be a professional tree survey of the property at 6801 Granada Blvd. from 2006 prepared by the Lannes & Garcia Inc. survey company. These applications may be used to determine the location of trees it is my opinion that this was not prepared by an arborist or anyone who knows south Florida trees. The tree descriptions are way to vague to be useful as a tree survey.

I have also reviewed a 2013 drawing that locates trees at 6801 Granada Blvd. in Coral Gables FL. I compared it to a drawing and property survey that shows small red circles indicating where trees are supposed to be but the drawings show no placement for a home or driveway to a structure placed on the land after sub division. The drawings suggest that many trees will be relocated or removed. I do not see any space on the property of where a house, drive, pool, decks and other building has been completed, to put relocated trees.

Moving trees properly so they will live a normal lifespan is a very expensive proposition especially for the nearly 100 trees that are on the Southern one third of the property. Any building or moving of the trees will destroy a habitat for migratory birds and other animals that keep our eco system in balance. There is also the possibility that there are endangered ferns and other plants on this property... If the same care is used to move the tree as was used to create the tree survey then the nearly one hundred trees will perish for sure.

ROBERT D. BRENNAN

Arboricultural Consulting Inc.

3074 Kirk Street, Coconut Grove, Florida 33133 T 305 323 7342

I have been asked to work and consult on many construction sites where there is tree damage has already occurred and trees are being well cared for.. It is very unusual for a corporation, without a personal face to make any effort to protect trees or the environment. It is beyond dispute that any movement of equipment will cause ground compression and crush root and kill the trees many years in the future.

I met Alfred Browing Parker in the early 1970's and I respect his work because he included nature and invited it in to his drawings, plans and effect of his homes. Unlike the architects today who order the bulldozing of millions of dollars of trees because they do not understand the value growing in front of them. Mr. Parkers homes became part of the nature that surrounded them.

This property as it sits is an ecological, arboricultural and historical gem. It should be protected as a historic and ecological site because of its maturity, diversity and beauty. Every vote for dividing a piece of property this size is a vote for removing examples of the importance of this kind of display of nature. This property rivals the grounds at Four Fillies Farm for its diversity and uniqueness.

I would recommend that, competent people who know their jobs do a tree, bird and mammal survey. I can recommend some people if you wish. Registered consulting arborist, or ISA Certified Arborist of great reputation. Board Certified Master Arborist.

I have walked the western perimeter and observed the property from the waterway this, property should be protected as is.

Yours in arboriculture,

Robert D. Brennan

To: Mayor Jim Cason
Vice-Mayor William Kerdyk
Commissioner Pat Keon
Commissioner Vince Lago
Commissioner Frank Quesada
City Attorney Craig Leen
Planning and Zoning Department ✓

Gentlemen and Ladies:

The Riviera Neighborhood Association (RNA) was founded in 1996. Since, it has attempted to advance the interests of the hundreds of homeowners on and west of Riviera Drive to SW 57th Avenue and US 1; south to Sunset Drive and north to Hardee Road. This area covers approximately 800 households, many of whom are long time RNA members and supporters.

The Board of Directors of RNA respectfully expresses its unanimous opposition to the attempt to re-plate; sub-divide or lot split, the City Beautiful heritage lot located at 6801 Granada Blvd.

The natural hammock south of the main house; the beautiful oak laden driveway and the proximity of the flora and wildlife are all essential elements of this historic property. These epitomize the Alfred Browning Parker vision. His genius is a heritage that is treasured by the Riviera district residents and indeed, an asset to all Coral Gables residents and their prodigy.

We citizens rely on the City's unanimous determination made in 2007 to preserve this community treasure. There has been no change as to the property as a whole, nor, especially so, as to that portion of the property south of the main house. In the absence of change to the property itself, there is no just reason to change the correct 2007 determination the City made in good faith for the citizens of Coral Gables.

Most respectfully submitted,

Sandra Levinson, President
Riviera Neighborhood Association

I have walked the western perimeter and observed the property from the waterway; this property should be protected as is.

The photograph of the *Ficus aurea*, a Florida native, takes decades for the roots to entwine the rock like this while it helps support the wall.

This photo shows the western boundary near the south corner of the property...
