

THE CITY OF CORAL GABLES

OFFICE OF CITY MANAGER

The City Beautiful

CITY HALL 405 BILTMORE WAY
CORAL GABLES, FLORIDA 33134

June 13, 2008

Dear Resident:

On June 26, 2008 the City Commission will be considering legislation to require that a 10-foot side setback be maintained for those properties with a waterfront length of 150 feet or more, or as established for the main structural permitted on the building site. Another exception to this provision will consist of those properties with existing boat houses/boat slips within the property, legally constructed within the 10-foot side setback.

The purpose of the proposed legislation is to insure that visibility to the waterway is maintained for adjacent neighbors, as well as, provide for an area to maneuver between existing or potentially large vessels.

This letter is sent to you for your information. Please forward any comment or concerns to this office by contacting Maria Alberro Jimenez, Assistant City Manager, by one of the following methods:

mjimenez@coralgables.com or

(305) 460-5204 or

City of Coral Gables
Maria Alberro Jimenez
City Hall
405 Biltmore Way
Coral Gables, FL 33134

Thank you for your input and interest in this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "David L. Brown".

David L. Brown
City Manager

c. Honorable Mayor and Members of the City Commission
