Subject: Resolution Authorizing the County Mayor to Accept, Receive and Expend Emergency Medical Services County Disbursement Funds from the State of Florida Department of Health

SUMMARY

This item seeks approval of a resolution to accept, receive and expend funds from the Florida Department of Health (DOH) for the Emergency Medical Services County Disbursement (Formerly the EMS County Grant) Program for fiscal year 2025-26 and for an additional five-year period through fiscal year 2029-2030. The amount of the disbursement is generally between \$100,000.00 and \$200,000.00 each fiscal year. The resolution seeks authorization for the County Mayor, or County Mayor's designee, through the Miami-Dade Fire Rescue Department (MDFR), to accept, receive and expend EMS County disbursement funds from the DOH pursuant to the attached resolution. The EMS County disbursement includes distributing allocated funds to municipal fire departments, as outlined below. These funds are made available to eligible county governments, as authorized by Chapter 401, Florida Statutes, to improve and expand pre-hospital emergency medical services as it relates to advanced and basic life support services. The funds are derived by the State from surcharges on various traffic violations.

RECOMMENDATION

It is recommended that the Board of County Commissioners (Board) approve the attached resolution authorizing the County Mayor or County Mayor's designee to accept, receive and expend FY 2025-2026 County disbursement funds from the Florida Department of Health through its Emergency Medical Services County Disbursement Program. The amount of the disbursement is generally between \$100,000.00 and \$200,000.00. Approximately 60% to 65% of those funds shall be distributed to MDFR, and the remaining balance will be distributed to municipal fire departments proportionately, with each percentage of funds based on annual call volume from the previous calendar year. It is also recommended that the Board authorize the County Mayor or the County Mayor's designee to accept, receive and expend additional funds should they become available under this program for a five-year period through fiscal year 2029-2030.

SCOPE

The disbursement will support the provision of pre-hospital emergency medical services countywide.

FISCAL IMPACT/FUNDING SOURCE

This disbursement is anticipated to provide funding from the Florida Department of Health to Miami-Dade County. Based on the annual call volumes from MDFR and municipal fire departments from the prior calendar year, some of the revenue will also be proportionally distributed to municipal departments during this fiscal year. The disbursement does not require any matching local or in-kind funds.

DELEGATION OF AUTHORITY

The County Mayor or County Mayor's designee is authorized to accept, receive and expend disbursement funds, from the effective date of this resolution, from the Florida Department of Health's

Emergency Medical Services County Disbursement Program to improve and expand pre-hospital emergency medical services. The County Mayor or County Mayor's designee is also authorized to accept, receive and expend future additional funds for a five-year period through fiscal year 2029-2030 should they become available through the disbursement program, and execute other agreements and documents necessary for acceptance, receipt and expenditure of such funds. Such funding approval shall not include in-kind match funding. Additionally, the County Mayor or County Mayor's designee is authorized to exercise termination and amendment provisions set forth therein, provided that such amendments are consistent with the purpose described in section 2 of the resolution and following approval for legal form and sufficiency by the Miami-Dade County Attorney's Office. Lastly, the County Mayor or County Mayor's designee is authorized to execute agreements including subaward and subrecipient agreements with municipal fire departments in Miami-Dade County for receipt, award, or expenditure of such disbursement funds as is necessary.

TRACK RECORD/MONITOR

The disbursement award will be monitored by the Miami-Dade Fire Rescue Grants Bureau.

BACKGROUND

Each year the Florida Department of Health's Office of Emergency Medical Services distributes funds as authorized by Chapter 401, Florida Statutes. These funds are made available to eligible county governments to improve and expand their pre-hospital emergency medical services as it relates to advanced and basic life support services. The State derives the funds from surcharges on various traffic violations within each County.

To receive their allocation from new disbursement revenues received from the State of Florida, each of the five municipal fire rescue departments submits an approved agreement to MDFR. The distribution of disbursement funds to each participating fire rescue department is based on the percentage of combined total emergency medical service incidents the respective department responded to during the prior calendar year.

Since 1987, MDFR has been responsible for the application and distribution process of the State Emergency Medical Services County Grant Program. The grant previously stipulated that municipalities applied for and received funds through their respective county government or county fire department. Historically, members of the five municipal fire rescue departments (City of Miami, City of Miami Beach, City of Coral Gables, City of Hialeah, and the Village of Key Biscayne), as well as MDFR, conducted annual needs assessments to formulate the Miami-Dade County application. The director of each respective fire rescue department reviewed and approved the grant work and expenditure plans included in those final grant application packages.

As of November 2024, the State no longer requires the submission of an application to receive EMS County funds, however, to continue to accept, receive and expend said funds, a board approved resolution is required. As of 2025, the State also no longer considers the program a grant, and instead has identified it as a disbursement to serve the same purpose. Although the annual disbursement funds to be received and expended are not known, it is not expected to exceed \$200,000.00 for each fiscal year.
